(b) Receipts or invoices showing the purchase and calcium carbonate content of the limestone applied, properly dated and signed by the vendor, should be retained for presentation to the farm inspector at the time of inspection, together with a copy of the pH determination issued by the Extension Service or any other agency deemed qualified for this purpose by the PMA State Office.

Maximum assistance. $3.50 per ton of ground limestone containing at least 80 percent calcium carbonate equivalent.

§ 702.312 *Practice 2: Applying superphosphate as such, or contained in mixed fertilizer having an available phosphoric acid content of not less than 6 percent, to the kinds of permanent pastures specified in § 702.317 (Practice 7), except pastures within sugarcane farms.* Receipts or invoices showing the purchase and analysis of the fertilizer applied, properly dated and signed by the vendor, should be retained for presentation to the farm inspector at the time of the inspection.

Maximum assistance. $0.05 per pound of available phosphate (P_2O_5).

§ 702.313 *Practice 3: Applying potash as such, or contained in mixed fertilizer, to the kinds of permanent pastures specified in § 702.317 (Practice 7), except to pastures within sugarcane farms.* Receipts or invoices showing the purchase and analysis of the fertilizer applied, properly dated and signed by the vendor, should be retained for presentation to the farm inspector at the time of the inspection.

Maximum assistance. $0.025 per pound of available potash (K_2O).

§ 702.314 *Practice 4: Applying to coffee trees fertilizer of grades containing not less than 10 units of available N and not less than 10 units of available P_2O_5.* (a) Where the fertilizer applied on any farm does not meet such minimum requirements, the lower grades may be accepted if recommended and approved by the Advisory Committee for the respective community after proper investigation and if approved by the PMA State Office.

(1) The maximum quantity of fertilizer applied on a farm for which payment will be made shall be 600 pounds multiplied by the acreage terraced or to be terraced (or covered or to be covered with catch pits) within the 1953 designated parcel, plus the acreage terraced (or covered with catch pits) before 1953: *Provided*, That such sum is not more than twice the acreage terraced or to be terraced (or covered or to be covered with catch pits) within the 1953 designated parcel: *And provided further*, That such sum is not in excess of the total coffee acreage on the farm. To qualify for such payment, the coffee trees on the 1953 designated parcel must have been properly pruned and thinned, the forest litter properly maintained, and old or nonproductive coffee trees removed, all in accordance with specifications approved by the PMA State Office.

(2) No payment will be made under this practice for the application of fertilizer for which the Insular Government makes payment under any other program.

(3) Receipts or invoices showing the purchase and analysis of fertilizer applied (except for fertilizer furnished by the ACP Branch as provided in paragraph (b) of this section), properly dated and signed by the vendor, should be retained for presentation to the farm inspector at the time of inspection.

(b) In order to facilitate the financing of the purchase of fertilizers for this practice only (not for §§ 701.312 and 701.313 (Practices 2 and 3)), the fertilizer may be furnished on purchase orders by the ACP Branch to producers for carrying out this practice. Fertilizer may not be furnished to producers whose names are on the register of indebtedness, except in those cases where the agency to which the debt is owed notifies the ACP Branch that it temporarily waives its right to set-off in order to permit the furnishing of fertilizer. Purchase orders may be obtained by filing an application for such orders. Applications are available at the district offices of the Production and Marketing Administration, Extension Service, local offices of the Insular Department of Agriculture and Commerce, and district offices of the Farmers Home Administration.

(c) Title to any materials distributed by the ACP Branch shall vest in the ACP Branch until the material is applied, or all charges for the material are satisfied.

(d) The producer shall pay that part of the cost of the material, as established by the ACP Branch, which is in excess of the credit for the use of the material in carrying out approved practices. The small payment increase on an amount equivalent to the credit value of properly used conservation materials may be advanced as a credit against that part of the cost required to be paid by the producer.

(e) A deduction shall be made for materials furnished by the ACP Branch from the payment of the producer to whom materials are furnished. The deduction shall be the sum of the credit value of the conservation materials furnished and any amount of small payment increase advanced to the producer.

(f) If the producer misuses any material furnished, an additional deduction equal to the original amount of the deduction, excluding any amount of small payment increase advanced to the producer, for the material misused shall be made. Materials will be considered as misused in the following instances:

(1) Where the PMA State Office determines that any conservation material has been applied to a crop other than coffee, unless failure to properly use the material was due to conditions beyond the producer's control.

(2) Where the PMA State Office determines that material has been willfully or negligently destroyed, or has been rendered unusable, by the producer.

(3) Where the PMA State Office determines that a producer has disposed of material by sale, barter, or some other unauthorized means.

(4) Where the PMA State Office is unable to determine the use or disposition of material because of the failure of a producer to furnish requested information by the closing date designated by the ACP Branch for filing performance reports. However, if the requested information is filed at a later date and the material was properly used, the material will not be considered as misused.

(g) If the deduction for the materials exceeds the payment for the producer to whom the materials are furnished, the amount of the difference shall be paid by the producer to the Treasurer of the United States.

(h) Any producer to whom materials are furnished shall be responsible to the ACP Branch for any damage to the materials, unless he shows that the damage was caused by circumstances beyond his control. If materials are abandoned or not used during the program year, they may, at the option of the PMA State Office, be transferred to another producer or otherwise disposed of by the PMA State Office at the expense of the producer who abandoned or failed to use the material, or be retained by the producer for use in a subsequent program year.

Maximum assistance. 80 percent of the fair price per ton for the grade of fertilizer used, as determined by the PMA State Office.

§ 702.315 *Practice 5: Applying to farm land refuse from sugar mill grinding operations known as filter cake.* (a) The filter cake must be evenly spread over the area to which it is applied, preferably by plowing it into the land. A certificate from the mill showing the tons of filter cake delivered to the participating farmer must be retained for presentation to the farm inspector at the time of inspection. If such certificate is not obtainable, the quantity of filter cake to be applied to the land must be inspected by a PMA inspector before the filter cake is plowed into the land or otherwise spread over the land. Farms from which more than 100 acres of sugarcane are harvested in 1953, and any sugarcane farm operated by a producer-processor, as such term is defined under the Sugar Program, regardless of the sugarcane acreage harvested in 1953, are not eligible for payment under this practice.

(b) No payment will be made for the application of more than 20 tons of filter cake per acre.

Maximum assistance. (1) $0.50 per ton for application on sugarcane land.

(2) $1 per ton for application on other lands.

§ 702.316 *Practice 6: Planting sweetpotatoes as a cover crop immediately after tobacco is harvested.* The plants must be spaced close enough to secure a complete cover of the whole area planted, and the planting must be on the contour.

Maximum assistance. (1) $4 per acre if the variety U. P. R. No. 3 is planted.

(2) $3 per acre if other varieties are planted.

§ 702.317 *Practice 7: Establishing permanent pastures by seeding, sodding, or sprigging adapted legumes and grasses, or other adapted forage plants.* (a) The land must be suitably prepared and sufficient slips, cuttings, or seed used to assure a good ground cover at maturity. The variety of grasses must be well adapted to conditions of the particular area to be planted. Any of the following varieties, and other similar plants approved by the PMA State Office, may be used for this purpose: Malojillo (Para grass), Malojilla, Molasses grass, Elephant grass, Merker grass, Guatemala grass, millet, Pangola, Guinea grass, tropical kudzu, Roselawn St. Augustine.

(b) Where pasture is established by using seed, the rates of seeding should be not less than 12 pounds per acre, except for tropical kudzu, where the rate of seeding should be not less than 5 pounds per acre. Where pasture is established by using slips or cuttings, not less than 5,000 slips or cuttings per acre should be used.

Maximum assistance. (1) $6 per acre when tropical kudzu is planted in pure stands.

(2) $5 per acre when any of the varieties listed above, other than tropical kudzu, or similar plants approved by the PMA State Office are planted.

§ 702.318 *Practice 8: Establishing a cover of tropical kudzu for soil building or erosion control.* The land must be suitably prepared and seeded at the rate of not less than 5 pounds per acre.

Maximum assistance. $6 per acre.

§ 702.319 *Practice 9: Brushing pasture.* Elimination by uprooting of all competitive shrubs and plants. In order to qualify for payment all competitive shrubs or plants such as the following must be eliminated: Santa Maria, Zarcas, Tunas, Margarita, Albabaca, Cadillo, Jaraguazo, Guayaba. No assistance will be given for carrying out this practice on any acreage for which assistance for controlling or eliminating the same competitive plants was given under a previous program. No assistance will be given if it is determined that the area is overgrazed.

Maximum assistance. $2 per acre.

§ 702.320 *Practice 10: Constructing farm ponds or reservoirs to provide water for livestock or for irrigation purposes.* No assistance will be given for cleaning or maintaining an existing structure or for repairs or maintenance of a dam or reservoir. Ponds or reservoirs for livestock water may be approved only where needed to obtain proper distribution of livestock and prevent overgrazing.

Maximum assistance. (1) $0.12 per cubic yard of earth moved in the construction of an earth dam.

(2) $10 per cubic yard of concrete used in the construction of a dam.

(3) $0.12 per cubic yard of earth moved in the excavation of a reservoir.

§ 702.321 *Practice 11: Planting fruit trees for erosion control.* Trees must be planted on the contour and protected from fire and grazing. Payment will be made for not more than 200 fruit trees planted on a farm. A permanent cover of grass, legumes, or mulch must be maintained under the trees.

Maximum assistance. $0.10 per tree.

§ 702.322 *Practice 12: Planting adapted trees or shrubs for windbreaks, gully control, and/or forest purposes.* When trees are planted for forest purposes, they must be planted on the contour. All plantings must be protected from fire and grazing.

Maximum assistance. $2 per 100 trees or shrubs.

§ 702.323 *Practice 13: Establishing stripcropping.* Planting of alternate strips of clean-tilled crops and nonculti-vated grasses or legumes which will prevent soil washing. Contour lines must be established and all cultural operations performed as nearly as practicable on the contour. The spacing and width of the strips must be in accordance with the recommendations of the Soil Conservation Service. No assistance will be given under this practice on the same area for which assistance was given for stripcropping under previous programs.

Maximum assistance. $3 per acre.

§ 702.324 *Practice 14: Establishing water disposal areas by constructing protected outlet channels or establishing permanent grasses or legumes in either natural waterways or in other predetermined locations for carrying runoff water from ditches or terrace systems.* Either type of outlet must be vegetated with the sod-forming grasses listed in § 702.329 (Practice 19) prior to use with companion practices, such as terraces, hillside and/or diversion ditches. When natural waterways are not used, the measurements of constructed channels shall not average less than 24, 18, and 22 inches, respectively. The cross section of the constructed channel shall not average less than 3.5 square feet.

Maximum assistance. (1) $0.75 per 1,000 square feet when established by shaping and seeding.

(2) $3.25 per 1,000 square feet when established by shaping and sodding.

(3) $1.50 per 100 linear feet when a channel is constructed and vegetation established.

§ 702.325 *Practice 15: Constructing continuous terraces for protection against erosion.* In order to qualify for payment, a channel or Nichols type terrace shall be constructed on land having a slope of from 2 to 15 percent. The water-carrying cross-sectional area of the channel, depending upon the slope of the land, may vary from 5½ square feet on land of 15 percent slope to 8 square feet on land of 2 percent slope. Necessary outlets and waterways in accordance with specifications for § 702.327 (Practice 17) must be provided before the terraces are constructed. The vertical distances between terraces on the various slopes shall be as follows:

Slope of land (percent):	Vertical distances between terraces
2	2 feet 9 inches
3	3 feet 0 inches
4	3 feet 3 inches
5	3 feet 6 inches
6	3 feet 9 inches
7	4 feet 0 inches
8	4 feet 3 inches
9	4 feet 6 inches
10	4 feet 9 inches
11	5 feet 0 inches
12	5 feet 3 inches
13	5 feet 6 inches
14	5 feet 9 inches
15	6 feet 0 inches

Maximum assistance. $1.25 per 100 linear feet.

§ 702.326 *Practice 16: Establishing field diversion ditches to carry surface runoff water on land of 10 percent or more slope in coffee groves or planted to intertilled crops, except sugarcane, or for the protection of cultivated fields against the inflow of runoff water from other areas.* In order to qualify for payment, field diversion ditches must be constructed in those locations adjacent to lands having a slope of 10 percent or more to prevent the overflow of runoff water from higher areas into the land to be protected. The cross section of the field diversion ditch shall average not less than 3.5 square feet and shall measure not less than 24, 18, and 22 inches, respectively, of width, depth, and side slope. No payment will be made for this practice unless water disposal areas, constructed in accordance with the specifications of § 702.324 (Practice 14), have been provided.

Maximum assistance. $1.25 per 100 linear feet.

§ 702.327 *Practice 17: Constructing permanent open farm drainage ditches.* Payment will be made for the construction or enlargement of farm drainage ditches. Ditches must be provided with adequate outlets and so constructed as to provide an effective drainage for the area to be drained. No payment will be made for permanent open farm drainage ditches constructed on sugarcane land.

Maximum assistance. $0.12 per cubic yard of earth moved.

§ 702.328 *Practice 18: Establishing an adequate system of hillside ditches to carry surface runoff water from land of 10 percent up to 45 percent slope planted in intertilled crops, except sugarcane, and in orchards.* Payment will be made when ditch systems have been constructed and necessary outlets and waterways provided in accordance with the recommendations of the Soil Conservation Service. The minimum cross section of the ditch shall be 12 inches wide and 12 inches deep with a side slope of 1:1 on the lower side of the ditch.

Maximum assistance. $0.12 per cubic yard of earth moved.

§ 702.329 *Practice 19: Constructing ditches with either rock or vegetative barrier protection on land having a slope of from 15 to 35 percent.* (a) Credit will be allowed when the ditches and barriers are constructed and planted in accordance with the following specifications:

(1) The vertical interval between ditches must not exceed 9 feet.

(2) The grade and cross section of the ditch must be such as to carry all water at a nonscouring velocity.

(3) The barrier must be placed at least 6 inches above the upper edge of the ditch.

(4) Any of the following varieties of grasses may be used:

(i) Tall stiff-stemmed grasses: Elephant grass, Merker grass, Guatemala grass, Guinea grass.

(ii) Sod-forming grasses: Bermuda grass, St. Augustine grass, Sour Paspalum grass, Carpet grass.

(iii) Any other adapted grasses or legumes approved by the PMA State Office which when planted singly or in combination will act as a barrier.

(b) The average width and depth of ditches cannot be less than 15 and 12 inches, respectively. The cross section of the channel shall average not less than 1.25 square feet. No assistance will be given for cleaning or maintaining a ditch.

Maximum assistance. $0.70 per 100 linear feet.

§ 702.330 *Practice 20: Planting vegetative barriers on land of 10 percent or more slope.* (a) Credit will be allowed when the grasses forming the barrier are planted in accordance with the following specifications:

(1) Any of the grasses listed under § 702.329 (Practice 19) may be used and must be planted along contour lines.

(2) The vertical distance between the barriers must not exceed 9 feet.

(3) When cuttings of stiff-stemmed grasses are used, two rows 6 inches apart must be planted. When clump divisions of such grasses are used, the rows must be approximately 6 inches wide.

(4) When sod-forming grasses are used, the planted rows must be approximately 3 feet wide.

(b) No credit will be given under this practice if the barriers are constructed in connection with ditches under § 702.329 (Practice 19).

Maximum assistance. $0.30 per 100 linear feet.

§ 702.331 *Practice 21: Constructing wells for supplying water for livestock.* The wells should be constructed in an area of the farm where the providing of water will contribute to a better distribution of grazing. The necessary pumping equipment must be installed, except in connection with artesian wells. Adequate drinking troughs for animals also must be installed. No payment will be made for wells constructed at or for the use of farm headquarters, or unless water is obtained.

Maximum assistance. (1) $1 per linear foot of well for wells having a bore taking a casing of less than 4 inches in diameter, and artesian wells.

(2) $2 per linear foot of well for wells having a bore taking a casing of 4 inches but less than 6 inches in diameter, excluding artesian wells.

(3) $3 per linear foot of well for wells having a bore taking a casing of 6 inches or more in diameter, excluding artesian wells.

§ 702.332 *Practice 22: Constructing and maintaining throughout 1953 individual terraces around coffee trees.* Individual terraces around coffee trees should be constructed as nearly level as possible. Using the tree as an axis, the excavated area should have a radius of at least 3 feet on land having a slope of not more than 45 percent and of at least 2 feet on steeper slopes. The excavated soil should be used to fill in the slope below the tree. No payment will be made for construction of terraces on land having a slope of 2 percent or less. Payment will not be made for more than 450 terraces per acre, nor will payment be made if less than 300 terraces have been constructed per acre. Payment will not be made for this practice if payment has been made by the Insular Government or under any other program.

Maximum assistance. $2 per 100 terraces.

§ 702.333 *Practice 23: Constructing and maintaining throughout 1953 individual catch pits on the upper side of the coffee trees.* Catch pits must be from 30 to 42 inches long, 12 to 15 inches wide, and not less than 8 inches deep. No payment will be made for construction of catch pits on land having a slope of 2 percent or less. Catch pits must be constructed outside the maximum limit of the area covered by the branches of the coffee trees, but always at the upper side of the tree and on the contour. Where the nature of the soil and other local conditions make adherence to the foregoing specifications neither practicable nor desirable, such changes may be made as are recommended by the Advisory Committee for the community and approved by the PMA State Office. In such case the applicable payment per 100 catch pits shall be that recommended by the said Advisory Committee and approved by the PMA State Office, but in no event more than $1.75 per 100 catch pits. No payment will be made for more than 450 catch pits per acre nor will payment be made if less than 300 catch pits have been constructed per acre. No payment will be made for this practice if payment has been made by the Insular Government or under any other program.

Maximum assistance. $1.75 per 100 catch pits.

PAYMENTS

§ 702.341 *Division of payments*—(a) *Conservation practice payments.* The payment earned in carrying out the practice contained in § 702.314 with fertilizer furnished by the ACP Branch shall be credited to the producer to whom the fertilizer is furnished, and it shall have priority over payment for other practices. The payment earned in carrying out other practices shall be paid to the producer who carried out the practices. If more than one producer contributed to the carrying out of such practices, the payment shall be divided in the proportion that the PMA State Office determines the producers contributed to the carrying out of the practices. In making this determination, the PMA State Office shall take into consideration the value of the labor, equipment, or material contributed by each producer toward the carrying out of each practice on a particular acreage, assuming that each contributed equally, unless it is established to the satisfaction of the PMA State Office that their respective contributions thereto were not in equal proportion. The furnishing of land will not be considered as a contribution to the carrying out of any practice.

(b) *Death, incompetency, or disappearance of producer.* In case of death, incompetency, or disappearance of any producer, his share of the payment shall be paid to his successor, determined in accordance with the provisions of Part 716 of this chapter (ACP–122).

§ 702.342 *Increase in small payments.* The payment computed for any person with respect to any farm shall be increased as follows:

(a) Any payment amounting to $0.71 or less shall be increased to $1.

(b) Any payment amounting to more than $0.71, but less than $1, shall be increased by 40 percent.

(c) Any payment amounting to $1 or more shall be increased in accordance with the following schedule:

Amount of payment computed	Increase in payment	Amount of payment computed	Increase in payment
$1 to $1.99	$0.40	$32 to $32.99	$10.40
$2 to $2.99	.80	$33 to $33.99	10.60
$3 to $3.99	1.20	$34 to $34.99	10.80
$4 to $4.99	1.60	$35 to $35.99	11.00
$5 to $5.99	2.00	$36 to $36.99	11.20
$6 to $6.99	2.40	$37 to $37.99	11.40
$7 to $7.99	2.80	$38 to $38.99	11.60
$8 to $8.99	3.20	$39 to $39.99	11.80
$9 to $9.99	3.60	$40 to $40.99	12.00
$10 to $10.99	4.00	$41 to $41.99	12.10
$11 to $11.99	4.40	$42 to $42.99	12.20
$12 to $12.99	4.80	$43 to $43.99	12.30
$13 to $13.99	5.20	$44 to $44.99	12.40
$14 to $14.99	5.60	$45 to $45.99	12.50
$15 to $15.99	6.00	$46 to $46.99	12.60
$16 to $16.99	6.40	$47 to $47.99	12.70
$17 to $17.99	6.80	$48 to $48.99	12.80
$18 to $18.99	7.20	$49 to $49.99	12.90
$19 to $19.99	7.60	$50 to $50.99	13.00
$20 to $20.99	8.00	$51 to $51.99	13.10
$21 to $21.99	8.20	$52 to $52.99	13.20
$22 to $22.99	8.40	$53 to $53.99	13.30
$23 to $23.99	8.60	$54 to $54.99	13.40
$24 to $24.99	8.80	$55 to $55.99	13.50
$25 to $25.99	9.00	$56 to $56.99	13.60
$26 to $26.99	9.20	$57 to $57.99	13.70
$27 to $27.99	9.40	$58 to $58.99	13.80
$28 to $28.99	9.60	$59 to $59.99	13.90
$29 to $29.99	9.80	$60 to $185.99	[1]
$30 to $30.99	10.00	$186 to $199.99	[2]
$31 to $31.99	10.20	$200 and over	[2]

[1] Increase to $200.
[2] No increase.

§ 702.343 *Payments limited to $2,500.* (a) The total of all payments made in connection with the 1953 program to any person with respect to farms, ranching units, and turpentine places in the United States (including Alaska, Hawaii, Puerto Rico, and the Virgin Islands) shall not exceed the sum of $2,500.

(b) All or any part of any payment which has been or otherwise would be made to any person under the 1953 program may be withheld, or required to be refunded, if he has adopted, or participated in adopting, any scheme or device, including the dissolution, reorganization, revival, formation, or use of any corporation, partnership, estate, trust, or any other means, designed to evade, or which has the effect of evading, the provisions of this section.

GENERAL PROVISIONS RELATING TO PAYMENT

§ 702.346 *Maintenance of practices.* Any payment for the performance of approved conservation practices under the 1953 program will be subject to the condition that the person to whom the payment is made will maintain such practices in accordance with good farming practices. If the PMA State Office determines that any conservation practice carried out under the 1953 or any previous program is not maintained in accordance with good farming practices throughout the 1953 program year or the effectiveness of any such practice is destroyed during the 1953 program year, a deduction shall be made for the extent of the practice destroyed or not maintained. The deduction rate shall be the 1953 practice rate or, if the practice is not offered in 1953, the practice rate in effect during the year the practice was performed. The deduction shall be made from the payment of the person responsible for destroying or not maintaining the practice after the payment has been increased in accordance with the provisions of § 702.342.

§ 702.347 *Practices defeating purposes of programs.* If the PMA State Office finds that any person has adopted or participated in any practice which tends to defeat the purposes of the 1953 or any previous program, it may withhold, or require to be refunded, all or any part of any payment which has been or would otherwise be made to such person under the 1953 program.

§ 702.348 *Depriving others of payment.* If the PMA State Office finds that any person has employed any scheme or device (including coercion, fraud, or misrepresentation), the effect of which would be or has been to deprive any other person of any payment under the program, it may withhold, in whole or in part, from the person participating in or employing such a scheme or device, or require him to refund in whole or in part, the amount of any payment which has been or would otherwise be made to him under the 1953 program.

§ 702.349 *Filing of false claims.* If the PMA State Office finds that any person has knowingly filed claim for payment under the program for practices not carried out, or for practices carried out in such a manner that they do not meet the required specifications therefor, such person shall not be eligible to receive any payment under the program and shall refund all payments that may have been made to him under the program. The withholding or refunding of payments will be in addition to and not in substitution of any other penalty or liability which might otherwise be imposed.

§ 702.350 *Misuse of purchase orders.* If the PMA State Office finds that any producer has knowingly used a purchase order issued to him for conservation materials for a purpose other than that for which it was issued, and that such misuse of the purchase order tends to defeat the purpose for which it was issued, such producer shall not be eligible to receive any payment under the program and shall refund all payments that may have been made to him under the program. The withholding or refunding of payments will be in addition to and not in substitution of any other penalty or liability which might otherwise be imposed.

§ 702.351 *Payment computed and made without regard to claims.* Any payment or share of payment shall be computed and made without regard to questions of title under State law; without deduction of claims for advances (except as provided in § 702.352, and except for indebtedness to the United States subject to set-off under orders issued by the Secretary (Part 718 of this chapter)); and without regard to any claim or lien against any crop, or proceeds thereof, in favor of the owner or any other creditor.

§ 702.352 *Assignments.* Any person who may be entitled to any payment under the 1953 program may assign his payment, in whole or in part, as security for cash loaned or advances made for the purpose of financing the making of a crop in 1953. No assignment will be recognized unless it is made in writing on Form ACP–69 and in accordance with the instructions in ACP–70–Insular Region.

§ 702.353 *Practices carried out with State or Federal aid.* The assistance for any practice shall not be reduced because it is carried out with materials or services furnished by the ACP Branch or by any agency of a State to another agency of the same State, or with technical advisory services furnished by a State or Federal agency. In other cases of State or Federal aid, the total assistance for any practice performed shall be reduced, for purposes of payment, by the value of the aid, as determined by the PMA State Office. Materials or services furnished or used by a State or Federal agency for the performance of practices on its land shall not be regarded as State or Federal aid for the purposes of this section.

§ 702.354 *Compliance with regulatory measures.* Producers who carry out conservation practices for assistance under the 1953 program shall be responsible for obtaining the authorities, rights, easements, or other approvals necessary to the performance and maintenance of the practices in keeping with applicable laws and regulations. The producer who receives assistance for the practice shall be responsible to the Federal Government for any losses it may sustain because the producer infringes on the rights of others or fails to comply with applicable laws.

APPLICATION FOR PAYMENT

§ 702.361 *Persons eligible to file application.* An application for payment with respect to a farm may be made by any producer who is entitled to share in the payment determined for the farm.

§ 702.362 *Time and manner of filing application and information required.* Notwithstanding any other provision of this subpart, cash payments amounting to less than $1 will not be made. Cash payments will be made only upon application submitted on the prescribed form to the Production and Marketing Administration district office not later than February 28, 1954, except that the PMA State Office may accept an application filed after February 28, 1954, but not later than December 31, 1954, in any case where the failure to timely file was not the fault of the producer. If an application for a farm is filed within the time prescribed, any producer on the farm who did not sign the application may subsequently apply for his share of payment, provided he does so on or before December 31, 1954. Payment may be withheld from any person who fails to file any form or furnish any information required with respect to any farm which such person is operating or renting to another. Any application for payment may be rejected if any form or information required of the applicant is not submitted to the district office within the time fixed by the Director, ACP Branch, which time shall be not later than December 31, 1954. At least 2 weeks' notice to the public shall be given of the expiration of a time limit for filing prescribed forms or required information, and any time limit fixed shall afford a full and fair opportunity to those eligible to file the form or information within the period prescribed. Such notice shall be given by mailing notice to the Production and Marketing Administration district offices and making copies available to the press.

APPEALS

§ 702.366 *Appeals.* Any producer may, within 15 days after notice thereof is forwarded to or made available to him, request the PMA State Office in writing to reconsider its recommendation or determination in any matter affecting the right to or the amount of his payment with respect to the farm. The PMA State Office shall notify him of its decision in writing with 15 days after receipt of written request for reconsideration. If the producer is dissatisfied with the decision of the PMA State Office, he may, within 15 days after its decision is forwarded to or made available to him, request the Director, ACP Branch, to review the decision of the PMA State Office. Written notice of any decision rendered under this section by the PMA State Office shall also be issued to each other producer on the farm who may be adversely affected by the decision.

BULLETINS, INSTRUCTIONS, AND FORMS

§ 702.371 *Bulletins, instructions, and forms.* The ACP Branch is authorized to make determinations and to prepare and issue bulletins, instructions, and forms containing detailed information with respect to the 1953 program as it applies to Puerto Rico, and forms will be available in the State and district offices of the Production and Marketing Administration. Producers wishing to participate in the program should obtain all information needed from the offices mentioned in this subpart.

DEFINITIONS

§ 702.376 *Definitions.* For the purposes of the 1953 program:

(a) "Secretary" means the Secretary of Agriculture of the United States.

(b) "Director" means the Director of the Agricultural Conservation Programs Branch of the Production and Marketing Administration.

(c) "ACP Branch" means the Agricultural Conservation Programs Branch of the Production and Marketing Administration.

(d) "State" means Puerto Rico.

(e) "PMA State Office" means the Caribbean Area Office, Production and Marketing Administration, San Juan, Puerto Rico.

(f) "Advisory Committee" means the persons, technicians, or others, designated by the PMA State Office and the Insular Department of Agriculture to form a committee for the community.

(g) "Person" means an individual, partnership, association, corporation, estate, or trust, or other business enterprise or other legal entity, and, wherever applicable, a State, Territory, or Possession, or a political subdivision or agency thereof.

(h) "Producer" or "operator" means any person who, as landlord, tenant, or sharecropper, participates in the operation of a farm.

(i) "Farm" means all adjacent or nearby farm or range land under the same ownership which is operated by one person, including also (1) any other adjacent or nearby farm or range land which the PMA State Office, in accordance with instructions issued by the ACP Branch, determines is operated by the same person as part of the same unit in producing range livestock or with respect to the rotation of crops, and with work stock, farm machinery, and labor substantially separate from that for any other land; and (2) any field-rented tract (whether operated by the same or another person) which, together with any other land included in the farm, constitutes a unit with respect to the rotation of crops. A farm shall be regarded as located in the municipality in which the principal dwelling is situated or, if there is no dwelling thereon, it shall be regarded as located in the municipality in which the major portion of the farm is located.

(j) "Coffee farm" means the same as "farm," except that it shall contain at least 0.5 acre of coffee in production in any one contiguous area.

(k) "Sugarcane farm" means any farm that has sugarcane growing in 1953.

(l) "Cropland" means farm land which in 1952 was tilled or was in regular crop rotation, excluding bearing orchards and plowable noncrop open pasture.

(m) "Designated parcel" means the acreage designated by the PMA State Office within the coffee-bearing area of a farm on which prescribed practices are to be carried out.

(n) "Orchards" means the acreage in planted fruit trees, nut trees, coffee trees, vanilla plants, and banana plants.

(o) "Pasture land" means farm land, other than range land, on which the predominant growth is forage suitable for grazing and on which the spacing of any trees or shrubs is such that the land could not fairly be considered as woodland.

(p) "Range land" means any land which produces, or can produce, forage suitable for grazing by range livestock without cultivation or general irrigation.

(q) "Program year" means the period from January 1, 1953, through December 31, 1953.

AUTHORITY, AVAILABILITY OF FUNDS, AND APPLICABILITY

§ 702.381 *Authority.* The program contained in this subpart is approved pursuant to the authority vested in the Secretary of Agriculture under sections 7 to 17 of the Soil Conservation and Domestic Allotment Act, as amended (49 Stat. 1148; 16 U. S. C. 590g–590q).

§ 702.382 *Availability of funds.* (a) The provisions of the 1953 program are necessarily subject to such legislation as the Congress of the United States may hereafter enact; the making of the payments provided in this subpart is contingent upon such appropriation as the Congress may hereafter provide for such purpose; and the amounts of such payments will necessarily be within the limits finally determined by such appropriation.

(b) The funds provided for the 1953 program will not be available for the payment of applications filed in the Production and Marketing Administration district office in Puerto Rico after December 31, 1954.

§ 702.383 *Applicability.* (a) The provisions of the 1953 program contained in this subpart are not applicable to (1) any department or bureau of the United States Government or any corporation wholly owned by the United States; (2) grazing lands owned by the United States which were acquired or reserved for conservation purposes, or which are to be retained permanently under government ownership, including, but not limited to, grazing lands administered by the Forest Service or the Soil Conservation Service of the United States Department of Agriculture; and (3) nonprivate persons for performance on any land owned by the United States or a corporation wholly owned by it.

(b) The program is applicable to (1) privately owned lands; (2) lands owned by Puerto Rico or a political subdivision or agency thereof; (3) lands owned by corporations which are partly owned by the United States, such as production credit associations; (4) lands temporarily owned by the United States or a corporation wholly owned by it, which were not acquired or reserved for conservation purposes, including lands administered by the Farmers Home Administration, the Reconstruction Finance Corporation, the Federal Farm Mortgage Corporation, the United States Department of Defense, or by any other government agency designated by the ACP Branch; and (5) any cropland farmed by private persons which is owned by the United States or a corporation wholly owned by it.

Done at Washington, D. C., this 25th day of August 1952.

[SEAL] C. J. McCORMICK,
Acting Secretary of Agriculture.

[F. R. Doc. 52-9479; Filed, Aug. 27, 1952; 8:56 a. m.]

PART 703—AGRICULTURAL CONSERVATION PROGRAM; VIRGIN ISLANDS

SUBPART—1953

The United States Department of Agriculture is engaged in various activities to improve the soil and water resources of the farm lands in the Virgin Islands. These include research, educational efforts, and technical and financial assistance as effective means of bringing about increased use of soil and water resources.

Conservation farming is the only effective method of using the farm land for achieving crop improvement and, at the same time, maintaining the productive capacity of the soil so as to assure the needed increased production for the future. The purpose of the 1953 Agricultural Conservation Program is to assist farmers in planning and carrying out conservation activities which will bring about increased agricultural production and development and better use of the Islands' water resources.

INTRODUCTION

§ 703.200 *Introduction.* Assistance will be given to farmers carrying out conservation practices under the 1953 Agricultural Conservation Program (referred to in this subpart as the 1953 program) in accordance with the provisions contained in this subpart and such modifications thereof as may hereafter be made.

CONTROL OF FUNDS

§ 703.201 *Maximum farm payment.* The maximum payment for a farm shall be equal to the value of all practices carried out on the farm in accordance with the specifications for such practices.

§ 703.202 *Adjustments.* If the total estimated practice earnings for all farms under the program exceed the funds available for assistance, assistance will be reduced equitably.

DEVELOPMENT OF THE AGRICULTURAL CONSERVATION PROGRAM AND SELECTION OF PRACTICES

§ 703.206 *Development of the Agricultural Conservation Program.* The 1953 program was developed by the PMA State Office, the State Director of the Soil Conservation Service, and the Forest Service official having jurisdiction of farm forestry in the Virgin Islands. The State Director of the Farmers Home Administration and the Director of the Agricultural Extension Service participated in the deliberations on the program. The program was recommended by the PMA State Office, the State Director of the Soil Conservation Service, and the Forest Service official having jurisdiction of farm forestry in the Virgin Islands, and was approved by the ACP Branch.

§ 703.207 *Selection of practices.* Practices included in the 1953 program are only those which, by maintaining or increasing soil fertility, controlling and preventing soil erosion caused by wind or water, encouraging conservation and better agricultural use of water, conserving and increasing range and pasture forage, or conserving and improving farm woodland, contribute to increased or sustained production of needed agricultural commodities. The practices included are those which will not be carried out in the desired volume on the basis of conservation needs unless assistance is given therefor.

CONSERVATION PRACTICES AND RATES OF ASSISTANCE

§ 703.210 *Conservation practices and rates of assistance.* (a) This subpart contains a general description of the conservation practices of the 1953 program and the rates of assistance for the practices. Prior approval of the PMA State Office is required for all practices contained in this subpart, and the approval must be given before the practice is carried out. Such approval shall be conditioned upon carrying out the practices under the supervision of persons who have been designated to be responsible for the practices.

(b) Of the permanent-type practices authorized under this subpart, the Soil Conservation Service is responsible for the technical phases of the permanent-type practices contained in §§ 703.213 and 703.214. This responsibility shall include (1) a finding that the the practice is needed and practical on the farm, (2) necessary site selection, other preliminary work, and lay-out work of the practice, (3) necessary supervision of the installation, and (4) certification of performance (or application of the practice to the land). The practices listed in this paragraph are not considered to be the only permanent-type practices in the program. However, it is hereby determined that they are the only practices in the 1953 program for which the Soil Conservation Service has been delegated responsibility for the technical phases under Secretary's Memorandum 1278. Where the farmer expresses a need for, or the PMA State Office believes that the farmer will need, technical assistance in connection with the carrying out of any practice other than those for which the responsibility for technical phases is delegated to the Soil Conservation Service, the PMA State Office shall encourage the farmer to avail himself of the technical assistance available from the Soil Conservation Service, the Forest Service, the Extension Service, or any other Federal agency or State agency in position to supply such assistance.

(c) Payment will be made at the rates specified and within the limitations set forth in this subpart for carrying out during the calendar year 1953 any of the conservation practices in this subpart.

§ 703.211 *Practice 1: Planting grasses on properly prepared land for permanent pastures.* Any of the following grasses, or other similar grasses approved by the PMA State Office, may be used: Guinea grass, molasses grass, Para grass, Barbados sour grass, Pangola, Bermuda grass, Roselawn St. Augustine grass, sour paspalum grass, or carpet grass. The land must be suitably prepared and sufficient quantities of slips, cuttings, or seeds used to assure a good stand at maturity. The varieties of grasses must be well adapted to conditions of the particular area to be planted. Where pasture is established by using seed, the rate of seeding should be not less than 12 pounds per acre. Where pasture is established by using slips or cuttings, not less than 5,000 slips or cuttings should be used per acre.

Maximum assistance. $4.50 per acre.

§ 703.212 *Practice 2: Eradicating hurricane grass on range or pasture land.* The eradication must be carried out by plowing or disking the whole area to a depth of at least 6 inches and double cuttings with heavy disk harrow at least twice at 30-day intervals. No payment will be made unless § 703.211 (Practice 1) is carried out on the same area. No assistance will be given for this practice if the PMA State Office determines that the area is overgrazed. No assistance will be given for carrying out this practice on any acreage for which assistance for eradicating hurricane grass was given under a previous program.

Maximum assistance. $3 per acre.

§ 703.213 *Practice 3: Constructing concrete or rubble masonry watersheds (catchments) and/or storage tanks to collect rain water or for accumulating water from wells or springs for livestock or for irrigation purposes.* No assistance will be given for maintaining an existing structure. This practice is applicable only to St. Thomas and St. John Islands.

Maximum assistance. (1) $12 per cubic yard of concrete structure.

(2) $7 per cubic yard of rubble masonry structure.

§ 703.214 *Practice 4: Constructing rock barriers to form bench terraces.* The barriers must be constructed in accordance with the recommendations of the Soil Conservation Service.

Maximum assistance. $1.50 per cubic yard of rock used.

§ 703.215 *Practice 5: Constructing wells for supplying water for livestock.* The wells should be constructed in an area of the farm where the providing of water will contribute to a better distribution of grazing. The practice will not be approved if the PMA State Office determines that the area to be served by the development is overgrazed. The necessary pumping equipment must be installed, except in connection with artesian wells. Adequate drinking troughs for animals also must be installed. No payment will be made for wells constructed at or for the use of farm headquarters, nor unless water is obtained.

Maximum assistance. (1) $1 per linear foot of well for wells having a bore taking a casing of less than 4 inches in diameter, and artesian wells

(2) $2 per linear foot of well for wells having a bore taking a casing of 4 inches or more in diameter.

Limitations. (1) Payment will be made only for wells which are 50 feet or more in depth.

(2) Payment will be made only for wells which are constructed by a contractor who has been approved by the PMA State Office.

(3) Payment will be made only for wells which are constructed in accordance with specifications approved by the PMA State Office.

(4) Payment will be made only for wells which are constructed in accordance with the recommendations of the Soil Conservation Service.

(5) Payment will be made only for wells which are constructed in accordance with the recommendations of the Geological Survey, United States Department of the Interior.

PAYMENTS

§ 703.220 *Division of payments.* Payments will be made to the person who bears the cost of the practice.

§ 703.221 *Increase in small payments.* Payments of $10 or less will be increased to $10.

§ 703.222 *Payments limited to $2,500.* The total payments to any person for the 1953 program shall not exceed $2,500.

GENERAL PROVISIONS RELATING TO PAYMENT

§ 703.225 *Maintenance of practices.* Practices carried out under the 1953 program must be maintained for a reasonable period of time as determined by the PMA State Office.

§ 703.226 *Practices defeating purposes of programs.* No payment will be made for any practice carried out on any farm if the PMA State Office determines that the practice defeats the purposes of the program.

§ 703.227 *Depriving others of payment.* The PMA State Office may withhold or withdraw approval of any practice if it determines that the person who carried out the practice adopted any scheme or device which deprived, or tended to deprive, any other person of payment.

§ 703.228 *Filing of false claims.* The PMA State Office may withhold or withdraw approval of any practice if it determines that the person who carried out the practice has filed a false claim.

§ 703.229 *Payment computed and made without regard to claims.* In computing and making payments, no consideration will be given to claims against the person entitled to payment.

§ 703.230 *Assignments.* Any person who may be entitled to any payment may assign his right thereto, but assignments will not be recognized unless they are made in accordance with regulations prescribed by the Secretary.

§ 703.231 *Practices carried out with State or Federal aid.* Payment will be made for practices carried out with State or Federal aid only if the PMA State Office determines that the person who carried out the practice has borne the cost of the practice.

§ 703.232 *Compliance with regulatory measures.* Payment will be made only for practices carried out in accordance with regulatory measures.

APPLICATION FOR PAYMENT

§ 703.240 *Persons eligible to file application.* Any person who bears the cost of a practice carried out in accordance with the 1953 program may file an application for payment.

§ 703.241 *Time and manner of filing application and information required.* Applications for payment must be filed in the PMA State Office on or before December 31, 1953. Applications shall be filed in such manner and shall contain such information as may be required by the PMA State Office.

APPEALS

§ 703.245 *Appeals.* Any person may request reconsideration or appeal from any determination made under the 1953 program in accordance with the appeal regulations of the Production and Marketing Administration.

BULLETINS, INSTRUCTIONS, AND FORMS

§ 703.250 *Bulletins, instructions, and forms.* The ACP Branch is authorized to make determinations and to prepare and issue bulletins, instructions, and forms containing detailed information with respect to the 1953 program as it applies to Puerto Rico, and forms will be available in the State and district offices of the Production and Marketing Administration. Producers wishing to participate in the program should obtain all information needed from the offices mentioned in this subpart.

DEFINITIONS

§ 703.255 *Definitions.* For the purposes of the 1953 program:

(a) "Secretary" means the Secretary of Agriculture of the United States.

(b) "Director" means the Director of the Agricultural Conservation Programs Branch of the Production and Marketing Administration.

(c) "ACP Branch" means the Agricultural Conservation Programs Branch of the Production and Marketing Administration.

(d) "State" means Puerto Rico.

(e) "PMA State Office" means the Caribbean Area Office, Production and Marketing Administration, San Juan, Puerto Rico.

(f) "Advisory Committee" means the persons, technicians, or others, designated by the PMA State Office and the Insular Department of Agriculture to form a committee for the community.

(g) "Person" means an individual, partnership, association, corporation, estate, or trust, or other business enterprise or other legal entity, and, wherever applicable, a State, Territory, or Possession, or a political subdivision or agency thereof.

(h) "Producer" or "operator" means any person who, as landlord, tenant, or sharecropper, participates in the operation of a farm.

(i) "Farm" means all adjacent or nearby farm or range land under the same ownership which is operated by one person, including also (1) any other adjacent or nearby farm or range land which the PMA State Office, in accordance with instructions issued by the ACP Branch, determines is operated by the same person as part of the same unit in producing range livestock or with respect to the rotation of crops, and with work stock, farm machinery, and labor substantially separate from that for any other land; and (2) any field-rented tract (whether operated by the same or another person) which, together with any other land included in the farm, constitutes a unit with respect to the rotation of crops. A farm shall be regarded as located in the municipality in which the principal dwelling is situated or, if there is no dwelling thereon, it shall be regarded as located in the municipality in which the major portion of the farm is located.

(j) "Coffee farm" means the same as "farm," except that it shall contain at least 0.5 acre of coffee in production in any one contiguous area.

(k) "Sugarcane farm" means any farm that has sugarcane growing in 1953.

(l) "Cropland" means farm land which in 1952 was tilled or was in regular crop rotation, excluding bearing orchards and plowable noncrop open pasture.

(m) "Designated parcel" means the acreage designated by the PMA State Office within the coffee-bearing area of a farm on which prescribed practices are to be carried out.

(n) "Orchards" means the acreage in planted fruit trees, nut trees, coffee trees, vanilla plants, and banana plants.

(o) "Pasture land" means farm land, other than range land, on which the predominant growth is forage suitable for grazing and on which the spacing of any trees or shrubs is such that the land could not fairly be considered as woodland.

(p) "Range land" means any land which produces, or can produce, forage suitable for grazing by range livestock without cultivation or general irrigation.

(q) "Program year" means the period from January 1, 1953, through December 31, 1953.

AUTHORITY, AVAILABILITY OF FUNDS, AND APPLICABILITY

§ 703.261 *Authority.* The program contained in this subpart is approved pursuant to the authority vested in the Secretary of Agriculture under sections 7 to 17 of the Soil Conservation and Domestic Allotment Act, as amended (49 Stat. 1148; 16 U. S. C. 590g–590q).

§ 703.262 *Availability of funds.* (a) The provisions of the 1953 program are necessarily subject to such legislation as the Congress of the United States may hereafter enact; the making of the payments provided in this subpart is contingent upon such appropriation as the Congress may hereafter provide for such purpose; and the amounts of such payments will necessarily be within the limits finally determined by such appropriation.

(b) The funds provided for the 1953 program will not be available for the payment of applications filed in the Production and Marketing Administration district office in Puerto Rico after December 31, 1954.

§ 703.263 *Applicability.* (a) The provisions of the 1953 program contained in this subpart are not applicable to (1) any department or bureau of the United States Government or any corporation wholly owned by the United States; (2) grazing lands owned by the United States which were acquired or reserved for conservation purposes, or which are to be retained permanently under government ownership, including, but not limited to, grazing lands administered by the Forest Service or the Soil Conservation Service of the United States Department of Agriculture; and (3) nonprivate persons for performance on any land owned by the United States or a corporation wholly owned by it.

(b) The program is applicable to (1) privately owned lands; (2) lands owned by Puerto Rico or a political subdivision or agency thereof; (3) lands owned by corporations which are partly owned by the United States, such as production credit associations; (4) lands temporarily owned by the United States or a corporation wholly owned by it, which were not acquired or reserved for conservation purposes, including lands administered by the Farmers Home Administration, the Reconstruction Finance Corporation, the Federal Farm Mortgage Corporation, the United States Department of Defense, or by any other government agency designated by the ACP Branch; and (5) any cropland farmed by private persons which is owned by the United States or a corporation wholly owned by it.

Done at Washington, D. C., this 25th day of August 1952.

[SEAL] C. J. McCORMICK,
Acting Secretary of Agriculture.

PART 705—AGRICULTURAL CONSERVATION PROGRAM; GUAM

SUBPART—1953

The United States Department of Agriculture is engaged in various activities to improve the soil and water resources of the farm lands in Guam. These include research, educational efforts, and technical and financial assistance as effective means of bringing about increased use of soil and water resources.

Conservation farming is the only effective method of using the farm land for achieving crop improvement and, at the same time, maintaining the productive capacity of the soil so as to assure the needed increased production for the future. The purpose of the 1953 Agricultural Conservation Program is to assist farmers in planning and carrying out conservation activities which will bring about increased agricultural production and development and better use of Guam's water resources.

INTRODUCTION

§ 705.200 *Introduction.* Assistance will be given to farmers carrying out conservation practices under the 1953 Agricultural Conservation Program (referred to in this subpart as the 1953 program) in accordance with the provisions contained in this subpart and such modifications thereof as may hereafter be made.

CONTROL OF FUNDS

§ 705.201 *Maximum farm payment.* The maximum payment for a farm shall be equal to the value of all practices carried out on the farm in accordance with the specifications for such practices.

§ 705.202 *Adjustments.* If the total estimated practice earnings for all farms under the program exceed the funds available for assistance, assistance will be reduced equitably.

DEVELOPMENT OF THE AGRICULTURAL CONSERVATION PROGRAM AND SELECTION OF PRACTICES

§ 705.206 *Development of the Agricultural Conservation Program.* The 1953 program was developed by the PMA State Office, the State Director of the Soil Conservation Service, and the Forest Service official having jurisdiction of farm forestry in Guam. The State Director of the Farmers Home Administration and the Director of the Agricultural Extension Service participated in the deliberations on the program. The program was recommended by the PMA State Office, the State Director of the Soil Conservation Service, and the Forest Service official having jurisdiction of farm forestry in Guam, and was approved by the ACP Branch.

§ 705.207 *Selection of practices.* Practices included in the 1953 program are only those which, by maintaining or increasing soil fertility, controlling and preventing soil erosion caused by wind or water, encouraging conservation and better agricultural use of water, conserving and increasing range and pasture forage, or conserving and improving farm woodland, contribute to increased or sustained production of needed agricultural commodities. The practices included are those which will not be carried out in the desired volume on the basis of conservation needs unless assistance is given therefor.

CONSERVATION PRACTICES AND RATES OF ASSISTANCE

§ 705.210 *Conservation practices and rates of assistance.* (a) This subpart contains a general description of the conservation practices of the 1953 program and the rates of assistance for the practices. Prior approval of the PMA State Office is required for all practices contained in this subpart, and the approval must be given before the practice is carried out. Such approval shall be conditioned upon carrying out the practices under the supervision of persons who have been designated to be responsible for the practices.

(b) Of the permanent-type practices authorized under this subpart, the Soil Conservation Service is responsible for the technical phases of the permanent-type practices contained in §§ 705.213 and 705.214. This responsibility shall include (1) a finding that the the practice is needed and practical on the farm, (2) necessary site selection, other preliminary work, and lay-out work of the practice, (3) necessary supervision of the installation, and (4) certification of performance (or application of the practice to the land). The practices listed in this paragraph are not considered to be the only permanent-type practices in the program. However, it is hereby determined that they are the only practices in the 1953 program for which the Soil Conservation Service has been delegated responsibility for the technical phases under Secretary's Memorandum 1278. Where the farmer expresses a need for, or the PMA State Office believes that the farmer will need, technical assistance in connection with the carrying out of any practice other than those for which the responsibility for technical phases is delegated to the Soil Conservation Service, the PMA State Office shall encourage the farmer to avail himself of the technical assistance available from the Soil Conservation Service, the Forest Service, the Extension Service, or any other Federal agency or State agency in position to supply such assistance.

(c) Payment will be made at the rates specified and within the limitations set forth in this subpart for carrying out during the calendar year 1953 any of the conservation practices in this subpart.

§ 705.211 *Practice 1: Planting grasses on properly prepared land for permanent pastures.* Any of the following grasses, or other similar grasses approved by the PMA State Office, may be used: Guinea grass, molasses grass, Para grass, Barbados sour grass, Pangola, Bermuda grass, Roselawn St. Augustine grass, sour paspalum grass, or carpet grass. The land must be suitably prepared and sufficient quantities of slips, cuttings, or seeds used to assure a good stand at maturity. The varieties of grasses must be well adapted to conditions of the particular area to be planted. Where pasture is established by using seed, the rate of seeding should be not less than 12 pounds per acre. Where pasture is established by using slips or cuttings, not less than 5,000 slips or cuttings should be used per acre.

Maximum assistance. $4.50 per acre.

§ 705.212 *Practice 2: Eradicating hurricane grass on range or pasture land.* The eradication must be carried out by plowing or disking the whole area to a depth of at least 6 inches and double cuttings with heavy disk harrow at least twice at 30-day intervals. No payment will be made unless § 705.211 (Practice 1) is carried out on the same area. No assistance will be given for this practice if the PMA State Office determines that the area is overgrazed. No assistance will be given for carrying out this practice on any acreage for which assistance for eradicating hurricane grass was given under a previous program.

Maximum assistance. $3 per acre.

§ 705.213 *Practice 3: Constructing concrete or rubble masonry watersheds (catchments) and/or storage tanks to collect rain water or for accumulating water from wells or springs for livestock or for irrigation purposes.* No assistance will be given for maintaining an existing structure. This practice is applicable only to St. Thomas and St. John Islands.

Maximum assistance. (1) $12 per cubic yard of concrete structure.

(2) $7 per cubic yard of rubble masonry structure.

§ 705.214 *Practice 4: Constructing rock barriers to form bench terraces.* The barriers must be constructed in accordance with the recommendations of the Soil Conservation Service.

Maximum assistance. $1.50 per cubic yard of rock used.

§ 705.215 *Practice 5: Constructing wells for supplying water for livestock.* The wells should be constructed in an area of the farm where the providing of water will contribute to a better distribution of grazing. The practice will not be approved if the PMA State Office determines that the area to be served by the development is overgrazed. The necessary pumping equipment must be installed, except in connection with artesian wells. Adequate drinking troughs for animals also must be installed. No payment will be made for wells constructed at or for the use of farm headquarters, nor unless water is obtained.

Maximum assistance. (1) $1 per linear foot of well for wells having a bore taking a casing of less than 4 inches in diameter, and artesian wells

(2) $2 per linear foot of well for wells having a bore taking a casing of 4 inches or more in diameter.

Limitations. (1) Payment will be made only for wells which are 50 feet or more in depth.

(2) Payment will be made only for wells which are constructed by a contractor who has been approved by the PMA State Office.

(3) Payment will be made only for wells which are constructed in accordance with specifications approved by the PMA State Office.

(4) Payment will be made only for wells which are constructed in accordance with the recommendations of the Soil Conservation Service.

(5) Payment will be made only for wells which are constructed in accordance with the recommendations of the Geological Survey, United States Department of the Interior.

PAYMENTS

§ 705.220 *Division of payments.* Payments will be made to the person who bears the cost of the practice.

§ 705.221 *Increase in small payments.* Payments of $10 or less will be increased to $10.

§ 705.222 *Payments limited to $2,500.* The total payments to any person for the 1953 program shall not exceed $2,500.

GENERAL PROVISIONS RELATING TO PAYMENT

§ 705.225 *Maintenance of practices.* Practices carried out under the 1953 program must be maintained for a reasonable period of time as determined by the PMA State Office.

§ 705.226 *Practices defeating purposes of programs.* No payment will be made for any practice carried out on any farm if the PMA State Office determines that the practice defeats the purposes of the program.

§ 705.227 *Depriving others of payment.* The PMA State Office may withhold or withdraw approval of any practice if it determines that the person who carried out the practice adopted any scheme or device which deprived, or tended to deprive, any other person of payment.

§ 705.228 *Filing of false claims.* The PMA State Office may withhold or withdraw approval of any practice if it determines that the person who carried out the practice has filed a false claim.

§ 705.229 *Payment computed and made without regard to claims.* In computing and making payments, no consideration will be given to claims against the person entitled to payment.

§ 705.230 *Assignments.* Any person who may be entitled to any payment may assign his right thereto, but assignments will not be recognized unless they are made in accordance with regulations prescribed by the Secretary.

§ 705.231 *Practices carried out with State or Federal aid.* Payment will be made for practices carried out with State or Federal aid only if the PMA State Office determines that the person who carried out the practice has borne the cost of the practice.

§ 705.232 *Compliance with regulatory measures.* Payment will be made only for practices carried out in accordance with regulatory measures.

APPLICATION FOR PAYMENT

§ 705.240 *Persons eligible to file application.* Any person who bears the cost of a practice carried out in accordance with the 1953 program may file an application for payment.

§ 705.241 *Time and manner of filing application and information required.* Applications for payment must be filed in the PMA State Office on or before December 31, 1953. Applications shall be filed in such manner and shall contain such information as may be required by the PMA State Office.

APPEALS

§ 705.245 *Appeals.* Any person may request reconsideration or appeal from any determination made under the 1953 program in accordance with the appeal regulations of the Production and Marketing Administration.

BULLETINS, INSTRUCTIONS, AND FORMS

§ 705.250 *Bulletins, instructions, and forms.* The ACP Branch is authorized to make determinations and to prepare and issue bulletins, instructions, and forms containing detailed information with respect to the 1953 program as it applies to Guam, and forms will be available in the State and district offices of the Production and Marketing Administration. Producers wishing to participate in the program should obtain all information needed from the offices mentioned in this subpart.

DEFINITIONS

§ 705.255 *Definitions.* For the purposes of the 1953 program:

(a) "Secretary" means the Secretary of Agriculture of the United States.

(b) "Director" means the Director of the Agricultural Conservation Programs Branch of the Production and Marketing Administration.

(c) "ACP Branch" means the Agricultural Conservation Programs Branch of the Production and Marketing Administration.

(d) "State" means Guam.

(e) "PMA State Office" means the Caribbean Area Office, Production and Marketing Administration, San Juan, Puerto Rico.

(f) "Advisory Committee" means the persons, technicians, or others, designated by the PMA State Office and the Insular Department of Agriculture to form a committee for the community.

(g) "Person" means an individual, partnership, association, corporation, estate, or trust, or other business enterprise or other legal entity, and, wherever applicable, a State, Territory, or Possession, or a political subdivision or agency thereof.

(h) "Producer" or "operator" means any person who, as landlord, tenant, or sharecropper, participates in the operation of a farm.

(i) "Farm" means all adjacent or nearby farm or range land under the same ownership which is operated by one person, including also (1) any other adjacent or nearby farm or range land which the PMA State Office, in accordance with instructions issued by the ACP Branch, determines is operated by the same person as part of the same unit in producing range livestock or with respect to the rotation of crops, and with work stock, farm machinery, and labor substantially separate from that for any other land; and (2) any field-rented tract (whether operated by the same or another person) which, together with any other land included in the farm, constitutes a unit with respect to the rotation of crops. A farm shall be regarded as located in the municipality in which the principal dwelling is situated or, if there is no dwelling thereon, it shall be regarded as located in the municipality in which the major portion of the farm is located.

(j) "Coffee farm" means the same as "farm," except that it shall contain at least 0.5 acre of coffee in production in any one contiguous area.

(k) "Sugarcane farm" means any farm that has sugarcane growing in 1953.

(l) "Cropland" means farm land which in 1952 was tilled or was in regular crop rotation, excluding bearing orchards and plowable noncrop open pasture.

(m) "Designated parcel" means the acreage designated by the PMA State Office within the coffee-bearing area of a farm on which prescribed practices are to be carried out.

(n) "Orchards" means the acreage in planted fruit trees, nut trees, coffee trees, vanilla plants, and banana plants.

(o) "Pasture land" means farm land, other than range land, on which the predominant growth is forage suitable for grazing and on which the spacing of any trees or shrubs is such that the land could not fairly be considered as woodland.

(p) "Range land" means any land which produces, or can produce, forage suitable for grazing by range livestock without cultivation or general irrigation.

(q) "Program year" means the period from January 1, 1953, through December 31, 1953.

AUTHORITY, AVAILABILITY OF FUNDS, AND APPLICABILITY

§ 705.261 *Authority.* The program contained in this subpart is approved pursuant to the authority vested in the Secretary of Agriculture under sections 7 to 17 of the Soil Conservation and Domestic Allotment Act, as amended (49 Stat. 1148; 16 U. S. C. 590g–590q).

§ 705.262 *Availability of funds.* (a) The provisions of the 1953 program are necessarily subject to such legislation as the Congress of the United States may hereafter enact; the making of the payments provided in this subpart is contingent upon such appropriation as the Congress may hereafter provide for such purpose; and the amounts of such payments will necessarily be within the limits finally determined by such appropriation.

(b) The funds provided for the 1953 program will not be available for the payment of applications filed in the Production and Marketing Administration district office in Guam after December 31, 1954.

§ 705.263 *Applicability.* (a) The provisions of the 1953 program contained in this subpart are not applicable to (1) any department or bureau of the United States Government or any corporation wholly owned by the United States; (2) grazing lands owned by the United States which were acquired or reserved for conservation purposes, or which are to be retained permanently under government ownership, including, but not limited to, grazing lands administered by the Forest Service or the Soil Conservation Service of the United States Department of Agriculture; and (3) nonprivate persons for performance on any land owned by the United States or a corporation wholly owned by it.

(b) The program is applicable to (1) privately owned lands; (2) lands owned by Guam or a political subdivision or agency thereof; (3) lands owned by corporations which are partly owned by the United States, such as production credit associations; (4) lands temporarily owned by the United States or a corporation wholly owned by it, which were not acquired or reserved for conservation purposes, including lands administered by the Farmers Home Administration, the Reconstruction Finance Corporation, the Federal Farm Mortgage Corporation, the United States Department of Defense, or by any other government agency designated by the ACP Branch; and (5) any cropland farmed by private persons which is owned by the United States or a corporation wholly owned by it.

Done at Washington, D. C., this 25th day of August 1952.

[SEAL] C. J. McCORMICK,
Acting Secretary of Agriculture.

[F. R. Doc. 52-9481; Filed, Aug. 27, 1952; 8:56 a. m.]

(2) $2 per linear foot of well for wells having a bore taking a casing of 4 inches but less than 6 inches in diameter, excluding artesian wells.

(3) $3 per linear foot of well for wells having a bore taking a casing of 6 inches or more in diameter, excluding artesian wells.

PAYMENTS

§ 703.220 *Division of payments*—(a) *Conservation practice payments.* The payment earned in carrying out practices shall be paid to the producer who carried out the practices. If more than one producer contributed to the carrying out of such practices, the payment shall be divided in the proportion that the PMA State Office determines the producers contributed to the carrying out of the practices. In making this determination, the PMA State Office shall take into consideration the value of the labor, equipment, or material contributed by each producer toward the carrying out of such practice on a particular acreage, assuming that each contributed equally, unless it is established to the satisfaction of the PMA State Office that their respective contributions thereto were not in equal proportion. The furnishing of land will not be considered as a contribution to the carrying out of any practice.

(b) *Death, incompetency, or disappearance of producer.* In case of death, incompetency, or disappearance of any producer, his share of the payment shall be paid to his successor, determined in accordance with the provisions of Part 716 of this chapter (ACP–122).

§ 703.221 *Increase in small payments.* The payment computed for any person with respect to any farm shall be increased as follows:

(a) Any payment amounting to $0.71 or less shall be increased to $1.

(b) Any payment amounting to more than $0.71, but less than $1, shall be increased by 40 percent.

(c) Any payment amounting to $1 or more shall be increased in accordance with the following schedule:

Amount of payment computed	Increase in payment	Amount of payment computed	Increase in payment
$1 to $1.99	$0.40	$32 to $32.99	$10.40
$2 to $2.99	.80	$33 to $33.99	10.60
$3 to $3.99	1.20	$34 to $34.99	10.80
$4 to $4.99	1.60	$35 to $35.99	11.00
$5 to $5.99	2.00	$36 to $36.99	11.20
$6 to $6.99	2.40	$37 to $37.99	11.40
$7 to $7.99	2.80	$38 to $38.99	11.60
$8 to $8.99	3.20	$39 to $39.99	11.80
$9 to $9.99	3.60	$40 to $40.99	12.00
$10 to $10.99	4.00	$41 to $41.99	12.10
$11 to $11.99	4.40	$42 to $42.99	12.30
$12 to $12.99	4.80	$43 to $43.99	12.50
$13 to $13.99	5.20	$44 to $44.99	12.40
$14 to $14.99	5.60	$45 to $45.99	12.50
$15 to $15.99	6.00	$46 to $46.99	12.60
$16 to $16.99	6.40	$47 to $47.99	12.70
$17 to $17.99	6.80	$48 to $48.99	12.80
$18 to $18.99	7.20	$49 to $49.99	12.90
$19 to $19.99	7.60	$50 to $50.99	13.00
$20 to $20.99	8.00	$51 to $51.99	13.10
$21 to $21.99	8.20	$52 to $52.99	13.20
$22 to $22.99	8.40	$53 to $53.99	13.30
$23 to $23.99	8.60	$54 to $54.99	13.40
$24 to $24.99	8.80	$55 to $55.99	13.50
$25 to $25.99	9.00	$56 to $56.99	13.60
$26 to $26.99	9.20	$57 to $57.99	13.70
$27 to $27.99	9.40	$58 to $58.99	13.80
$28 to $28.99	9.60	$59 to $59.99	13.90
$29 to $29.99	9.80	$60 to $185.99	14.00
$30 to $30.99	10.00	$186 to $199.99	(1)
$31 to $31.99	10.20	$200 and over	(2)

[1] Increase to $200.
[2] No increase.

§ 703.222 *Payments limited to $2,500.* (a) The total of all payments made in connection with the 1953 program to any person with respect to farms, ranching units, and turpentine places in the United States (including Alaska, Hawaii, Puerto Rico, and the Virgin Islands) shall not exceed the sum of $2,500.

(b) All or any part of any payment which has been or otherwise would be made to any person under the 1953 program may be withheld, or required to be refunded, if he has adopted, or participated in adopting, any scheme or device, including the dissolution, reorganization, revival, formation, or use of any corporation, partnership, estate, trust, or any other means, designed to evade, or which has the effect of evading, the provisions of this section.

GENERAL PROVISIONS RELATING TO PAYMENT

§ 703.225 *Maintenance of practices.* Any payment for the performance of approved conservation practices under the 1953 program will be subject to the condition that the person to whom the payment is made will maintain such practices in accordance with good farming practices. If the PMA State Office determines that any conservation practice carried out under the 1953 or any previous program is not maintained in accordance with good farming practices throughout the 1953 program year or the effectiveness of any such practice is destroyed during the 1953 program year, a deduction shall be made for the extent of the practice destroyed or not maintained. The deduction rate shall be the 1953 practice rate or, if the practice is not offered in 1953, the practice rate in effect during the year the practice was performed. The deduction shall be made from the payment of the person responsible for destroying or not maintaining the practice after the payment has been increased in accordance with the provisions of § 703.221.

§ 703.226 *Practices defeating purposes of programs.* If the PMA State Office finds that any person has adopted or participated in any practice which tends to defeat the purposes of the 1953 or any previous program, it may withhold, or require to be refunded, all or any part of any payment which has been or would otherwise be made to such person under the 1953 program.

§ 703.227 *Depriving others of payment.* If the PMA State Office finds that any person has employed any scheme or device (including coercion, fraud, or misrepresentation), the effect of which would be or has been to deprive any other person of any payment under the program, it may withhold, in whole or in part, from the person participating in or employing such a scheme or device, or require him to refund in whole or in part, the amount of any payment which has been or would otherwise be made to him under the 1953 program.

§ 703.228 *Filing of false claims.* If the PMA State Office finds that any person has knowingly filed claim for payment under the program for practices not carried out, or for practices carried out in such a manner that they do not meet the required specifications therefor, such person shall not be eligible to receive any payment under the program and shall refund all payments that may have been made to him under the program. The withholding or refunding of payments will be in addition to and not in substitution of any other penalty or liability which might otherwise be imposed.

§ 703.229 *Payment computed and made without regard to claims.* Any payment or share of payment shall be computed and made without regard to questions of title under State law; without deduction of claims for advances (except as provided in § 703.230, and except for indebtedness to the United States subject to set-off under orders issued by the Secretary (Part 718 of this chapter)); and without regard to any claim or lien against any crop, or proceeds thereof, in favor of the owner or any other creditor.

§ 703.230 *Assignments.* Any person who may be entitled to any payment under the 1953 program may assign his payment, in whole or in part, as security for cash loaned or advances made for the purpose of financing the making of a crop in 1953. No assignment will be recognized unless it is made in writing on Form ACP–69 and in accordance with the instructions in ACP–70–Insular Region.

§ 703.231 *Practices carried out with State or Federal aid.* The assistance for any practice shall not be reduced because it is carried out with materials or services furnished by the ACP Branch or by any agency of a State to another agency of the same State, or with technical advisory services furnished by a State or Federal agency. In other cases of State or Federal aid, the total assistance for any practice performed shall be reduced, for purposes of payment, by the value of the aid, as determined by the PMA State Office. Materials or services furnished or used by a State or Federal agency for the performance of practices on its land shall not be regarded as State or Federal aid for the purposes of this section.

§ 703.232 *Compliance with regulatory measures.* Producers who carry out conservation practices for assistance under the 1953 program shall be responsible for obtaining the authorities, rights, easements, or other approvals necessary to the performance and maintenance of the practices in keeping with applicable laws and regulations. The producer who receives assistance for the practice shall be responsible to the Federal Government for any losses it may sustain because the producer infringes on the rights of others or fails to comply with applicable laws.

APPLICATION FOR PAYMENT

§ 703.240 *Persons eligible to file application.* An application for payment with respect to a farm may be made by any producer who is entitled to share in the payment determined for the farm.

§ 703.241 *Time and manner of filing application and information required.* Notwithstanding any other provision of this subpart, cash payments amounting to less than $1 will not be made. Cash payments will be made only upon application submitted on the prescribed form to the Production and Marketing Administration district office not later than February 28, 1954, except that the PMA State Office may accept an application filed after February 28, 1954, but not later than December 31, 1954, in any case where the failure to timely file was not the fault of the producer. If an application for a farm is filed within the time prescribed, any producer on the farm who did not sign the application may subsequently apply for his share of payment, provided he does so on or before December 31, 1954. Payment may be withheld from any person who fails to file any form or furnish any information required with respect to any farm which such person is operating or renting or another. Any application for payment may be rejected if any form or information required of the applicant is not submitted to the district office within the time fixed by the Director, ACP Branch, which time shall be not later than December 31, 1954. At least 2 weeks' notice to the public shall be given of the expiration of a time limit for filing prescribed forms or required information, and any time limit fixed shall afford a full and fair opportunity to those eligible to file the form or information within the period prescribed. Such notice shall be given by mailing notice to the Production and Marketing Administration district offices and making copies available to the press.

APPEALS

§ 703.245. *Appeals.* Any producer may, within 15 days after notice thereof is forwarded to or made available to him, request the PMA State Office in writing to reconsider its recommendation or determination in any matter affecting the right to or the amount of his payment with respect to the farm. The PMA State Office shall notify him of its decision in writing within 15 days after receipt of written request for reconsideration. If the producer is dissatisfied with the decision of the PMA State Office, he may, within 15 days after its decision is forwarded to or made available to him, request the Director, ACP Branch, to review the decision of the PMA State Office. Written notice of any decision rendered under this section by the PMA State Office shall also be issued to each other producer on the farm who may be adversely affected by the decision.

BULLETINS, INSTRUCTIONS, AND FORMS

§ 703.250 *Bulletins, instructions, and forms.* The ACP Branch is authorized to make determinations and to prepare and issue bulletins, instructions, and forms containing detailed information with respect to the 1953 program as it applies to the Virgin Islands, and forms will be available in the State and district offices of the Production and Marketing Administration. Producers wishing to participate in the program should obtain all information needed from the offices mentioned in this subpart.

DEFINITIONS

§ 703.255 *Definitions.* For the purposes of the 1953 program:

(a) "Secretary" means the Secretary of Agriculture of the United States.

(b) "Director" means the Director of the Agricultural Conservation Programs Branch of the Production and Marketing Administration.

(c) "ACP Branch" means the Agricultural Conservation Programs Branch of the Production and Marketing Administration.

(d) "State" means the Virgin Islands.

(e) "PMA State Office" means the Caribbean Area Office, Production and Marketing Administration, San Juan, Puerto Rico.

(f) "Person" means an individual, partnership, association, corporation, estate, or trust, or other business enterprise or other legal entity, and, wherever applicable, a State, Territory, or Possession, or a political subdivision or agency thereof.

(g) "Producer" or "operator" means any person who, as landlord, tenant, or sharecropper, participates in the operation of a farm.

(h) "Farm" means all adjacent or nearby farm or range land under the same ownership which is operated by one person, including also (1) any other adjacent or nearby farm or range land which the PMA State Office, in accordance with instructions issued by the ACP Branch, determines is operated by the same person as part of the same unit in producing range livestock or with respect to the rotation of crops, and with work stock, farm machinery, and labor substantially separate from that for any other land; and (2) any field-rented tract (whether operated by the same or another person) which, together with any other land included in the farm, constitutes a unit with respect to the rotation of crops. A farm shall be regarded as located in the municipality in which the principal dwelling is situated or, if there is no dwelling thereon, it shall be regarded as located in the municipality in which the major portion of the farm is located.

(i) "Cropland" means farm land which in 1952 was tilled or was in regular crop rotation, excluding bearing orchards and plowable noncrop open pasture.

(j) "Orchards" means the acreage in planted fruit trees, nut trees, vanilla plants, and banana plants.

(k) "Pasture land" means farm land, other than range land, on which the predominant growth is forage suitable for grazing and on which the spacing of any trees or shrubs is such that the land could not fairly be considered as woodland.

(l) "Range land" means any land which produces, or can produce, forage suitable for grazing by range livestock without cultivation or general irrigation.

(m) "Program year" means the period from January 1, 1953, through December 31, 1953.

AUTHORITY, AVAILABILITY OF FUNDS, AND APPLICABILITY

§ 703.260 *Authority.* The program contained in this subpart is approved pursuant to the authority vested in the Secretary of Agriculture under sections 7 to 17 of the Soil Conservation and Domestic Allotment Act, as amended (49 Stat. 1148; 16 U. S. C. 590g–590q).

§ 703.261 *Availability of funds.* (a) The provisions of the 1953 program are necessarily subject to such legislation as the Congress of the United States may hereafter enact; the making of the payments provided in this subpart is contingent upon such appropriation as the Congress may hereafter provide for such purpose; and the amounts of such payments will necessarily be within the limits finally determined by such appropriation.

(b) The funds provided for the 1953 program will not be available for the payment of applications filed in the Production and Marketing Administration district office in the Virgin Islands after December 31, 1954.

§ 703.262 *Applicability.* (a) The provisions of the 1953 program contained in this subpart are not applicable to (1) any department or bureau of the United States Government or any corporation wholly owned by the United States; (2) grazing lands owned by the United States which were acquired or reserved for conservation purposes, or which are to be retained permanently under government ownership, including, but not limited to, grazing lands administered by the Forest Service or the Soil Conservation Service of the United States Department of Agriculture; and (3) nonprivate persons for performance on any land owned by the United States or a corporation wholly owned by it.

(b) The program is applicable to (1) privately owned lands; (2) lands owned by the Virgin Islands or a political subdivision or agency thereof; (3) lands owned by corporations which are partly owned by the United States, such as production credit associations; (4) lands temporarily owned by the United States or a corporation wholly owned by it, which were not acquired or reserved for conservation purposes, including lands administered by the Farmers Home Administration, the Reconstruction Finance Corporation, the Federal Farm Mortgage Corporation, the United States Department of Defense, or by any other government agency designated by the ACP Branch; and (5) any cropland farmed by private persons which is owned by the United States or a corporation wholly owned by it.

Done at Washington, D. C., this 25th day of August 1952.

[SEAL] C. J. McCORMICK,
Acting Secretary of Agriculture.

[F. R. Doc. 52-9460; Filed, Aug. 27, 1952; 8:57 a. m.]

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders), Department of Agriculture

PART 941—MILK IN THE CHICAGO, ILLINOIS, MARKETING AREA

ORDER AMENDING ORDER, AS AMENDED, REGULATING HANDLING

§ 941.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of each of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held at Chicago, Illinois, on April 14–17, 1952, upon a proposed amendment to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Chicago, Illinois, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act.

(2) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* It is hereby found and determined that good cause exists for making this order amending the said order, as amended, effective not later than September 1, 1952. This action is necessary in the public interest in order to reflect current marketing conditions and to insure the market of an adequate supply of milk. Accordingly, any further delay in the effective date of this order, as amended, and as hereby further amended, will seriously impair orderly marketing of milk in the Chicago, Illinois, marketing area. The provisions of the said amendatory order are well known to handlers—the public hearing having been held April 14–17, 1952, and the decision having been executed by the Secretary on August 13, 1952. Reasonable time under the circumstances has been afforded persons affected to prepare for its effective date. Therefore, it would be impracticable and contrary to the public interest to delay the effective date of this amendatory order 30 days after its publication in the FEDERAL REGISTER (see sec. 4 (c) Administrative Procedure Act, Pub. Law 404, 79th Cong., 60 Stat. 237).

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing, or shipping the milk covered by this order amending the order, as amended,) of more than 50 percent of the volume of milk covered by the aforesaid order, as amended, and as hereby further amended, which is marketed within the Chicago, Illinois, marketing area, refused or failed to sign the marketing agreement regulating the handling of milk in the said marketing area; and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order amending the said order, as amended, is the only practical means, pursuant to the declared policy of the act, of advancing the interests of the producers of milk which is produced for sale in the said marketing area; and

(3) The issuance of this order amending the order, as amended, is approved or favored by at least two-thirds of the producers who participated in a referendum on the question of approval of its issuance and who, during the determined representative period (February 1952), were engaged in the production of milk for sale in the said marketing area.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof, the handling of milk in the Chicago, Illinois, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended as follows:

1. Add the following as § 941.17:

§ 941.17 *Commercial food processor.* "Commercial food processor" means any person engaged in processing food other than milk or cream in fluid form or ice cream.

2. Delete in the introductory language of § 941.40 the phrase "paragraph (b) of this section" and substitute therefor the reference "§ 941.41".

3. Delete § 941.40 (b) and substitute therefor the following:

(b) Any milk moved as milk or skim milk in fluid form, or as bulk condensed or concentrated milk containing not less than 2 percent nor more than 12 percent butterfat, from a regulated plant to any plant located outside the following area, referred to in this subpart as the "surplus milk manufacturing area", shall be classified as Class I milk, any milk so moved as cream in fluid form, frozen cream, other cream frozen, plastic cream, powdered cream, or any cream product in fluid form, including any bulk condensed, concentrated or evaporated milk product containing more than 12 percent butterfat, shall be classified as Class II milk, and any milk so moved as any other milk product containing butterfat shall be classified according to the form in which it leaves the plant of shipment: The State of Wisconsin; the counties of Stark, Marshall, Woodford, Livingston, Ford, Iroquois, Jo Daviess, Stephenson, Winnebago, Boone, McHenry, Lake, Carroll, Ogle, De Kalb, Kane, Cook, Du Page, Whiteside, Lee, Rock Island, Henry, Bureau, Putnam, La Salle, Kendall, Grundy, Will, Kankakee, Peoria, McLean, Champaign, Shelby, and Knox, in the State of Illinois; the Counties of Benton, White, Cass, Miami, Howard, Carroll, Tippecanoe, Tipton, Clinton, Fountain, Warren, Parke, Vermillion, Vigo, Sullivan, Lake, Newton, Porter, Jasper, La Porte, Starke, Pulaski, St. Joseph, Marshall, Fulton, Kosciusko, Wabash, and Elkhart, in the State of Indiana; the Counties of Ottawa, Kent, Allegan, Barry, Calhoun, St. Joseph, Van Buren, Kalamazoo, Cass, and Berrien, in the State of Michigan; and the County of Van Wert in the State of Ohio: *Provided*, That any handler who causes producer milk to be delivered to a plant located outside the surplus milk manufacturing area during the period of a work stoppage at regulated plants due to a labor dispute between employer and employee, may request the market administrator in writing to classify such milk according to its utilization at the unregulated plant and the milk so delivered shall be classified under § 941.41 according to its utilization at the latter plant if (1) the market administrator determines that the volume of the Class I milk packaged by all pool plants as described in § 941.66 (a) has been reduced not less than 50 percent by such work stoppage, and (2) the unregulated plant makes its books and records of milk utilization available to the market administrator for audit verification purposes and the market administrator determines to his satisfaction that utilization of the milk so delivered can be established on the basis of adequate daily records. If the conditions described under subparagraphs (1) and (2) of this paragraph do not prevail the milk so delivered shall be classified as Class I milk.

4. Delete § 941.40 (d) and substitute therefor the following:

(d) Any milk moved as milk or skim milk in fluid form from a regulated plant to any unregulated plant located within the surplus milk manufacturing area which did not manufacture any of the products named in paragraph (c) of this section during the delivery period shall be classified as Class I milk, and any milk so moved as cream in fluid form shall be classified as Class II milk: *Provided*, That if such unregulated plant receives no milk, skim milk or cream from sources other than a regulated plant(s) and if satisfactory proof is furnished to the market administrator that any such milk, skim milk, or cream was in excess of the total amount used in Class I milk or Class II milk items, respectively (as defined in § 941.41) at the latter plant, such excess shall be classified according to its utilization.

5. Delete § 941.41 (c) (1) and substitute therefor the following:

(1) Condensed milk (sweetened or unsweetened) disposed of to commercial food processors located within the surplus milk manufacturing area, sweetened condensed milk in hermetically sealed cans, evaporated milk, whole milk powder, nonfat dry milk solids, and condensed skim milk (the products specified in this subparagraph are referred to in this subpart as Class III (a) milk);

6. a. Delete from the introductory language of § 941.52 (c) the phrase "the highest of the prices resulting from the respective formulas set forth in subparagraphs (1) and (2) of this paragraph" and substitute therefor the following: "the higher of the prices resulting from the formulas set forth in subparagraph (1) of this paragraph".

b. Delete § 941.52 (c) (2).

7. Delete in § 941.61 the reference "§ 971.70" and substitute therefor the reference "§ 941.70".

8. Replace the period at the end of § 941.61 with a colon and add the following proviso: "*Provided*, That if no source is indicated by the handler which may be verified by the market administrator, the milk or milk products shall be deemed to be 'overrun' and subject to the provisions of § 941.62 rather than to the conditions of this section."

9. Delete the third proviso of § 941.66 (c).

10. Delete § 941.67 and substitute therefor the following:

§ 941.67 *Suspension of pool plants.* (a) Any plant described in § 941.66 (b) shall be suspended automatically as a pool plant, such suspension to be effective during each of the delivery periods of March through July inclusive of the next succeeding year, unless:

(1) At least 50 percent of the butterfat in milk or at least 50 percent of the pounds of milk received from producers at such plant during each of the delivery periods of September, October, and November is (i) shipped as milk, skim milk, or cream in fluid form to a regulated plant(s), or (ii) disposed of from such plant as Class I milk or Class II milk within the surplus milk manufacturing area other than to a regulated plant; or

(2) Such plant gives notice to the market administrator in writing that during each of the delivery periods of September, October, and November, it is willing to ship an amount of milk in fluid form to any regulated plant(s) which together with such amount of milk, skim milk, and cream as it disposes of as Class I milk or Class II milk within the surplus milk manufacturing area (including shipments to any such plant(s)) in said delivery period shall include not less than 50 percent of the butterfat or not less than 50 percent of the pounds of milk received from producers during the delivery period to which said offer applies: *Provided*, That

(i) Said notice shall contain at least the following information: The specific days on which the milk will be available; the amount of milk available on each of such days with the butterfat content thereof, and if such plant intends to offer its entire supply of milk for a particular day, the offer shall so state; and the price to be charged for the milk offered and the terms of sale;

(ii) Only those amounts of milk offered for sale on days that are at least 9 full days after the date on which said notice is postmarked shall be included in computing the total amount offered for the delivery period;

(iii) Only such amount of butterfat or product pounds which is sold on any day within the surplus milk manufacturing area as Class I milk or Class II milk as is in excess of the amount offered for sale on said day by said notice shall be considered in computing the amount actually sold on such day, but the entire amount of butterfat or product pounds so sold shall be considered if such sale occurs on a day on which no offer is made;

(iv) Only such amount of milk offered by said notice on any day shall be credited to the offer as is not in excess of the amount of milk received from producers on said day.

(3) Upon receipt of said notice the market administrator shall make the offer and terms thereof public by transmitting the same to all handlers not later than one business day after receiving the notice.

(4) Any handler who desires to accept an offer shall notify the offering plant, or the person whom the offering handler has designated as his agent to receive acceptance, of his willingness to accept such offer at least 4 days prior to the date on which the milk is available for purchase. If the offering plant or its agent refuses to sell and deliver the milk to the handler accepting the offer and such handler so notifies the market administrator, he shall verify the refusal to sell by communicating with the offering plant or its agent. If upon subsequent audit and investigation the market administrator determines that such milk had not actually been shipped to a regulated plant serving the marketing area, the offer for said day shall be considered null and void, and in determining the plant's compliance with this section consideration shall be given only to sales occurring on such day.

(5) In computing required percentages of milk, skim milk, and cream on a product pound basis any sales of concentrated milk or condensed skim milk to a regulated plant shall be based upon the quantity of the milk or skim milk used in its production rather than upon the quantity of concentrated milk or condensed skim milk sold.

(b) The market administrator shall maintain at his office a list of plants (including plant location and name of operator) suspended pursuant to this section which shall be made available to any interested person upon request and which he may from time to time transmit to all handlers in the market.

(c) Any milk or milk product received at a regulated plant from a plant during any period of suspension pursuant to this section shall be other source milk.

(d) Suspension of any pool plant shall not be terminated or affected by transfer of ownership through sale or otherwise.

11. Delete § 941.68 (a) and substitute therefor the following:

(a) Milk or any milk product disposed of within the Chicago, Illinois, marketing area (other than to a regulated plant) as any item of Class I milk or Class II milk from a plant receiving milk subject to the class price provisions of a marketing agreement or order issued pursuant to the act for another marketing area shall not be subject to the class price provisions of this subpart or to §§ 941.80 through 941.88.

12. Delete that portion of § 941.70 prior to paragraph (a) and substitute the following:

§ 941.70 *Net pool obligation(s) of handlers.* On or before the 14th day of each delivery period the market administrator shall examine for mathematical correctness and obvious errors the report of receipts and utilization submitted by each handler for the preceding delivery period and shall make such corrections as such examination shall indicate to be appropriate. A separate net pool obligation for Grade A milk and Grade B milk shall be computed for each handler (based upon his reports as corrected), as follows:

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Issued at Washington, D. C., this 25th day of August 1952, to be effective on and after the 1st day of September 1952.

[SEAL] C. J. MCCORMICK,
Acting Secretary of Agriculture.

[F. R. Doc. 52-9483; Filed, Aug. 27, 1952; 8:57 a. m.]

PART 986—HOPS GROWN IN OREGON, CALIFORNIA, WASHINGTON, AND IDAHO, AND HOP PRODUCTS PRODUCED THEREFROM IN THESE STATES

SALABLE QUANTITY OF 1952 CROP HOPS

Notice of proposed rule making with respect to the salable quantity of 1952 crop hops was published in the FEDERAL REGISTER of August 7, 1952 (17 F. R. 7187), pursuant to the provisions of Marketing Agreement No. 107 and Order No. 86 regulating the handling of hops grown in Oregon, California, Washington, and Idaho, and of hop products produced therefrom in these States (7 CFR Part 986).

In said notice, in which it was proposed to fix the salable quantity of 1952 crop hops at 39,200,000 pounds, opportunity was afforded interested parties to submit to the Director, Fruit and Vegetable Branch, Production and Marketing Administration, United States Department of Agriculture, Washington, D. C., written data, views, or arguments for consideration prior to final issuance of the administrative rule fixing the salable quantity. Four such documents were

submitted to the Department during the specified period. It was argued therein that the Hop Control Board estimate of 93 million barrels of beer as the production for the 12 months beginning September 1, 1952, is too high, and that consequently the estimate of domestic hop usage for brewing of 35,805,000 pounds for that period is too large. Views were also presented that the Board's estimate of exports of 9,500,000 pounds of hops during the aforesaid period was high, and that the normal use of hops in the United States for purposes other than brewing, estimated by the Board as 600,000 pounds for the period, was probably in excess of such usage. The information available to the Department does not substantiate these views. Therefore, the arguments submitted to the Department are not considered sufficient to justify changing the Board's estimates as set forth in connection with the proposed rule.

Views were also submitted to the effect that the contemplated reduction in brewers' stocks during the 12-month period, beginning September 1, 1952, of about 3 million pounds would not be sufficient to bring inventories down to a reasonable quantity. The Department recognizes that a further downward adjustment of inventory stocks of hops may be desirable, but a greater reduction than that contemplated by the Board during 1952–53 is not considered advisable. In reaching this conclusion, the Department has considered the fact that the salable quantity of 39,200,000 pounds for 1952 crop hops is 7,300,000 pounds less than the 1951 crop salable quantity; that a further reduction at this time of inventory stocks, and a corresponding reduction in the salable quantity, would result in cancellation of a substantial volume of sales of hops by growers under existing contracts. The present inventory of hop stocks includes approximately 1,900,000 pounds of 1950 crop hops and older, many of which are not considered suitable for use by brewers under present conditions. The stocks of hops suitable for use in brewing is therefore somewhat less than the total stocks reported.

Therefore, after consideration of all relevant matters, it is hereby ordered that:

§ 986.205 *Salable quantity of 1952 crop hops.* The maximum quantity of hops produced during 1952 which may be handled in the form of hops and in the form of any hop product shall be 39,200,000 pounds (net dry weight).

It is necessary to make this order effective upon publication in the FEDERAL REGISTER for the reason that the 1952 crop of hops is now being harvested. Shipments to market are about to begin and it is necessary to have the salable quantity fixed so that the handling of the crop may be properly regulated. No preparation for this regulation is required which cannot be completed prior to such effective date. Therefore, it is found and determined that good cause exists for not delaying the effective date of this regulation after its publication in the FEDERAL REGISTER (sec. 4 (c), Administrative Procedure Act; 60 Stat. 237; 5 U. S. C. 1001 et seq.).

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Issued at Washington, D. C., this 22d day of August 1952 to become effective upon publication of this document in the FEDERAL REGISTER.

[SEAL] S. R. SMITH,
Director,
Fruit and Vegetable Branch.

AUTHORITY: §§ 319.1 to 319.141 issued under 53 Stat. 294, 467; 26 U. S. C. 2732, 3791. Statutory provisions interpreted or applied are cited to text in parentheses.

LAWS DEALING WITH THE TAXES RELATING TO MACHINE GUNS AND CERTAIN OTHER FIREARMS[1]

NATIONAL FIREARMS ACT

26 U. S. C. 2720 *Tax.* (a) *Rate.* There shall be levied, collected, and paid upon firearms transferred in the United States a tax at the rate of $200 for each firearm: *Provided,* That the transfer tax on any gun with two attached barrels, twelve inches or more in length, from which only a single discharge can be made from either barrel without manual reloading, or any gun designed to be held in one hand when fired and having a barrel twelve inches or more in length from which only a single discharge can be made without manual reloading, shall be at the rate of $1. The tax imposed by this section shall be in addition to any import duty imposed on such firearm.

(b) *By whom paid.* Such tax shall be paid by the transferor.

(c) *How paid*—(1) *Stamps.* Payment of the tax herein provided shall be represented by appropriate stamps to be provided by the Commissioner, with the approval of the Secretary.

(2) *Cross reference.* For assessment in case of omitted taxes payable by stamp, see sections 3311 and 3640.

(d) *Registration and special tax.* For requirements as to registration and special tax, see Part VIII of subchapter A of chapter 27.

26 U. S. C. 2721 *Exemptions.*—(a) *Transfers exempt.* This subchapter and Part VIII of subchapter A of chapter 27 shall not apply to the transfer of firearms (1) to the United States Government, any State, Territory, or possession of the United States, or to any political subdivision thereof, or to the District of Columbia; (2) to any peace officer or any Federal officer designated by regulations of the Commissioner; (3) to the transfer of any firearm which is unserviceable and which is transferred as a curiosity or ornament.

(b) *Notice of exemption.* If the transfer of a firearm is exempted as provided in subsection (a), the person transferring such firearm shall notify the Commissioner of the name and address of the applicant, the number or other mark identifying such firearm, and the date of its transfer, and shall file with the Commissioner such documents in proof thereof as the Commissioner may by regulations prescribe.

(c) *Other taxes.* For exemption from the tax on pistols and revolvers, see section 2700 (b) (2), and for exemption from the manufacturer's sales tax on firearms, see section 3407 of chapter 29.

26 U. S. C. 2722 *Stamps*—(a) *Affixing.* The stamps provided for in section 2720 (c) (1) shall be affixed to the order for such firearm, hereinafter provided for.

(b) *Other laws applicable.* For provisions relating to the engraving, issuance, sale, accountability, cancellation, and distribution of tax-paid stamps, see section 2731.

26 U. S. C. 2723 *Order forms*—(a) *General requirements.* It shall be unlawful for any person to transfer a firearm except in pursuance of a written order from the person seeking to obtain such article, on an application form issued in blank in duplicate for that purpose by the Commissioner. Such order shall identify the applicant by such means of identification as may be prescribed by regulations under this subchapter and Part VIII of subchapter A of chapter 27: *Provided,* That, if the applicant is an individual, such identification shall include fingerprints and a photograph thereof.

(b) *Contents of order form.* Every person so transferring a firearm shall set forth in each copy of such order the manufacturer's number or other mark identifying such firearm, and shall forward a copy of such order to the Commissioner. The original thereof with stamps affixed, shall be returned to the applicant.

(c) *Documents to accompany transfers.* No person shall transfer a firearm unless such person, in addition to complying with subsection (b), transfers therewith (in compliance with such regulations as may be prescribed under this subchapter for proof of payment of all taxes on such firearm):

(1) For each prior transfer of such firearm which was subject to the tax imposed by section 2720 (a), the stamp-affixed order provided in this section, and

(2) For any making of such firearm which was subject to the tax imposed by section 2734 (a), the stamp-affixed declaration provided in section 2734.

(d) *Exemption in case of registered importers, manufacturers, and dealers.* Importers, manufacturers, and dealers who have registered and paid the tax as provided for in Part VIII of subchapter A of chapter 27 shall not be required to conform to the provisions of this section with respect to transactions in firearms with dealers or manufacturers if such dealers or manufacturers have registered and have paid such tax, but shall keep such records and make such reports regarding such transactions as may be prescribed by regulations under this subchapter and Part VIII of subchapter A of chapter 27.

(e) *Supply.* The Commissioner, with the approval of the Secretary, shall cause suitable forms to be prepared for the purposes of subsection (a), and shall cause the same to be distributed to collectors of internal revenue.

26 U. S. C. 2724 *Books, records, and returns.* Importers, manufacturers, and dealers shall keep such books and records and render such returns in relation to the transactions in firearms specified in this subchapter and Part VIII of subchapter A of chapter 27 as the Commissioner, with the approval of the Secretary, may by regulations require.

26 U. S. C. 2725 *Identification of firearms.* Each manufacturer and importer of a firearm shall identify it with a number or other identification mark approved by the Commissioner, such number or mark to be stamped or otherwise placed thereon in a manner approved by the Commissioner.

26 U. S. C. 2726 *Unlawful acts*—(a) *Possessing firearms unlawfully transferred or made.* It shall be unlawful for any person to receive or possess any firearm which has at any time been transferred in violation of section 2720, 2721 (b), 2722, 2723, 2727, or 2731 of this subchapter, or which has at any time been made in violation of section 2734 of this subchapter.

(b) *Removing or changing identification marks.* It shall be unlawful for anyone to obliterate, remove, change, or alter the number or other identification mark required by section 2725. Whenever on trial for a violation of this subsection the defendant is shown to have or to have had possession of any firearm upon which such number or mark shall have been obliterated, removed, changed, or altered, such possession shall be deemed sufficient evidence to authorize conviction, unless the defendant explains such possession to the satisfaction of the jury.

(c) *Importing firearms illegally.* It shall be unlawful (1) fraudulently or knowingly to import or bring any firearm into the United States or any territory under its control or jurisdiction * * *,[2] in violation of the provisions of this subchapter and Part VIII of subchapter A of chapter 27; or (2) knowingly to assist in so doing; or (3) to receive, conceal, buy, sell, or in any manner facilitate the transportation, concealment, or sale of any such firearm after being imported or brought in, knowing the same to have been imported or brought in contrary to law. Whenever on trial for a violation of this section the defendant is shown to have or to have had possession of such firearm, such possession shall be deemed sufficient evidence to authorize conviction unless the defendant explains such possession to the satisfaction of the jury.

26 U. S. C. 2727 *Exportation.* Under such rules and regulations as the Commissioner with the approval of the Secretary, may prescribe, and upon proof of the exportation of any firearm to any foreign country (whether exported as part of another article or not) with respect to which the transfer tax under section 2720 has been paid by the manufacturer, the Commissioner shall refund to the manufacturer the amount of the tax so paid, or, if the manufacturer waives all claim for the amount to be refunded, the refund shall be made to the exporter.

26 U. S. C. 2728 *Importation.* No firearm shall be imported or brought into the United States or any territory under its control or jurisdiction * * *,[2] except that, under regulations prescribed by the Secretary, any firearm may be so imported or brought in when (1) the purpose thereof is shown to be lawful and (2) such firearm is unique or of a type which cannot be obtained within the United States or such territory.

26 U. S. C. 2729 *Penalties.* Any person who violates or fails to comply with any of the requirements of this subchapter and Part VIII of subchapter A of chapter 27 shall, upon conviction, be fined not more than $2,000 or be imprisoned for not more than five years, or both, in the discretion of the court.

26 U. S. C. 2730 *Forfeitures*—(a) *Laws applicable.* Any firearm which has at any time been transferred or made in violation of the provisions of this subchapter and Part VIII of subchapter A of chapter 27 shall be subject to seizure and forfeiture, and (except as provided in subsection (b)) all the provisions of internal-revenue laws relating to searches, seizures, and forfeiture of unstamped articles are extended to and made to apply to the articles taxed under this subchapter, and the persons to whom this subchapter and Part VIII of subchapter A of chapter 27 applies.

[1] The sections of the United States Code are numbered identically with corresponding sections of the Internal Revenue Code.

[2] Omitted matter, relating to the Philippine Islands, no longer applicable.

(b) *Disposal.* In the case of the forfeiture of any firearm by reason of a violation of this subchapter and Part VIII of subchapter A of chapter 27: No notice of public sale shall be required; no such firearm shall be sold at public sale; if such firearm is in the possession of any officer of the United States except the Secretary, such officer shall deliver the firearm to the Secretary; and the Secretary may order such firearm destroyed or may sell such firearm to any State, Territory, or possession • • •[1] or political subdivision thereof, or the District of Columbia, or retain it for the use of the Treasury Department or transfer it without charge to any Executive department or independent establishment of the Government for use by it.

26 U. S. C. 2731 *Other laws applicable.* All provisions of law (including those relating to special taxes, to the assessment, collection, remission, and refund of internal revenue taxes, to the engraving, issuance, sale, accountability, cancellation, and distribution of tax-paid stamps provided for in the internal-revenue laws, and to penalties) applicable with respect to the taxes imposed by sections 2550 of subchapter A of chapter 23 and 3220 of subchapter A of chapter 27, and all other provisions of the internal-revenue laws shall, insofar as not inconsistent with the provisions of this subchapter and Part VIII of subchapter A of chapter 27, be applicable with respect to the taxes imposed by section 2720 (a) and 2734 (a) of subchapter B of this chapter and section 3260 of subchapter A of chapter 27.

26 U. S. C. 2732 *Regulations.* The Commissioner, with the approval of the Secretary, shall prescribe such rules and regulations as may be necessary for carrying the provisions of this subchapter and Part VIII of subchapter A of chapter 27 into effect.

26 U. S. C. 2733 *Definitions.* That for the purposes of this subchapter and Part VIII of subchapter A of chapter 27:

(a) *Firearm.* The term "firearm" means a shotgun or rifle having a barrel of less than eighteen inches in length, or any other weapon, except a pistol or revolver, from which a shot is discharged by an explosive if such weapon is capable of being concealed on the person, or a machine gun, and includes a muffler or silencer for any firearm whether or not such firearm is included within the foregoing definition, but does not include any rifle which is within the foregoing provisions solely by reason of the length of its barrel if the caliber of such rifle is .22 or smaller and if its barrel is sixteen inches or more in length.

(b) *Machine gun.* The term "machine gun" means any weapon which shoots, or is designed to shoot, automatically or semiautomatically, more than one shot, without manual reloading, by a single function of the trigger.

(c) Repealed by section 2 (b), Public Law 353, 82nd Congress, effective September 1, 1952.

(d) *Importer.* The term "importer" means any person who imports or brings firearms into the United States for sale.

(e) *Manufacturer.* The term "manufacturer" means any person who is engaged within the United States in the manufacture of firearms, or who otherwise produces therein any firearm for sale or disposition.

(f) *Dealer.* The term "dealer" means any person not a manufacturer or importer engaged within the United States in the business of selling firearms. The term "dealer" shall include wholesalers, pawnbrokers, and dealers in used firearms.

(g) *Interstate commerce.* The term "interstate commerce" means transportation from any State or Territory or District, or any insular possession of the United States • • •[1] to any other State or to the District of Columbia.

(h) *To transfer or transferred.* The term "to transfer" or "transferred" shall include to sell, assign, pledge, lease, loan, give away, or otherwise dispose of.

(i) *Person.* The term "person" includes a partnership, company, association, or corporation, as well as a natural person.

26 U. S. C. 2734 *Tax on making firearms*—(a) *Rate.* There shall be levied, collected, and paid upon the making in the United States of any firearm (whether by manufacture, putting together, alteration, any combination thereof, or otherwise) a tax at that rate provided in section 2720 (a) which would apply to any transfer of the firearm so made.

(b) *Exceptions.* The tax imposed by subsection (a) shall not apply to the making of a firearm:

(1) By any person who is engaged within the United States in the business of manufacturing firearms;

(2) From another firearm with respect to which a tax has been paid, prior to such making, under either section 2720 (a) or under subsection (a) of this section; or

(3) For the use of (A) the United States Government, any State, Territory, or possession of the United States, any political subdivision thereof, or the District of Columbia, or (B) any peace officer or any Federal officer designated by regulations of the Secretary.

Any person who makes a firearm in respect of which the tax imposed by subsection (a) does not apply by reason of the preceding sentence shall make such report in respect thereof as the Secretary may by regulations prescribe.

(c) *By whom paid; when paid.* The tax imposed by subsection (a) shall be paid by the person making the firearm. Such tax shall be paid in advance of the making of the firearm.

(d) *How paid.* Payment of the tax imposed by subsection (a) shall be represented by appropriate stamps to be provided by the Secretary .

(e) *Declaration.* It shall be unlawful for any person subject to the tax imposed by subsection (a) to make a firearm unless, prior to such making, he has declared in writing his intention to make a firearm, has affixed the stamp described in subsection (d) to the original of such declaration, and has filed such original and a copy thereof. The declaration required by the preceding sentence shall be filed at such place, and shall be in such form and contain such information, as the Secretary may by regulations prescribe. The original of the declaration, with the stamp affixed, shall be returned to the person making the declaration. If the person making the declaration is an individual, there shall be included as part of the declaration the fingerprints and a photograph of such individual.

26 U. S. C. 3260 *Tax*—(a) *Rate.* Upon first engaging in business, and thereafter on or before the 1st day of July of each year, every importer, manufacturer, and dealer in firearms shall pay a special tax at the following rates:

(1) *Importers or manufacturers.* Importers or manufacturers, $500 a year;

(2) *Dealers other than pawnbrokers.* Dealers, other than pawnbrokers, $200 a year;

(3) *Pawnbrokers.* Pawnbrokers, $300 a year;

Provided, That manufacturers and dealers in guns with two attached barrels, twelve inches or more in length, from which only a single discharge can be made from either barrel without manual reloading, guns designed to be held in one hand when fired and having a barrel twelve inches or more in length from which only a single discharge can be made without manual reloading, or guns of both types, shall pay the following taxes: Manufacturers, $25 per year; dealers, $1 per year.

(b) *Computation of tax.* Where the tax is payable on the 1st day of July in any year it shall be computed for one year; where the tax is payable on any other day it shall be computed proportionately from the 1st day of the month in which the liability to the tax accrued to the 1st day of July following.[2]

26 U. S. C. 3261 *Registration*—(a) *Importers, manufacturers, and dealers.* Upon first engaging in business, and thereafter on or before the 1st day of July of each year, every importer, manufacturer, and dealer in firearms shall register with the collector of internal revenue for each district in which such business is to be carried on, his name or style, principal place of business, and places of business in such district.

(b) *Persons in general.* Every person possessing a firearm shall register, with the collector of the district in which he resides, the number or other mark identifying such firearm, together with his name, address, place where such firearm is usually kept, and place of business or employment, and, if such person is other than a natural person, the name and home address of an executive officer thereof. No person shall be required to register under this subsection with respect to a firearm which such person acquired by transfer or importation or which such person made, if provisions of subchapter B of chapter 25 applied to such transfer, importation, or making, as the case may be, and if the provisions which applied thereto were complied with.

26 U. S. C. 3262 *Exemptions.* For provisions exempting certain transfers, see section 2721.

26 U. S. C. 3263 *Unlawful acts in case of failure to register and pay special tax*—(a) *Importation, manufacture or dealing in firearms.* It shall be unlawful for any person required to register under the provisions of section 3261 to import, manufacture, or deal in firearms without having registered and paid the tax imposed by section 3260.

(b) *Transportation in interstate commerce.* It shall be unlawful for any person who is required to register as provided in section 3261 (b) and who shall not have so registered, or any other person who has not in his possession a stamp-affixed order as provided in section 2723 or a stamp-affixed declaration as provided in section 2734, to ship, carry, or deliver any firearm in interstate commerce.

26 U. S. C. 3264 *Other laws applicable.* For provisions relating to special taxes, and other provisions relating to the tax on narcotics made applicable to the taxes imposed by this part, see section 2731.

26 U. S. C. 3265 *Definitions.* For definitions of firearm, machine gun, importer, manufacturer, dealer, and other terms used in this part, see section 2733.

26 U. S. C. 3266 *Transactions between registered persons.* For provisions exempting dealings between registered persons in certain respects, see section 2723 (d).

[1] Omitted matter, relating to the Philippine Islands, no longer applicable.

[2] Sec. 4 (d) of Public Law 353, 82d Cong., provides as follows:

(d) In the case of any person who is liable for a tax under any provision of sec. 3260 (a) of the Internal Revenue Code solely by reason of the amendments made by this act and who (prior to the effective date of these amendments) commenced the activity which makes him subject to tax under such provision, such tax shall be reckoned proportionately from the beginning of the effective date of these amendments to and including the thirtieth day of June following; and such tax shall be due on, and payable on or before, the last day of the fourth month after the month in which this act is enacted.

RELATED LAWS

26 U. S. C. 1816 *Cancellation*—(a) *General rule.* Whenever an adhesive stamp is used for denoting any tax imposed by this chapter, except as hereinafter provided, the person using or affixing the same shall write or stamp or cause to be written or stamped thereupon the initials of his or its name and the date upon which the same is attached or used, so that the same may not again be used: *Provided*, That the Commissioner may prescribe such other method for the cancellation of such stamps as he may deem expedient.

• • • • •

26 U. S. C. 1823 *Frauds relating to stamps.* Whoever—

• • • • •

(c) *Reuse of stamps*—(1) *Preparation for reuse.* Willfully removes, or alters the cancellation or defacing marks of, or otherwise prepares, any adhesive stamp with intent to use, or causes the same to be used, after it has already been used;

(2) *Trafficking.* Knowingly or willfully buys, sells, offers for sale, or gives away, any such washed or restored stamp to any person for use, or knowingly uses the same; or

(3) *Possession.* Knowingly and without lawful excuse (the burden of proof of such excuse being on the accused) has in possession any washed, restored, or altered stamp, which has been removed from any vellum, parchment, paper, instrument, writing, package, or article;

shall, upon conviction, be punished by a fine of not more than $1,000, or by imprisonment for not more than five years, or both, and any such reused, canceled, or counterfeit stamp and the vellum, parchment, document, paper, package, or article upon which it is placed or impressed shall be forfeited to the United States.

26 U. S. C. 3304 *Redemption of stamps*—(a) *Authorization.* The Commissioner, subject to regulations prescribed by the Secretary, may, upon receipt of satisfactory evidence of the facts, make allowance for or redeem such of the stamps, issued under authority of law, to denote the payment of any internal revenue tax, as may have been spoiled, destroyed, or rendered useless or unfit for the purpose intended, or for which the owner may have no use, or which through mistake may have been improperly or unnecessarily used, or where the rates or duties represented thereby have been excessive in amount, paid in error, or in any manner wrongfully collected.

(b) *Method and conditions of allowance.* Such allowance or redemption may be made, either by giving other stamps in lieu of the stamps so allowed for or redeemed, or by refunding the amount or value to the owner thereof, deducting therefrom, in case of repayment, the percentage, if any, allowed to the purchaser thereof; but no allowance or redemption shall be made in any case until the stamps so spoiled or rendered useless shall have been returned to the Commissioner, or until satisfactory proof has been made showing the reason why the same cannot be returned; or, if so required by the said Commissioner, when the person presenting the same cannot satisfactory trace the history of said stamps from their issuance to the presentation of his claim as aforesaid.

(c) *Time for filing claims.* No claim for the redemption of or allowance for stamps shall be allowed unless presented within four years after the purchase of such stamps from the Government.

(d) *Finality of Commissioner's decisions.* The finding of facts in and the decision of the Commissioner upon the merits of any claim presented under or authorized by this section shall, in the absence of fraud or mistake in mathematical calculation, be final and not subject to revision by any accounting officer.

• • • • •

26 U. S. C. 3612 *Returns executed by Commissioner or collector*—(a) *Authority of collector.* If any person fails to make and file a return or list at the time prescribed by law or by regulation made under authority of law, or makes, willfully or otherwise, a false or fraudulent return or list, the collector or deputy collector shall make the return or list from his own knowledge and from such information as he can obtain through testimony or otherwise.

(b) *Authority of Commissioner.* In any such case the Commissioner may, from his own knowledge and from such information as he can obtain through testimony or otherwise—

(1) *To make return.* Make a return or

(2) *To amend collector's return.* Amend any return made by a collector or deputy collector.

(c) *Legal status of returns.* Any return or list so made and subscribed by the Commissioner, or by a collector or deputy collector and approved by the Commissioner, shall be prima facie good and sufficient for all legal purposes.

(d) *Additions to tax*—(1) *Failure to file return.* In case of any failure to make and file a return or list within the time prescribed by law, or prescribed by the Commissioner or the collector in pursuance of law, the Commissioner shall add to the tax 25 per centum of its amount, except that when a return is filed after such time and it is shown that the failure to file it was due to a reasonable cause and not to willful neglect, no such addition shall be made to the tax: *Provided*, That in the case of a failure to make and file a return required by law, within the time prescribed by law or prescribed by the Commissioner in pursuance of law, if the last date so prescribed for filing the return is after August 30, 1935, then there shall be added to the tax, in lieu of such 25 per centum: 5 per centum if the failure is for not more than 30 days, with an additional 5 per centum for each additional 30 days or fraction thereof during which failure continues, not to exceed 25 per centum in the aggregate.

(2) *Fraud.* In case a false or fraudulent return or list is willfully made, the Commissioner shall add to the tax 50 per centum of its amount.

(3) *Cross reference.* For additions to tax in the case of income tax, see sections 291 and 293, and in the case of a deficiency in gift tax, see section 1019.

• • • • •

26 U. S. C. 3614 *Examination of books and witnesses*—(a) *To determine liability of the taxpayer.* The Commissioner, for the purpose of ascertaining the correctness of any return or for the purpose of making a return where none has been made, is authorized, by any officer or employee of the Bureau of Internal Revenue, including the field service, designated by him for that purpose, to examine any books, papers, records, or memoranda bearing upon the matters required to be included in the return, and may require the attendance of the person rendering the return or of any officer or employee of such person, or the attendance of any other person having knowledge in the premises, and may take his testimony with reference to the matter required by law to be included in such return, with power to administer oaths to such person or persons.

• • • • •

26 U. S. C. 3615 *Summons from collector to produce books and give testimony*—(a) *General authority.* It shall be lawful for the collector, subject to the provisions of this section to summon any person to appear before him and produce books at a time and place named in the summons, and to give testimony or answer interrogatories, under oath, respecting any objects or income liable to tax or the returns thereof. The collector may summon any person residing or found within the State or Territory in which his district lies; and when the person intended to be summoned does not reside and can not be found within such State or Territory, he may enter any collection district where such person may be found and there make the examination herein authorized. And to this end he may there exercise all the authority which he might lawfully exercise in the district for which he was commissioned.

• • • • •

26 U. S. C. 3770 *Authority to make abatements, credits, and refunds*—(a) *To taxpayers*—(1) *Assessments and collections generally.* Except as otherwise provided by law in the case of income, war-profits, excess-profits, estate, and gift taxes, the Commissioner, subject to regulations prescribed by the Secretary, is authorized to remit, refund, and pay back all taxes erroneously or illegally assessed or collected, all penalties collected without authority, and all taxes that appear to be unjustly assessed or excessive in amount, or in any manner wrongfully collected.

• • • • •

26 U. S. C. 3793 *Penalties and forfeitures.*

• • • • •

(b) *Fraudulent returns, affidavits, and claims*—(1) *Assistance in preparation or presentation.* Any person who willfully aids or assists in, or procures, counsels, or advises the preparation or presentation under, or in connection with any matter arising under, the internal revenue laws, of a false or fraudulent return, affidavit, claim, or document, shall (whether or not such falsity or fraud is with the knowledge or consent of the person authorized or required to present such return, affidavit, claim, or document) be guilty of a felony, and, upon conviction thereof, be fined not more than $10,000, or imprisoned for not more than five years, or both, together with the costs of prosecution.

• • • • •

18 U. S. C. 1001 *Statements or entries generally.* Whoever, in any matter within the jurisdiction of any department or agency of the United States knowingly and willfully falsifies, conceals or covers up by any trick, scheme, or device a material fact, or makes any false, fictitious or fraudulent statements or representations, or makes or uses any false writing or document knowing the same to contain any false, fictitious or fraudulent statement or entry, shall be fined not more than $10,000 or imprisoned not more than five years, or both. June 25, 1948, c. 645, 62 Stat. 749.

Preamble. 1. These regulations, Regulations 88, "Taxes Relating to Machine Guns and Certain Other Firearms" shall, on and after September 1, 1952, supersede Regulations 88, 1941 edition (26 CFR Part 319, 6 F. R. 4935) and Treasury Decisions 5481 (10 F. R. 12549), 5501 (11 F. R. 2770), and 5632 (13 F. R. 3734).

2. These regulations shall not affect or limit any act done or any liability incurred under any regulations superseded hereby, or any suit, action, or proceeding had or commenced in any civil, administrative, or criminal cause and proceeding prior to the effective date of these regulations, nor shall these regulations release, acquit, affect, or limit any offense committed in violation of previously existing regulations, or any penalty, liability or forfeiture incurred prior to such date.

3. It is found that compliance with the notice and public rule-making procedure and effective date limitations of the Administrative Procedure Act (5 U. S. C.

1001, et seq.), in connection with the issuance of the regulations in this part, (a) is impracticable because the taxes imposed by Public Law 353, 82d Congress, the collection of which is provided for in this part, become effective September 1, 1952, and there is not sufficient time in which to comply with such notice and public rule-making procedure, and (b) is unnecessary for the reason that the provisions of this part are of a technical and clarifying nature and do not adversely affect the legitimate industry.

SUBPART A—SCOPE OF REGULATIONS

§ 319.1 *Persons subject to taxes.* This part, "Regulations 88, Taxes Relating to Machine Guns and Certain Other Firearms", contains the procedural and substantive requirements relative to

(a) The special taxes imposed by Chapter 27, Subchapter A, Part VIII, of the Internal Revenue Code, as amended, on manufacturers and importers of, and dealers (including pawnbrokers) in, certain firearms, including machine guns and silencers or mufflers;

(b) The stamp tax imposed by Chapter 25, Subchapter B, of the Internal Revenue Code, as amended, on transfers of such firearms; and

(c) The stamp tax imposed by Chapter 25, Subchapter B, of the Internal Revenue Code, as amended, on the making of such firearms (other than by qualified manufacturers).

§ 319.2 *Other laws applicable.* Other provisions of the internal revenue laws are made applicable by section 2731 of the Internal Revenue Code to the taxes referred to in § 319.1.

SUBPART B—DEFINITIONS

§ 319.5 *Meaning of terms.* As used in this part, unless the context otherwise requires, terms shall have the meanings ascribed in this subpart.

§ 319.6 *Commissioner.* "Commissioner" shall mean the Commissioner of Internal Revenue.

§ 319.7 *Corporation.* "Corporation" shall include associations, joint-stock companies, and insurance companies.

§ 319.8 *Dealer.* "Dealer" shall mean any person not a manufacturer or importer engaged within the United States in the business of selling firearms. The term "dealer" shall include wholesalers, pawnbrokers, and dealers in used firearms.

§ 319.9 *Director.* "Director" shall mean the Director of Internal Revenue.[1]

[1] In every district reorganized pursuant to Reorganization Plan No. 1 of 1952 (17 F. R. 2243) the office of Collector of Internal Revenue has been abolished and the office of Director of Internal Revenue created in place thereof. Since all offices of the Collector of Internal Revenue are to be abolished and all offices of Director of Internal Revenue created not later than December 1, 1952, the term "Director" is used in this part to denote the officer in charge of a collection district. Where a district has not been reorganized the term "Director" shall be deemed to mean "Collector of Internal Revenue."

§ 319.10 *Exportation.* "Exportation" shall mean the severance of goods from the mass of things belonging to this country with the intention of uniting them to the mass of things belonging to some foreign country.

§ 319.11 *Exporter.* "Exporter" shall mean any person who exports firearms from the United States.

§ 319.12 *Firearm.* "Firearm" shall mean a shotgun or rifle having a barrel of less than eighteen inches in length, or any other weapon, except a pistol or revolver, from which a shot is discharged by an explosive if such weapon is capable of being concealed on the person, or a machine gun, and includes a muffler or silencer for any firearm whether or not such firearm is included within the foregoing definition, but does not include any rifle which is within the foregoing provisions solely by reason of the length of its barrel if the caliber of such rifle is .22 or smaller and if its barrel is sixteen inches or more in length.

§ 319.13 *Importation.* "Importation" shall mean the bringing of a firearm within the limits of the United States or any territory under its control or jurisdiction, from a place outside thereof (whether such place be a foreign country or territory subject to the jurisdiction of the United States), with intent to unlade.

§ 319.14 *Importer.* "Importer" shall mean any person who imports or brings firearms into the United States for sale.

§ 319.15 *Includes and including.* The terms "includes" and "including" when used in a definition shall not be deemed to exclude other things otherwise within the meaning of the term defined.

§ 319.16 *Insular possessions.* "Insular possessions" shall mean the Panama Canal Zone, the Virgin Islands, Guam, Puerto Rico, American Samoa, Wake, the Midway Islands, and Palmyra.

§ 319.17 *I.R.C.* "I.R.C." shall mean the Internal Revenue Code.

§ 319.18 *Interstate commerce.* "Interstate commerce" shall mean transportation from any State or Territory or District, or any insular possession of the United States, to any other State or to the District of Columbia.

§ 319.19 *Machine gun.* "Machine gun" shall mean any weapon which shoots, or is designed to shoot, automatically or semiautomatically, more than one shot, without manual reloading, by a single function of the trigger.

§ 319.20 *Making of a firearm.* The "making of a firearm" as defined in section 2733, Internal Revenue Code (26 U. S. C. 2733) shall mean the production or creation of a firearm by any means, including manufacture, putting together of parts, alteration, any combinations thereof, and any process of manipulation or transformation of any other weapon. Examples: (1) The sawing off of a barrel or barrels of a shotgun to a length of less than 18 inches, or (2) the altering of a semiautomatic pistol by the change or addition of parts so as to produce a fully automatic or machine gun type of firearm.

§ 319.21 *Manufacturer.* "Manufacturer" shall mean any person who is engaged within the United States in the manufacture of firearms, or who otherwise produces therein any firearm for sale or disposition.

§ 319.22 *Muffler or silencer.* "Muffler" or "silencer" shall mean any device for silencing or diminishing the report of any portable weapon, such as a rifle, carbine, pistol, revolver, machine gun, submachine gun, shotgun, fowling piece, or other device from which a shot, bullet, or projectile may be discharged by an explosive, and is not limited to mufflers or silencers for "firearms" as defined.

§ 319.23 *Partnership.* "Partnership" shall include a syndicate, group, pool, joint venture, or other unincorporated organization, through or by means of which any business, financial operation, or venture is carried on, and which is not a trust or estate or a corporation.

§ 319.24 *Partner.* "Partner" shall include a member of a partnership, syndicate, group, pool, joint venture, or unincorporated organization.

§ 319.25 *Person.* "Person" shall mean and includes natural persons, associations, partnerships, corporations and companies.

§ 319.26 *Pistol.* "Pistol" shall mean a small projectile weapon having a short one-hand stock or butt at an angle to the line of the bore and a short barrel or barrels, designed, made and intended to be aimed and fired from one hand.

§ 319.27 *Revolver.* "Revolver" shall mean a small projectile weapon, of the pistol type, having a breechloading chambered cylinder so arranged that the cocking of the hammer or movement of the trigger rotates it and brings the next cartridge in line with the barrel for firing.

§ 319.28 *Secretary.* "Secretary" shall mean the Secretary of the Treasury.

§ 319.29 *Taxpayer.* "Taxpayer" shall mean any person subject to a tax.

§ 319.30 *To transfer or transferred.* "To transfer" or "transferred" shall include to sell, assign, pledge, lease, loan, give away, or otherwise dispose of.

§ 319.31 *United States.* "United States" shall mean the States, the Territories of Alaska and Hawaii, and the District of Columbia.

§ 319.32 *U.S.C.* "U. S. C." shall mean the United States Code.

SUBPART C—SPECIAL (OCCUPATIONAL) TAXES

PAYMENT OF TAX

§ 319.35 *Geographical scope of tax.* Every person who engages in the business of importing, manufacturing, or dealing in firearms within the States of the United States, the Territories of Alaska and Hawaii and the District of Columbia, is required to pay a special tax on such business.

§ 319.36 *Rates of tax.* (a) The special taxes are as follows:

	Per year
Class 1: Importers or manufacturers of firearms, except manufacturers in class 2	$500
Class 2: Manufacturers of firearms whose production is limited to guns with two attached barrels, 12 inches or more but less than 18 inches in length (16 in the case of rifles of .22 caliber or less), from which only a single discharge can be made from either barrel without manual reloading, or guns designed to be held in one hand when fired and having a barrel 12 inches or more but less than 18 inches in length (16 in the case of rifles of .22 caliber or less), from which only a single discharge can be made without manual reloading, or guns of both types	25
Class 3: Pawnbrokers, except those in class 5	300
Class 4: Dealers, other than pawnbrokers, except those in class 5	200
Class 5: Dealers, including pawnbrokers, whose dealing in firearms is limited to guns with two attached barrels, 12 inches or more but less than 18 inches in length (16 in the case of rifles of .22 caliber or less), from which only a single discharge can be made from either barrel without manual reloading, or guns designed to be held in one hand when fired, and having a barrel 12 inches or more but less than 18 inches in length (16 in the case of rifles of .22 caliber or less), from which only a single discharge can be made without manual reloading, or guns of both types	1

(b) The tax year begins July 1 and ends June 30. Persons commencing business between August 1 and June 30 (both dates inclusive) of any tax year must pay a proportionate part of the annual tax. Persons in business for only a portion of a month are liable to tax for the entire month. For example, a person commencing business October 21 must pay tax for nine months, or three-fourths of the yearly rate.

§ 319.37 *Registry, return, and payment of tax.* Every person first engaging in any business mentioned herein must, prior to commencing business, separately for each place of business, register and file return on Form 11A (Firearms) with, and pay the tax to, the Director for the collection district in which such place is located. Thereafter, such person must register, file return, and pay the tax on or before the 1st day of July of each year. The Director will furnish the proper form, which must be filled out and verified under penalty of perjury. Each return must show an individual's full name. A person doing business under a style or trade name must give his own name, followed by his style or trade name. In the case of a copartnership, association, firm, or company, other than a corporation, its style or trade name must be given, also the name of each member and his place of residence. In the case of a corporation, the name and title of each officer and his place of residence must be shown. The exact type of business, whether manufacturer, importer, pawnbroker, or dealer other than pawnbroker, and the period for which special tax is due, must be stated.

§ 319.38 *Tax payment evidenced by special tax stamp.* Upon receipt of a return on Form 11A (Firearms), accompanied by remittance of the full amount due, the Director will issue a special tax stamp as evidence of payment of the special tax. Such payment may be made in the form of cash; United States postal money orders; bank, express, and telegraphic money orders; cashier's and treasurer's checks drawn on National and State banks and trust companies; or certified checks.

§ 319.39 *Superscription on stamp; transmittal to taxpayer.* Directors will distinctly write or print the taxpayer's registered name (see §§ 319.37 and 319.46), and the address of the particular place of business designated by street and number, on the stamp before it is delivered or mailed to the taxpayer. Special tax stamps will be transmitted by ordinary mail, unless it is desired by the taxpayer that they be transmitted by registered mail, in which case the current registry fee will be remitted with the return.

§ 319.40 *Report to Commissioner by Director issuing stamp.* Immediately upon issuance of a special tax stamp the Director will forward to the Commissioner a 3 x 5 card showing the name and address of the taxpayer, the kind and serial number of the special tax stamp issued, the taxable period covered thereby, and the amount of tax paid.

§ 319.41 *Receipt in lieu of stamp forbidden.* Directors and their agents are forbidden to issue receipts in lieu of stamps representing the payment of special taxes.

§ 319.42 *Special tax stamp to be posted.* Every special tax stamp issued to a taxpayer must be kept posted conspicuously on the premises where the business is operated. One who fails so to post a stamp thereby incurs liability to a penalty, equal and in addition to the tax, plus the costs of prosecution; but in no case will the penalty (not including the costs of prosecution) be less than $10. Where the failure is willful the penalty is doubled. This liability is additional to any and all liability otherwise incurred.

§ 319.43 *Certificates in lieu of stamps lost or destroyed.* When a special tax stamp has been lost or destroyed, such fact should be reported to the Director at once for the purpose of obtaining from him a certificate of payment in lieu of the lost or destroyed special tax stamp. Such certificate must be posted in place of the stamp; otherwise liability will be incurred, as above indicated, for failure to post the stamp. (See § 319.42.)

§ 319.44 *Several places of business.* Generally a taxpayer must pay as many special taxes as he has places of business. However, a person paying special tax at his principal place of business may store goods, wares or merchandise at other places than the place of business without incurring special tax at such place of storage. A manufacturer upon a single payment of special tax may sell products of his own manufacture at the place of manufacture and at his principal office or place of business, provided no products, except samples, are kept at said office or place of business. Removal of a business to a new location creates a new liability unless the change of location is registered with the Director, as provided in § 319.51.

§ 319.45 *Dual occupations incur dual liability.* In any case where more than one taxable business is carried on by the same person at the same location at the same time, special tax in respect to each must be paid.

§ 319.46 *Partnership liability.* Any number of persons doing business in copartnership at any one location shall be required to pay but one special tax. In issuing a special tax stamp to a partnership, the Director will show thereon the name of each person disclosed on the partnership's Form 11A (Firearms) followed by the firm or trade name, if any. The issuance by the Director of a special tax stamp in a firm or trade name only is not authorized.

CHANGE OF OWNERSHIP

§ 319.47 *Changes through death of owner.* Whenever any person who has paid special tax dies, the surviving spouse or child, or executors or administrators, or other legal representatives, may carry on such business for the remainder of the term for which tax has been paid without any additional payment, subject to the conditions hereinafter stated. If the surviving spouse or child, or executor or administrator, or other legal representative of the deceased taxpayer continue the business, such person must within 30 days after the date on which the successor begins to carry on the business, file with the Director a new Form 11A (Firearms). The return thus executed must show the name of the original taxpayer, together with the basis of the succession. (As to liability in case of failure to register, see § 319.55.)

§ 319.48 *Changes through bankruptcy of owner.* A receiver or referee in bankruptcy may continue the business under the stamp issued to the taxpayer at the place and for the period for which the tax was paid. An assignee for the benefit of creditors may continue business under his assignor's special tax stamp without incurring additional special tax liability. In such cases, the change must be registered with the Director in a manner similar to that required by § 319.47.

§ 319.49 *Change in firm.* When one or more members of a firm or partnership withdraw, the business may be continued by the remaining partner or partners under the same special tax stamp for the remainder of the period for which the stamp was issued to the old firm. The change shall, however, be registered in the same manner as required in § 319.47. Where new partners are taken into a firm, the new firm so constituted may not carry on business under the special tax stamp of the old firm. The new firm must make return and pay its own special tax reckoned from the 1st day of the month in which it began business, even though the name of such firm be the same as that of the old. Where the members of a partnership which has paid special tax form a

corporation to continue the business, a new special tax stamp must be taken out in the name of the corporation.

§ 319.50 *Change in corporation.* Additional special tax is not required by reason of a mere change of name or increase in the capital stock of a corporation if the laws of the State of incorporation provide for such change or increase without the formation of a new corporation. A stockholder in a corporation who after its dissolution continues the business incurs new special tax liability.

CHANGE OF BUSINESS LOCATION

§ 319.51 *Notice by taxpayer.* Whenever a special-tax payer removes his business to a location other than specified in his last special tax return (see § 319.37), he shall, within 30 days after the date of removal, register the change of location with the Director of the collection district within which the old place of business is located, by filing another return, Form 11A (Firearms), and designated "removal registry", setting forth the time of removal. The taxpayer's special tax stamp must accompany the return for notation by the Director of the change of location. As to liability in case of failure to register a change of location within 30 days, see § 319.55.

§ 319.52 *Procedure by Director; removal within collection district.* When registration is made by a special-tax payer in the manner specified in § 319.51, of the removal of his business to a new location in the same collection district, the Director will enter on his Record 10 (see § 319.59) the place to which such removal was made and the date of the removal. The same information shall also be entered plainly on the face of the special tax stamp, which will be returned to the taxpayer, by the Director, for posting.

§ 319.53 *Procedure by Director; removal to another collection district.* In case of removal to another collection district, the Director will note the transfer on his Record 10, stating the location to which the business was removed, and shall then transmit the special tax stamp to the Director for the collection district to which said business was removed. The latter will make an entry on his Record 10 as in the case of an original registration in his district, correct the location shown on the stamp, and note also thereon his name, title, date, and collection district, and then forward the stamp to the taxpayer.

PENALTIES

§ 319.54 *Failure to pay special tax.* Persons carrying on a business within the scope of section 3260, I. R. C. (26 U. S. C. 3260) without payment of special tax within the time prescribed (see § 319.37) are liable, in addition to the amount of the tax and other penalties, to fine and imprisonment as provided in section 2729, I. R. C. (26 U. S. C. 2729).

§ 319.55 *Failure to register change or removal.* Any person succeeding to and carrying on a business for which special tax has been paid, and any taxpayer removing his business with respect to which special tax has been paid to a place other than that for which tax was paid, without registering such change or removal within 30 days thereafter, will be liable to the additional tax and penalty prescribed in section 3612 (d), I. R. C. (26 U. S. C. 3612 (d)) for failure to make return (see § 319.56), as well as to fine and imprisonment for carrying on business without payment of special tax, (See § 319.54.)

§ 319.56 *Delinquency.* In case of failure to file a return within the prescribed time, a certain percentage of the amount of the tax is added to the tax unless the return is later filed and failure to file the return within the prescribed time is shown to the satisfaction of the Commissioner to be due to reasonable cause and not to willful neglect. The amount to be added to the tax is 5 percent if the failure is for not more than 30 days, with an additional 5 percent for each additional 30 days or fraction thereof during which failure continues, not to exceed 25 percent in the aggregate.

(53 Stat. 437; 26 U. S. C. 3612)

§ 319.57 *Fraudulent return.* If a false or fraudulent return is filed, the taxpayer is liable to an additional amount equal to 50 percent of the total tax. If a person liable to tax for an entire year falsely states in his return that he is liable for a portion only of the year, the return is false not only as to the portion of the year not covered but as to the portion falsely represented as the actual period of liability.

(53 Stat. 437; 26 U. S. C. 3612)

APPLICATION OF STATE LAWS

§319.58 *State regulations.* Special tax stamps are merely receipts for the tax. Payment of tax under Federal law confers no privilege to act contrary to State law. One to whom a special tax stamp has been issued may still be punishable under a State law prohibiting or controlling the manufacture or transfer of firearms. On the other hand, compliance with State law confers no immunity under Federal law. Persons who engage in the manufacture, or transfer, of firearms, in violation of the law of a State, are nevertheless required to pay special tax as imposed under the internal revenue laws of the United States.

RECORD OF SPECIAL TAXPAYERS FOR PUBLIC INSPECTION

§ 319.59 *Record 10.* Each Director shall prepare and keep for public inspection, on Record 10, an alphabetical list of the names of all persons who have paid special taxes within his district. Record 10 will show the time, place, and business for which such special taxes have been paid. Upon application of any prosecuting officer of any State, county, or municipality, the Director will furnish a certified copy of Record 10, for which a fee of $1 for each one hundred words or fraction thereof in such certified copy or copies may be charged.

SUBPART D—TAX ON MAKING FIREARMS

§ 319.65 *Scope of tax.* Except as otherwise provided (see §§ 319.72, 319.73, and 319.74) the making in the United States of any firearm (whether by manufacture, putting together, alteration, any combination thereof, or otherwise) is subject to tax to be represented by an adhesive stamp bearing the words "Firearms Act." In every case the tax shall be paid by the person making the firearm and such tax shall be paid in advance of the making of the firearm. (See §§ 319.67, 319.130 and 319.131.)

§ 319.66 *Rate of tax.* The tax on the making of firearms is at the rate of $200 for each firearm, except that the rate of tax is $1 upon the making of any gun with two attached barrels, 12 inches or more but less than 18 inches in length (16 in the case of rifles of .22 caliber or less), from which only a single discharge can be made from either barrel without manual reloading, or any gun designed to be held in one hand when fired and having a barrel 12 inches or more but less than 18 inches in length (16 in the case of rifles of .22 caliber or less), from which only a single discharge can be made without manual reloading.

DECLARATION OF INTENT TO MAKE A FIREARM

§ 319.67 *Written declaration.* Except as provided in §§ 319.72, 319.73 and 319.74 every person intending to make a firearm must declare his intention in writing on Form 1A (Firearms) to make such firearm. The declaration shall show (a) the name and address of the maker, and, if the maker is other than a natural person, the name and address of the principal officer or authorized representative thereof; (b) the serial number, model, length of barrel, trade name, and other marks identifying the firearm; (3) the place where the firearm will usually be kept; and (4) such additional information as may be required on Form 1A (Firearms). A "Firearms Act" stamp of the proper denomination (see § 319.66) must be affixed to the original declaration, in the space provided therefor, and properly canceled (see § 319.71).

§ 319.68 *Identification and character certification.* If the declarant is an individual, he shall attach to each copy of the declaration an individual photograph of himself, taken within 90 days prior to the date of such declaration, and shall affix his fingerprints to such declaration. The fingerprints must be clear for accurate classification and should be taken by some one properly equipped to take them. The declaration must be supported by a certificate of the local chief of police, sheriff of the county, United States attorney, United States marshal, or such other person whose certificate may in a particular case be acceptable to the Commissioner, certifying that he is satisfied that the fingerprints and photograph appearing on the declaration are those of the declarant and that the firearm is intended by such person for lawful purposes.

§ 319.69 *Requirements for approval of declaration.* The declaration of intent to make a firearm, Form 1A (Firearms), must be forwarded, in duplicate, by the maker of the firearm direct to the Commissioner of Internal Revenue, Washington, D. C. The Commissioner, if satisfied that the forms have been correctly prepared, that the original bears the required stamp, properly canceled, and that the fingerprints are clear enough for accurate classification, will approve it as to form, return the original to the maker of the firearm and retain the duplicate. Upon receipt of the approved declaration of intent to make a firearm, the maker is authorized to make the firearm, described therein. The maker of the firearm shall not, under any circumstances, make the firearm until the declaration, satisfactorily executed, with the "Firearms Act" stamp attached, has been forwarded to the Commissioner and returned by him.

§ 319.70 *Subsequent transfer of firearm.* Where a firearm which has been made in compliance with section 2734, I. R. C. (26 U. S. C. 2734), is to be subsequently transferred, the transfer provisions of the firearm laws and regulations must be complied with. The order form, Form 4 (Firearms), covering such proposed transfer must, when filed with the Commissioner, be accompanied by the previously approved declaration of intent to make such firearm. Such order form and approved declaration of intent to make the firearm will be returned by the Commissioner to the transferor for delivery to the transferee at the time the firearm is transferred.

§ 319.71 *Cancellation of stamp.* The person affixing to a declaration a "Firearms Act" stamp shall cancel it by writing or stamping thereon, in ink, his initials, and the day, month and year, or shall, by cutting with a machine or punch, affix his initials and the date as aforesaid, in such manner as to render it unfit for reuse. The cancellation shall not so deface the stamp as to prevent its denomination and genuineness from being readily determined.

(53 Stat. 201; 26 U. S. C. 1816)

EXCEPTIONS TO TAX ON MAKING FIREARMS

§ 319.72 *Registered manufacturers.* The tax on the making of a firearm and the requirements as to use of a form declaring the intention to make a firearm are not applicable to manufacturers who have paid special tax and registered as required by section 3260 (a) (1), I. R. C. (26 U. S. C. 3260 (a) (1)), and section 3261 (a), I. R. C. (26 U. S. C. 3261 (a)). However, such manufacturers must keep the records required by § 319.115 and make the returns required by § 319.116.

§ 319.73 *Altering a firearm which has previously been taxed.* No tax will be imposed on the making of a firearm if such making involves the alteration or conversion of a firearm with respect to which a tax has been paid, prior to such making, under either section 2720 (a), I. R. C. (26 U. S. C. 2720 (a)), or under section 2734 (a), I. R. C. (26 U. S. C. 2734 (a)). However, the person so altering or converting such firearm shall notify the Commissioner in writing immediately thereafter, giving a complete description of the firearm so altered or converted and indicating the changes made.

§ 319.74 *Making a firearm for use of Government agencies, peace officers and Federal officers.* The tax on the making of a firearm and the requirements as to use of a form declaring the intention to make a firearm are not applicable to any person making a firearm for the use of (a) the United States Government, any State, Territory, or possession of the United States, any political subdivision thereof, or the District of Columbia, or (b) any peace officer or any Federal officer designated in § 319.90. However, the person making such firearm shall notify the Commissioner in writing immediately thereafter giving a complete description of the firearm so made.

SUBPART E—TRANSFER TAX

§ 319.80 *Scope of tax.* Except as otherwise provided (see §§ 319.89 and 319.90), each transfer of a firearm in the United States is subject to tax to be represented by an adhesive stamp bearing the words "Firearms Act" to be affixed to the order for the firearm. (See §§ 319.83, 319.130, and 319.131.)

§ 319.81 *Rate of tax.* The transfer tax to be levied, collected, and paid with respect to all articles within the term "firearm" transferred in the United States is at the rate of $200 for each firearm, except that the rate of tax is $1 upon the transfer of any gun with two attached barrels, 12 inches or more but less than 18 inches in length (16 in the case of rifles of .22 caliber or less), from which only a single discharge can be made from either barrel without manual reloading, or any gun designed to be held in one hand when fired and having a barrel 12 inches or more but less than 18 inches in length (16 in the case of rifles of .22 caliber or less), from which only a single discharge can be made without manual reloading. In every case the tax shall be paid by the transferor.

§ 319.82 *Transfer tax in addition to import duty.* The transfer tax imposed by section 2720 (a), I. R. C. (26 U. S. C. 2720 (a)), is in addition to any import duty. (See § 319.107.)

ORDER FORM FOR TRANSFER OF FIREARMS

§ 319.83 *Written order required for transfer of firearm.* Except as otherwise provided, every person seeking to obtain a firearm must make an application in duplicate to the transferor on order Form 4 (Firearms). The application shall show (a) the name and address of the applicant, and, if the applicant is other than a natural person, the name and address of the principal officer or authorized representative thereof; (b) the place where the firearm will usually be kept; and (c) such additional information as may be required on Form 4 (Firearms). A "Firearms Act" stamp of the proper denomination (see § 319.81) must be affixed to the original order form, in the space provided therefor, and properly canceled (see § 319.88).

§ 319.84 *Identification of applicant.* If the applicant is an individual, he shall attach to each copy of the application an individual photograph of himself, taken within 90 days prior to the date of such application, and shall affix his fingerprints to such application. The fingerprints must be clear for accurate classification and should be taken by some one properly equipped to take them. The application must be supported by a certificate of the local chief of police, sheriff of the county, United States attorney, United States marshal, or such other person whose certificate may in a particular case be acceptable to the Commissioner, certifying that he is satisfied that the fingerprints and photograph appearing on the application are those of the applicant and that the firearm is intended by the applicant for lawful purposes.

§ 319.85 *Identification of firearm.* The transferor must furnish the information called for on the form relating to the serial number, model, trade name, and other marks identifying the firearm.

§ 319.86 *Requirements for approval of application.* The application for transfer, order Form 4 (Firearms), must be forwarded, in duplicate, by the transferor direct to the Commissioner of Internal Revenue, Washington, D. C. The Commissioner, if satisfied that the form has been correctly prepared, and that the original bears the required stamp, properly canceled, will approve it as to form, return the original to the transferor for delivery to the applicant, and will retain the duplicate. Upon receipt of the approved order form, the transferor may deliver the firearm to the applicant, together with the original order form with the "Firearms Act" stamp attached thereto.

§ 319.87 *Subsequent transfer of firearm.* Where a firearm transferred on or after July 26, 1934, is to be subsequently transferred, the new order form covering such proposed transfer must, when filed with the Commissioner, be accompanied by the previously approved order form for each prior transfer and by any declaration of intent to make a firearm, Form 1A (Firearms), previously filed with respect to the firearm transferred. Such order forms and any declaration of intent will be returned by the Commissioner with the latest order form to the transferor for delivery to the applicant.

§ 319.88 *Cancellation.* The person affixing a "Firearms Act" stamp shall cancel it by writing or stamping thereon, in ink, his initials, and the day, month, and year, or shall, by cutting with a machine or punch, affix his initials and the date as aforesaid, in such manner as to render it unfit for reuse. The cancellation shall not so deface the stamp as to prevent its denomination and genuineness from being readily determined.

(53 Stat. 201; 26 U. S. C. 1816)

EXEMPTION FROM USE OF ORDER FORMS

§ 319.89 *Special-tax payers.* The transfer tax and the requirements as to use of order forms (see § 319.83) are not applicable where importers, manufacturers, and dealers who have registered and paid special tax transfer to other manufacturers or dealers who have registered and paid special tax. However, such importers, manufacturers, and dealers must keep the records required by § 319.115, and make returns required by § 319.116. Before a tax-free transfer is made, the transferor must satisfy himself that the transferee is a registered special-tax payer. If not fully satisfied,

he should communicate with the Director of the collection district in which the transferee is located. Where tax-free transfers to unauthorized persons are made, tax and penal liability will be incurred.

§ 319.90 *Peace officers and Federal officers.* The following are hereby designated as officers entitled to receive firearms without order forms: Sheriffs, chiefs of police, commissioners of police, superintendents or other chief officers of State police units, including State highway patrols, and directors of public safety. Additional officers may be designated by the Commissioner from time to time as in his judgment seems proper. Order forms are not required for procurement of firearms by Federal law enforcement agencies.

§ 319.91 *Application for exemption.* Where a transfer is claimed to be exempt from tax under section 2721 (a), I. R. C. (26 U. S. C. 2721 (a)), an application for exemption must be immediately executed by the transferor in triplicate on Form 5 (Firearms), and the original forwarded to the Commissioner of Internal Revenue, Washington, D. C., the duplicate retained by the transferor, and the triplicate furnished to the transferee. The application must show the name and address of the transferor and transferee, a description of the firearm, the date of the transfer, the basis of the exemption claimed and any other evidence which the Commissioner may require.

§ 319.92 *Responsibility of transferor for exempt status of transferee.* Transfers under section 2721 (a), I. R. C. (26 U. S. C. 2721 (a)) may be made prior to forwarding Form 5 (Firearms) to the Commissioner. However, before a tax-free transfer is made, the transferor should satisfy himself of the exempt status of the transferee and the bona fides of the transaction. If not fully satisfied, he should communicate with the Commissioner and report all the circumstances and await the Commissioner's advice before making the transfer. If transfers to unauthorized persons, or transfers otherwise unwarranted, are made, tax and penal liability will be incurred.

SUBPART F—REGISTRATION AND IDENTIFICATION OF FIREARMS

§ 319.100 *Registration of firearm.* Every person in the United States possessing a firearm (a) not already registered, or (b) acquired by transfer, importation or making without conforming with the provisions of Subchapter B, Chapter 25 and Part VIII, Subchapter A, Chapter 27, of the Internal Revenue Code, as amended, (sections 2720–2734 and 3260–3266 I. R. C.; 26 U. S. C. 2720–2734; 3260–3266) if such provisions were applicable at the time of such transfer, importation or making, must register such firearm on Form 1 (Firearms), in duplicate, with the Director for the collection district in which such person resides. The duplicate form, after proper endorsement, will be returned to the registrant by the Director and the original forwarded to the Commissioner. The filing of Form 1A (Firearms) in respect to the making of a firearm, Form 2 (Firearms) in respect of newly manufactured firearms and Form 6 (Firearms) in respect of imported firearms shall be deemed to constitute registration of the firearms described in such forms. Where the transfer of a registered firearm is reported on Forms 3, 4 and 5 (Firearms) it will not be necessary for the transferee to register the firearm on Form 1 (Firearms).

§ 319.101 *Identification of firearms.* Each manufacturer and importer of a firearm shall identify it by stamping, or otherwise conspicuously placing or causing to be stamped or placed thereon, in a manner not susceptible of being readily obliterated or altered, the name and location of the manufacturer or importer, and the serial number, caliber, and model of the firearm. None of the data indicated may be omitted except with the approval of the Commissioner.

SUBPART G—IMPORTATION AND EXPORTATION[3]

IMPORTATION

§ 319.105 *Procedure.* The burden of proof is affirmatively on any person importing or bringing a firearm into the United States, Puerto Rico, or the Virgin Islands, to show to the satisfaction of the Secretary, prior to importation (see § 319.13), that the firearm is to be lawfully used and is unique or of a type unobtainable within the United States or such territory or possession. One desiring to import or bring a firearm into the United States, Puerto Rico, or the Virgin Islands shall file application in duplicate on Form 6 (Firearms) with the Commissioner of Internal Revenue. The application shall show the intended port or place of importation and describe the firearm intended for importation accurately and in detail, including, as far as practicable, the data indicated by § 319.101. The reasons for the proposed importation and the purposes for which the firearm is intended must be clearly shown. If uniqueness is claimed, it must be specifically indicated in what particulars the firearm is unique. If the application is based on alleged unobtainability, the differences between the desired firearm and other firearms of the same general character obtainable without importation must be clearly shown. The applicant will be notified of the approval or disapproval of the application. If it is approved, the certificate will be returned to the applicant to be filed with the collector of customs at the port of importation. Collectors of customs will not permit release of the firearm from customs custody, except for exportation, unless covered by an approved application.

§ 319.106 *Importation into territory or possession.* The importation of firearms into a territory or possession of the United States other than United States (as defined in § 319.31), Puerto Rico, or the Virgin Islands will be under the control of the governing authorities of such territory or possession. (See § 319.111.)

§ 319.107 *Tax on transfer of imported firearm.* Any person importing or bringing a firearm into the United States is subject to tax upon the subsequent transfer of such firearm, which tax is additional to any duty upon the importation of the firearm: Provided, however, an importer who has registered and paid special tax and has otherwise complied with the requirements of Chapter 25, Subchapter B, and Chapter 27, Subchapter A, Part VIII, I. R. C., as amended, (sections 2720–2734 and 3260–3266 I. R. C.; 26 U. S. C. 2720–2734; 3260–3266) and who transfers a firearm to a registered special-tax payer will not be required to pay transfer tax on such transfer.

EXPORTATION

§ 319.108 *Application for exemption from tax.* Any person desiring to export a firearm free of transfer tax must file with the Commissioner an application on Form 5 (Firearms), in duplicate, for exemption certificate. The application shall be supported by a certified copy of a written order or contract of sale or other evidence showing that the firearm is to be shipped to a foreign destination. Where it is desired that a transfer to the exporter shall be tax free, the transferor shall likewise file an application for a certificate of exemption supported by evidence that the transfer will start the firearm in course of exportation, (see § 319.10) except, however, that where such transferor and exporter are registered special-tax payers the transferor will not be required to file an application on Form 5 (Firearms).

§ 319.109 *Requirements for exemption from tax.* If the application is approved, the Commissioner will execute the exemption certificate and return the duplicate to the applicant. Shipment shall not be made without payment of transfer tax until the approved certificate is received. Issuance of the certificate will suspend assertion of tax liability for a period of six months from the date of issuance. Within this 6-month period the exporter shall furnish to the Commissioner satisfactory evidence of exportation consisting of (a) a copy of the export bill of lading, or (b) a certificate by the agent or representative of the export carrier showing actual exportation of the article, or (c) a certificate of mailing issued by the Post Office; and (d) a certificate of landing signed by a customs officer of the foreign country to which the article is exported, or (e) a sworn statement of the foreign consignee covering the receipt of the article, or (f) the return receipt, or a photostat copy thereof, signed by the addressee or his agent where the shipment was made by insured or registered parcel post. Issuance of exemption certificates and furnishing of the required evidence will relieve from liability the actual exporter (see § 319.11) and one selling to the exporter for export. Where satisfactory evidence of actual exportation is not

[3] Persons engaged in the business of importing or exporting firearms caliber .22 or larger are subject to the requirement of a license issued by the Secretary of State. Application for such license should be made to the Munitions Division, Department of State, Washinton 25, D. C., prior to importing or exporting firearms.

furnished within the stated period the tax will be assessed.

§ 319.110 *Refunds.* Where, after payment of tax by the manufacturer, a firearm is exported, a claim for refund may be submitted on Form 843. (See § 319.141.) If a manufacturer waives all claim for refund of tax paid on a firearm which is exported, refund may be made to the exporter. A claim for refund by an exporter of tax paid by a manufacturer should be accompanied by waiver of the manufacturer and proof of tax payment by the latter.

§ 319.111 *Insular possessions.* Transfers of fire arms to persons in the insular possessions (other than Hawaii) of the United States are exempt from transfer tax, provided title in cases involving change of title (and cutody or control, in cases not involving change of title), does not pass to the transferee or his agent in the United States. However, such exempt transactions must be covered by approved exemption certificates and supporting documents corresponding to those required in the case of firearms exported to foreign countries, except that the Commissioner may vary the requirements herein set forth in accordance with the requirements of the governing authority of the insular possession. Exemption certificates covering shipments to the insular possessions will not be approved without compliance with the requirements of the governing authorities thereof. In the case of a nontaxable transfer to a person in such insular possession, the exemption extends only to such transfer and not to prior transfers.

SUBPART H—RECORDS AND RETURNS

§ 319.115 *Records.* Every manufacturer, importer, and dealer (including pawnbroker) shall make and keep at his place of business a record showing (a) the manufacture, receipt, transfer, or other disposition of all firearms taxable under the Code, (b) the date of such manufacture, receipt, transfer, or disposition, (c) the number, model, and trade name or other mark identifying each firearm, and (d) the name and address of the person to whom any firearm is transferred, or otherwise conveyed. This record must be preserved for a period of at least four years from the date of disposition of the firearm, and be at all times readily accessible for inspection.

§ 319.116 *Returns.* Immediately upon the manufacture, receipt, transfer, or other disposition of any firearm every manufacturer, importer, dealer other than pawnbroker, and pawnbroker shall execute an accurate return on either Form 2 (Firearms) or Form 3 (Firearms), in duplicate, setting forth the information called for in § 319.115. All transactions occurring during a single day may be included in one return filed at the close of that business day. The original will be forwarded to the Commissioner, and the duplicate will be retained by the person making the return for a period of four years and be at all times readily accessible for inspection. Return forms will be supplied by Directors upon application.

SUBPART I—STOLEN OR LOST FIREARMS OR DOCUMENTS

§ 319.120 *Stolen or lost firearms.* Whenever any firearm is stolen or lost, the person losing possession thereof will, immediately upon discovery of such theft or loss, make a report to the Commissioner of Internal Revenue, Washington, D. C., showing the following: (a) Name and address of the person in whose name the firearm is registered, (b) kind of firearm, (c) serial number, (d) model, (e) caliber, (f) manufacturer of firearm, (g) date and place of theft or loss, and (h) complete statement of facts and circumstances surrounding such theft or loss.

§ 319.121 *Stolen or lost documents.* When any order form, declaration of intent to make a firearm, certificate of registry, exemption certificate, or other document evidencing possession of a firearm is stolen, lost, or destroyed, the person losing possession will immediately upon discovery of the theft, loss, or destruction report the matter to the Commissioner of Internal Revenue, Washington, D. C. The report will show in detail the circumstances of the theft, loss, or destruction and will include all known facts which may serve to identify the document. Upon receipt of the report, the Commissioner will make such investigation as appears appropriate and may issue a duplicate document upon such conditions as the circumstances warrant.

SUBPART J—EXAMINATION OF BOOKS AND RECORDS

§ 319.125 *Failure to make returns; substitute returns.* If any person required by this part to make returns shall fail or refuse to make any such return within the time prescribed by this part or designated by the Commissioner, then the return shall be made by an internal revenue officer upon inspection of the books, but the making of such return by an internal revenue officer shall not relieve the person from any default or penalty incurred by reason of failure to make such return.

(53 Stat. 437; 26 U. S. C. 3612)

§ 319.126 *Inspection of records.* Any officer designated by the Commissioner shall have authority to examine the books, papers, and records kept pursuant to these regulations, and may require the production of any books, records, papers or statements of account necessary to determine any liability to the tax or the observance of the provisions of this part.

(53 Stat. 438, 439; 26 U. S. C. 3614 and 3615)

§ 319.127 *Penalties (records and returns).* Any person failing to keep records or make returns is liable to fine and imprisonment as provided in section 2729, I. R. C. (26 U. S. C. 2729). Any person assisting in the preparation of fraudulent returns is liable to fine and imprisonment as provided in section 3793 (b) (1), I. R. C. (26 U. S. C. 3793).

SUBPART K—DISTRIBUTION AND SALE OF STAMPS

§ 319.130 *Orders for stamps.* Each order for stamps to be used under this part shall be made in writing to the Director or his duly authorized agent in the internal revenue collection district in which the stamps are to be used, showing the date of the order, the number of Firearms stamps applied for, and the name and address of the purchaser, and shall be signed in ink by the purchaser. The Director shall preserve the orders for stamps sold by him for at least four years.

§ 319.131 *Stamps authorized.*—One dollar and $200 adhesive stamps bearing the words "Firearms Act" have been prepared and distributed to Directors, and only such stamps shall be used for the payment of the transfer tax and for the tax on the making of a firearm.

§ 319.132 *Reuse of stamps prohibited.* A stamp once affixed to one instrument can not lawfully be removed and affixed to another.

(53 Stat. 203; 26 U. S. C. 1823)

SUBPART L—ASSESSMENT AND COLLECTION OF TAX

§ 319.135 *Assessment of taxes not paid by stamp.* In cases where the transfer tax has not been paid and the taxpayer refuses to execute Form 4 (Firearms) and affix the stamp, the transfer tax shall be reported for assessment. When an assessment is paid, a receipt on Form 1 will be issued. In those instances where stamps are purchased and affixed to the order, a receipt on Form 1 will not be issued. Special tax and the tax on the making of a firearm which the taxpayer refuses or fails to pay may likewise be reported for assessment.

SUBPART M—REDEMPTION OF OR ALLOWANCE FOR STAMPS OR REFUNDS

§ 319.140 *Procedure for redemption of or allowance for stamps.* Where a firearms stamp is destroyed, mutilated or rendered useless after purchase, and before liability has been incurred, such stamp may be redeemed by giving another stamp in lieu thereof or by refunding the amount or value thereof. In the event a declaration of intent to make a firearm, Form 1A (Firearms), or an order form for transfer of a firearm, Form 4 (Firearms), is executed and the appropriate stamp affixed, and thereafter the intent to make a firearm or the proposed transfer is abandoned and the firearm is not made or transferred, the taxpayer may redeem such stamp (section 3304, I. R. C.; 26 U. S. C. 3304). Claim for redemption of the stamp should be filed on Form 843 with the Director of internal revenue for his district. Such claim must be accompanied by the declaration of intent or the order form for transfer to which the stamp is affixed, or by a satisfactory explanation of the reason why the stamp cannot be returned, and must be filed within four years after the purchase of the stamp.

§ 319.141 *Refunds.* As indicated in this part, the transfer tax or tax on the making of a firearm is ordinarily paid by the purchase and affixing of stamps, while special tax stamps are issued in payment of special taxes. However, in exceptional cases, such taxes may be paid pursuant to assessment. (See

§ 319.135.) Claims for refund of amounts so paid must be presented to the Director on Form 843 within four years next after payment of the taxes.

(53 Stat. 464; 26 U. S. C. 3770)

Effective date. The regulations in this part shall be effective as of September 1, 1952.

[SEAL] JOHN B. DUNLAP,
Commissioner of Internal Revenue.

Approved: August 22, 1952.

THOMAS J. LYNCH,
Acting Secretary of the Treasury.

[F. R. Doc. 52-9471; Filed, Aug. 27, 1952; 8:54 a. m.]

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter III—Office of Price Stabilization, Economic Stabilization Agency

[General Overriding Regulation 33]

GOR 33—ADJUSTMENTS FOR WHOLESALERS AND RETAILERS UNDER SECTION 402 (k) OF THE ACT

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this General Overriding Regulation is hereby issued.

STATEMENT OF CONSIDERATIONS

Section 402 (k) of the Defense Production Act, the so-called Herlong Amendment, provides in part:

> No rule, regulation, order or amendment thereto shall be issued or remain in effect under this title, which shall deny sellers of materials at retail or wholesale their customary percentage margins over costs of the materials or their customary charges during the period May 24, 1950, to June 24, 1950, or on such other nearest representative date determined under section 402 (c), as shown by their records during such period. • • •

Previously this section was applicable only to regulations issued after July 31, 1951. That limitation has now been removed.

It is thus apparent that the intention of section 402 (k) as amended is that all sellers at wholesale and retail be given their customary margins or charges as soon as practicable. The words, "or other customary charges" formerly absent from this section, were added to make clear that where wholesalers and retailers of commodities have not customarily operated during the pre-Korean period on the basis of a percentage margin, OPS regulations must conform to the customary pricing practices of such sellers. See House Reports No. 2177 (Report from the Committee on Banking and Currency) and No. 2352 (Conference Report), 82d Cong., 2d Sess. The hearings before the Senate Committee on Banking and Currency on the 1952 amendments disclosed that the margins under most ceiling price regulations, even those issued prior to the passage of section 402 (k), already conform with the margin requirements of that section (see Senate Report No. 1599, 82d Cong., 2d Sess.).

It is recognized that the number of trade groups and products covered by the section is so large, and the facts with respect to them so diverse and complex, that it is possible that the Director may not be in possession of all relevant data in each industry affected by the amendment. Sellers who believe that a regulation does not comply with the amendment are required to show from their records that the appropriate margins or charges have not actually been allowed. This general overriding regulation is being issued to provide a procedure by which any retailer or wholesaler may apply for an adjustment of the ceiling prices for his industry to bring them into conformity with the amendment.

Consistent with the intention of Congress in adopting the Herlong Amendment, this regulation does not provide for adjustments for individual sellers or products but rather for groups of sellers comprising an industry or for groups of products sold by an industry. It sets forth general standards for use in determining industry or trade groupings, and explanations of allowable "customary margins or charges" and of the "cost of commodities" upon which those margins or charges may be taken.

In addition it sets forth in general terms what information must be submitted in an application under the regulation. In some cases it may be necessary to obtain information in addition to that specified in the regulation in order to apply properly the standards established by the act to a particular industry. The nature of this additional information will vary with the special problems of the industry involved. In view of this fact, the regulation specifically provides that the Director may request additional information. If it is shown that the industry for which the application is filed realized a customary margin or charge in a representative pre-Korean period, and the ceiling prices established for that industry do not permit it to realize this customary margin or charge, ceiling prices will be established for that industry which reflect that customary margin or charge. A customary margin or charge must be evidenced by a pattern of cost-price relationships over a period of time.

The wide coverage of this regulation and special circumstances attending its formulation have made it impracticable to consult with industry representatives, including trade association representatives.

So far as practicable the Director of Price Stabilization gave due consideration to the national effort to achieve maximum production in furtherance of the objectives of the Defense Production Act of 1950, as amended, and to relevant factors of general applicability.

REGULATORY PROVISIONS

Sec.
1. What this regulation does.
2. Eligibility to apply.
3. Industry; customary margin or charge; cost of commodities.
4. Information to be submitted.
5. What action may be taken on your application.
6. Geographical applicability.

AUTHORITY: Sections 1 to 6 issued under sec. 704, 64 Stat. 816 as amended; 50 U. S. C. App. Sup. 2154. Interpret or apply Title IV, 64 Stat. 803, as amended; 50 U. S. C. App. Sup. 2101-2110. E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR 1950 Supp.

SECTION 1. *What this regulation does.* (a) This regulation provides a procedure under which retailers and wholesalers may apply for an adjustment of the ceiling prices of their industry established under any regulation which they believe fails to comply with section 402 (k) of the act. In addition, this regulation sets out the general basis on which applications will be granted or denied.

(b) This regulation does not provide for adjustments for individual retailers or wholesalers. An adjustment will be granted under this regulation only if it appears that the industry of which the applicant is a member is denied the margins or charges provided in section 402 (k) of the act. Moreover, this regulation does not apply to any specific commodity which is in short supply as evidenced by specific government action to encourage production of the commodity and as to which the customary margins of retailers or wholesalers have been reduced to the extent found by OPS in writing to be generally equitable and proportionate in relation to the general reductions in the customary margins of all other classes of persons concerned in the production and distribution of the commodity.

SEC. 2. *Eligibility to apply.* (a) If you are a retailer or wholesaler, you may apply for an adjustment of the ceiling prices of your industry if you believe that those prices do not reflect the industry's customary margins or charges during the period May 24, 1950 to June 24, 1950, or other representative period determined in accordance with section 4 (d). If more than one retailer or wholesaler in the same industry files an application under this regulation, the Director may, if he deems it appropriate, consolidate the applications.

(b) For the purposes of this regulation a person is a retailer or a wholesaler to the extent that he purchases and resells a commodity without substantially altering its form or to the extent that he sells commodities to ultimate consumers other than (1) government and institutional consumers and (2) consumers who purchase for consumption in the course of trade or business.

(c) General standards for determining industry or trade groupings and an explanation of the term "customary margin or charge" are set forth in section 3.

SEC. 3. *Industry; customary margin or charge; cost of commodities.*—(a) *Industry.* This regulation is intended to permit the filing of an application to maintain a customary margin or charge for groups of sellers constituting an industry or for groups of products sold by an industry rather than for any individual seller or any individual product.

Example 1. An individual seller of a particular commodity used a percentage margin of 40 percent during May–June, 1950. Practically all other sellers of this commodity customarily used a 30 percent markup during this period. The individual seller is not entitled to relief under this regulation if his ceiling prices of the commodity show a markup of 30 percent.

For purposes of this regulation, the Director will use the following as a guide to determining industry or trade groupings:

An industry is a group of wholesalers or retailers with certain common characteristics which set them off from the rest of the distributive trades. These common characteristics relate to the commodities—and the assortment of commodities—which they sell. Sellers of the same commodity may be subdivided into several groups, each of which is an industry, depending, for example, on the marketing methods which each group uses. When an adjustment is determined to be required under this regulation the definition of the industry will have to be developed in terms of commodities as well as firms. It is recognized that the typical industry includes both single line and multiple line resellers, and that multi-product resellers may differ among themselves as to the variety of their commodities and the manner in which their operations overlap with different groups of single-line resellers. It will be necessary in many cases to regard a multi-product reseller as being part of two or more industries, e. g., a grocery market selling household appliances or nylon hose may be both in the retail grocery industry and in the retail consumer goods industry.

The preceding statement is intended only as a basic guide and it is recognized it may not be suitable for all cases. You may, therefore, in your application suggest another basis for grouping. If you do so, you must state the reasons why that basis should be used.

(b) *Customary margin or charge.* The customary margin or charge is one which was actually used by resellers generally in determining selling prices and is not a nominal or fictitious margin or charge used to establish prices which few buyers actually paid.

Example 1. During the base period distributors customarily listed a price representing a 40-percent markup over the costs of certain goods. However, they made all sales at a so-called "discount" from the listed price, the actual sales price at which the goods were first offered representing a 30-percent markup over cost. The customary margin is 30 percent.

Example 2. In July, 1947, the net invoice cost of Commodity A to retailers was 40 cents; in October, 1948, it was 42 cents; in January, 1949, it was 44 cents; and in May–June 1950 it was 42 cents. Retailers' prices for Commodity A generally were, in July, 1947, 80 cents; in October, 1948, 84 cents; in January, 1949, 88 cents; and in May–June 1950, 84 cents. There appears to have been a customary percentage margin of 100 percent.

Example 3. In July, 1947, the net invoice cost of Commodity B to retailers was 50 cents; in October, 1948, it was 53 cents; in January, 1949, it was 52 cents; and in May–June 1950 it was 55 cents. Retailers' prices for Commodity B were in July, 1947, $1.00; in October, 1948, $1.03; in January, 1949, $1.02; and in May–June, 1950, $1.05. There appears to have been a customary margin of 50 cents.

(c) *Cost of commodities.* (1) Ordinarily the cost of commodities over which a customary margin will be allowed is the net invoice cost of the commodities to the reseller. If, however, it has been customary in the applicant's industry to treat other costs of acquisition as costs of the commodities on which the customary margin was taken, those additional acquisition costs may be regarded by the applicant as part of the costs of the commodities.

(2) Net invoice cost refers to invoice cost less all discounts which could have been taken.

SEC. 4. *Information to be submitted.* If you wish to apply for an adjustment for your industry under this regulation you must file an application with the Office of Price Stabilization, Washington 25, D. C. The application must be signed by you and include the following:

(a) The name and address of the principal office of the applicant.

(b) An identification of the ceiling price regulations fixing the ceiling prices involved in your application; a description of the commodities and types of operations of the sellers of the industry for which adjustment is sought; and a statement that the applicant is a retailer or wholesaler of the industry in question subject to the regulations.

(c) (1) A statement that sellers in your industry had a customary margin or charge over costs of the commodities covered by the application, during the period May 24, 1950, to June 24, 1950 or other representative period determined in accordance with paragraph (d) of this section, and what that margin or charge was. Your application must be supported by records of costs and prices of the commodities involved. These records may include invoices, sales slips, price lists, catalogues, or other records in your possession. You may also submit available published data, reports, etc., from any sources relating to your industry for consideration by OPS. You must further submit evidence showing that the margins actually in effect during the representative period were customary and not peculiar to that period. This must include costs and prices for your industry for the period May 24–June 24, 1950 and for at least two representative months prior to May 1950.

(2) For the meaning of the term "cost of commodities" see section 3 (c). If you count as part of the cost of the commodity anything other than net invoice cost as defined in section 3 (c), you must give evidence that this is in accordance with the established practice of your industry.

(d) (1) A statement as to whether the period May 24–June 24, 1950 is representative of normal operations of the sellers affected by the ceiling prices involved in the application. If you do not consider that period representative, include facts to support such belief, and you must name an earlier period of not less than one month which you consider to be more representative with supporting facts.

(2) In case there are several periods which you consider more representative than the period May 24–June 24, 1950, you must name the one nearest to the latter period.

(e) A statement of the current margins or charges permitted your industry by the regulation in question for the commodities covered by the application.

SEC. 5. *What action may be taken on your application.* (a) In some cases you may be able to present sufficient evidence to enable the Director to make a final determination whether the ceiling prices of your industry need to be adjusted to bring them into conformity with the provisions of section 402 (k). If you have not furnished the kind of information needed with respect to your industry grouping, but the evidence you present is sufficient to indicate that there is a reasonable doubt whether the ceiling prices which you seek to have adjusted meet the requirements of section 402 (k), OPS will undertake to obtain evidence which will be adequate to provide a factual basis for the Director to decide on the disposition of your application. The Director may request further information or evidence from the applicant.

(b) In any event, when the Director has determined whether or not the ceiling prices of your industry should be adjusted, he will issue an order granting or denying your application, in whole or in part.

SEC. 6. *Geographical applicability.* The provisions of this General Overriding Regulation are applicable in the United States, its Territories and possessions and the District of Columbia.

Effective date. This regulation is effective August 27, 1952.

NOTE: The reporting requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

JOSEPH H. FREEHILL,
Acting Director of Price Stabilization.

AUGUST 27, 1952.

[Rent Regulation 2, Amdt. 70 to Schedule A]

RR 1—HOUSING

RR 2—ROOMS IN ROOMING HOUSES AND OTHER ESTABLISHMENTS

SCHEDULE A—DEFENSE-RENTAL AREAS

CALIFORNIA AND OKLAHOMA

Effective August 28, 1952, Rent Regulation 1 and Rent Regulation 2 are amended as set forth below.

(Sec. 204, 61 Stat. 197, as amended; 50 U. S. C. App. Sup. 1894)

Issued this 25th day of August 1952.

TIGHE E. WOODS,
Director of Rent Stabilization.

1. Schedule A, Item 33a, is amended to read as follows:

(33a) [Revoked and decontrolled.]

This decontrols the Monterey Bay, California, Defense-Rental Area on the initiative of the Director of Rent Stabilization under section 204 (c) of the Housing and Rent Act of 1947, as amended.

2. Schedule A, Item 246, is amended to read as follows:

(246) [Revoked and decontrolled.]

This decontrols: (a) The City of Lawton in Comanche County, Oklahoma, a portion of the Lawton, Oklahoma, Defense-Rental Area, based on a resolution submitted under section 204 (j) (3) of the Housing and Rent Act of 1947, as amended; (b) all unincorporated localities in said defense-rental area, said City of Lawton being the major portion of the defense-rental area, under section 204 (j) (3) of the act, and (c) all incorporated localities, other than said City of Lawton, in the defense-rental area, on the initiative of the Director of Rent Stabilization under section 204 (c) of the act.

[Rent Regulation 4, Amdt. 23 to Schedule A]

RR 3—HOTELS

RR 4—MOTOR COURTS

SCHEDULE A—DEFENSE-RENTAL AREAS

CALIFORNIA AND OKLAHOMA

Effective August 28, 1952, Rent Regulation 3 and Rent Regulation 4 are amended as set forth below.

(Sec. 204, 61 Stat. 197, as amended; 50 U. S. C. App. Sup. 1894)

Issued this 25th day of August 1952.

TIGHE E. WOODS,
Director of Rent Stabilization.

1. Schedule A, Item 33a, is amended to read as follows:

(33a) [Revoked and decontrolled.]

This decontrols the Monterey Bay, California, Defense-Rental Area on the initiative of the Director of Rent Stabilization under section 204 (c) of the Housing and Rent Act of 1947, as amended.

2. Schedule A, Item 246, is amended to read as follows:

(246) [Revoked and decontrolled.]

This decontrols: (a) The City of Lawton in Comanche County, Oklahoma, a portion of the Lawton, Oklahoma, Defense-Rental Area, based on a resolution submitted under section 204 (j) (3) of the Housing and Rent Act of 1947, as amended; (b) all unincorporated localities in said defense-rental area, said City of Lawton being the major portion of the defense-rental area, under section 204 (j) (3) of the act, and (c) all incorporated localities, other than said City of Lawton, in the defense-rental area, on the initiative of the Director of Rent Stabilization under section 204 (c) of the act.

TITLE 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans' Administration

PART 3—VETERANS CLAIMS

APPLICATION FOR BENEFITS; ADJUSTMENT OF AWARD OF VETERAN UPON TERMINATION OF INSTITUTIONALIZATION

1. In § 3.26, paragraph (a) is amended to read as follows:

§ 3.26 *Application for benefits.* (a) A properly completed and executed VA Form 8-526 or VA Form 8-526a, upon

receipt by the Veterans' Administration, constitutes an application for benefits indicated below and will be adjudicated under the applicable laws:

VA Form 8-526, Veteran's Application for Compensation or Pension: VA Form 8-526 is designed as an application for either compensation or pension, or both. It constitutes a formal claim for both benefits, and it is not necessary that the veteran subsequently file a separate claim for either. It is not required that the claim be processed or adjudicated for compensation and pension routinely and in all instances. Depending upon the manner of execution, that is, the items of information recorded on the form, it should be readily apparent whether the veteran is claiming either compensation or pension, or both benefits. If items 23, 24, and 25 are used, item 36 checked "No," and items 37 through 49 not used, the claim is for compensation and will be so adjudicated. If items 23, 24, and 25 are used, item 36 checked "Yes," and items 37 through 45 are used, the claim is also only for compensation but with an allegation of total disability. However, all disabilities, both service connected and non-service connected will be evaluated and the greater benefit awarded. If items 23, 24, and 25 are used, item 36 checked "Yes," and items 37 through 49 used, the claim is for both compensation and pension. If items 23, 24, and 25 are not used, item 36 is checked "Yes," and items 37 through 49 used, the claim is for pension.

VA Form 8-526a, Application for Compensation Under section 31, Public No. 141, 73d Congress, section 12, Public No. 866, 76th Congress, and section 2, paragraph 4, Public Law 16, 78th Congress.

Under Executive Order 6017, February 7, 1933, and section 1500, Public Law 346, 78th Congress, as amended, diplomatic and consular officers of the Department of State are authorized to act as agents of the Veterans' Administration, and therefore a formal claim filed in a foreign country will be considered as filed in the Veterans' Administration as of the date of receipt by the State Department representative.

• • • • •

2. In § 3.256, paragraph (b) is amended to read as follows:

§ 3.256 *Adjustment of award of veteran upon termination of institutionalization by the Veterans' Administration.* • • •

(b) While a veteran is on trial visit or other temporary absence from an institution where he is being maintained at Veterans' Administration expense, no adjustment of his award by reason thereof will be made for any period of less than 30 days, inclusive of the day on which he left the institution. A veteran, if otherwise entitled thereto, should be paid additional compensation or increased compensation or pension for aid and attendance except for such periods as he received aid and attendance in kind at the expense of the Veterans' Administration, even though the trial visit or other temporary absence is less than 30 days. However, such adjustments will not be accomplished until after the veteran's discharge from institutionalization or until he is granted furlough, trial visit, or temporary absence of 30 days or more. If such temporary absence is for a period of 30 days or more, the award to or on behalf of the veteran will be adjusted in accordance with the last valid rating, if otherwise in order, effective as of the day the veteran departs. However, a furlough, trial visit, or other temporary absence for a period of 30 days or more is not tantamount to a discharge within the purview of paragraph (a) (1) of this section, and the veteran may not be awarded the moneys withheld under § 3.255 (a) in a lump sum when he leaves the institution on such a temporary absence. Upon return from such a temporary absence the veteran's award shall be immediately reduced to the institutional rate, if otherwise in order. If the veteran is discharged without returning to the institution, the award will be adjusted in accordance with paragraph (a) of this section. The report of such absence will be made to the office having custody of the claims folder, in accordance with effective procedure.

(Sec. 5, 43 Stat. 608, as amended, sec. 2, 46 Stat. 1016, sec. 7, 48 Stat. 9; 38 U. S. C. 11a, 426, 707)

This regulation effective August 28, 1952.

[SEAL] H. V. STIRLING,
Deputy Administrator.

[F. R. Doc. 52-9475; Filed, Aug. 27, 1952; 8:55 a. m.]

PART 3—VETERANS CLAIMS

CONDITIONS WHICH DETERMINE DEPENDENCY

Section 3.57 is revised to read as follows:

§ 3.57 *Conditions which determine dependency—(a) Definitions.* Dependency will be held to exist if the father or mother of the veteran does not have an income sufficient to provide reasonable maintenance for such father or mother and members of his or her family under legal age and for dependent adult members of the family if the dependency of such adult member results from mental or physical incapacity. "Reasonable maintenance" includes not only housing, food, clothing, and medical care sufficient to sustain life, but such items beyond the bare necessities, and as well as other requirements reasonably necessary to provide those conveniences and comforts of living suitable to and consistent with the parents' reasonable mode of life. "Members of the family" will be considered to mean those persons, including relatives in the ascending as well as descending class, whom the father or mother is under moral or legal obligation to support.

(b) *Sources of income.* (1) In determining the amount of income, consideration will be given to (i) net income from property owned, or business operated, by the mother or father; (ii) earnings of the mother or father and other members of their family under legal age; (iii) actual contributions of any character to the family expenses by the adult members; (iv) so-called social security benefits, i. e., old age assistance and old age and survivors' insurance; (v) family allowances received pursuant to Public Law 351, 81st Congress, as amended.

(2) In determining whether other members of the family under legal age are factors in necessary expenses of the mother or father, consideration will be given to any income from business or property (including trusts) actually available, directly or indirectly, to the mother or father for the support of the minor but not to the corpus of the estate or the income of the minor which is not so available.

(3) In determining dependency, amounts received from the following named sources, by the father or mother or other member of the family, will be disregarded, viz, (i) as designated beneficiary or otherwise of any insurance under the War Risk Insurance Act, the World War Veterans' Act, 1924, as amended, or the National Service Life Insurance Act, or any amendments to either; (ii) any pension or compensation under laws administered by the Veterans' Administration; (iii) benefits under the World War Adjusted Compensation Act or the Adjusted Compensation Payment Act, or any amendments to either; (iv) the 6-month pay made to the designated beneficiary thereof pursuant to 10 U. S. C. 903, 903 (a), and 456; 34 U. S. C. 943, 944, and 855c-2; (v) payments pursuant to Mustering-Out Payment Act, 1944, Public Law 225, 78th Congress; (vi) donations or assistance from charitable sources; (vii) payments of Servicemen's Indemnity under Public Law 23, 82d Congress.

(4) In addition to considering income of a father or mother, consideration will be given to the corpus of such claimant's estate if under all the circumstances it is reasonable that the same or some part thereof be sold and the proceeds consumed for the claimant's maintenance.

(c) *Contributions by veteran.* The fact that the veteran has made habitual contributions to his father or mother, or both, is not conclusive evidence that dependency existed but shall be considered in connection with all other evidence.

(d) *Remarriage of parent.* The remarriage of a mother or father does not, per se, bar entitlement but is prima facie evidence that dependency has ceased. See § 4.62 of this chapter.

(e) *Prima facie dependency.* (1) In the absence of evidence indicating the contrary, dependency will be held to exist when the monthly income from sources proper to consider does not exceed:

(i) $105 for a mother or father (not living together).

(ii) $175 for a mother and father (living together).

(iii) The amounts stated in subdivision (i) or (ii) of this subparagraph plus $45 for each additional member of the family whose support is to be considered under the criteria indicated in paragraphs (a) and (b) of this section.

It must be definitely understood that the amounts stated are not controlling in any case but are to be used only as prima facie evidence. Each claim is subject to adjudication upon the facts thereof in the light of the governing legal principles

a=Rates prior to Sept. 1, 1946, Pub. Law 611, 79th Cong.
b=Rates from Sept. 1, 1946, Pub. Law 611, 79th Cong. to Sept. 30, 1951.
c=Rates from Sept. 1, 1947, Pub. Law 270, 80th Cong. to Sept. 30, 1951.

NOTE: The foregoing rates are subject to the provisions of § 3.255. Where a veteran is furnished hospital treatment or institutional domiciliary care by the Veterans' Administration and is furnished nursing or attendant's service, the additions for regular aid and attendance will be discontinued effective the first day of the second calendar month following the month in which such service was furnished. Where a veteran is receiving additional amount on account of need of regular aid and attendance, such additional amount will be effective as of the date of commencement of the need for regular aid and attendance if proof of such need is received within one year from such date; otherwise effective date will be the date of receipt of such proof. This note does not apply to additional amounts payable under the 10 percent rule. Where the rate of pension is reduced or discontinued because of the attainment of beneficial age, or rate applicable under Pub. Law 356, 82d Cong., or because of change from one rate of pension to another or the rate applicable under Pub. Law 356, 82d Cong., from July 1, 1952, such increase will be effective as of the date of commencement of the need of regular aid and attendance if proof of such need is received within one year from such date; otherwise effective date will be the date of receipt of such proof. Where the rate of pension in such instances will be effective as of the beginning of the period for which the disabled veteran was hospitalized by the Veterans' Administration. The full rate for regular aid and attendance will be paid during periods of temporary absence from the hospital for a period not to exceed 30 days. Where the rate of pension is reduced or discontinued because of the veteran's hospitalization for more than 90 days, such reduction or discontinuance will be effective as of the first day of the second calendar month following the month in which such hospitalization ceased. Pension at the full rate will be restored if otherwise in order upon the termination of the veteran's hospitalization. The award will include the additional amount for regular aid and attendance for the period of hospitalization for which pension at the full rate was not paid. Where a veteran is receiving domiciliary care or his furlough, trial visit, or temporary leave of absence exceeds 30 days, pension at the full rate for those days when service in kind for the regular aid and attendance was not furnished due to the veteran's absence from the institution.

Total (100 percent)			

The General Law rates are not increased by Public Law 659, 79th Congress.

(R. S. 4692, 4693, as amended, 4695, as amended, 4696, sec. 30, 48 Stat. 525, sec. 1, 49 Stat. 614, 58 Stat. 707, Pub. Law 356, 82d Cong.; 38 U. S. C. 151-154, 367, 398, 471a-2)

2. In § 3.1063, a new paragraph (c) is added as follows:

§ 3.1063 *Combination.* * * *

(c) When a combination of rates produces a result of under 50 per centum, payment shall be increased by 5 per centum. When the combination results in a rate of 50 per centum or over, the payment shall be increased by 15 per centum.

3. In § 3.1108, paragraph (a) is amended to read as follows:

§ 3.1108 *Rates of pension: Spanish-American War, Philippine Insurrection and/or Boxer Rebellion.* (a) Service pension is payable at rates as follows:

Item	Act of June 5, 1920, 90 days' service (1)	Act of May 1, 1920, 90 days' service or disability discharge (2)	Act of June 2, 1930, 60 days' service or disability discharge (3)	Act of June 2, 1930, 70 days' service	Act of May 24, 1938, 90 days' service or disability discharge (4)	Act of Mar. 1, 1941, 90 days' service or disability discharge[a]	Act of Aug. 4, 1951, effective from Oct. 1, 1951, to June 30, 1952, service of—		Act of May 23, 1952, effective from July 1, 1952, service of—

c	25.92	43.20	50.40	25.92						

Regular aid and attendance, helplessness, or blindness	$72.00	$86.40	$100.00	$120.00	$129.00
Age:					
62	$25.00	$30.00	$30.00	$36.00	
65	35.00	42.00	60.00	72.00	
68	45.00	54.00			
72	55.00	66.00			
75					

NOTE: The foregoing rates are subject to the provision that the rate for blindness may be allowed, but that the rate for regular aid and attendance may not be allowed while the veteran is being maintained by the Veterans' Administration and to the provisions of § 3.255.

(62 Stat. 4, sec. 1, 44 Stat. 1361, as amended, 50 Stat. 786, as amended, Public Law 356, 82d Cong.; 38 U. S. C. 374a, 381, 381-1)

5. Section 3.1112 is revised to read as follows:

§ 3.1112 *Rates of pension: Civil War.* (a) Pension is payable at rates as follows:

Minimum rate	Helplessness or blindness, or so nearly helpless or blind as to require the regular aid and attendance of another person
$75.00 a	$100.00
90.00 b	120.00
96.75 c	129.00

a=Rates prior to Sept. 1, 1947.
b=Rates from Sept. 1, 1947, Pub. Law 270, 80th Cong.
c=Rates from July 1, 1952, Pub. Law 356, 82d Cong.

NOTE: The foregoing rates are subject to the provision that the rate for blindness may be allowed, but that the rate for regular aid and attendance may not be allowed while the veteran is being maintained by the Veterans' Administration and to the provisions of § 3.255.

(b) The rate for Army nurses, under the act of August 5, 1892, as amended by the act of July 3, 1926, is $50 monthly to September 1, 1947, $60 monthly from September 1, 1947, and $64.50 from July 1, 1952.

(Secs. 1, 2, 46 Stat. 529, sec. 2, 61 Stat. 610, sec. 1, 27 Stat. 348, Pub. Law 356, 82d Cong.; 38 U. S. C. 274, 275, 276, 311)

(Sec. 5, 43 Stat. 608, as amended, sec. 2, 46 Stat. 1016, sec. 7, 48 Stat. 9; 38 U. S. C. 11a, 426, 707)

This regulation effective August 28, 1952.

[SEAL] H. V. STIRLING,
Deputy Administrator.

[F. R. Doc. 52-9477; Filed, Aug. 27, 1952; 8:56 a. m.]

PART 21—VOCATIONAL REHABILITATION AND EDUCATION

SUBPART B—EDUCATION AND TRAINING

MISCELLANEOUS AMENDMENTS

1. Section 21.236b is revised to read as follows:

§ 21.236b *Furnishing supplies to trainees in institutional on-farm training.* Before a veteran may be inducted into institutional on-farm training under Part VII, Veterans Regulation 1 (a), as amended (38 U. S. C. ch. 12), the farm on which he is to pursue the on-farm part of his course must be equipped with the kinds and amounts of supplies and equipment which are necessary to enable the trainee to pursue successfully that portion of the course. Accordingly, under no circumstances will the Veterans' Administration furnish any equipment or supplies which may be required to operate the farm. The Veterans' Administration will furnish only those books and incidental consumable supplies required by the school to be personally owned by all students in the school portion of the course: *Provided,* That such special equipment as may be authorized under § 21.241 (b) incident to the character of the veteran's disability may be furnished.

2. In § 21.243, paragraphs (b), (d), and (g) are amended to read as follows:

§ 21.243 *Release of and repayment for training supplies.* * * *

(b) Pursuant to the authority given to the Administrator in the first proviso of section 4, Public Law 16, 78th Congress, as amended, a veteran will not be required to repay for consumable supplies where he fails to complete his course of vocational rehabilitation. Nor will the veteran be required to repay for nonconsumable supplies unless it be determined that his failure was because of fault on his part. In making such determination, the veteran will be given the benefit of any reasonable doubt.

* * * * *

(d) In cases which are found to be meritorious as defined in paragraph (f) of this section, even though the veteran is found to be at fault, the veteran will not be required to repay the Veterans' Administration for supplies furnished him at Veterans' Administration expense. Nor will a veteran be required to repay the Veterans' Administration for supplies furnished him at Veterans' Administration expense where the veteran was pursuing his course at a school which recovers nonconsumable supplies from veterans through contractual arrangement with the Veterans' Administration and the veteran returned to the school all the nonconsumable supplies furnished him at Veterans' Administration expense.

* * * * *

(g) Where it is determined that the veteran is at fault and repayment for supplies is not excused under paragraphs (d) and (f) of this section, the veteran will be required to repay the Veterans' Administration for the nonconsumable supplies furnished him at Veterans' Administration expense. The amount to be repaid will be the value at which the supplies were issued to the veteran less a percentage equivalent to the percentage of the prescribed course (or term, where applicable in the case of school training) completed. For example, a veteran who has completed one-third of the prescribed course or term for which supplies were furnished will be required to repay two-thirds of the value at which the supplies were issued to the veteran. Under no circumstances will supplies be accepted in lieu of repayment, except as provided in §§ 21.241 (g), 21.252 (d), and paragraph (d) of this section.

* * * * *

3. Section 21.247 is revised to read as follows:

§ 21.247 *Records of supervision.* The recorded facts concerning the training situation as determined through supervision of the trainee by the training officer are the chief basis upon which the Veterans' Administration judges the progress of the trainee and determines that the training situation of each trainee is satisfactory or that adjustment of the training situation is necessary to meet the needs of the individual veteran. The recorded facts are also the basis upon which the chief of the section can evaluate the performance of the individual training officer and thus be enabled to determine the efficiency of the Veterans' Administration service in administering the affairs of the individual trainee. Records of supervision must be used to improve the program in each individual case and also the vocational rehabilitation program as a whole. They must be studied and acted upon with a view to making the work of the training officer and the entire education and training section more effective.

4. In § 21.252, paragraph (d) is amended to read as follows:

§ 21.252 *Change of employment objective.* * * *

(d) Where a change of employment objective is authorized in accord with paragraph (a) of this section the veteran will be required to return or repay for nonconsumable supplies furnished at Veterans' Administration expense for the previous employment objective which are not required for pursuit of training for the new objective.

(Sec. 2, 46 Stat. 1016, sec. 7, 48 Stat. 9, sec. 2, 57 Stat. 43, as amended, sec. 400, 58 Stat. 287, as amended; 38 U. S. C. 11a, 701, 707, ch. 12 note. Interprets or applies secs. 3, 4, 57 Stat. 43, as amended, secs. 300, 1500-1504, 1506, 1507, 58 Stat. 286, 300, as amended; 38 U. S. C. 693g, 697-697d, 697f, g, ch. 12 note)

This regulation effective August 29, 1952.

[SEAL] H. V. STIRLING,
Deputy Administrator.

[F. R. Doc. 52-9478; Filed, Aug. 27, 1952; 8:56 a. m.]

TITLE 45—PUBLIC WELFARE

Chapter I—Office of Education, Federal Security Agency

PART 105—FINANCIAL ASSISTANCE FOR CURRENT EXPENDITURES FOR PUBLIC SCHOOLS IN AREAS AFFECTED BY FEDERAL ACTIVITIES

FISCAL YEAR APPROPRIATIONS; DEADLINE FOR APPLICATIONS AND PAYMENTS

Part 105 (16 F. R. 5901, amended in 17 F. R. 347 and 1943) is further amended by the addition of §§ 105.9, 105.10 and 105.25, as follows:

summarized in this section. The monetary guides in this paragraph are not for application in a foreign country.

(Sec. 5, Stat. 608, as amended, sec. 2, 46 Stat. 1016, sec. 7, 48 Stat. 9; 38 U. S. C. 11a, 426, 707)

This regulation effective August 28, 1952.

[SEAL] H. V. STIRLING,
Deputy Administrator.

[F. R. Doc. 52-9476; Filed, Aug. 27, 1952; 8:55 a. m.]

treatment and payment of wages of pris-

§ 105.9 *Deadline for applications for payments from funds appropriated for the fiscal year 1953 and thereafter.* March 31 of each fiscal year is hereby fixed as the date on or before which all applications for payments out of funds appropriated for such fiscal year shall be received by the Commissioner.

§ 105.10 *Applications received after deadline not considered for payment.* Applications received by the Commissioner after March 31 of a fiscal year will not be considered for payment from funds appropriated for such fiscal year.

§ 105.25 *Payments from fiscal year appropriations.* As prescribed by section 5 (c), 64 Stat. 1106, 20 U. S. C. 240 (c), if the funds appropriated for a fiscal year for such purposes are not sufficient to pay in full the total amounts which all local educational agencies whose applications have been considered for payment pursuant to § 105.9 are entitled to receive for such fiscal year, the Commissioner will reduce the amounts which he certifies under section 5 (b), 64 Stat. 1106, 20 U. S. C. 240 (b), for such fiscal year for payment to each such agency by the percentage by which the funds so appropriated are less than the total necessary to pay such agencies the full amount which they are entitled to receive under the act and the showings under and pursuant to their respective applications.

(Sec. 7, 64 Stat. 1107; 20 U. S. C. 242. Interpret or apply sec. 5, 64 Stat. 1106; 20 U. S. C. 240)

Dated: August 21, 1952.

[SEAL] EARL J. MCGRATH,
U. S. Commissioner of Education.

Approved: August 22, 1952.

JOHN E. THURSTON,
Acting Federal Security Administrator.

Chapter V—War Claims Commission

Subchapter B—Receipt, Adjudication and Payment of Claims

PART 505—FILING OF CLAIMS AND PROCEDURES THEREFOR

TIME WITHIN WHICH CLAIMS MAY BE FILED; OFFICIAL FORMS

1. Section 505.2 is hereby amended to to read as follows:

§ 505.2 *Time within which claims may be filed.* (a) Claims made under sections 5 (a) through (e) of the act will be received by the Commission during the period from January 3, 1950, to March 31, 1952, inclusive, in accordance with notice given pursuant to the provisions of section 2 (d) of the act, as amended. Claims to be accepted must be postmarked before midnight March 31, 1952, or delivered to the Office of the War Claims Commission at Washington, D. C., to any field office thereof, or to any person or agency authorized by the Commission to receive claims on its behalf, before midnight March 31, 1952.

(b) Claims made under sections 6 (a) through (c) of the act will be received by the Commission during the period from January 3, 1950, to March 31, 1952, inclusive, in accordance with notice given pursuant to the provisions of section 2 (d) of the act, as amended. Claims to be accepted must be postmarked before midnight March 31, 1952, or delivered to the Office of the War Claims Commission at Washington, D. C., to any field office thereof, or to any person or agency authorized by the Commission to receive claims on its behalf, before midnight March 31, 1952.

(c) Claims made under section 6 (d) of the act will be received by the Commission during the period from April 9, 1952, to midnight April 9, 1953, in accordance with the notice given pursuant to the provisions of section 2 (d) of the act, as amended, and section 3 of Pub. Law 303, 82d Cong., approved April 9, 1952. Claims to be accepted must be postmarked before midnight April 9, 1953, or delivered to the Office of the War Claims Commission at Washington, D. C., to any field office thereof, or to any person or agency authorized by the Commission to receive claims on its behalf, before midnight April 9, 1953.

(d) Claims made under section 7 (a) of the act will be received by the Commission during the period from January 3, 1950, to March 31, 1952, inclusive, in accordance with notice given pursuant to the provisions of section 2 (d) of the act, as amended. Claims to be accepted must be postmarked before midnight March 31, 1952, or delivered to the Office of the War Claims Commission at Washington, D. C., to any field office thereof, or to any person or agency authorized by the Commission to receive claims on its behalf, before midnight March 31, 1952.

(e) Claims made under section 7 (b) and (c) of the act will be received by the Commission during the period, from April 9, 1952 to October 1, 1952, inclusive, in accordance with notice given pursuant to the provisions of section 2 (d) of the act, as amended, and section 2 (f) of Pub. Law 303, 82d Cong., approved April 9, 1952. Claims to be accepted must be postmarked before midnight October 1, 1952, or delivered to the Office of the War Claims Commission at Washington, D. C., to any field office thereof, or to any person or agency authorized by the Commission to receive claims on its behalf, before midnight October 1, 1952.

2. Section 505.3 is hereby amended to read as follows:

§ 505.3 *Official forms.* Official forms are provided for use in the preparation of claims for submission to the Commission for adjudication and such forms are available as prescribed in section 7 of the description of organization (14 F. R. 7819). An official form is provided for each type of claim that may be made under the provisions of sections 5 (a) through (e), 6 (a) through (c), 6 (d), as added by Pub. Law 303, 82d Cong., 7 (a), or 7 (b), or (c) of the act, as amended, and each such official form is accompanied by printed instructions which explain its proper use, preparation, and execution. The official forms provided for use with respect to each type of claim adjudicable under said sections 5 (a) through (e), 6 (a) through (c), 6 (d) as added by Pub. Law 303, 82d Cong., 7 (a), or 7 (b) or (c) of the act, are designated and identified as follows:

(a) For compensation by living prisoners of war, WCC Form 601—Application for Living Ex-Prisoner of War Benefits.

(b) For compensation by living Philippine prisoners of war, or their survivors, WCC Form 602—Application for Ex-Prisoner of War Allowance.

(c) For compensation by living prisoners of war, arising out of inhumane treatment or forced labor, WCC Form 611—Application for Living Ex-Prisoner of War Compensation for Compulsory Labor and/or Inhumane Treatment.

(d) For compensation by survivors of deceased prisoners of war, WCC Form 650—Application for Prisoner of War Benefits by Survivors of Deceased Prisoners of War.

(e) For compensation by survivors of deceased prisoners of war, for inhumane treatment and forced labor, WCC Form 660—Application for Survivors of Deceased Ex-Prisoners of War for Compensation for Compulsory Labor and/or Inhumane Treatment.

(f) For detention benefits by living civilian American citizens, WCC Form 501—Application for Living Civilian Detention Benefits.

(g) For detention benefits by survivors of deceased civilian American citizens, WCC Form 550—Application for Detention Benefits by Survivors of Deceased Civilian Prisoners, Internees, Etc.

(h) For reimbursement by a religious organization or the personnel of a religious organization, WCC Form 701—Application for Reimbursement by Religious Organizations or Religious Personnel.

(i) For compensation to any religious organizations or personnel of a religious organization for loss or damage sustained to facilities as a consequence of the war, WCC Form 711—Application by Religious Organization for Compensation for Loss and Damage to Property as a Consequence of World War II.

(Sec. 2, 62 Stat. 1240, as amended; 50 U. S. C. App. Sup. 2001)

GEORGIA L. LUSK,
Vice Chairman,
War Claims Commission.

[F. R. Doc. 52-9429; Filed, Aug. 27, 1952; 8:45 a. m.]

PART 506—PROVISIONS OF GENERAL APPLICATION

PERSONS UNDER LEGAL DISABILITY

Section 506.2 (14 F. R. 7844, 16 F. R. 644, 16 F. R. 2239) is hereby amended to read as follows:

§ 506.2 *Persons under legal disability.* (a) Claims may be submitted for adjudication on behalf of persons who, being otherwise eligible to make claims under the provisions of sections 5 (a) through (e), and 6 of the act, are incompetent or otherwise under any legal disability, by the natural or legal guardian, committee, conservator, curator, or any other person including the spouse of such claimant, whom the Commission may determine is vested with the care of the claimant or his estate.

(b) In the event the Commission has before it satisfactory evidence that a member of the armed forces of the United States on active duty in Korea or captured by the forces of aggression fighting in Korea or elsewhere or reported missing in action, interned or beleaguered may be eligible to file a claim for compensation under Pub. Law 303, 82d Cong., and is unable to file a claim because of inaccessibility to forms and mailing facilities, the Commission may file an informal claim in behalf of such person.

(Sec. 2, 62 Stat. 1240, as amended; 50 U. S. C. App. Sup. 2001)

GEORGIA L. LUSK,
Vice Chairman,
War Claims Commission.

[F. R. Doc. 52-9430; Filed, Aug. 27, 1952; 8:45 a. m.]

PART 507—ENTITLEMENT TO AWARD

SUBPART A—PRISONERS OF WAR COMPENSATION

MISCELLANEOUS AMENDMENTS

1. Section 507.1 is hereby amended to read as follows:

§ 507.1 *Persons entitled to award of compensation.* Any regularly appointed, enrolled, enlisted, or inducted member of the military or naval forces of the United States who was held as a prisoner of war for any period of time subsequent to December 7, 1941, by a government of any nation with which the United States has been at war subsequent to December 7, 1941, and, with respect to whom the enemy government by which he was held as a prisoner of war (a) violated its obligation to furnish him the quantity and quality of food to which he was entitled as a prisoner of war under the terms of the Geneva Convention of July 27, 1929; or (4) violated its obligation relating to the treatment to be accorded a prisoner of war and the rules governing labor of prisoners of war, who makes claim is a person entitled to an award of compensation as a prisoner of war.

2. Section 507.2 is hereby amended to read as follows:

§ 507.2 *Rate of and basis for award of compensation.* (a) Compensation allowed a prisoner of war under sections 6 (a) through (c) of the act will be paid at the rate of $1 per each day that he was held as a prisoner of war on which the enemy government failed to furnish him such quantity or quality of food required to be furnished prisoners of war under the terms of the Geneva Convention of July 27, 1929.

(b) Compensation allowed a prisoner of war under the terms of section 6 (d) of the act, as added by Pub. Law 303, 82d Cong., will be paid at the rate of not to exceed $1.50 for each day that he was held as a prisoner of war on which the enemy government subjected him to inhumane treatment and/or compelled him to engage in labor contrary to the provisions of the Geneva Convention of July 27, 1929.

3. Section 507.8 is hereby amended to read as follows:

§ 507.8 *Obligation of the Geneva Convention.* For the purposes of this part, the obligation of the Geneva Convention is the responsibility assumed by the contracting parties thereto, with respect to prisoners of war within the meaning of the Convention, to comply with and to fully observe the provisions of the Convention, and particularly those articles relating to food ration of prisoners of war, humane treatment, protection, and labor of prisoners of war.

4. Section 507.10 is hereby amended to read as follows:

§ 507.10 *Base camp.* "Base camp" means a permanent military establishment used by the detaining power to provide quarters for components of its own regularly established military or naval forces, and for the purposes of this part, shall be deemed to include only camps at which a standard ration or standard quarters were prescribed by the detaining power for issue or allotment to its own regularly established military or naval forces.

5. Section 507.11 is hereby amended to read as follows:

§ 507.11 *Violation of the obligation of the Geneva Convention.* For the purposes of this part, the obligation of the Geneva Convention shall be deemed to have been violated by the enemy government each day:

(a) That it did not furnish prisoners of war within the meaning of this act and the Geneva Convention with food of like quantity or quality as that prescribed by the detaining power as a standard ration for issue to its own regularly established military or naval forces at its own base camps.

(b) That it compelled prisoners of war to perform labor and failed to comply with the standards prescribed in the labor provisions of the Geneva Convention of July 27, 1929, including those listed below but not excluding any provision which may be appropriately applied.

(1) The labor of able prisoners of war, if utilized, should have been utilized by the detaining power only in accordance with their rank and aptitude, officers and persons of equivalent status excepted.

(2) Non-commissioned officers should have been required to do only supervisory work, unless they expressly requested remunerative work.

(3) Prisoners of war who were victims of accidents in connection with their work were entitled to the provisions applicable to laborers of the same class according to the legislation of the detaining power, and if no such legislation existed, all proper measures to equitably indemnify the victims should have been taken.

(4) The detaining power had full responsibility for the maintenance, care, treatment and payment of wages of prisoners of war working for private persons.

(5) No prisoner of war should have been employed at labor for which he was physically unfit.

(6) The length of a day's work of prisoners of war, including the trip going and returning, should not have been excessive and should not, in any case, have exceeded that customary for civilian workers in the region employed at the same work.

(7) Every prisoner of war should have been allowed a rest period of 24 consecutive hours every week.

(8) Labor furnished by prisoners of war should not have had any direct relation with war operations, especially in manufacturing or transporting arms or munitions of any kind, or in transporting material intended for combat units.

(9) Prisoners of war should not have been employed at unhealthful or dangerous work; the conditions of labor should not have been aggravated by disciplinary measures.

(10) Labor detachments should have worked only under conditions similar to the standards fixed for prisoner of war camps, particularly with respect to sanitary conditions, food, attention in case of accident or sickness, correspondence and the receipt of packages.

(11) Prisoners of war were not entitled to receive wages for work connected with the administration, management and maintenance of prisoners of war camps.

(12) Prisoners of war utilized for other work were entitled to wages in amounts prescribed through agreement between belligerents.

(i) Such agreements should have specified the portion which was to be retained by the camp administration, the amount which was to be paid to the prisoner of war, and the manner in which that amount was to be put at his disposal during the period of his captivity.

(ii) In the absence of such agreement, work done for the detaining power should have been paid for in accordance with the rates in force for soldiers of the national army doing the same work, or if none existed, according to a rate in harmony with the work performed.

(iii) Work performed for the account of other public administrations or for private persons, should have been paid for as regulated by agreement with the military authority.

(13) The proceeds of wages remaining to the credit of a prisoner of war should have been delivered to him at the end of his captivity, and in the event of his death, should have been forwarded through diplomatic channels to his heirs.

(c) That it failed to accord to prisoners of war humane treatment as required by the standards prescribed in the provisions of the Geneva Convention of July 27, 1929, including those listed below but not excluding any provisions relating to humane treatment which may be appropriately applied.

(1) Prisoners of war should at all times have been humanely treated and protected, particularly against acts of violence, insults and public curiosity. Measures of reprisal against them should have been prohibited.

(2) Prisoners of war should have had their person and their honor respected. Women should have been treated with all the regard due to their sex. Prisoners were entitled to retain their full civil status.

(3) Prisoners of war should have been evacuated within the shortest possible period after their capture, to depots located in regions far enough from the zone of combat for them to be out of danger.

(i) Only those prisoners who, because of wounds or sickness, would have been exposed to greater risks by such evacuation than by remaining may have been temporarily kept in a dangerous zone.

(ii) Prisoners of war should not have been needlessly exposed to danger while awaiting their evacuation from a combat zone.

(iii) Evacuation of prisoners on foot should normally have been effected only in stages of 20 kilometers per day, unless the necessity for reaching water and food depots required longer stages.

(4) Prisoners of war should have been lodged in buildings or in barracks affording all possible guarantees of hygiene and healthfulness.

(i) The quarters of prisoners of war should have been fully protected from dampness, sufficiently heated and lighted. All precautions should have been taken against fire hazards.

(ii) If dormitories were used, the total surface minimum cubic amount of air, arrangement, material of bedding, and other conditions, should have met the standards established for troops at base camps of the detaining power.

(5) Clothing, linens and footwear should have been furnished to prisoners of war by the detaining power. Replacement and repair of such effects should have been accomplished regularly. In addition, laborers should have received work clothes wherever required by the nature of the work.

(6) Canteens should have been installed in all camps where prisoners of war could obtain, at the local market price, food products and ordinary objects. Profits made by such canteens for camp administrations should have been used for the benefit of prisoners.

(7) The detaining powers should have taken all sanitary measures necessary to insure the cleanliness and healthfulness of the camps and to prevent epidemics.

(i) Prisoners of war were entitled to have at their disposal, day and night, installations conforming to sanitary rules and constantly maintained in a state of cleanliness.

(ii) Without prejudice to baths and showers, with which the camp should have been as well provided as possible, prisoners should have been furnished sufficient quantity of water for the care of their own bodily cleanliness.

(iii) Provisions should have been made for prisoners of war to take physical exercise and to enjoy the open air.

(8) Officers and persons of equivalent status as prisoners of war should have been treated with due regard to their rank and age.

(9) In order to insure service in officers camps, soldiers of the same army who were prisoners of war and, wherever possible, who spoke the same language, should have been assigned thereto, in sufficient numbers, considering the rank of the officers and persons equivalent in status.

(10) With respect to arrest of a prisoner of war for disciplinary punishment the duration of a single punishment should not have exceeded 30 days.

(i) The maximum of 30 days should not have been exceeded in the case of several acts for which the prisoner was required to undergo discipline at the time when it was ordered for him whether or not such acts were connected.

(ii) When, during, or after the end of the period of arrest, the prisoner had a new disciplinary punishment imposed on him, a space of at least 3 days should have separated each of the periods of arrest, if any one of them was for a period of 10 days or more.

(11) In no case should prisoners of war have been transferred to penitentiary establishments for the purpose of disciplinary punishment.

(12) The quarters in which prisoners of war were subjected to disciplinary punishment should have conformed to sanitary requirements set out in the Convention.

(13) Prisoners subjected to disciplinary punishment should have been afforded the opportunity to keep themselves clean and should have been allowed to exercise or stay in the open air for a period of at least two hours during each day under such punishment.

(14) Prisoners of war subjected to disciplinary punishment should have been allowed to read and write as well as to send and receive letters. Packages and money for prisoners of war subjected to disciplinary punishment may have been withheld until the expiration of such punishment.

(Sec. 2, 62 Stat. 1240, as amended; 50 U. S. C. App. Sup. 2001)

GEORGIA L. LUSK,
Vice Chairman,
War Claims Commission.

PART 508—PAYMENT

PAYMENT UNDER THE WAR CLAIMS ACT

Section 508.2 (14 F. R. 7846) is hereby amended to read as follows:

§ 508.2 *Payment under the War Claims Act*—(a) *Living prisoners of war or living civilian American citizens.* Any award made to a living prisoner of war for compensation, or to a living civilian American citizen for detention benefits, will be certified to the Treasurer of the United States for payment to the person entitled thereto, except that as to persons under any legal disability payment will be made as specified in paragraph (c) of this section.

(b) *Survivors of deceased prisoners of war or deceased civilian American citizens.* Awards made to the survivors of deceased prisoners of war, or to the survivors of deceased civilian American citizens, will be certified to the Secretary of the Treasury for payment to the individual members of the class or classes of survivors entitled thereto in the full amount of the share to which each survivor is entitled, except that as to persons under any legal disability payment will be made as specified in paragraph (c) of this section.

(c) *Payments to persons under legal disability.* Any award or any part of an award payable pursuant to sections 5 (a) through (e), or 6 of the act to any person under legal disability may, in the discretion of the Commission, be paid for the use of the claimant to the natural or legal guardian, committee, conservator, or curator, or if there is no such natural or legal guardian, committee, conservator or curator then, in the discretion of the Commission, to any person, including the spouse of such person, or the Chief Officer of the hospital in which the claimant may be a patient, whom the Commission may determine is vested with the care of the claimant or of his estate. In the case of a minor, any part of the amount payable may, in the discretion of the Commission, be paid to such minor.

(d) *Religious organizations.* (1) Any award made to a religious organization under the provisions of section 7 (a) of the act will be certified to the Secretary of the Treasury for payment in the full amount to such organization in its corporate name, or to such officer or officers thereof as are properly and lawfully designated by the organization.

(2) Any award made to a religious organization under the provision of section 7 (b) or (c) of the act will be certified to the Secretary of the Treasury in accordance with subparagraph (1) of this paragraph, or upon request of such religious organization will be authorized to be paid to its properly designated affiliate in the United States: *Provided*, That such affiliate certifies to the War Claims Commission that all money paid on said claim and received by the named affiliate will be used for the purpose of restoring the educational, medical and welfare facilities described in the claim and located in the Philippines.

(Sec. 2, 62 Stat. 1240, as amended; 50 U. S. C. App. Sup. 2001)

GEORGIA L. LUSK,
Vice Chairman,
War Claims Commission.

TITLE 46—SHIPPING

Chapter II—Federal Maritime Board, Maritime Administration, Department of Commerce

[Gen. Order 22, 3d Rev., Amdt. 1, WSA Function Series]

PART 310—MERCHANT MARINE TRAINING

SUBPART A—REGULATIONS AND MINIMUM STANDARDS FOR STATE MARITIME ACADEMIES

ENTRANCE STANDARDS; UNIFORMS, TEXTBOOKS AND SUBSISTENCE

Paragraph (a) of § 310.6 *Entrance standards*, and paragraph (a) of § 310.8 *Scholarship subsidy, subsistence, and charges*, contained in General Order 22, Third Revision, WSA Function Series published in the FEDERAL REGISTER issue of October 20, 1949 (14 F. R. 6401) are amended as follows:

1. Effective upon publication in the FEDERAL REGISTER, § 310.6 (a) is deleted in its entirety and the following is inserted in lieu thereof:

§ 310.6 *Entrance standards.* (a) A candidate for admission to a State Maritime Academy must be a male citizen of the United States and must qualify in all respects for appointment as a Midshipman, Merchant Marine Reserve, United States Naval Reserve, and be appointed as such. Such candidate shall also agree in writing to apply for a commission as Ensign, United States Naval Reserve, immediately after graduation and shall be required to accept such commission provided he is qualified: *Provided, however*, A waiver of physical qualifications under this requirement will be made by the Chief of the Office of Maritime Training provided that the physical examination for appointment in the Merchant Marine Reserve, United States Naval Reserve, has been taken before admission and that any defects noted are not such as to disqualify him physically for a license in the Merchant Marine in accordance with the regulations prescribed by the U. S. Coast Guard: *And provided further*, That annual physical examinations by a Navy examiner are made thereafter, when in the opinion of the Navy examiner such defects are remedial to endeavor to qualify the cadet for appointment in the Naval Reserve and that such cadet shall accept appointment in the Naval Reserve as soon as and if he can qualify. He must be of robust constitution, physically sound and of good moral character, not less than seventeen years of age and not yet twenty-three years of age: *Provided*, That within this range each state may fix its upper age limit for cadets appointed by the State: *Provided further*, That in any case if the candidate is a veteran honorably discharged or if he served in the Merchant Marine for not less than one year during World War II, the upper age limit is extended four years so that such candidate shall be not yet twenty-seven years of age.

2. Effective July 1, 1951, the headnote and paragraph (a) of § 310.8 are amended to read as follows:

§ 310.8 *Uniforms, textbooks, and subsistence.* (a) Each Cadet, on and after his appointment in the Merchant Marine Reserve, United States Naval Reserve, and assignment to a State Maritime Academy will be granted a uniform, textbook, and subsistence allowance at the rate as provided in the applicable appropriation act for each fiscal year, payable monthly. The subsistence allowance will be paid either directly to the Cadet concerned, or, upon approval of the supervisor, to the State Maritime Academy upon presentation of a statement which shall be prepared and submitted at the end of each month and shall contain the names of the Cadets for whom subsistence has been furnished during that month, and such other information as may be required by the supervisor. The uniform and textbook allowances will be paid either directly to the Cadet concerned or, with the approval of the supervisor, to the State Maritime Academy upon certification by the Superintendent that such allowances will be credited to the account of each Cadet. No Cadet will be granted a uniform and textbook allowance or subsistence allowance for any time during which he is absent without leave for a condition not in line of duty.

(Sec. 4, 55 Stat. 607; 34 U. S. C. 1123d. Interpret or apply 52 Stat. 965, as amended; 46 U. S. C. 1126)

Dated: August 14, 1952.

[SEAL] E. L. COCHRANE,
Maritime Administrator.

TITLE 50—WILDLIFE

Chapter III—International Regulatory Agencies (Fishing and Whaling)

Subchapter B—International Whaling Commission

PART 351—WHALING

Basis and purpose. The Whaling Convention Act of 1949 (64 Stat. 421–425; 16 U. S. C., 1946 ed., Supp. IV, 916–916l), the legislation implementing the International Convention for the Regulation of Whaling signed at Washington December 2, 1946, by the United States of America and certain other governments, provides that regulations of the Commission (defined to mean the whaling regulations in the Schedule annexed to and constituting a part of the Convention in their original form or as modified, revised, or amended by the Commission) shall be submitted for publication in the FEDERAL REGISTER by the Secretary of the Interior. The provisions of the Schedule have been edited to conform the numbering, internal references, and similar items to regulations of the Administrative Committee of the Federal Register, but no changes have been made in the substantive provisions. As so edited, the Schedule of the Convention as last amended by the Commission in July 1951, pursuant to Article V of the Convention appears below. The provisions of the Schedule are applicable to nationals and whaling enterprises of the United States.

Sec.
351.1 Inspection.
351.2 Killing of gray or right whales prohibited.
351.3 Killing of calves or suckling whales prohibited.
351.4 Operations of factory ships limited.
351.5 Closed areas for factory ships.
351.6 Limitation on the taking of humpback whales.
351.7 Closed season for baleen whales.
351.8 Catch quota for baleen whales.
351.9 Minimum size limits.
351.10 Open seasons for land stations.
351.11 Use of factory ship in waters other than south of 40° South Latitude.
351.12 Complete processing required.
351.13 Prompt processing required.
351.14 Remuneration of employees.
351.15 Submission of laws and regulations.
351.16 Submission of statistical data.
351.17 Factory ship operations within territorial waters.
351.18 Definitions.

AUTHORITY: §§ 351.1 to 351.18 are issued under 64 Stat. 421–425; 16 U. S. C., 916–916l.

§ 351.1 *Inspection.* (a) There shall be maintained on each factory ship at least two inspectors of whaling for the purpose of maintaining twenty-four hour inspection. These inspectors shall be appointed and paid by the Government having jurisdiction over the factory ship.

(b) Adequate inspection shall be maintained at each land station. The inspectors serving at each land station shall be appointed and paid by the Government having jurisdiction over the land station.

§ 351.2 *Killing of gray or right whales prohibited.* It is forbidden to take or kill gray whales or right whales, except when the meat and products of such whales are to be used exclusively for local consumption by the aborigines.

§ 351.3 *Killing of calves or suckling whales prohibited.* It is forbidden to take or kill calves or suckling whales or female whales which are accompanied by calves or suckling whales.

§ 351.4 *Operations of factory ships limited.* It is forbidden to use a factory ship or whale catcher attached thereto for the purpose of taking or treating baleen whales in any of the following areas:

(a) In waters north of 66° North Latitude except that from 150° East Longitude eastward as far as 140° West Longitude the taking or killing of baleen whales by a factory ship or whale catcher shall be permitted between 66° North Latitude and 72° North Latitude;

(b) In the Atlantic Ocean and its dependent waters north of 40° South Latitude;

(c) In the Pacific Ocean and its dependent waters east of 150° West Longitude between 40° South Latitude and 35° North Latitude;

(d) In the Pacific Ocean and its dependent waters west of 150° West Longitude between 40° South Latitude and 20° North Latitude;

(e) In the Indian Ocean and its dependent waters north of 40° South Latitude.

§ 351.5 *Closed areas for factory ships.* It is forbidden to use a factory ship or a whale catcher attached thereto for the purpose of taking or treating baleen whales in the waters south of 40° South Latitude from 70° West Longitude westward as far as 160° West Longitude.

§ 351.6 *Limitation on the taking of humpback whales.* It is forbidden to use a factory ship or a whale catcher attached thereto for the purpose of taking or treating humpback whales in any waters south of 40° South Latitude: *Provided*, That in the pelagic whaling season for baleen whales, 1952, a maximum of 1,250 humpback whales may be taken in these waters commencing on February 1st.

§ 351.7 *Closed season for baleen whales.* (a) It is forbidden to use a

factory ship or a whale catcher attached thereto for the purpose of taking or treating baleen whales in any waters south of 40° South Latitude, except during the period from the second day of January to the seventh day of April following, both days inclusive.

(b) Each Contracting Government shall declare for all factory ships and whale catchers attached thereto under its jurisdiction, one continuous open season not to exceed eight months out of any period of twelve months during which the taking or treating of sperm whales by factory ships may be permitted: *Provided*, That a separate open season may be declared for each factory ship.

(c) Notwithstanding the prohibition of treatment in paragraphs (a) and (b) of this section during a closed season, the treatment of whales which have been taken during the open season may be completed after the end of the open season.

§ 351.8 *Catch quota for baleen whales.* (a) The number of baleen whales taken during the open season caught in any waters south of 40° South Latitude by whale catchers attached to factory ships under the jurisdiction of the Contracting Governments shall not exceed sixteen thousand blue-whale units.

(b) For the purposes of paragraph (a) of this section, blue-whale units shall be calculated on the basis that one blue whale equals:

(1) Two fin whales; or

(2) Two and a half humpback whales; or

(3) Six sei whales.

(c) Notification shall be given in accordance with Article VII of the Convention, within two days after the end of each calendar week, of data on the number of blue-whale units taken in any waters south of 40° South Latitude by all whale catchers attached to factory ships under the jurisdiction of each Contracting Government; and in addition notification of data on the number of humpback whales taken in pursuance of § 351.6, including nil returns on days when no humpback whales are taken, shall be given at the end of each day.

(d) If it should appear that the maximum catch of whales permitted by paragraph (a) of this section may be reached before the seventh day of April, of any year, the Commission, or such other body as the Commission may designate, shall determine on the basis of the data provided, the date on which the maximum catch of whales shall be deemed to have been reached and shall notify each contracting Government of that date not less than two weeks in advance thereof. The taking of baleen whales by whale catchers attached to factory ships shall be illegal in any waters south of 40° South Latitude after midnight of the date so determined.

(e) On the basis of data on number of humpback whales taken in accordance with the provisions of § 351.6 and reported in accordance with paragraph (c) of this section, the Commission, or such other body as the Commission may designate, shall determine the date on which the maximum catch of humpback whales shall be deemed to have been reached and shall notify each factory ship and each contracting Government three days in advance thereof. The taking of humpback whales in all waters south of 40° South Latitude shall be illegal after midnight of the date so determined.

(f) Notification shall be given in accordance with the provisions of Article VII of the Convention of each factory ship intending to engage in whaling operations in any waters south of 40° South Latitude.

§ 351.9 *Minimum size limits.* (a) It is forbidden to take or kill any blue, sei, or humpback whales below the following lengths:

(1) Blue whales 70 feet (21.3 metres);

(2) Sei whales 40 feet (12.2 metres);

(3) Humpback whales 35 feet (10.7 metres).

Except that blue whales of not less than 65 feet (19.8 metres), and sei whales of not less than 35 feet (10.7 metres) in length may be taken for delivery to land stations: *Provided*, That the meat of such whales is to be used for local consumption as human or animal food.

(b) It is forbidden to take or kill any fin whales below 60 feet (18.3 metres) in length for delivery to factory ships or land stations in the southern hemisphere, and it is forbidden to take or kill fin whales below 55 feet (16.8 metres) for delivery to factory ships and land stations in the northern hemisphere; except that fin whales of not less than 55 feet (16.8 metres) may be taken for delivery to land stations in the southern hemisphere and fin whales of not less than 50 feet (15.2 metres) may be taken for delivery to land stations in the northern hemisphere provided in each case that the meat of such whales is to be used for local consumption as human or animal food.

(c) It is forbidden to take or kill any sperm whales below 38 feet (11.6 metres) in length, except that sperm whales of not less than 35 feet (10.7 metres) in length may be taken for delivery to land stations.

(d) Whales must be measured when at rest on deck or platform, as accurately as possible by means of a steel tape measure fitted at the zero end with a spiked handle which can be stuck into the deck planking abreast of one end of the whale. The tape measure shall be stretched in a straight line parallel with the whale's body and read abreast the other end of the whale. The ends of the whale, for measurement purposes, shall be the point of the upper jaw and the notch between the tail flukes. Measurements, after being accurately read on the tape measure, shall be logged to the nearest foot: That is to say, any whale between 75' 6'' and 76' 6'' shall be logged as 76', and any whale between 76' 6'' and 77' 6'' shall be logged as 77'. The measurement of any whale which falls on an exact half foot shall be logged at the next half foot, e. g. 76' 6'' precisely, shall be logged as 77'.

§ 351.10 *Open seasons for land stations.* (a) It is forbidden to use a land station under the jurisdiction of a contracting Government, and whale catchers attached to such land station, for the taking or treating of baleen and sperm whales, except as permitted by the contracting Government in accordance with paragraphs (b), (c), and (d) of this section.

(b) Each contracting Government shall declare for all land stations under its jurisdiction, and whale catchers attached to such land stations, one open season during which the taking or treating of baleen (excluding minke) whales shall be permitted. Such open season shall be for a period of not more than six consecutive months in any period of twelve months and shall apply to all land stations under the jurisdiction of a contracting Government, provided that a separate open season may be declared for any land station used for the taking or treating of baleen (excluding minke) whales which is more than 1,000 miles from the nearest land station used for the taking or treating of baleen (excluding minke) whales under the jurisdiction of the same contracting Government.

(c) Each contracting Government shall declare for all land stations under its jurisdiction and for whale catchers attached to such land stations, one open season not to exceed eight continuous months in any one period of twelve months, during which the taking or treating of sperm whales shall be permitted, such period of eight months to include the whole of the period of six months declared for baleen whales as provided for in paragraph (b) of this section: *Provided*, That a separate open season may be declared for any land station used for the taking or treating of sperm whales which is more than 1,000 miles from the nearest land station used for the taking or treating of sperm whales under the jurisdiction of the same contracting Government.

(d) Each contracting Government shall declare for all land stations under its jurisdiction and for all whale catchers one open season not to exceed six continuous months in any period of twelve months during which the taking or treating of minke whales shall be permitted (such period not being necessarily concurrent with the period declared for other baleen whales, as provided for in paragraph (b) of this section): *Provided*, That a separate open season may be declared for any land station used for the taking or treating of minke whales which is more than 1,000 miles from the nearest land station used for the taking or treating of minke whales under the jurisdiction of the same contracting Government.

(e) Notwithstanding the provisions of paragraphs (a), (b), (c), and (d) of this section, the treatment of whales which have been taken during an open season may be completed after the end of such open season.

(f) The prohibitions contained in this paragraph shall apply to all land stations as defined in Article II of the Whaling Convention of 1946 and to all factory ships which are subject to the regulations governing the operation of land stations under the provisions of § 351.17.

§ 351.11 *Use of factory ship in waters other than south of 40° South Latitude.* It is forbidden to use a factory ship, which has been used during a season in any waters south of 40° South Latitude for the purpose of treating baleen whales, in any other area for the same purpose within a period of one year from the termination of that season.

§ 351.12 *Complete processing required.* (a) All whales (except minke whales) taken shall be delivered to the factory ship or land station and all parts of such whales shall be processed by boiling or otherwise, except the internal organs, whalebone and flippers of all whales, the meat of sperm whales and of parts of whales intended for human food or feeding animals.

(b) Complete treatment of the carcasses of "Dauhval" and of whales used as fenders will not be required in cases where the meat or bone of such whales is in bad condition.

§ 351.13 *Prompt processing required.* (a) The taking of whales for delivery to a factory ship shall be so regulated or restricted by the master or person in charge of the factory ship that no whale carcass (except of a whale used as a fender, which shall be processed as soon as is reasonably practicable) shall remain in the sea for a longer period than thirty-three hours from the time of killing to the time when it is hauled up for treatment.

(b) Whales taken by all whale catchers, whether for factory ships or land stations, shall be clearly marked so as to identify the catcher and to indicate the order of catching.

(c) All whale catchers operating in conjunction with a factory ship shall report by radio to the factory ship:

(1) The time when each whale is taken;

(2) Its species; and

(3) Its marking effected pursuant to paragraph (b) of this section.

(d) The information reported by radio pursuant to paragraph (c) of this section shall be entered immediately in a permanent record which shall be available at all times for examination by the whaling inspectors; and in addition there shall be entered in such permanent record the following information as soon as it becomes available. (1) Time of hauling up for treatment, (2) length, measured pursuant to § 351.9 (d), (3) sex, (4) if female, whether milk-filled or lactating, (5) length and sex of foetus, if present, and (6) a full explanation of each infraction.

(e) A record similar to that described in paragraph (d) of this section shall be maintained by land stations, and all of the information mentioned in the said paragraph shall be entered therein as soon as available.

§ 351.14 *Remuneration of employees.* Gunners and crews of factory ships, land stations, and whale catchers shall be engaged on such terms that their remuneration shall depend to a considerable extent upon such factors as the species, size, and yield of whales taken, and not merely upon the number of the whales taken. No bonus or other remuneration shall be paid to the gunners or crews of whale catchers in respect of the taking of milk-filled or lactating whales.

§ 351.15 *Submission of laws and regulations.* Copies of all official laws and regulations relating to whales and whaling and changes in such laws and regulations shall be transmitted to the Commission.

§ 351.16 *Submission of statistical data.* (a) Notification shall be given in accordance with the provisions of Article VII of the Convention with regard to all factory ships and land stations of statistical information (1) concerning the number of whales of each species taken, the number thereof lost, and the number treated at each factory ship or land station, and (2) as to the aggregate amounts of oil of each grade and quantities of meal, fertilizer (guano), and other products derived from them, together with (3) particulars with respect to each whale treated in the factory ship or land station as to the date and approximate latitude and longitude of taking, the species and sex of the whale, its length and, if it contains a foetus, the length and sex, if ascertainable, of the foetus. The data referred to in subparagraphs (1) and (3) of this paragraph shall be verified at the time of the tally and there shall also be notification to the Commission of any information which may be collected or obtained concerning the calving grounds and migration routes of whales.

(b) In communicating this information there shall be specified:

(1) The name and gross tonnage of each factory ship;

(2) The number and aggregate gross tonnage of the whale catchers;

(3) A list of the land stations which were in operation during the period concerned.

§ 351.17 *Factory ship operations within territorial waters.* (a) A factory ship which operates solely within territorial waters in one of the areas specified in paragraph (c) of this section, by permission of the Government having jurisdiction over those waters, and which flies the flag of that Government shall, while so operating, be subject to the regulations governing the operation of land stations and not to the regulations governing the operation of factory ships.

(b) Such factory ship shall not, within a period of one year from the termination of the season in which she so operated, be used for the purpose of treating baleen whales in any of the other areas specified in paragraph (c) of this section or south of 40° South Latitude.

(c) The areas referred to in paragraphs (a) and (b) of this section are:

(1) On the coast of Madagascar and its dependencies;

(2) On the west coasts of French Africa;

(3) On the coasts of Australia, namely on the whole east coast and on the west coast in the area known as Shark Bay and northward to Northwest Cape and including Exmouth Gulf and King George's Sound, including the Port of Albany.

§ 351.18 *Definitions.* The following expressions have the meanings respectively assigned to them, that is to say:

"Baleen whale" means any whale which has baleen or whale bone in the mouth, i. e., any whale other than a toothed whale.

"Blue whale" (Balaenoptera or Sibbalus musculus) means any whale known by the name of blue whale, Sibbald's rorqual, or sulphur bottom.

"Dauhval" means any unclaimed dead whale found floating.

"Fin whale" (Balaenoptera physalus) means any whale known by the name of common finback, common rorqual, finback, finner, fin whale, herring whale, razorback, or true fin whale.

"Gray whale" (Rhachianectes glaucus) means any whale known by the name of gray whale, California gray, devil fish, hard head, mussel digger, gray back, or rip sack.

"Humpback whale" (Megaptera nodosa or novaeangliae) means any whale known by the name of bunch, humpback, humpback whale, humpbacked whale, hump whale, or hunchbacked whale.

"Minke whale" (Balaenoptera acutorostrata, B. davidsoni, B. huttoni) means any whale known by the name of lesser rorqual, little piked whale, minke whale, pike-headed whale, or sharp headed finner.

"Right whale" (Balaena mysticetus; Eubalaena glacialis, E. australis, etc.; Neobalaena marginata) means any whale known by the name Atlantic right whale, Arctic right whale, Biscayan right whale, bowhead, great polar whale, Greenland right whale, Greenland whale, Nordkaper, North Atlantic right whale, North Cape whale, Pacific right whale, pigmy right whale, Southern pigmy right whale, or Southern right whale.

"Sei whale" (Balaenoptera borealis) means any whale known by the name of sei whale, Rudolphi's rorqual, pollack whale, or coalfish whale and shall be taken to include Bryde's whale (B. brydei).

"Sperm whale" (Physeter catodon) means any whale known by the name of sperm whale, spermacet whale, cachalot, or pot whale.

"Toothed whale" means any whale which has teeth in the jaws.

Dated: August 21, 1952.

OSCAR L. CHAPMAN,
Secretary of the Interior.

PROPOSED RULE MAKING

DEPARTMENT OF LABOR

Division of Public Contracts

[41 CFR Part 202]

PREVAILING MINIMUM WAGE FOR AVIATION TEXTILE PRODUCTS MANUFACTURING INDUSTRY

NOTICE OF POSTPONEMENT OF HEARING DATE

Pursuant to notice published in the FEDERAL REGISTER June 28, 1952 (17 F. R. 5831) a public hearing was held on July 31, 1952, at 10:00 a. m. in Room 5406, Department of Labor Building, Fourteenth Street and Constitution Avenue NW., Washington, D. C., before a representative of the Administrator of the Wage and Hour and Public Contracts Divisions, for the purpose of determining the prevailing minimum wages in the Aviation Textile Products Manufacturing Industry pursuant to the provisions of the Walsh-Healey Public Contracts Act (Act of June 30, 1936, 49 Stat. 2036, 41 U. S. C. secs. 35–45). On motion of interested parties the hearing was adjourned by the presiding officer on July 31, 1952 until September 16, 1952.

Notice is hereby given: That the hearing is further postponed until further notice in order to provide additional time for preparation of pertinent data.

Signed at Washington, D. C., this 22d day of August 1952.

F. GRANVILLE GRIMES, Jr.,
Acting Administrator, Wage and Hour and Public Contracts Divisions.

NOTICES

DEPARTMENT OF THE TREASURY

Office of the Secretary

[Treasury Department Order 155]

DIRECTOR, BUREAU OF ENGRAVING AND PRINTING

DELEGATION OF AUTHORITY TO NEGOTIATE CERTAIN CONTRACTS

1. Pursuant to a delegation of authority, August 12, 1952, from the Administrator of General Services to the Secretary of the Treasury under section 302 (a) of the Federal Property and Administrative Services Act of 1949, 63 Stat. 377; pursuant to authority of section 307 (a) thereof; but subject to certain limitations of section 307 (b) (such limitations being set out in paragraph 3 hereof) authority is hereby delegated to the Director of the Bureau of Engraving and Printing to negotiate, without advertising, contracts and purchases pursuant to section 302 (c) (2), (4), (9), (10), and (12) of the act in connection with the current program for modernization of the equipment and operations of the Bureau of Engraving and Printing.

2. The authority thus delegated to the Director of the Bureau of Engraving and Printing shall be exercised by him personally or through such responsible subordinates as he may designate, and shall be exercised in accordance with all applicable limitations in the act, including section 307, and in accordance with applicable policies, procedures, and controls prescribed by the General Services Administration.

3. In accordance with section 307 (b) of the act, (1) authority to make the determinations specified in section 302 (c) (12) (relating to standardization and interchangeability of technical equipment) and, (2) with respect to contracts which will require the expenditure of more than $25,000, authority to make the determinations specified in section 302 (c) (10) (relating to experimental and developmental work and supplies) is not delegated, and remains in the Secretary.

Dated: AUGUST 22, 1952.

[SEAL] JOHN W. SNYDER,
Secretary of the Treasury.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

ALASKA

SHORESPACE RESTORATION ORDER NO. 487

AUGUST 21, 1952.

By virtue of the authority contained in the act of June 5, 1920 (41 Stat. 1059, 48 U. S. C. 372), and pursuant to section 2.22 (a) (3), of Order No. 1, Bureau of Land Management, Region VII, approved by the Acting Secretary of the Interior August 20, 1951 (16 F. R. 8625), it is ordered as follows:

Subject to valid existing rights and the provisions of existing withdrawals, the 80 rod shorespace reserve created under the act of May 14, 1898 (30 Stat. 409), as amended by the act of March 3, 1903 (32 Stat. 1028, 48 U. S. C. 371), is hereby revoked as to the following described lands:

A tract of land located on Whiskey Cove, Pennock Island, Alaska, which when surveyed will be identified as Lot 36D, U. S. Survey No. 2992, containing approximately 3.40 acres (homesite application of Harry Koetz, Anchorage, 012872).

A tract of land located on Zimovia Strait, Alaska, identified as Lot 2, U. S. Survey No. 2321 and Lot 2A, U. S. Survey No. 2904, containing approximately 1.37 acres (homesite application of Bruce Johnston, Anchorage, 017327).

A tract of land located on Zimovia Strait, Alaska, identified as Lot 1, U. S. Survey No. 2321 and Lot 1A, U. S. Survey No. 2904, containing approximately 1.47 acres (homesite application of Fred S. Johnston, Anchorage, 017328).

A tract of land located on Zimovia Strait, Alaska, identified as Lots 6 and 7, U. S. Survey No. 2321 and Lots 6A, U. S. Survey No. 2906, containing approximately 2.78 acres (homesite application and petition for shorespace restoration of James Ray Kennedy, Anchorage, 018108).

A tract of land located on Orca Inlet, Alaska, identified as Lot 3, U. S. Survey No. 2762, containing approximately 4.33 acres (homesite application of Harold Roy Conrad, Anchorage, 018205).

A tract of land located on Auke Bay, Alaska, identified as Lot H, Tract B, U. S. Survey No. 2390, containing approximately 3.31 acres (homesite application of Chester A. Strohmeyer, Anchorage, 018088).

A tract of land located on Herring Bay, Alaska, identified as Lot 75, U. S. Survey No. 2404, containing approximately 0.96 acre (homesite application of John P. Bussanich, Anchorage, 019862).

A tract of land located on Clover Passage, Alaska, identified as Lot 16, U. S. Survey No. 2807, containing approximately 4.09 acres (homesite application of Fritz Jensen, Anchorage, 018081).

The above described lands aggregate approximately 21.71 acres.

ALASKA

SHORESPACE RESTORATION ORDER NO. 488

AUGUST 21, 1952.

By virtue of the authority contained in the act of June 5, 1920 (41 Stat. 1059, 48 U. S. C. 372), and pursuant to section 2.22 (a) (3), of Order No. 1, Bureau of Land Management, Region VII, approved by the Acting Secretary of the Interior, August 20, 1951 (16 F. R. 8625), it is ordered as follows:

Subject to valid existing rights, the provisions of existing withdrawals, the requirements of applicable law, and the 90-day preference-right filing period for veterans, and other qualified persons entitled to preference under the act of September 27, 1944 (58 Stat. 747, 43 U. S. C. 279–284), as amended, the 80-rod shorespace reserve created under the act of May 14, 1898 (30 Stat. 409), as amended by the act of March 3, 1903 (32

Stat. 1028; 48 U. S. C. 371), is hereby revoked as to the following described lands, effective at 10:00 a. m. on the 21st day after the date of this order.

ANCHORAGE LAND DISTRICT

A tract of land located on Gastineau Channel, Alaska, more particularly described as follows:

"Beginning at the southwest corner on line of mean high tide of Gastineau Channel, whence U. S. L. M. number 5 bears south 00 deg. 43 mins. 30 sec. west 3,560.20 feet and running thence by meanders along the line of mean high tide of Gastineau Channel north 41° 13" west 104.55 feet to the northwest corner; thence north 49° 54" east 83.10 feet to the northeast corner, on the West Right-of-Way line of Glacier highway; thence south 49° 52" east along the West Right-of-Way line of Glacier Highway for 108.60 feet to the southeast corner; thence south 51° 20" west 99.50 feet to the southwest corner, the place of beginning. Containing 9,643.40 square feet, or 0.221 acres in latitude 58°18'25" N., Longitude 134°26'01" W."

FRED J. WEILER,
Chief,
Division of Land Planning.

ALASKA

SHORESPACE RESTORATION ORDER NO. 489

AUGUST 21, 1952.

By virtue of the authority contained in the act of June 5, 1920 (41 Stat. 1059, 48 U. S. C. 372), and pursuant to section 2.22 (a) (3), of Order No. 1, Bureau of Land Management, Region VII, approved by the Acting Secretary of the Interior August 20, 1951 (16 F. R. 8625), it is ordered as follows:

Subject to valid existing rights and the provisions of existing withdrawals, the 80 rod shorespace reserve created under the act of May 14, 1898 (30 Stat. 409), as amended by the act of March 3, 1903 (32 Stat. 1028, 48 U. S. C. 371), is hereby revoked as to the following described lands:

FAIRBANKS LAND DISTRICT

Fairbanks Meridian
T. 2 S., R. 2 W.,
Section 5: Lots 1 and 2
Section 6: Lot 1 and SE¼NE¼

Containing approximately 145.97 acres.

No application for these lands may be allowed under the Small Tract Act of June 1, 1938 (52 Stat. 609; 43 U. S. C. 682a), unless the land has already been classified as valuable or suitable for such type of application or shall be so classified upon consideration of an application.

At 10:00 a. m., on September 11, 1952, the lands shall, subject to valid existing rights and the provisions of existing withdrawals become subject to application, petition, location, or selection as follows:

(a) *Ninety-day period for preference-right filings.* For a period of 90 days from September 11, 1952, to December 10, 1952, inclusive, the public lands affected by this order shall be subject to (1) application under the homestead or homesite laws, or the Small Tract Act of June 1, 1938 (52 Stat. 609, 43 U. S. C. sec. 682a), as amended by qualified veterans of World War II, for whose service recognition is granted by the act of September 27, 1944 (58 Stat. 747, 43 U. S. C. secs. 279–283), as amended, subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications by such veterans shall be subject to claims of the classes described in subdivision (2).

(b) *Twenty-day advance period for simultaneous preference-right filings.* For a period of 20 days from August 21, 1952, to September 10, 1952, inclusive, such veterans and persons claiming preference rights superior to those of such veterans, may present their applications, and all such applications, together with those presented at 10:00 a. m. on September 11, 1952, shall be treated as simultaneously filed.

(c) *Date for non-preference right filings authorized by the public land laws.* Commencing at 10:00 a. m. on December 11, 1952, any of the lands remaining unappropriated shall become subject to such application, petition, location, or selection by the public generally as may be authorized by the public land laws.

(d) *Twenty-day advance period for simultaneous non-preference right filings.* Applications by the general public may be presented during the 20-day period from November 21, 1952, to December 10, 1952, inclusive, and all such applications, together with those presented at 10:00 a. m. on December 11, 1952, shall be treated as simultaneously filed.

A veteran shall accompany his application with a complete photostatic, or other copy (both sides), of his certificate of honorable discharge, or of an official document of his branch of the service which shows clearly his honorable discharge as defined in § 181.36 of Title 43 of the Code of Federal Regulations, or constitutes evidence of other facts upon which the claim for preference is based and which shows clearly the period of service. Other persons claiming credit for service of veterans must furnish like proof in support of their claims. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated statements in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the Land Office at Fairbanks, Alaska, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations (Circular No. 324, May 22, 1914, 43 L. D. 254), to the extent that such regulations are applicable. Applications under the homestead and homesite laws shall be governed by the regulations contained in Parts 64, 65, and 66 of Title 43 of the Code of Federal Regulations and applications under the Small Tract Act of June 1, 1938, as amended, shall be governed by the regulations contained in Part 257 of that title.

Inquiries concerning these lands shall be addressed to the Land Office at Fairbanks, Alaska.

FRED J. WEILER,
Chief,
Division of Land Planning.

[E:59268, Grp. 269]

ARIZONA

NOTICE OF FILING OF PLATS OF SURVEY

AUGUST 21, 1952.

Notice is given that the plat of survey accepted June 9, 1952, of T. 5 N., R. 19 W., and plat of survey accepted June 9, 1952, of T. 5 N., R. 20 W., G. & S. R. M., Arizona, including lands hereinafter described, will be officially filed in the Land and Survey Office at Phoenix, Arizona, effective at 10:30 a. m. on the 35th day after the date of this notice.

GILA AND SALT RIVER MERIDIAN, ARIZONA

T. 5 N., R. 19 W.,
All Secs. 1 to 36 inclusive
T. 5 N., R. 20 W.,
All Secs. 1 to 3, 10 to 16, 21 to 28, and 33 to 36 inclusive, Lots 6, 7, 8, 9 and 10, SE¼NE¼, SE¼, Sec. 4, E½, SE¼NW¼, E½SW¼, Lots 4, 5, 6 and 7, Sec. 9, Lot 2, Sec. 8, Lots 5, 6, 7 and 8, Sec. 17, Lots 5, 6 7 and 8, Sec. 20, Lots 5, 6, 7 and 8, and E½SE¼, Sec. 29, Lots 5, 6, 7, 8, E½E½, Sec. 32.

The area described, including both public and non-public lands, aggregate 36,979.69 acres.

Mineral Entry, Phoenix 061467, Mineral Survey No. 4019, embracing the Uncle Sam No. 1, Copper Chief No. 1, Copper Chief No. 2, Copper Chief No. 3, and Copper Chief No. 4 lode mining claims, located in Sections 28, 33 and 34, T. 5 N., R. 20 W., is patented.

No application for the remainder of the lands involved may be allowed under the homestead, small tract, desert land, or any other non-mineral public land laws, unless the land has already been classified as valuable or suitable for such type of application or shall be so classified upon consideration of an application.

Available data indicates that the land in T. 5 N., R. 19 W. is nearly level and rolling desert land, cut up by numerous, dry washes; and the land in T. 5 N., R. 20 W. is mountainous and rolling desert, cut up by numerous, dry washes.

At the hour and date specified above the said lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, or selection as follows:

(a) *Ninety-one day period for preference-right filings.* For a period of 91 days, commencing at the hour and on the day specified above, the public lands affected by this notice shall be subject only to (1) application under the homestead or the desert-land laws or the Small Tract Act of June 1, 1938, 52 Stat. 609 (43 U. S. C. 682a), as amended, by qualified veterans of World War II and other qualified persons entitled to preference under the act of September 27, 1944, 58 Stat. 747 (43 U. S. C. 279–284), as amended, subject to the requirements of applicable law, and (2) application

[Docket No. G-1992]

under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications under subdivision (1) of this paragraph shall be subject to applications and claims of the classes described in subdivision (2) of this paragraph. All applications filed under this paragraph either at or before 10:00 a. m., on the 35th day after the date of this notice shall be treated as though filed simultaneously at that time. All applications filed under this paragraph after 10:00 a. m., on the said 35th day shall be considered in the order of filing.

(b) *Date for non-preference-right filings.* Commencing at 10:00 a. m., on the 126th day after the date of this notice, any lands remaining unappropriated shall become subject to such application, petition, location, selection, or other appropriation by the public generally as may be authorized by the public-land laws. All such applications filed either at or before 10:00 a. m., on the 126th day after the date of this notice, shall be treated as though filed simultaneously at the hour specified on such 126th day. All applications filed thereafter shall be considered in the order of filing.

A veteran shall accompany his application with a complete photostatic, or other copy (both sides), of his certificate of honorable discharge, or of an official document of his branch of the service which shows clearly his honorable discharge as defined in § 181.36 of Title 43 of the Code of Federal Regulations, or constitutes evidence of other facts upon which the claim for preference is based and which shows clearly the period of service. Other persons claiming credit for service of veterans must furnish like proof in support of their claims. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated statements in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the Land and Survey Office, Phoenix, Arizona, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations and Part 296 of that title, to the extent that such regulations are applicable. Applications under the homestead laws shall be governed by the regulations contained in Parts 166 to 170, inclusive, of Title 43 of the Code of Federal Regulations, and applications under the desert-land laws and the said Small Tract Act of June 1, 1938, shall be governed by the regulations contained in Parts 232 and 257, respectively, of that title.

Inquiries concerning these lands shall be addressed to the Manager, Land and Survey Office, Bureau of Land Management, Phoenix, Arizona.

ELLEN W. KIRSCH,
Acting Manager.

DEPARTMENT OF AGRICULTURE

Commodity Credit Corporation

CHAIRMEN AND ACTING CHAIRMEN OF PMA COUNTY COMMITTEES

DELEGATION OF AUTHORITY TO ACT AS CONTRACTING OFFICERS WITH RESPECT TO PURCHASE OF HAY UNDER THE DROUGHT EMERGENCY PROGRAM–1952

Pursuant to authority vested in the President, Commodity Credit Corporation, by the by-laws of the Corporation, the respective chairmen, or in their absence the acting chairmen, of the PMA county committees of counties instructed to purchase or sell hay under the Drought Emergency Program–1952, are hereby appointed contracting officers of the Commodity Credit Corporation, with authority to execute, in the name of the Corporation, contracts, agreements, or other documents, relative to the purchase, transportation, handling and sale of hay to an eligible person under the Drought Emergency Program–1952 formulated by Commodity Credit Corporation and Production and Marketing Administration.

The foregoing authority as contracting officers shall be exercised in accordance with the instruction "Drought Emergency Program–1952" issued by Harold K. Hill, Deputy Administrator, Production and Marketing Administration, August 11, 1952 and in accordance with any amendments, or supplements thereto, which shall be available for public inspection in the files of the PMA county offices in the counties instructed to sell or purchase hay under the program.

Issued this 22d day of August 1952.

[SEAL] G. F. GEISSLER,
President,
Commodity Credit Corporation.

PANHANDLE EASTERN PIPE LINE CO. ET AL.

ORDER POSTPONING HEARING

AUGUST 21, 1952.

In the matters of Panhandle Eastern Pipe Line Company, Docket Nos. G–1116, G–1240, G–1317, G–1344 and G–1417; City of Port Huron, City of Marysville, City of St. Clair, Michigan, municipal corporations, Docket No. G–1152; Southeastern Michigan Gas Company, Docket No. G–1415; Michigan Consolidated Gas Company, complainant, v. Panhandle Eastern Pipe Line Company, Docket No. G–1379; Northern Indiana Fuel and Light Company, Docket No. G–1457; Missouri Central Natural Gas Company, Docket No. G–1509; The Central West Utility Company, Docket No. G–1616; Michigan Gas Utilities Company, Docket No. G–1625; City of Auburn, Illinois, Docket No. G–1659.

On July 23, 1952, the Presiding Examiner recessed the hearing of the above-docketed matters until September 9, 1952.

The Commission finds: Good cause exists and it would be in the public interest to postpone the resumption of the hearing of the proceedings to the date and place hereinafter ordered.

The Commission orders: The public hearing in these proceedings now scheduled to be resumed September 9, 1952, at 10:00 a. m., in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue NW., Washington, D. C., be and the same is hereby postponed to commence on September 24, 1952, at 10:00 a. m., at the same place.

Date of issuance: August 22, 1952.

By the Commission.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

[Docket No. G–1906]

ATLANTIC SEABOARD CORP. AND VIRGINIA GAS TRANSMISSION CORP.

ORDER FIXING DATE OF HEARING

AUGUST 21, 1952.

On March 3, 1952, Atlantic Seaboard Corporation (Atlantic Seaboard), a Delaware corporation, and Virginia Gas Transmission Corporation (Virginia Gas), a Virginia corporation, sometimes referred to herein as "Applicants", both of which have their principal place of business at Charleston, West Virginia, filed a joint application, which was supplemented on May 28, 1952, pursuant to section 7 of the Natural Gas Act, seeking authorizations for Atlantic Seaboard to acquire and operate all the facilities of Virginia Gas, and for Virginia Gas to discontinue all natural-gas transmission services and to abandon its facilities, subject to the jurisdiction of the Commission, all as more fully described in said joint application, as supplemented, on file with the Commission and open to public inspection.

The Commission finds: This proceeding is a proper one for disposition under the provisions of § 1.32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure, Applicants having requested that their application be heard under the shortened procedure provided by the aforesaid rule for noncontested proceedings, and no request to be heard, protest or petition having been filed subsequent to the giving of due notice of the filing of the application, including publication in the FEDERAL REGISTER on March 19, 1952 (17 F. R. 2373–2374).

The Commission orders:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing be held on September 10, 1952, at 9:45 a. m., in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue NW., Washington, D. C., concerning the matters involved and the issues presented by such application, as supplemented: *Provided, however,* That the Commission may, after a noncontested hearing, forthwith dispose of the proceeding pursuant to the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

(B) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the said rules of practice and procedure.

Date of issuance: August 22, 1952.

By the Commission.

[Docket No. G–1992]

MISSISSIPPI VALLEY GAS CO. AND MISSISSIPPI GAS CO.

ORDER FIXING DATE OF HEARING

AUGUST 21, 1952.

On July 2, 1952, Mississippi Valley Gas Company (Mississippi Valley), a Mississippi corporation having its principal place of business at Jackson, Mississippi and Mississippi Gas Company (Mississippi Gas), a Delaware corporation, having its principal place of business at Meridian, Mississippi, sometimes referred to herein, as Applicants, filed a joint application (1) for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing Mississippi Valley to acquire by purchase by lease and to operate certain transmission pipeline facilities presently owned or leased and operated by Mississippi Gas, and (2) for authorization pursuant to section 7 (b) of the Natural Gas Act for Mississippi Gas to abandon by sale or assignment of lease said transmission pipeline facilities and to abandon the service rendered therefrom. The joint application was supplemented by material filed by Applicants on August 11, 1952. The natural gas transmission facilities involved, which are subject to the jurisdiction of the Commission, are described in the application on file with the Commission and open to public inspection.

The Commission finds: This proceeding is a proper one for disposition under the provisions of § 1.32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure, Applicants having requested that their application be heard under the shortened procedure provided by the aforesaid rule for noncontested proceedings, and no request to be heard, protest or petition having been filed subsequent to the giving of due notice of the filing of the application, including publication in the FEDERAL REGISTER on July 18, 1952 (17 F. R. 6598).

The Commission orders:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing be held on September 9, 1952, at 9:45 a. m., e. d. s. t., in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue NW., Washington, D. C. concerning the matters involved and the issues presented by such application as supplemented: *Provided, however,* That the Commission may, after a noncontested hearing, forthwith dispose of the proceeding pursuant to the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

(B) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the said rules of practice and procedure.

Date of issuance: August 22, 1952.

By the Commission.

PLACEMENT OF PROCUREMENT WITH THE SHIPBUILDING INDUSTRY

NOTIFICATION TO DEPARTMENT OF DEFENSE AND GENERAL SERVICES ADMINISTRATION

The Surplus Manpower Committee, appointed under Defense Manpower Policy No. 4, has reported to the Director of Defense Mobilization its recommendations in the matter of placement of procurement with the shipbuilding industry. These recommendations have been reviewed within the Office of Defense Mobilization to determine their relationship to other policies affecting procurement for which this Office has responsibility, and no conflicts exist.

The Department of Defense and the General Services Administration are hereby notified that upon full consideration, the Director of Defense Mobilization has concluded that it is in the public interest to place Government contracts with the shipbuilding industry in accordance with the attached recommendations of the Committee and the provisions of Defense Manpower Policy No. 4.

The Department of Defense and the General Services Administration are requested to submit, within 30 days, copies of the instructions they have issued implementing this notification. They are further requested to submit monthly reports of the actions taken under this notification.

OFFICE OF DEFENSE
MOBILIZATION,
JOHN R. STEELMAN,
Acting Director.

RECOMMENDATIONS OF THE SURPLUS MANPOWER COMMITTEE CONCERNING THE SHIPBUILDING INDUSTRY UNDER DEFENSE MANPOWER POLICY NO. 4

In accordance with Section III, Paragraph 8 of Defense Manpower Policy No. 4, a panel of the Surplus Manpower Committee held public hearings, beginning August 6, 1952, on the shipbuilding industry. After consideration of the report of that panel, the Committee makes the following recommendations in the interest of preserving the skills and maintaining the productive facilities of the shipbuilding industry. They are conceived in terms of the possibilities of the use of government procurement, to whatever extent practicable, for purposes of maintaining the effective functioning of the shipbuilding industry as a whole.

Accordingly, it is recommended:

1. The entire shipbuilding industry should be excluded from the operation of the surplus labor area preference procedures of Defense Manpower Policy No. 4 and should be certified as an industry to be dealt with under Section 8 of that Policy.

2. The Defense Department should vigorously apply procedures, including negotiated contract procedures, designed to secure the maximum possible utilization of surplus shipbuilding labor skills and facilities in all shipbuilding areas of the United States. To this end, the Defense Department should take all practicable steps, consistent with sound nationwide distribution of shipbuilding contracts and with other procurement and military objectives, to place contracts with firms located in areas that have a surplus of shipbuilding labor skills and shipbuilding facilities.

3. Such part of the total Government shipbuilding program as is to be carried on in private yards should be spread as widely as practicable, both as to the number of private yards to be brought into the program and as to the geographical dispersal of Government shipbuilding work throughout the country. To this end:

a. In the placement of shipbuilding contracts, preference should be given, whenever practicable, to firms which can meet their contract obligations without any substantial use of overtime labor and without the construction of new facilities.

b. Whenever practicable, proposals should be invited and contracts awarded on a small-lot basis rather than on a large-lot basis. Small-lot procurements, which permit small yards to bid and spread the work among a larger number of private yards, should be employed to the maximum practicable extent.

c. It is the present policy of the Bureau of Ships of the Navy Department to divide shipbuilding work between the private yards and the Navy yards in a manner that preserves the vigor of both private yards and Navy Yards and holds Navy Yard overtime to the practicable minimum. This policy is sound and should be vigorously maintained and enforced by the Bureau of Ships.

OFFICE OF DEFENSE
MOBILIZATION,
ARTHUR S. FLEMMING,
Chairman,
Surplus Manpower Committee.

Approved:

JOHN R. STEELMAN,
Acting Director,
Office of Defense Mobilization.

SECURITIES AND EXCHANGE COMMISSION

[File No. 1-3046]

CHEMICAL FUND, INC.

NOTICE OF APPLICATION TO WITHDRAW FROM REGISTRATION AND LISTING AND OF OPPORTUNITY FOR HEARING

AUGUST 22, 1952.

Chemical Fund, Inc., pursuant to section 12 (d) of the Securities Exchange Act of 1934 and Rule X-12D2–1 (b) promulgated thereunder, has made application to withdraw its $1 Par Value Capital Stock from registration and listing on the Board of Trade of the City of Chicago.

The application for withdrawal alleges the following:

(1) Applicant is registered as a diversified open-end management investment company under section 8 (a) of the Investment Company Act of 1940.

(2) Continuance of the registration and listing of the above security on the Board of Trade of the City of Chicago is deemed to be inadvisable because of the lack of trading thereon, due to existing restrictive provisions of the Investment Company Act of 1940 and the rules of the National Association of Securities Dealers.

(3) Said provisions and rules make improbable the possibility of any future increase in exchange trading in this security.

(4) Applicant has been advised by the Board of Trade of the City of Chicago by letter dated August 31, 1951, that said exchange has no objections to the withdrawal of the above security from registration and listing on said exchange.

Upon receipt of a request, prior to September 12, 1952, from any interested person for a hearing in regard to terms to be imposed upon the delisting of this security, the Commission will determine whether to set the matter down for hearing. Such request should state briefly the nature of the interest of the person requesting the hearing and the position he proposes to take at the hearing with respect to imposition of terms or conditions. In addition, any interested person may submit his views or any additional facts bearing on this application by means of a letter addressed to the Secretary of the Securities and Exchange Commission, Washington, D. C. If no one requests a hearing on this matter, this application will be determined by order of the Commission on the basis of the facts stated in the application, and other information contained in the official file of the Commission pertaining to the matter.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[File No. 70-2912]

DUQUESNE LIGHT CO.

NOTICE OF FILING REGARDING SALE OF PREFERRED STOCK AND BONDS AT COMPETITIVE BIDDING

AUGUST 22, 1952.

Notice is hereby given that an application has been filed with this Commission by Duquesne Light Company ("Duquesne"), a public utility subsidiary of Philadelphia Company, a registered holding company. Applicant has designated sections 6 (a) and 6 (b) of the act and Rule U-50 promulgated thereunder as applicable to the proposed transactions which are summarized as follows:

Duquesne proposes to issue and sell, pursuant to the competitive bidding requirements of Rule U-50, 140,000 shares of -- percent Preferred Stock, $50 par value. The dividend rate and the price per share to be paid the company will be determined by competitive bidding, except that the invitation for bids will specify that the price to the company shall not be less than $50 nor more than $51.375 per share.

Shortly thereafter, Duquesne also proposes to issue and sell, pursuant to the competitive bidding requirements of Rule U-50, $14,000,000 principal amount of First Mortgage -- percent Bonds, Series due September 1, 1982. The interest rate and the price to the company for the bonds will be determined by competitive bidding, except that the invitation for bids will specify that the price to the company shall not be less than 100 percent nor more than 102.75 percent of the principal amount. The bonds will be issued under the provisions of the company's existing Indenture, dated August 1, 1947, to the Mellon National Bank and Trust Company, as Trustee, as last supplemented on September 24, 1951, and to be further supplemented by a Supplemental Indenture to be dated September 1, 1952.

The applicant requests that the ten-day period required by Rule U-50 to elapse between the time of inviting bids and the entering into of an agreement with respect to both the issuance and sale of the preferred stock and the bonds be shortened to six days. The proceeds of the sale of the preferred stock and the bonds will be used to retire $15,810,000 of short-term bank loans, which were incurred for construction purposes, and the balance will be used to finance additional construction expenditures.

The filing states that the issue and sale of the preferred stock and the bonds are subject to the authorization of the Public Utility Commission of Pennsylvania. Applicant requests that the Commission's order herein become effective upon issuance.

Notice is further given that any interested person may, not later than September 5, 1952, at 5:30 p. m., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request, the nature of his interest and the issues of fact or law raised by said application, as amended, which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time thereafter said application, as filed or as further amended, may be granted as provided in Rule U-23 of the rules and regulations promulgated under the act or the Commission may exempt such transactions as provided in Rules U-20 (a) and U-100 thereof.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[File No. 70-2913]

UTAH POWER & LIGHT CO.

NOTICE OF FILING CONCERNING SALE OF COMMON STOCK AND BONDS

AUGUST 22, 1952.

Notice is hereby given that Utah Power & Light Company ("Utah"), a registered holding company and a utility operating company, has filed a declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935, and has designated sections 6 (a) and 7 thereof, and Rule U-50 thereunder, as applicable to the proposed transactions which are summarized as follows:

Utah proposes to issue and sell 167,500 additional shares of its no par value common stock by offering such stock on a rights basis to the stockholders of record of Utah at the close of business on September 5, 1952, on the basis of one share of additional stock for each ten shares of common stock held on the record date. The right to subscribe for the stock together with an over-subscription privilege will be evidenced by fully transferable warrants. The price at which the stock will be offered will be designated by Utah by amendment hereto prior to the offering. The rights offering will expire on September 25, 1952. The offering will not be underwritten but Utah proposes to pay any dealer who is a member of the National Association of Securities Dealers, Inc., who renders assistance to those exercising warrants, forty cents per share of additional common stock with respect to which such dealer renders assistance, subject to a maximum fee of $250 with respect to any one person exercising warrants. Utah will not issue any fractional shares but will, through its subscription agent, provide facilities enabling the holders of warrants to purchase such additional rights as are necessary for subscription to one additional share, or to sell such subscription rights as are in excess of those necessary for subscription for one full share of stock, or all subscription rights covered by any warrants, such services to be without charge to the holders of warrants.

Any shares unsubscribed for may be sold by Utah, subject to the filing of an appropriate amendment herein.

After the expiration of the rights offering period, Utah proposes to issue and sell, pursuant to the competitive bidding requirements of Rule U-50, $10,000,000 aggregate principal amount of First Mortgage Bonds ____ Percent Series due 1982. Such bonds are to be issued under the Mortgage and Deed of Trust dated as of December 1, 1943, with Guaranty Trust Company of New York and Arthur E. Burke as Trustees, as supplemented by eight supplemental indentures.

Notice is further given that any interested person may, not later than September 3, 1952, at 5:30 p. m., e. d. s. t., request the Commission in writing that a hearing be held on such matters, stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law raised by said declaration which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after 5:30 p. m., e. d. s. t., on September 3, 1952, said declaration, as filed or as amended, may be permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rules U-20 (a) and U-100 thereof.

All interested persons are referred to the declaration which is on file in the offices of the Commission for a full statement of the proposed transactions.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[File No. 70-2916]

SOUTHERN NATURAL GAS CO.

NOTICE OF PROPOSED ISSUANCE OF REVOLVING CREDIT NOTES

AUGUST 22, 1952.

Notice is hereby given that Southern Natural Gas Company ("Southern"), a registered holding company, has filed a declaration pursuant to the Public Utility Holding Company Act of 1935 ("act"), designating sections 6 and 7 thereof as applicable to the proposed transactions, which are summarized as follows:

Southern proposes to issue and sell promissory notes (herein called the "Revolving Credit Notes") pursuant to a revolving credit agreement to be executed between Southern and The Chase National Bank of the City of New York, and certain other banks. The agreement provides that the Participating Banks will severally make loans to Southern at any time and from time to time from the date of the agreement within a period of two years in an aggregate principal

amount at any one time outstanding not exceeding $25,000,000, and that during said period Southern may borrow, prepay (as provided in the agreement) and re-borrow thereunder. The Revolving Credit Notes will bear interest from their respective dates until September 15, 1953, at the rate of 3 percent per annum, and thereafter until their maturity on September 15, 1954, at the rate of 3¼ percent per annum. Southern agrees to pay a commitment fee computed from the date of the order of the Commission permitting this declaration to become effective, or September 15, 1952, whichever is earlier, at the rate of ¼ percent per annum on the daily average unused amount of the commitments. Southern has the right to prepay all, or from time to time any, of the Revolving Credit Notes, in whole or in part, upon payment of accrued interest and, if prepayment is made directly or indirectly from the proceeds, or in anticipation, of any bank borrowing otherwise then under the agreement, Southern will pay a premium at the rate of ¼ percent per annum. Southern has the right at any time or from time to time to reduce or terminate the commitments.

The proceeds of the Revolving Credit Notes will be applied to the cost of construction of additions to Southern's system proposed to be completed during 1952 and 1953. Southern expects to provide subsequent permanent financing of its 1952 and 1953 construction program by the issue of first mortgage bonds and by the issue of additional common stock or other securities of Southern, or by the sale of the stocks of Southern's subsidiaries, Alabama Gas Corporation and Mississippi Gas Company. Southern would expect to sell additional first mortgage bonds sometime during the first six months of 1953 in the amount permissible at the time under Southern's first mortgage, and would expect to provide for other permanent financing by the sale of additional first mortgage bonds or other securities in such amounts as may be appropriate at the time.

Notice is further given that any interested person may, not later than September 10, 1952, at 5:30 p. m., e. d. s. t., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law, if any, raised by said declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after said date said declaration, as filed or as amended, may be permitted to become effective as provided by Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rule U-20 (a) and Rule U-100 thereof.

By the Commission.

UNITED STATES TARIFF COMMISSION

[Investigation No. 19]

SCREEN-PRINTED SILK SCARVES

NOTICE OF INVESTIGATION

Upon application made by the Association of Textile Screen Makers, Printers & Processors, Inc., the United States Tariff Commission, on the 25th day of August 1952, under the authority of section 7 of the Trade Agreements Extension Act of 1951, approved June 16, 1951, and section 332 of the Tariff Act of 1930, instituted an investigation to determine whether the products described below are, as a result in whole or in part of the duty or other customs treatment reflecting the concession granted thereon under the General Agreement on Tariffs and Trade, being imported into the United States in such increased quantities, either actual or relative, as to cause or threaten serious injury to the domestic industry producing like or directly competitive products.

Tariff Act of 1930:	*Description of products*
Par. 1210..	Clothing and articles of wearing apparel of every description, manufactured wholly or in part, wholly or in chief value of silk, and not specially provided for: Screen-printed scarves.

Inspection of application. The application filed in this case is available for public inspection at the office of the Secretary, United States Tariff Commission, 8th and E Streets NW., Washington, D. C., and in the New York office of the Tariff Commission located in Room 437 of the Custom House, where it may be read and copied by persons interested.

I certify that the above investigation was instituted by the Tariff Commission on the 25th day of August 1952.

Issued: August 25, 1952.

Office of Alien Property

[Vesting Order 18990]

WILLIAM T. BEYER

In re: Interests in real property, property insurance policies and a claim owned by the personal representatives, heirs, next of kin, legatees and distributees of William T. Beyer, deceased. F-28-31961-B-1.

Under the authority of the Trading With the Enemy Act, as amended (50 U. S. C. App. and Sup. 1-40); Public Law 181, 82d Cong., 65 Stat. 451; Executive Order 9193, as amended by Executive Order 9567 (3 CFR 1943 Cum. Supp.; 3 CFR 1945 Supp.); Executive Order 9788 (3 CFR 1946 Supp.) and Executive Order 9989 (3 CFR 1948 Supp.), and pursuant to law, after investigation, it is hereby found:

1. That the personal representatives, heirs, next of kin, legatees and distributees of William T. Beyer, deceased, who there is reasonable cause to believe on or since December 11, 1941, and prior to January 1, 1947, were residents of Germany, are and prior to January 1, 1947, were, nationals of a designated enemy country (Germany);

2. That the property described as follows:

a. An undivided one-fourth (¼) interest in real property situated in the City of Ocean City, County of Cape May, State of New Jersey, particularly described in Exhibit A, attached hereto and by reference made a part hereof, together with all hereditaments, fixtures, improvements and appurtenances thereto, and any and all claims for rents, refunds, benefits or other payments arising from the ownership of such property,

b. All right, title and interest of the persons referred to in subparagraph 1 hereof, in and to all insurance policies covering the premises described in subparagraph 2-a hereof and any and all extensions or renewals thereof, and

c. Those certain debts or other obligations of Charles Frederick Brown, Bishop Avenue, West Berlin, Camden County, New Jersey, arising out of the net income by reason of the collections of rent on the undivided one-fourth (¼) interest in the real property described in subparagraph 2-a hereof, and any all rights to demand, enforce and collect the same,

is property which is and prior to January 1, 1947, was within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the personal representatives, heirs, next of kin, legatees and distributees of William T. Beyer, deceased, the aforesaid nationals of a designated enemy country (Germany);

and it is hereby determined:

3. That the national interest of the United States requires that the persons referred to in subparagraph 1 hereof be treated as persons who are and prior to January 1, 1947, were nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described in subparagraph 2-a hereof, subject to recorded liens, encumbrances and other rights of record held by or for persons who are not nationals of designated enemy countries, and

There is hereby vested in the Attorney General of the United States the property described in subparagraphs 2-b and 2-c hereof.

All such property so vested to be held, used, administered, liquidated, sold, or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on August 21, 1952.

For the Attorney General.

[SEAL] ROWLAND F. KIRKS, *Assistant Attorney General, Director, Office of Alien Property.*

EXHIBIT A

All that certain lot or piece of ground situate, lying and being in the City of Ocean City, County of Cape May and State of New Jersey, numbered 567, Section "D", on the plan of lots of the Ocean City Association, more particularly described as follows:

Beginning in the Southeasterly line of Asbury Avenue at the distance of 310' Southwestwardly from the Southwesterly line of Fifteenth Street; Containing Southwestwardly along said line of Asbury Avenue, thirty (30) feet in front or breadth; and of that width extending, Southeastwardly, in length or depth between lines parallel with Fifteenth Street, 100 feet to a fifteen feet wide street.

Under and subject, nevertheless to the reservations and restrictions of the Ocean City Association.

FRIEDRICH OTTO DONATH

In re: Real property and property insurance policies owned by Friedrich Otto Donath. F-28-31943.

Under the authority of the Trading With the Enemy Act, as amended (50 U. S. C. App. and Sup. 1-40); Public Law 181, 82d Cong., 65 Stat. 451; Executive Order 9193, as amended by Executive Order 9567 (3 CFR 1943 Cum. Supp.; 3 CFR 1945 Supp.); Executive Order 9788 (3 CFR 1946 Supp.) and Executive Order 9989 (3 CFR 1948 Supp.), and pursuant to law, after investigation, it is hereby found:

1. That Friedrich Otto Donath, whose last known address is Bad Salzungen, Germany, on or since December 11, 1941, and prior to January 1, 1947, was a resident of Germany and is, and prior to January 1, 1947, was, a national of a designated enemy country (Germany);

2. That the property described as follows:

a. Real property situated in the City and County of Philadelphia, State of Pennsylvania, particularly described in Exhibit A, attached hereto and by reference made a part hereof, together with all hereditaments, fixtures, improvements and appurtenances thereto, and any and all claims for rents, refunds, benefits or other payments, arising from the ownership of such property, and

b. All right, title and interest of the person named in subparagraph 1 hereof, in and to all insurance policies covering the premises described in the aforesaid Exhibit A, and any and all extensions or renewals thereof,

is property which is and prior to January 1, 1947, was within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, Friedrich Otto Donath, the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

3. That the national interest of the United States requires that the person referred to in subparagraph 1 hereof be treated as a person who is and prior to January 1, 1947, was a national of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described in subparagraph 2-a hereof, subject to recorded liens, encumbrances and other rights of record held by or for persons who are not nationals of designated enemy countries, and

There is hereby vested in the Attorney General of the United States the property described in subparagraph 2-b hereof,

All such property so vested to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on August 21, 1952.

For the Attorney General.

[SEAL] ROWLAND F. KIRKS, *Assistant Attorney General, Director, Office of Alien Property.*

EXHIBIT A

All that certain lot or piece of ground in the City and County of Philadelphia, State of Pennsylvania, with the messuage or tenement thereon erected, particularly described as follows:

Situate on the North side of Locust Street at the distance of one hundred and sixty-one feet three inches Westward from the West side of Fifty-third Street in the Forty-sixth Ward of the City of Philadelphia.

Containing in the front or breadth on said Locust Street Nineteen feet five inches and extending of that width in length or depth Northward between lines at right angles to said Locust Street Eighty-seven feet four and three fourths inches to a certain three feet wide alley extending from Locust Street to Chancellor Street and known as Number 5315 Locust Street.

ELISABETH BOEDECKER ET AL.

In re: Debts owing to Elisabeth Boedecker and others.

Under the authority of the Trading With the Enemy Act, as amended (50 U. S. C. App. and Sup. 1-40); Public Law 181, 82d Cong., 65 Stat. 451; Executive Order 9193, as amended by Executive Order 9567 (3 CFR 1943 Cum. Supp.; 3 CFR 1945 Supp.); Executive Order 9788 (3 CFR 1946 Supp.) and Executive Order 9989 (3 CFR 1948 Supp.), and pursuant to law, after investigation, it is hereby found:

1. That the individuals whose names and last known addresses are set forth as owners in Exhibit A, attached hereto and by reference made a part hereof, on or since December 11, 1941, and prior to January 1, 1947, were, residents of Germany and are, and prior to January 1, 1947, were, nationals of a designated enemy country (Germany);

2. That the enterprises, whose names are set forth as owners in the aforesaid Exhibit A, are corporations, partnerships, associations or other business organizations which on or since December 11, 1941, and prior to January 1, 1947, were, organized under the laws of and had their principal places of business in Germany and are, and prior to January 1, 1947, were, nationals of a designated enemy country (Germany);

3. That the personal representatives, heirs, next of kin, legatees and distributees of Freda Kauffmann, deceased, of Mathild Kousnetzoff, deceased, of Carmelita Meyerhoff, deceased, and of Gesine Penshorn, deceased, who there is reasonable cause to believe on or since December 11, 1941 and prior to January 1, 1947, were, residents of Germany, are and prior to January 1, 1947, were, nationals of a designated enemy country (Germany);

4. That Gunther Wagner, Theda Grassau and Meta Montien, whose last known addresses are Hannover, Germany, Oldenburg, Germany and Hameln, Germany, respectively, on or since December 11, 1941, and prior to January 1, 1947, were, residents of Germany and are, and prior to January 1, 1947, were, nationals of a designated enemy country (Germany);

5. That Otto Euling, who there is reasonable cause to believe on or since December 11, 1941, and prior to January 1, 1947, was, a resident of Germany is, and prior to January 1, 1947, was, a national of a designated enemy country (Germany);

6. That the property described as follows:

a. Those certain debts or other obligations evidenced by the checks and drafts described in Exhibits A and B, attached hereto and by reference made a part hereof, owned by the persons referred to therein as owners, and presently in the custody of the Attorney General of the United States, together with any and all rights to demand, enforce and collect the aforesaid debts or other obligations and any and all rights in, to and under said checks and drafts,

b. That certain debt or other obligation, matured or unmatured, evidenced by a Sola of Exchange numbered 67/1822, drawn on The Agency of the Chartered Bank of India, Australia & China, 65 Broadway, New York, New York, in an amount of $56.60, dated December 18, 1939, owned by Gunther Wagner and presently in the custody of the Attorney General of the United States, together with any and all rights to demand, enforce and collect the aforesaid debt or other obligation and any and all rights in, to and under said Sola of Exchange,

c. Those certain debts or other obligations evidenced by ten (10) American Express Company United States Traveller's Cheques, numbered G3,249,370 through G3,249,379, each in the amount

EXHIBIT A—Continued

of $10.00, said traveller's cheques owned by Theda Grassau and presently in the custody of the Attorney General of the United States, together with any and all rights to demand, enforce and collect the aforesaid debts or other obligations, and any and all rights in, to and under said cheques,

d. That certain debt or other obligation evidenced by one (1) American Express Company United States Traveller's Cheque numbered F9,279,378, in the amount of $10.00, said traveller's cheque owned by Meta Montlen and presently in the custody of the Attorney General of the United States, together with any and all rights to demand, enforce and collect the aforesaid debt or other obligation, and any and all rights in, to and under said cheque, and

e. Those certain debts or other obligations evidenced by nine (9) The National City Bank of New York Traveller's Checks, numbered A6-324-781 through A6-324-789, each in the amount of $10.00, said traveller's checks owned by Otto Euling and presently in the custody of the Attorney General of the United States, together with any and all rights to demand, enforce and collect the aforesaid debts or other obligations, and any and all rights in, to and under said checks,

is property which is and prior to January 1, 1947, was within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid nationals of a designated enemy country (Germany),

and it is hereby determined:

7. That the national interest of the United States requires that the persons referred to in subparagraphs 1, 2 and 3, and named in subparagraphs 4 and 5 hereof, be treated as persons who are and prior to January 1, 1947, were nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "nationals" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on August 21, 1952.

For the Attorney General.

[SEAL] ROWLAND F. KIRKS,
Assistant Attorney General,
Director, Office of Alien Property.

[Vesting Order 18993]

LUISE LANGER

In re: Interest in bank account owned by Luise Langer. F-28-31862-E-1.

Under the authority of the Trading With the Enemy Act, as amended (50 U. S. C. App. and Sup. 1-40); Public Law 181, 82d Cong., 65 Stat. 451; Executive Order 9193, as amended by Executive Order 9567 (3 CFR 1943 Cum. Supp.; 3 CFR 1945 Supp.); Executive Order 9788 (3 CFR 1946 Supp.) and Executive Order 9989 (3 CFR 1948 Supp.), and pursuant to law, after investigation, it is hereby found:

1. That Luise Langer, whose last known address is 129 Gorkistrasse, Leipzig N 24, Germany, on or since December 11, 1941, and prior to January 1, 1947, was a resident of Germany and is, and prior to January 1, 1947, was a national of a designated enemy country (Germany);

2. That the property described as follows:

A one-half interest in that certain debt or other obligation of the San Angelo National Bank, San Angelo, Texas, arising out of an account held in the name of Georg Langer maintained with the aforesaid bank, and any and all rights to demand, enforce and collect the aforesaid one-half interest,

is property which is and prior to January 1, 1947, was within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, Luise Langer, the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

3. That the national interest of the United States requires that the person identified in subparagraph 1 hereof, be treated as a person who is and prior to January 1, 1947, was a national of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on August 22, 1952.

For the Attorney General.

[SEAL] ROWLAND F. KIRKS,
Assistant Attorney General, Director, Office of Alien Property.

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 27335]

ALUMINA FROM BAUXITE, ARK., TO MICHIGAN CITY, IND.

APPLICATION FOR RELIEF

AUGUST 25, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: F. C. Kratzmeir, Agent, for carriers parties to his tariff I. C. C. No. 3908.

Commodities involved: Alumina, calcined or hydrated, carloads.

From: Bauxite, Ark.

To: Michigan City, Ind.

Grounds for relief: Rail competition and to apply over short tariff routes rates constructed on the basis of the short line distance formula.

Schedules filed containing proposed rates: F. C. Kratzmeir, Agent, I. C. C. No. 3908, Supp. 115.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

[SEAL] W. P. BARTEL,
Secretary.

[F. R. Doc. 52-9449; Filed, Aug. 27, 1952; 8:50 a. m.]

[4th Sec. Application 27336]

LOGS FROM BOWLING GREEN AND SCOTTSVILLE, KY., TO ALTAVISTA, VA.

APPLICATION FOR RELIEF

AUGUST 25, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for the Louisville and Nashville Railroad Company and the Southern Railway Company.

Commodities involved: Logs, native wood, carloads.

From: Bowling Green and Scottsville, Ky.

To: Altavista, Va.

Grounds for relief: Competition with rail carriers and circuitous routes.

Schedules filed containing proposed rates: C. A. Spaninger, Agent, I. C. C. No. 890, Supp. 206.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

[SEAL] W. P. BARTEL,
Secretary.

[F. R. Doc. 52-9450; Filed, Aug. 27, 1952; 8:50 a. m.]

[4th Sec. Application 27337]

FURFURAL FROM MEMPHIS, TENN., TO POINTS IN OFFICIAL TERRITORY

APPLICATION FOR RELIEF

AUGUST 25, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: F. C. Kratzmeir, Agent, for carriers parties to Agent C. A. Spaninger's tariffs I. C. C. Nos. 1172 and 1193, pursuant to fourth-section order No. 16101.

Commodities involved: Furfural, in tank-car loads.

From: Memphis, Tenn.

To: Specified points in official territory.

Grounds for relief: Competition with rail carriers, circuitous routes, and operation through higher-rated territory.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

[SEAL] W. P. BARTEL,
Secretary.

[4th Sec. Application 27338]

MAGNESIUM METAL OR ALLOY FROM VELASCO, TEX., TO BAY CITY AND MIDLAND, MICH.

APPLICATION FOR RELIEF

AUGUST 25, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: F. C. Kratzmeir, Agent, for carriers parties to his tariff I. C. C. No. 3967.

Commodities involved: Magnesium metal or magnesium metal alloy, shipped as ingots, in the rough, carloads.

From: Velasco, Tex.

To: Bay City and Midland, Mich.

Grounds for relief: Competition with rail carriers and water-motor competition.

Schedules filed containing proposed rates: F. C. Kratzmeir, Agent, I. C. C. No. 3967, Supp. 151.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

[4th Sec. Application 27339]

COAL FROM LAKE SUPERIOR DOCKS IN WISCONSIN TO MINNESOTA

APPLICATION FOR RELIEF

AUGUST 25, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: L. E. Kipp, Agent, for carriers parties to the tariffs listed on attached sheet.

Commodities involved: Coal, anthracite or bituminuous (including bituminous fine coal, also anthracite dust), carloads.

From: Lake Superior docks in Wisconsin.

To: Points in Minnesota.

Grounds for relief: Market competition and port competition.

Schedules filed containing proposed rates:

[4th Sec. Application 27340]

PREFABRICATED HOUSES FROM TULSA, OKLA. TO WYOMING

APPLICATION FOR RELIEF

AUGUST 25, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: F. C. Kratzmeir, Agent, for carriers parties to his tariff I. C. C. No. 3886.

Commodities involved: Prefabricated or portable wooden houses, carloads.

From: Tulsa, Okla.

To: Points in Wyoming.

Grounds for relief: Competition with rail carriers and circuitous routes.

Schedules filed containing proposed rates: F. C. Kratzmeir, Agent, I. C. C. No. 3886, Supp. 67.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

[SEAL] W. P. BARTEL,
Secretary.

[4th Sec. Application 27341]

IRON OR STEEL PIPE FROM GALVESTON, HOUSTON, AND ORANGE, TEX. TO HAVANA AND QUINCY, ILL.

APPLICATION FOR RELIEF

AUGUST 25, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: F. C. Kratzmeir, Agent, for carriers parties to his tariff I. C. C. No. 3967.

Commodities involved: Pipe, steel or wrought iron, welded or seamless, carloads.

From: Galveston, Houston, and Orange, Tex.

To: Havana and Quincy, Ill.

Grounds for relief: Rail competition, motor-water competition, and circuitous routes.

Schedules filed containing proposed rates: F. C. Kratzmeir, Agent, I. C. C. No. 3967, Supp. 149.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the

[4th Sec. Application 27342]

CRUDE RUBBER FROM PORT NECHES, TEX. TO NATCHEZ, MISS.

APPLICATION FOR RELIEF

AUGUST 25, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: F. C. Kratzmeir, Agent, for The Kansas City Southern Railway Company and other carriers.

Commodities involved: Rubber, artificial, synthetic or neoprene, crude, carloads.

From: Port Neches, Tex.

To: Natchez, Miss.

Grounds for relief: Competition with rail carriers and circuitous routes.

Schedules filed containing proposed rates: F. C. Kratzmeir, Agent, I. C. C. No. 3967, Supp. 150.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

[4th Sec. Application 27343]

SULPHURIC ACID FROM NORCO, LA. TO MOULTRIE, GA.

APPLICATION FOR RELIEF

AUGUST 25, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for carriers parties to Agent C. A. Spaninger's tariff I. C. C. No. 1200.

Commodities involved: Sulphuric acid, in tankcar loads.

From: Norco, La.

To: Moultrie, Ga.

Grounds for relief: Competition with rail carriers and circuitous routes.

Schedules filed containing proposed rates: C. A. Spaninger, Agent, I. C. C. No. 1200, Supp. 58.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

TITLE 6—AGRICULTURAL CREDIT

Chapter III—Farmers Home Administration, Department of Agriculture

Subchapter F—Miscellaneous Regulations

PART 381—DISASTER LOAN PROGRAM

CHANGE IN CERTIFICATION AND APPLICATION FORMS FOR DISASTER LOANS

1. Paragraphs (c) and (d) of § 381.4, Title 6, Code of Federal Regulations (16 F. R. 3970), are revised to require the use of Form FHA-910 in obtaining certifications from applicants and the County Committee. Paragraphs (c) and (d) are revised to read as follows:

§ 381.4 *Eligibility and certifications.*

* * *

(c) *Certification by applicant.* Except as provided in § 381.9 (a), an applicant for a disaster loan, either initial or subsequent, must certify on Form FHA-910, "Statement of Loss and Certifications," before a disaster loan may be made, that he has suffered substantial damages as a result of a production disaster, and that he is unable to obtain from commercial banks, cooperative lending agencies, or other responsible sources the credit necessary for continuing his farming operations.

[1] 3 CFR, 1943 Cum. Supp.; 5 F. R. 5215.

(d) *Certification by County Committee.* Except as provided in § 381.9 (a), the County Committee must certify on Form FHA-910, before a disaster loan may be made, that to the best of its knowledge and belief:

(1) The applicant has suffered substantial damage as a result of a production disaster,

(2) The applicant is unable to obtain from commercial banks, cooperative lending agencies, or other responsible sources the credit necessary for continuing his farming operations, and

(3) The applicant has the necessary experience and ability and will honestly endeavor to carry out the undertakings and obligations required of him under the loan.

(R. S. 161; 5 U. S. C. 22. Interprets or applies sec. 2, 63 stat. 44; 12 U. S. C. 1148a-2)

2. Paragraph (a) of § 381.9, Title 6, Code of Federal Regulations (16 F. R. 3971) is amended to change the references to loan forms and to read as follows:

§ 381.9 *Loan forms and routines.* (a) *Application and certifications.* An applicant for an initial disaster loan will execute:

(1) Form FHA-197, "Application for FHA Services," except when he is a Farm Ownership borrower, a section 503 Farm Housing borrower, an active adjustment loan borrower or a paid-up disaster loan borrower who has not changed farms since he received his last disaster loan;

(2) Form FHA-197A, "Report on Application for Loan," except when he is a Farm Ownership borrower, a section 503 Farm Housing borrower or an active adjustment loan borrower; and

(3) Form FHA-910, "Statement of Loss and Certifications." In cases where applicants are Farm Ownership borrowers, section 503 Farm Housing borrowers or active adjustment loan borrowers, Form FHA-14, "Farm and Home Plan," will replace Forms FHA-197 and FHA-197A. In the case of applications for subsequent disaster loans, Form FHA-197 will be required only when the borrower has changed farms since his last disaster loan was received, and Form FHA-910 will not be required if the purpose of the loan is to supplement a dis-

TITLE 7—AGRICULTURE

Chapter I—Production and Marketing Administration (Standards, Inspections, Marketing Practices), Department of Agriculture

PART 51—FRESH FRUITS, VEGETABLES AND OTHER PRODUCTS (INSPECTION, CERTIFICATION, AND STANDARDS)

SUBPART B—UNITED STATES STANDARDS FOR FRESH FRUITS, VEGETABLES AND OTHER PRODUCTS

U. S. STANDARDS FOR FLORIDA ORANGES

On July 22, 1952, a notice of proposed rule making was published in the FEDERAL REGISTER (17 F. R. 6713) regarding proposed United States Standards for Florida Oranges. A period of thirty days was allowed for submitting written data, views and arguments for consideration in connection with the proposed standards. After consideration of all relevant matters presented, including the proposals set forth in the aforesaid notice of rule making, the following United States Standards for Florida Oranges are hereby promulgated under the authority contained in the Agricultural Marketing Act of 1946 (60 Stat. 1087; 7 U. S. C. 1621 et seq.) and the Department of Agriculture Appropriation Act, 1953 (Pub. Law 451, 82d Cong., approved July 5, 1952).

§ 51.302 *Standards for Florida oranges*—(a) *General.* (1) The standards in this section apply only to the common or sweet orange group and varieties belonging to the Mandarin group, except tangerines. The standards in this section do not apply to tangerines for which separate U. S. Standards are issued.

(b) *Grades*—(1) *U. S. Fancy.* U. S. Fancy consists of oranges of similar varietal characteristics which are well colored, firm, well formed, mature, and of smooth texture, and which are free from ammoniation, bird pecks, bruises, buckskin, creasing, cuts which are not healed, decay, growth cracks, scab, split navels, sprayburn, and undeveloped or sunken segments, and free from injury caused by green spots or oil spots, pitting, rough and excessively wide or protruding navels, scale, scars, thorn scratches, and from damage caused by dirt or other foreign materials, dryness or mushy condition, sprouting, sunburn, riciness or woodiness of the flesh, disease, insects, or mechanical or other means.

(i) In this grade not more than one-tenth of the surface, in the aggregate, may be affected with discoloration. (See Tolerances for Defects.)

(ii) If any lot of U. S. Fancy Fruit also meets the internal specifications of "U. S. Grade AA Juice (Double A)" or "U. S. Grade A Juice" it may be so specified in accordance with the facts. (See Standards for Internal Quality of Common Sweet Oranges.)

(2) *U. S. No. 1.* U. S. No. 1 consists of oranges of similar varietal characteristics which are firm, well formed, mature, and of fairly smooth texture, and which are free from bruises, cuts which are not healed, buckskin or similar type of discoloration, decay, growth cracks, sprayburn, undeveloped or sunken segments, and free from damage caused by ammoniation, bird pecks, creasing, dirt or other foreign materials, dryness or mushy condition, green spots or oil spots, pitting, scab, scale, scars, split or rough or protruding navels, sprouting, sunburn, thorn scratches, riciness or woodiness of the flesh, disease, insects, or mechanical or other means.

(i) Oranges of the early and mid-season varieties shall be fairly well colored.

(ii) With respect to Valencia and other late varieties, not less than 50 percent, by count, of the oranges shall be fairly well colored and the remainder reasonably well colored.

(iii) In this grade not more than one-third of the surface, in the aggregate, may be affected with discoloration. (See Tolerances for Defects.)

(iv) If any lot of U. S. No. 1 fruit also meets the internal specifications of "U. S. Grade AA Juice (Double A)" or "U. S. Grade A Juice" it may be so specified in accordance with the facts. (See Standards for Internal Quality of Common Sweet Oranges.)

(3) *U. S. No. 1 Bright.* The requirements for this grade are the same as for U. S. No. 1 except that no fruit may have more than one-tenth of its surface, in the aggregate, affected with discoloration. (See Tolerances for Defects.)

(i) If any lot of U. S. No. 1 Bright fruit also meets the internal specifications of "U. S. Grade AA Juice (Double A)" or "U. S. Grade A Juice" it may be so specified in accordance with the facts. (See Standards for Internal Quality of Common Sweet Oranges.)

(4) *U. S. No. 1 Golden.* The requirements for this grade are the same as for U. S. No. 1 except that not more than 30 percent, by count, of the fruits shall have in excess of one-third of their surface, in the aggregate, affected with discoloration. (See Tolerances for Defects.)

(i) If any lot of U. S. No. 1 Golden fruit also meets the internal specifications of "U. S. Grade AA Juice (Double A)" or "U. S. Grade A Juice" it may be so specified in accordance with the facts. (See Standards for Internal Quality of Common Sweet Oranges.)

(5) *U. S. No. 1 Bronze.* The requirements for this grade are the same as for U. S. No. 1 except that more than 30 percent but not more than 75 percent, by count, of the fruits shall have in excess of one-third of their surface, in the aggregate, affected with discoloration: *Provided*, That when the predominating discoloration on each of 75 percent or more, by count, of the fruits is caused by rust mite, all fruits may have in excess of one-third of their surface affected with discoloration. (See Tolerances for Defects.)

(i) If any lot of U. S. No. 1 Bronze fruit also meets the internal specifications of "U. S. Grade AA Juice (Double A)" or "U. S. Grade A Juice" it may be so specified in accordance with the facts. (See Standards for Internal Quality of Common Sweet Oranges.)

(6) *U. S. No. 1 Russet.* The requirements for this grade are the same as for U. S. No. 1 except that more than 75 percent, by count, of the fruits shall have in excess of one-third of their surface, in the aggregate, affected with

discoloration. (See Tolerances for Defects).

(i) If any lot of U. S. No. 1 Russet fruit also meets the internal specifications of "U. S. Grade AA Juice (Double A)" or "U. S. Grade A Juice" it may be so specified in accordance with the facts. (See Standards for Internal Quality of Common Sweet Oranges).

(7) *U. S. No. 2.* U. S. No. 2 consists of oranges of similar varietal characteristics which are mature, fairly firm, not more than slightly misshapen, of not more than slightly rough texture, and which are free from bruises, cuts which are not healed, decay, growth cracks, and are free from serious damage caused by ammoniation, bird pecks, buckskin, creasing, dirt or other foreign materials, dryness or mushy condition, green spots or oil spots, pitting, scab, scale, scars, split or rough or protruding navels, sprayburn, sprouting, sunburn, thorn scratches, undeveloped or sunken segments, riciness or woodiness of the flesh, disease, insects, or mechanical or other means.

(i) Each orange of this grade shall be reasonably well colored.

(ii) In this grade not more than one-half of the surface, in the aggregate, may be affected with discoloration. (See Tolerances for Defects.)

(iii) If any lot of U. S. No. 2 fruit also meets the internal specifications of "U. S. Grade AA Juice (Double A)" or "U. S. Grade A Juice" it may be so specified in accordance with the facts. (See Standards for Internal Quality of Common Sweet Oranges.)

(8) *U. S. No. 2 Bright.* The requirements for this grade are the same as for U. S. No. 2 except that no fruit may have more than one-tenth of its surface, in the aggregate, affected with discoloration. (See Tolerances for Defects.)

(i) If any lot of U. S. No. 2 Bright fruit also meets the internal specifications of "U. S. Grade AA Juice (Double A)" or "U. S. Grade A Juice" it may be so specified in accordance with the facts. (See Standards for Internal Quality of Common Sweet Oranges.)

(9) *U. S. No. 2 Russet.* The requirements for this grade are the same as for U. S. No. 2 except that more than 10 percent, by count, of the fruits shall have in excess of one-half of their surface, in the aggregate, affected with discoloration. (See Tolerances for Defects.)

(i) If any lot of U. S. No. 2 Russet fruit also meets the internal specifications of "U. S. Grade AA Juice (Double A)" or "U. S. Grade A Juice" it may be so specified in accordance with the facts. (See Standards for Internal Quality of Common Sweet Oranges.)

(10) *U. S. No. 3.* U. S. No. 3 consists of oranges of similar varietal characteristics which are mature, which may be misshapen, slightly spongy, rough but not seriously lumpy for the variety or seriously cracked, which are free from cuts which are not healed, and from decay, and from very serious damage caused by bruises, growth cracks, ammoniation, bird pecks, caked melanose, buckskin, creasing, dryness or mushy condition, pitting, scab, scale, split navels, sprayburn, sprouting, sunburn, thorn punctures, riciness or woodiness of the flesh, disease, insects, or mechanical or other means.

(i) Each fruit may be poorly colored but not more than 25 percent of the surface of each fruit may be of a solid dark green color. (See Tolerances for Defects.)

(ii) If any lot of U. S. No. 3 fruit also meets the internal specifications of "U. S. Grade AA Juice (Double A)" or "U. S. Grade A Juice" it may be so specified in accordance with the facts. (See Standards for Internal Quality of Common Sweet Oranges.)

(c) *Unclassified.* Unclassified consists of oranges which have not been classified in accordance with any of the foregoing grades. The term "unclassified" is not a grade within the meaning of these standards but is provided as a designation to show that no definite grade has been applied to the lot.

(d) *Tolerances.* In order to allow for variations incident to proper grading and handling in each of the foregoing grades, the following tolerances are provided as specified:

(1) *U. S. Fancy Grade.* Not more than 10 percent, by count, of the fruits in any lot may be below the requirements of this grade, but not more than one-half of this amount, or 5 percent, shall be allowed for very serious damage, and not more than one-twentieth of the tolerance, or one-half of one percent, shall be allowed for decay at shipping point: *Provided,* That an additional tolerance of 2½ percent, or a total of not more than 3 percent, shall be allowed for decay enroute or at destination. None of the foregoing tolerances shall apply to wormy fruit.

(2) *U. S. No. 1 Grade.* Not more than 10 percent, by count, of the fruits in any lot may be below the requirements of this grade, other than for discoloration, but not more than one-half of this amount, or 5 percent, shall be allowed for very serious damage, and not more than one-twentieth of the tolerance, or one-half of one percent, shall be allowed for decay at shipping point: *Provided,* That an additional tolerance of 2½ percent, or a total of not more than 3 percent, shall be allowed for decay en route or at destination. In addition, not more than 10 percent, by count, of the fruits in any lot may have discoloration in excess of one-third of the fruit surface. None of the foregoing tolerances shall apply to wormy fruit.

(3) *U. S. No. 1 Bright and U. S. No. 2 Bright Grades.* Not more than 10 percent, by count, of the fruits in any lot may be below the requirements of the grade, other than for discoloration, but not more than one-half of this amount, or 5 percent, shall be allowed for very serious damage, and not more than one-twentieth of the tolerance, or one-half of one percent, shall be allowed for decay at shipping point: *Provided,* That an additional tolerance of 2½ percent, or a total of not more than 3 percent, shall be allowed for decay en route or at destination. In addition, not more than 10 percent, by count, of the fruits in any lot may not meet the requirements relating to discoloration. None of the foregoing tolerances shall apply to wormy fruit.

(4) *U. S. No. 1 Golden and U. S. No. 1 Bronze Grades.* Not more than 10 percent, by count, of the fruits in any lot may be below the requirements of the grade, but not more than one-half of this amount, or 5 percent, shall be allowed for very serious damage, and not more than one-twentieth of the tolerance, or one-half of one percent, shall be allowed for decay at shipping point: *Provided,* That an additional tolerance of 2½ percent, or a total of not more than 3 percent, shall be allowed for decay en route or at destination. No part of any tolerance shall be allowed to reduce the percentage of fruits having in excess of one-third of their surface, in the aggregate, affected with discoloration which is required in the grade, but individual containers may vary not more than 10 percent from the percentage required: *Provided,* That the entire lot averages within the percentage specified. None of the foregoing tolerances shall apply to wormy fruit.

(5) *U. S. No. 1 Russet Grade.* Not more than 10 percent, by count, of the fruits in any lot may be below the requirements of this grade, but not more than one-half of this amount, or 5 percent, shall be allowed for very serious damage, and not more than one-twentieth of the tolerance, or one-half of one percent, shall be allowed for decay at shipping point: *Provided,* That an additional tolerance of 2½ percent, or a total of not more than 3 percent, shall be allowed for decay en route or at destination. No part of any tolerance shall be allowed to reduce the percentage of fruits having in excess of one-third of their surface, in the aggregate, affected with discoloration which is required in this grade, but individual containers may have not more than 10 percent less than the percentage required: *Provided,* That the entire lot averages within the percentage specified. None of the foregoing tolerances shall apply to wormy fruit.

(6) *U. S. No. 2 Grade.* Not more than 10 percent, by count, of the fruits in any lot may be below the requirements of this grade, other than for discoloration, but not more than one-half of this amount, or 5 percent, shall be allowed for very serious damage other than that caused by dryness or mushy condition, and not more than one-twentieth of the tolerance, or one-half of one percent, shall be allowed for decay at shipping point: *Provided,* That an additional tolerance of 2½ percent, or a total of not more than 3 percent, shall be allowed for decay enroute or at destination. In addition, not more than 10 percent, by count, of the fruits in any lot may not meet the requirements relating to discoloration. None of the foregoing tolerances shall apply to wormy fruit.

(7) *U. S. No. 2 Russet Grade.* Not more than 10 percent, by count, of the fruits in any lot may be below the requirements of this grade, but not more than one-half of this amount, or 5 percent, shall be allowed for very serious damage other than that caused by dryness or mushy condition, and not more than one-twentieth of the tolerance, or one-half of one percent, shall be allowed for decay at shipping point: *Provided,* That an additional tolerance of 2½ percent, or a total of not more than 3 percent, shall be allowed for decay enroute or at destination. No part of any tolerance shall be allowed to reduce the percentage of fruits having in excess of one-third of their surface, in the aggregate, affected with discoloration which is required in this grade, but individual containers may have not more than 10 percent less than the percentage required: *Provided,* That the entire lot averages within the percentage specified. None of the foregoing tolerances shall apply to wormy fruit.

(8) *U. S. No. 3 Grade.* Not more than 15 percent, by count, of the fruits in any lot may be below the requirements of this grade, but not more than one-third of this amount, or 5 percent, shall be allowed for defects other than that caused by dryness or mushy condition, and not more than one-fifth of this amount, or 1 percent, shall be allowed for decay at shipping point: *Provided,* That an additional tolerance of 2 percent, or a total of not more than 3 percent, shall be allowed for decay enroute or at destination. None of the foregoing tolerances shall apply to wormy fruit.

(e) *Application of tolerances to individual packages.* (1) The contents of individual packages in the lot, based on sample inspection, are subject to the following limitations: *Provided,* That the averages for the entire lot are within the tolerances specified for the grade.

(i) For packages which contain more than 10 pounds, and a tolerance of 10 percent or more is provided, individual packages in any lot shall have not more than one and one-half times the tolerance specified. For packages which contain more than 10 pounds and a tolerance of less than 10 percent is provided, individual packages in any lot shall have not more than double the tolerance specified, except that at least one decayed or very seriously damaged fruit may be permitted in any package.

(ii) For packages which contain 10 pounds or less, individual packages in any lot are not restricted as to the percentage of defects: *Provided,* That not more than one orange which is seriously damaged by dryness or mushy condition or very seriously damaged by other means may be permitted in any package, and in addition, enroute or at destination not more than 10 percent of the packages may have more than one decayed fruit.

(f) *Standard pack for oranges except Temple variety.* (1) Fruit shall be fairly uniform in size, unless specified as uniform in size, and when packed in boxes shall be arranged according to the approved and recognized methods. Each wrapped fruit shall be fairly well wrapped.

(2) All packages shall be tightly packed and well filled but the contents shall not show excessive or unnecessary bruising because of overfilled packages.

(3) When packed in standard nailed boxes, each container shall show a minimum bulge of 1¼ inches.

(4) "Fairly uniform in size" means that not more than a total of 10 percent, by count, of the fruits in any container are outside the range of diameters given in the following table for various packs:

TABLE I

[Diameter in inches]

Pack	Minimum	Maximum
96's	3⅝	3 13/16
120's or 126's	3 3/16	3 9/16
150's	3	3⅜
176's or 176's	2 11/16	3 1/16
200's	2 9/16	2 13/16
216's	2 9/16	3
252's	2⅜	2 11/16
288's or 294's	2¼	2 9/16
324's	2 1/16	2 5/16

(5) "Uniform in size" means that not more than 10 percent, by count, of the fruits in any container vary more than the following amounts:

150 size and smaller—not more than 1/16 inch in diameter.

126 size and larger—not more than 5/16 inch in diameter.

(6) In order to allow for variations, other than sizing, incident to proper packing, not more than 5 percent of the packages in any lot may not meet the requirements of standard pack.

(g) *Definitions.* (1) "Similar varietal characteristics" means that the fruits in any container are similar in color and shape.

(2) "Well colored" means that the fruit is yellow or orange in color with practically no trace of green color.

(3) "Firm" as applied to common oranges, means that the fruit is not soft, or noticeably wilted or flabby; as applied to oranges of the Mandarin group (Satsumas, King, Mandarin), means that the fruit is not extremely puffy, although the skin may be slightly loose.

(4) "Well formed" means that the fruit has the shape characteristic of the variety.

(5) "Mature" means the same as that term is set forth for oranges other than Temple oranges in sections 19 and 20, chapter 25149 and for Temple oranges, in sections 601.21 and 601.22, chapter 26492, Florida Statutes, known as the Florida Citrus Code of 1949.

(6) "Smooth texture" means that the skin is thin and smooth for the variety and size of the fruit.

(7) "Injury" means any defect which more than slightly affects the appearance, or the edible or shipping quality of the fruit. Any one of the following defects, or any combination of defects, the seriousness of which exceeds the maximum allowed for any one defect, shall be considered as injury:

(i) Green spots or oil spots, when appreciably affecting the appearance of the individual fruit;

(ii) Rough and excessively wide or protruding navels, when protruding beyond the general contour of the orange; or when flush with the general contour but with the opening so wide, considering the size of the fruit, and the navel growth so folded and ridged that it detracts noticeably from the appearance of the orange;

(iii) Scale, when more than a few adjacent to the "button" at the stem end, or when more than 6 scattered on other portions of the fruit;

(iv) Scars which are depressed, not smooth, or which detract from the appearance of the friut to a greater extent than the maximum amount of discoloration allowed in the grade; and.

(v) Thorn scratches, when the injury is not slight, not well healed, or more unsightly than discoloration allowed in the grade.

(8) "Discoloration" means russeting of a light shade of golden brown caused by rust mite or other means. Lighter shades of discoloration caused by superficial scars or other means may be allowed on a greater area, or darker shades may be allowed on a lesser area, provided no discoloration caused by melanose or other means may affect the appearance of the fruit to a greater extent than the shade and amount of discoloration allowed for the grade.

(9) "Fairly smooth texture" means that the skin is fairly thin and not coarse for the variety and size of the fruit.

(10) "Damage" means any defect which materially affects the appearance, or the edible or shipping quality of the fruit. Any one of the following defects, or any combination of defects, the seriousness of which exceeds the maximum allowed for any one defect, shall be considered as damage:

(i) Ammoniation, when not occurring as light speck type similar to melanose;

(ii) Creasing, when causing the skin to be materially weakened;

(iii) Dryness or mushy condition, when affecting all segments of common oranges more than one-fourth inch at the stem end, or all segments of varieties of the Mandarin group more than one-eighth inch at the stem end, or more than the equivalent of these respective amounts, by volume, when occurring in other portions of the fruit;

(iv) Green spots or oil spots, when more than 5 in number, or when the aggregate area of all spots exceeds the area of a circle three-fourths inch in diameter on an orange of 200-size. Smaller sizes shall have a lesser number or lesser areas of green spots or oil spots and larger sizes may have a larger number or greater areas: *Provided,* That the appearance of the orange is not affected to a greater extent than the number or area permitted on a 200-size orange;

(v) Scab, when it cannot be classed as discoloration, or appreciably affects shape or texture;

(vi) Scale, when occurring as a blotch and its size exceeds the area of a circle five-eights inch in diameter on an orange of 200-size. Smaller sizes shall have lesser areas of scale and larger sizes may have greater areas: *Provided,* That no scale shall be permitted which affects the appearance to a greater extent than a blotch five-eighths inch in diameter on a 200-size orange;

(vii) Scars which are not smooth, or scars which are deep, or scars which are shallow or fairly shallow and detract from the appearance of the fruit to a greater extent than the amount of discoloration allowed in the grade;

(viii) Split or rough or protruding navels, when any split is unhealed, or more than three well-healed splits at

the navel, or any split which is more than one-fourth inch in length, or three-cornered, star-shaped, or other irregular navels when the opening is so wide, considering the size of the orange, and the navel growth so folded and ridged that it detracts materially from the appearance of the orange; or navels which flare, bulge, or protrude beyond the general contour of the orange to the extent that they are subject to mechanical injury in the process of proper grading, or handling, or packing;

(ix) Sunburn, when the area affected exceeds 25 percent of the fruit surface, or when the skin is appreciably flattened, dry, darkened, or hard;

(x) Thorn scratches, when the injury is not well healed, or concentrated light colored thorn injury which has caused the skin to become hard and the aggregate area exceeds the area of a circle one-fourth inch in diameter, or slight scratches when light colored and concentrated and the aggregate area exceeds the area of a circle 1 inch in diameter, or dark or scattered thorn injury which detracts from the appearance of the fruit to a greater extent than the amounts specified above; and,

(xi) Riciness or woodiness, when the flesh of the fruit is so ricey or woody that excessive pressure by hand is required to extract the juice.

(11) "Fairly well colored" means that the yellow or orange color predominates over the green color on that part of the fruit which is not discolored, except for an aggregate area of green color which does not exceed the area of a circle 1 inch in diameter.

(12) "Reasonably well colored" means that the yellow or orange color predominates over the green color on at least two-thirds of the fruit surface, in the aggregate, which is not discolored.

(13) "Fairly firm" as applied to common oranges, means that the fruit may be slightly soft, but not bruised; as applied to oranges of the Mandarin group (Satsumas, King, Mandarin), means that the skin of the fruit is not extremely puffy or extremely loose.

(14) "Slightly misshapen" means that the fruit is not of the shape characteristic of the variety but is not appreciably elongated or pointed or otherwise deformed.

(15) "Slightly rough texture" means that the skin is not of smooth texture but is not materially ridged, grooved, or wrinkled.

(16) "Serious damage" means any defect which seriously affects the appearance, or the edible or shipping quality of the fruit. Any one of the following defects, or any combination of defects, the seriousness of which exceeds the maximum allowed for any one defect, shall be considered as serious damage:

(i) Ammoniation, when scars are cracked, or when dark and the aggregate area exceeds the area of a circle three-fourths inch in diameter, or when light colored and the aggregate area exceeds the area of a circle 1¼ inches in diameter;

(ii) Buckskin, when aggregating more than 25 percent of the fruit surface, or the fruit texture is seriously affected;

(iii) Creasing, when so deep or extensive that the skin is seriously weakened;

(iv) Dryness or mushy condition, when affecting all segments of common oranges more than one-half inch at the stem end, or all segments of varieties of the Mandarin group more than one-fourth inch at the stem end, or more than the equivalent of these respective amounts, by volume, when occurring in other portions of the fruit;

(v) Green spots or oil spots, when seriously affecting the appearance of the individual fruit;

(vi) Scab, when it cannot be classed as discoloration, or when materially affecting shape or texture;

(vii) Scale, when it seriously affects the appearance of the individual fruit;

(viii) Scars which are not fairly smooth, or scars which are very deep, or scars which are not very deep but which detract from the appearance of the fruit to a greater extent than the amount of discoloration allowed in the grade;

(ix) Split or rough or protruding navels, when any split is unhealed, or one well healed split at each corner of irregular navels when any one is more than one-half inch in length, or when aggregating more than 1 inch in length, or when more than four in number; or navels which protrude beyond the general contour of the orange to the extent that they are subject to mechanical injury during the process of proper grading, or handling, or packing; or irregular navels when the opening is so wide, considering the size of the orange, and the navel growth so badly folded and ridged that it detracts seriously from the appearance of the orange;

(x) Sprayburn which seriously affects the appearance of the fruit, or is hard, or when light brown in color and the aggregate area exceeds the area of a circle 1¼ inches in diameter;

(xi) Sunburn which affects more than one-third of the fruit surface, or is hard, or the fruit is decidedly one-sided, or when light brown in color and the aggregate area exceeds the area of a circle 1¼ inches in diameter;

(xii) Thorn scratches, when the injury is not well healed, or concentrated light colored thorn injury which has caused the skin to become hard and the aggregate area exceeds the area of a circle one-half inch in diameter, or slight scratches when light colored and concentrated and the aggregate area exceeds the area of a circle 1½ inches in diameter, or dark or scattered thorn injury which detracts from the appearance of the fruit to a greater extent than the amounts specified above;

(xiii) Undeveloped or sunken segments, in navel oranges, when such segments are so sunken or undeveloped that they are readily noticeable; and,

(xiv) Riciness or woodiness, when the flesh of the fruit is so ricey or woody that excessive pressure by hand is required to extract the juice.

(17) "Misshapen" means that the fruit is decidedly elongated, pointed or flat-sided.

(18) "Slightly spongy" means that the fruit is puffy or slightly wilted but not flabby.

(19) "Very serious damage" means any defect which very seriously affects the appearance, or the edible or shipping quality of the fruit. Any one of the following defects, or any combination of defects, the seriousness of which exceeds the maximum allowed for any one defect, shall be considered as very serious damage:

(i) Growth cracks that are seriously weakened, gummy or not healed;

(ii) Ammoniation, when aggregating more than 2 inches in diameter, or which has caused serious cracks;

(iii) Bird pecks, when not healed;

(iv) Caked melanose, when more than 25 percent, in the aggregate, of the surface of the fruit is caked;

(v) Buckskin, when rough and aggregating more than 50 percent of the surface of the fruit;

(vi) Creasing, when so deep or extensive that the skin is very seriously weakened;

(vii) Dryness or mushy condition, when affecting all segments of common oranges more than one-half inch at the stem end, or all segments of varieties of the Mandarin group more than one-fourth inch at the stem end, or more than the equivalent of these respective amounts, by volume, when occurring in other portions of the fruit;

(viii) Scab, when aggregating more than 25 percent of the surface of the fruit;

(ix) Scale, when covering more than 20 percent of the surface of the fruit;

(x) Split navels, when not healed or the fruit is seriously weakened;

(xi) Sprayburn, when seriously affecting more than one-third of the fruit surface;

(xii) Sunburn, when seriously affecting more than one-third of the fruit surface;

(xiii) Thorn punctures, when not healed or the fruit is seriously weakened; and,

(xiv) Riciness or woodiness, when the flesh of the fruit is so ricey or woody that excessive pressure by hand is required to extract the juice.

(20) "Diameter" means the greatest dimension measured at right angles to a line from stem to blossom end of the fruit.

(h) *Standards for internal quality of common sweet oranges (Citrus Sinensis (L) Osbeck)*—(1) *U. S. Grade AA Juice (Double A)*. Any lot of oranges, the juice content of which meets the following requirements, may be designated "U. S. Grade AA Juice (Double A)":

(i) Each lot of fruit shall contain an average of not less than 5 gallons of juice per standard packed box of one and three-fifths bushels.

(ii) The average juice content for any lot of fruit shall have not less than 10 percent total soluble solids, and not less than one-half of 1 percent anhydrous citric acid, or more than the maximum acid specified in Table II of this section.

(2) *U. S. Grade A Juice*. Any lot of oranges, the juice content of which meets the following requirements, may be designated "U. S. Grade A Juice":

(i) Each lot of fruit shall contain an average of not less than four and one-half gallons of juice per standard packed box of one and three-fifths bushels.

(ii) The average juice content for any lot of fruit shall have not less than 9 percent total soluble solids, and not less than one-half of 1 percent anhydrous citric acid, or more than the maximum acid specified in Table II of this section.

(i) *Maximum anhydrous citric acid permissible for corresponding total soluble solids.* (1) For determining the grade of juice, the maximum permissible anhydrous citric acid content in relation to corresponding total soluble solids in the fruit is set forth in the following Table II together with the minimum ratio of total soluble solids to anhydrous citric acid:

TABLE II

Total soluble solids average percent	Maximum anhydrous citric acid average percent	Minimum ratio of total soluble solids to anhydrous citric acid
9.0	0.947	9.50–1
9.1	.963	9.45–1
9.2	.979	9.40–1
9.3	.995	9.35–1
9.4	1.011	9.30–1
9.5	1.027	9.25–1
9.6	1.043	9.20–1
9.7	1.060	9.15–1

10.0	1.111	9.00–1
10.1	1.128	8.95–1
10.2	1.146	8.90–1
10.3	1.164	8.85–1
10.4	1.182	8.80–1
10.5	1.200	8.75–1
10.6	1.218	8.70–1
10.7	1.237	8.65–1
10.8	1.256	8.60–1
10.9	1.275	8.55–1
11.0	1.294	8.50–1
11.1	1.306	8.50–1
11.2	1.318	8.50–1
11.3	1.329	8.50–1
11.4	1.341	8.50–1
11.5	1.353	8.50–1
11.6	1.365	8.50–1
11.7	1.376	8.50–1
11.8	1.388	8.50–1
11.9	1.400	8.50–1
12.0	1.412	8.50–1
12.1	1.424	8.50–1
12.2	1.435	8.50–1
12.3	1.447	8.50–1
12.4	1.459	8.50–1
12.5	1.471	8.50–1
12.6	1.482	8.50–1
12.7	1.494	8.50–1
12.8	1.506	8.50–1
12.9	1.517	8.50–1
13.0	1.529	8.50–1
13.1	1.541	8.50–1
13.2	1.553	8.50–1
13.3	1.565	8.50–1
13.4	1.576	8.50–1
13.5	1.588	8.50–1
13.6	1.600	8.50–1
13.7	1.612	8.50–1
13.8	1.624	8.50–1
13.9	1.635	8.50–1
14.0	1.647	8.50–1
14.1	1.659	8.50–1
14.2	1.671	8.50–1
14.3	1.682	8.50–1
14.4	1.694	8.50–1
14.5	1.705	8.50–1
14.6	1.718	8.50–1
14.7	1.729	8.50–1
14.8	1.741	8.50–1
14.9	1.753	8.50–1
15.0	1.765	8.50–1
15.1	1.776	8.50–1
15.2	1.788	8.50–1
15.3	1.800	8.50–1
15.4	1.812	8.50–1
15.5	1.824	8.50–1
15.6 or more		8.50–1

(j) *Method of juice extraction.* (1) The juice used in the determination of solids, acid, and juice content shall be extracted from representative samples as thoroughly as possible with a reamer or by hand, and shall be strained through a double thickness of gauze having 44x40 threads per square inch, and shall not be extracted or strained in any other manner.

(k) *Effective time.* The United States Standards for Florida oranges contained in this section shall become effective thirty (30) days after the date of publication in the FEDERAL REGISTER.

(Sec. 205, 60 Stat. 1090, Pub. Law 451, 82d Cong.; 7 U. S. C. 1624)

Done at Washington, D. C., this 25th day of August 1952.

[SEAL] ROY W. LENNARTSON,
Assistant Administrator, Production and Marketing Administration.

[F. R. Doc. 52-9516; Filed, Aug. 28, 1952; 8:53 a. m.]

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders), Department of Agriculture

PART 903—MILK IN THE ST. LOUIS, MISSOURI, MARKETING AREA

ORDER AMENDING ORDER, AS AMENDED, REGULATING HANDLING

§ 903.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and each of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the St. Louis, Missouri, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions of said order, as amended, and as hereby further amended, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk produced for sale in the said marketing area as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supply of and demand for such milk, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* It is necessary, in the public interest, to make this order, amending the order, as amended, effective not later than September 1, 1952. Any delay beyond that date in the effective date of this order would result in hardship to producers whose pastures and fields have been seriously affected by drought and extreme heat. Rates of milk production might suffer serious damage which could not be fully overcome before next spring.

The provisions of the said order are known to handlers, having been published in a decision which appeared in the FEDERAL REGISTER August 23, 1952 (17 F. R. 7742).

The changes effected by this order will not require extensive preparation or substantial alteration in method of operation for handlers. It is hereby found therefore that good cause exists for making this order effective September 1, 1952. (Sec. 4 (c); Administrative Procedure Act, 5 U. S. C. 1001 et seq.)

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing or shipping milk covered by this order, amending the order, as amended, which is marketed within the St. Louis, Missouri, marketing area) of more than 50 percent of the milk which is marketed within the said marketing area, refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area, and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said proposed marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order amending the order, as amended, is the only practical means, pursuant to the declared policy of the act, of advancing the interests of producers of milk which is produced for sale in the said marketing area; and

(3) The issuance of this order amending the order, as amended, is approved or favored by at least two-thirds of the producers who, during the determined representative period (June 1952), were engaged in the production of milk for sale in the said marketing area.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof, the handling of milk in the St. Louis, Missouri, marketing area, shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended, as follows:

1. Delete the last proviso in § 903.51 (a) and substitute therefor the following: "*And provided further*, That the plus amount to be added to the basic

formula price shall be $2.21 for the months of September, October, and November 1952, $2.04 for December 1952, and not less than $1.79 for January and February 1953."

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Issued at Washington, D. C., this 26th day of August 1952, to be effective on and after September 1, 1952.

[SEAL] C. J. McCORMICK,
Acting Secretary of Agriculture.

[F. R. Doc. 52-9502; Filed, Aug. 28, 1952; 8:50 a. m.]

PART 907—MILK IN THE MILWAUKEE, WISCONSIN, MARKETING AREA

ORDER AMENDING ORDER, AS AMENDED, REGULATING HANDLING

§ 907.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and each of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR 900), a public hearing was held upon a proposed marketing agreement and certain proposed amendments to the order, as amended, regulating the handling of milk in the Milwaukee, Wisconsin, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all the terms and conditions thereof, will tend to effectuate the declared policy of the act.

(2) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

(b) *Determinations.* It is hereby determined that handlers (excluding cooperative associations or producers who are not engaged in processing, distributing or shipping milk covered by this order amending the order, as amended) of more than 50 percent of the volume of the milk covered by this order amending the order, as amended, which is marketed within the said marketing area, refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area, and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order amending the order, as amended, is the only practical means, pursuant to the declared policy of the act, of advancing the interests of the producers of milk which is produced for sale in the said marketing area; and

(3) The issuance of this order amending the order, as amended, is approved or favored by at least two-thirds of the producers who participated in a referendum on the question of approval of its issuance, and who, during the determined representative period (March 1952), were engaged in the production of milk for sale in the said marketing area.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof the handling of milk in the Milwaukee, Wisconsin, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended, and the aforesaid order, as amended, is hereby further amended as follows:

1. Add to the introductory language of § 907.33 (preceding paragraph (a)) following the word "handler" the phrase, "including any producer-handler."

2. Delete from § 907.45 (a) the phrase "except a producer-handler" and substitute therefor the phrase "including a producer-handler."

3. Delete § 907.45 (c).

4. Delete § 907.50 (b).

5. Delete at the end of § 907.90 the phrase "except as provided in § 907.10" and add the following: "except where the text of such section(s) of the order indicate that such section(s) should apply and except as provided in § 907.10."

6. Delete the semicolon and the word "or" at the end of § 907.91 (a) (1) and substitute in lieu thereof a period.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Issued at Washington, D. C., this 26th day of August 1952, to be effective on and after the 1st day of October 1952.

[SEAL] C. J. McCORMICK,
Acting Secretary of Agriculture.

[F. R. Doc. 52-9501; Filed, Aug. 28, 1952; 8:50 a. m.]

PART 946—MILK IN THE LOUISVILLE, KENTUCKY, MARKETING AREA

ORDER AMENDING ORDER, AS AMENDED, REGULATING HANDLING

§ 946.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and each of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Louisville, Kentucky, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions of said order, as amended, and as hereby further amended, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk produced for sale in the said marketing area as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supply of and demand for such milk, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* It is necessary, in the public interest, to make this order, amending the order, as amended, effective not later than September 1, 1952. Any delay beyond that date in the effective date of this order would result in hardship to producers whose pastures and fields have been seriously affected by drought and extreme heat. Rates of milk production might suffer serious damage which could not be fully overcome before next spring.

The provisions of the said order are known to handlers, having been published in a decision which appeared in the FEDERAL REGISTER August 23, 1952 (17 F. R. 7746).

The changes effected by this order will not require extensive preparation or substantial alteration in method of operation for handlers. It is hereby found therefore that good cause exists for making this order effective September 1, 1952. (Sec. 4 (c); Administrative Procedure Act, 5 U. S. C. 1001 et seq.)

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing or shipping milk covered by this order, amending the order, as amended, which is marketed within the Louisville, Kentucky, marketing area) of more than 50 percent of the milk which is marketed within the said marketing area, refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area, and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said proposed marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order amending the order, as amended, is the only practical means, pursuant to the declared policy of the act, of advancing the interests of producers of milk which is produced for sale in the said marketing area; and

(3) The issuance of this order amending the order, as amended, is approved or favored by at least two-thirds of the producers who, during the determined representative period (June 1952), were engaged in the production of milk for sale in the said marketing area.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof, the handling of milk in the Louisville, Kentucky, marketing area, shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, and as amended, and as hereby further amended as follows:

1. Change the period at the end of § 946.51 (a) to a colon and add the following: "*Provided*, That for each of the months of September 1952 through February 1953 the Class I price shall be the basic formula price plus $1.69 per hundredweight."

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Issued at Washington, D. C., this 26th day of August 1952, to be effective on and after September 1, 1952.

[SEAL] C. J. McCORMICK,
Acting Secretary of Agriculture.

[F. R. Doc. 52-9500; Filed, Aug. 28, 1952; 8:50 a. m.]

TITLE 19—CUSTOMS DUTIES

Chapter I—Bureau of Customs, Department of the Treasury

[T. D. 53085]

PART 8—LIABILITY FOR DUTIES, ENTRY OF IMPORTED MERCHANDISE

REQUIREMENTS ON ENTRY

In order to bring the customs regulations into conformity with the practice under which a consumption or warehouse entry may be accepted for each importation arriving under a consolidated immediate transportation without appraisement entry (see § 18.11 (h) of the Customs Regulations of 1943; 19 CFR 18.11 (h)), § 8.8 (f), Customs Regulations of 1943 (19 CFR 8.8 (f)), as amended, is hereby further amended by deleting "or" at the end of subparagraph (6), by redesignating subparagraph (7) as subparagraph (8), and by inserting a new subparagraph (7) to read as follows:

§ 8.8 *Requirements on entry.* • • • (f) • • •

(7) The merchandise for which a separate entry is tendered comprises one or more importations which arrived under a consolidated immediate transportation without appraisement entry (see § 18.11 (h) of this chapter); or

(Sec. 624, 46 Stat. 759; 19 U. S. C. 1624. Interpret or apply sec. 484, 46 Stat. 722, as amended; 19 U. S. C. 1484)

[SEAL] FRANK DOW,
Commissioner of Customs.

Approved: August 25, 1952.

JOHN S. GRAHAM,
Acting Secretary of the Treasury.

[F. R. Doc. 52-9517; Filed, Aug. 28, 1952; 8:53 a. m.]

[T. D. 53086]

PART 8—LIABILITY FOR DUTIES, ENTRY OF IMPORTED MERCHANDISE

EVIDENCE OF RIGHT TO MAKE ENTRY; RELEASE OF MERCHANDISE

It has been held that a blanket carrier's certificate, customs Form 7529, appropriately modified, may be accepted from a carrier for shipments which will arrive on its conveyances at any port during a given period and that the release order at the bottom of the form may also be modified and executed to make it a blanket release order.

Accordingly, §§ 8.6 and 8.23, Customs Regulations of 1943 (19 CFR 8.6 and 8.23), as amended, are hereby amended as follows:

1. Section 8.6 is amended by redesignating paragraphs (f) to (l), inclusive, as paragraphs (g) through (m), respectively, and by inserting a new paragraph (f) to read:

§ 8.6 *Evidence of right to make entry; legal representative of consignee; nonresident consignee; foreign corporation; underwriters and salvors.* • • •

(f) A collector may accept a blanket carrier's certificate, customs Form 7529, appropriately modified, from a carrier for any or all shipments which will arrive in its conveyances at the port during a period specified in the certificate.

2. Section 8.23 is amended by deleting the parenthetical matter at the end of paragraph (c) and adding the following new paragraph (d):

§ 8.23 *Release of merchandise.* • • •

(d) The release order at the bottom of customs Form 7529 may be modified and executed to make it a blanket release order for the shipments covered by a blanket carrier's certificate as provided for by § 8.6 (f).

(Sec. 624, 46 Stat. 759; 19 U. S. C. 1624. Interpret or apply sec. 484, 46 Stat. 722, as amended; 19 U. S. C. 1484)

[SEAL] FRANK DOW,
Commissioner of Customs.

Approved: August 25, 1952.

JOHN S. GRAHAM,
Acting Secretary of the Treasury.

[F. R. Doc. 52-9518; Filed, Aug. 28, 1952; 8:54 a. m.]

TITLE 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Federal Security Agency

PART 141—TESTS AND METHODS OF ASSAY FOR ANTIBIOTIC AND ANTIBIOTIC-CONTAINING DRUGS

PART 146—CERTIFICATION OF BATCHES OF ANTIBIOTIC AND ANTIBIOTIC-CONTAINING DRUGS

MISCELLANEOUS AMENDMENTS

By virtue of the authority vested in the Federal Security Administrator by the provisions of section 507 of the Federal Food, Drug, and Cosmetic Act (52 Stat. 1040, 1055, as amended by 59 Stat. 463, 61 Stat. 11, 63 Stat. 409; 21 U. S. C. 357), the regulations for tests and methods of assay for antibiotic and antibiotic-containing drugs (21 CFR, 1951 Supp., 141) and certification of batches of antibiotic and antibiotic-containing drugs (21 CFR 1951 Supp., 146; 17 F. R. 150, 1178) are amended as indicated below:

1. Section 141.47 (b) is amended to read as follows:

§ 141.47 *Dibenzylethylenediamine dipenicillin G.* • • •

(b) *Sterility.* Proceed as directed in § 141.2, except prior to sterilization add 0.5 milliliter of polysorbate 80 to each tube of thioglycolate and Sabouraud's medium, and after sterilization add sufficient penicillinase to each tube of Sabouraud's medium to completely inactivate the penicillin used in the test. During the period of incubation, shake the tubes at least once daily.

2. Part 141 is amended by adding the following new sections:

§ 141.56 *Chloroprocaine penicillin O—(a) Potency, sterility, pyrogens, toxicity, moisture, pH, and crystallinity.* Proceed as directed in § 141.26.

(b) *Chloroprocaine penicillin O content.* Determine the penicillin O content of the sodium or potassium penicillin O used to make the chloroprocaine penicillin O as directed in § 141.5 (h). The penicillin O content of the chloroprocaine penicillin O is assumed to be identical to the percent of penicillin O found in the sodium or potassium penicillin O used in its manufacture.

(c) *Chloroprocaine penicillin G content.* Determine the penicillin G content of the sodium or potassium penicillin O used to make the chloroprocaine penicillin O as directed in § 141.5 (g). The penicillin G content of the chloroprocaine penicillin O is assumed to be iden-

tical to the percent of penicillin G found in the sodium or potassium penicillin O used in its manufacture.

§ 141.57 *Chloroprocaine penicillin O for aqueous injection.* For the determination of potency, sterility, moisture, pyrogens, toxicity, and pH, proceed as directed in § 141.29.

3a. In § 146.26 *Penicillin ointment* • • •, paragraph (a) *Standards of identity, etc.* is amended by inserting between the first and second sentences the following new sentence: "If it is intended solely for veterinary use and is conspicuously so labeled, it may contain nitrofurazone."

b. Section 146.26 (c) (1) is amended by changing the period at the end of subdivision (iv) to a semicolon and adding the following new subdivision:

(c) *Labeling.* • • •
(1) • • •
(v) If the batch contains in addition to penicillin one or more other active ingredients specified in paragraph (a) of this section, the name and quantity of each such other ingredient per gram of the batch.

4a. In § 146.45 *Procaine penicillin G in oil,* paragraph (a) *Standards of identity etc.* is amended by inserting between the first and second sentences the following new sentence: "If it is intended solely for veterinary use and is conspicuously so labeled, it may contain nitrofurazone."

b. Section 146.5 (c) (1) (v) is amended to read as follows:

(c) *Labeling.* • • •
(1) • • •
(v) The name of each oil used in making the batch and, if aluminum monostearate is used as the dispersing agent or if nitrofurazone is used, the quantity used.

c. In § 146.45, paragraph (d) *Request for certification; samples,* subparagraph (3) (iii) is amended by inserting the words "or other ingredient" between the words "agent" and "used".

5a. In § 146.58 *Penicillin and streptomycin* • • •, paragraph (a) *Standards of identity etc.*, the first and second sentences are amended by inserting the words "or *l*-ephenamine penicillin G" between the words "potassium penicillin" and the word "or".

b. Section 146.58 (a) is further amended by inserting the sentence, "The *l*-ephenamine penicillin G used conforms to the requirements prescribed for *l*-ephenamine penicillin G by § 146.64 (a)." between the sentence, "The crystalline penicillin used conforms to the requirements prescribed for crystalline penicillin by § 146.24 (a)." and the sentence, "The streptomycin sulfate used conforms to the requirements prescribed by § 146.101 (a)."

c. In § 146.58, paragraph (b) *Packaging,* the second sentence is amended by inserting the words "or *l*-ephenamine penicillin G" between the words "potassium penicillin" and the word "and".

d. In § 146.58, paragraph (d) *Request for certification; samples,* subparagraph (2) is amended by renumbering subdivision (iv) as (v) and inserting between subdivision (iii) and renumbered subdivision (v) the following new subdivision:

(iv) The *l*-ephenamine penicillin G used in making the batch; potency, crystallinity, heat stability, penicillin G content, and specific rotation.

e. In § 146.58 (d), subparagraph (3) is amended by renumbering subdivisions (iv) and (v) as (v) and (vi), respectively, and inserting between subdivision (iii) and renumbered subdivision (v) the following new subdivision:

(iv) The *l*-ephenamine penicillin G used in making the batch; 3 packages containing approximately equal portions of not less than 0.5 gram each packaged in accordance with the requirements of § 146.64 (b).

f. In § 146.58, subparagraph (1) of paragraph (e) *Fees,* insert "(vi)," between "(v)," and the word "and".

6. Part 146 is amended by adding the following new sections:

§ 146.79 *Chloroprocaine penicillin O (penicillin O chloroprocaine salt)*—(a) *Standards of identity, strength, quality, and purity.* Chloroprocaine penicillin O is the crystalline 2-chloroprocaine salt of penicillin O prepared from 2-chloroprocaine hydrochloride (95 percent purity and a melting point of 171°–176° C.) and crystalline penicillin O. It contains not less than 85 percent of the 2-chloroprocaine salt of penicillin O and not more than 0.5 percent of the 2-chloroprocaine salt of penicillin G. Each such drug is so purified and dried that:

(1) Its potency is not less than 850 units per milligram.
(2) It is sterile.
(3) It is nonpyrogenic.
(4) It is nontoxic.
(5) Its moisture content is not more than 4.2 percent.
(6) Its pH in saturated aqueous solution is not less than 5.0 and not more than 7.5.

(b) *Packaging.* In all cases the immediate containers shall be tight containers as defined by the U. S. P., shall be sterile at the time of filling and closing, shall be so sealed that the contents cannot be used without destroying the seal, and shall be of such composition as will not cause any change in the strength, quality, or purity of the contents beyond any limit therefor in applicable standards, except that minor changes so caused which are normal and unavoidable in good packaging, storage, and distribution practice shall be disregarded.

(c) *Labeling.* Each package of chloroprocaine penicillin O shall bear on its outside wrapper or container and the immediate container, as hereinafter indicated, the following:

(1) The batch mark.
(2) The weight of the drug and the number of units in the immediate container.
(3) The statement "Expiration date _____," the blank being filled in with the date which is 36 months after the month during which the batch was certified.
(4) The statement "For manufacturing use only."
(5) The statement "Caution: Federal law prohibits dispensing without prescription."

(d) *Request for certification, check tests and assays; samples.* (1) In addition to complying with the requirements of § 146.2, a person who requests certification of a batch of chloroprocaine penicillin O shall submit with his request a statement showing the batch mark, the number of packages of each size in the batch, the weight of the drug and the number of units in each package, and (unless it was previously submitted) the date on which the latest assay of the drug comprising the batch was completed. Such request shall be accompanied or followed by the results of tests and assays made by him on the batch for potency, sterility, toxicity, pyrogens, moisture, *pH*, crystallinity, chloroprocaine penicillin O content, and chloroprocaine penicillin G content.

(2) Such person shall submit with his request an accurately representative sample of:

(i) The batch:
(*a*) For all tests except sterility; 10 packages.
(*b*) For sterility testing; 10 packages.

Each such package shall contain approximately 300 milligrams taken from a different part of such batch, and each shall be packaged in accordance with the requirements of paragraph (b) of this section.

(ii) The penicillin O used in making the batch; 3 packages containing approximately 300 milligrams each.

(3) In connection with contemplated requests for certification of batches of another drug in the manufacture of which chloroprocaine penicillin O is to be used, the manufacturer of a batch which is so used may request the Commissioner to make check tests and assays on a sample of such batch taken as prescribed by subparagraph (2) of this paragraph. From the information required by subparagraph (1) of this paragraph may be omitted results of tests and assays not required for the batch when used in such other drug. The Commissioner shall report to such manufacturer results of such check tests and assays as are so requested.

(e) *Fees.* The fee for the services rendered with respect to each batch under the regulations in this part shall be:

(1) $4.00 for each immediate container in the samples submitted in accordance with paragraph (d) (2) (i) (*a*), (ii), and (3) of this section.

(2) If the Commissioner considers that investigations other than the examination of such immediate containers are necessary to determine whether or not such batch complies with the requirements of § 146.3 for the issuance of a certificate, the cost of such investigations.

The fee prescribed by subparagraph (1) of this paragraph shall accompany the request for certification unless such fee is covered by an advance deposit maintained in accordance with § 146.8 (d).

§ 146.80 *Chloroprocaine penicillin O for aqueous injection*—(a) *Standards of identity, strength, quality, and purity.* Chloroprocaine penicillin O for aqueous injection is a dry mixture of chloroprocaine penicillin O and one or more suitable and harmless suspending or dispersing agents, with or without one or more suitable and harmless buffer substances. It is so purified and dried that:

(1) It is sterile.
(2) Its moisture content is not more than 4.2 percent.
(3) It is nonpyrogenic.
(4) It is nontoxic.
(5) Its pH in saturated aqueous solution is not less than 5.0 and not more than 7.5.

The chloroprocaine penicillin O used conforms to the requirements of § 146.79 (a). Each other substance used, if its name is recognized in the U. S. P. or N. F., conforms to the standards prescribed therefor by such official compendium.

(b) *Packaging.* In all cases the immediate containers shall be tight containers as defined by the U. S. P., shall be sterile at the time of filling and closing, shall be so sealed that the contents cannot be used without destroying such seal, and shall be of such composition as will not cause any change in the strength, quality, or purity of the contents beyond any limit therefor in applicable standards, except that minor changes so caused which are normal and unavoidable in good packaging, storage, and distribution practice shall be disregarded. In case it is packaged for dispensing, it shall be in immediate containers of colorless, transparent glass, closed by a substance through which a hypodermic needle may be introduced and withdrawn without removing the closure or destroying its effectiveness. Each such container shall contain 300,000 units, 600,000 units, 900,000 units, 1,200,000 units, 1,500,000 units, or 3,000,000 units, unless it is intended solely for veterinary use and is conspicuously so labeled. Each such container may be packaged in combination with a container of a suitable aqueous diluent.

(c) *Labeling.* Each package shall bear, on its label or labeling, as hereinafter indicated, the following:

(1) On the outside wrapper or container and the immediate container:
(i) The batch mark.
(ii) The number of units in the immediate container.
(iii) The statement "Expiration date _____," the blank being filled in with the date which is 36 months after the month during which the batch was certified.
(iv) The statement "For intramuscular use only."

(2) On the outside wrapper or container, the statement "Caution: Federal law prohibits dispensing without prescription," unless it is intended solely for veterinary use and is conspicuously so labeled.

(3) On the circular or other labeling within or attached to the package, if it is packaged for dispensing, adequate directions for use and warnings as required by section 502 (f) of the act, including:
(i) Clinical indications.
(ii) Dosage and administration, including method of preparing the drug for injection.

(iii) The conditions under which suspensions made from such drug should be stored, and the statement "Sterile suspension may be kept at room temperature for 1 week, or in refrigerator for 3 weeks, without significant loss of potency."
(iv) Contraindications.
(v) Untoward effects that may accompany administration, including sensitization.

If two or more immediate containers are in such package, the number of such circulars or other labeling shall not be less than the number of such containers.

(d) *Request for certification; samples.* (1) In addition to complying with the requirements of § 146.2, a person who requests certification of a batch of chloroprocaine penicillin O for aqueous injection shall submit with his request a statement showing the batch mark, the number of packages of each size in such batch, the batch mark and (unless it was previously submitted) the date on which the latest assay of the chloroprocaine penicillin O used in making such batch was completed, the number of units in each of such packages, the quantity of each ingredient used in making the batch, the date on which the latest assay of the drug comprising such batch was completed, and a statement that each ingredient used in making the batch conforms to the requirements prescribed therefor, if any, by this section. If such batch, or any part thereof, is to be packaged with a solvent, such request shall also be accompanied by a statement that such solvent conforms to the requirements prescribed therefor by this section.

(2) Except as otherwise provided by subparagraph (5) of this paragraph, such person shall submit in connection with his request results of the tests and assays listed after each of the following, made by him on an accurately representative sample of:

(i) The batch; potency, sterility, moisture, pyrogens, toxicity, *pH*.
(ii) The chloroprocaine penicillin O used in making the batch; potency and crystallinity.
(iii) The penicillin O used in making the chloroprocaine penicillin O; penicillin O content and penicillin G content.

(3) Except as otherwise provided by subparagraph (5) of this paragraph, if such batch is packaged for dispensing, such person shall submit in connection with his request, in the quantities hereinafter indicated, accurately representative samples of the following:

(i) The batch:
(*a*) For all tests except sterility; one immediate container for each 5,000 immediate containers in such batch, but in no case less than 10 or more than 17 immediate containers.
(*b*) For sterility testing; 10 immediate containers.

Such samples shall be collected by taking single immediate containers at such intervals throughout the entire time of packaging the batch that the quantities packaged during the intervals are approximately equal.

(ii) The chloroprocaine penicillin O used in making the batch; three packages containing approximately equal portions of not less than 300 milligrams each.

(iii) The penicillin O used in making the chloroprocaine penicillin O; three packages containing approximately equal portions of not less than 300 milligrams each.

(iv) In case of an initial request for certification, each other ingredient used in making the batch: one package of each containing approximately 5.0 grams.

(v) In case of an initial request for the certification of a batch of chloroprocaine penicillin O for aqueous injection which is to be packaged in combination with an aqueous diluent which is not recognized by the U. S. P., or when any change is made in the composition of such diluent, five packages of the diluent included in the combination.

(4) If such batch is packaged for repacking, such person shall submit with his request a sample consisting of the following:

(i) For all tests except sterility; 10 packages.
(ii) For sterility testing; 10 packages.

Each such package shall contain not less than approximately 300 milligrams taken from different parts of such batch, and each shall be packaged in accordance with the requirements of paragraph (b) of this section.

(5) No result referred to in subparagraph (2) (ii) and (iii) of this paragraph, and no sample referred to in subparagraph (3) (ii) and (iii) of this paragraph, is required if such result or sample has been previously submitted.

(e) *Fees.* The fee for the services rendered with respect to each batch under the regulations in this part shall be:

(1) $4.00 for each immediate container in the samples submitted in accordance with paragraph (d) (3) (i) (*a*), (ii), (iii), (iv), (v), and (4) (i) of this section.

(2) If the Commissioner considers that investigations, other than examination of such immediate containers, are necessary to determine whether or not such batch complies with the requirements of § 146.3 for the issuance of a certificate, the cost of such investigations.

The fee prescribed by subparagraph (1) of this paragraph shall accompany the request for certification unless such fee is covered by an advance deposit maintained in accordance with § 146.8 (d).

7. In § 146.211 *Aureomycin surgical powder* • • •, paragraph (a) *Standards of identity, etc.*, second sentence, change the figure "200" in the second sentence to read "50".

8. In § 146.212 *Aureomycin vaginal suppositories* • • •, paragraph (a) *Standards of identity, etc.*, second sentence, change the figure "250" to read "100".

This order, which provides for modification of the sterility tests for dibenzylethylenediamine dipenicillin G; for the use of nitrofurazone as an ingredient of penicillin ointment, if it is intended for veterinary use and so labeled; for the use of nitrofurazone as an ingredient of

penicillin in oil if it is intended for veterinary use and so labeled; for the use of *l*-ephenamine penicillin G in combination with streptomycin or dihydrostreptomycin; for tests and methods of assay and certification of choloroprocaine penicillin O; for tests and methods of assay and certification of choloroprocaine penicillin O for aqueous injection; for reducing the minimum amount of aureomycin required to be present in each gram of aureomycin surgical powder to 50 milligrams; and for reducing the minimum amount of aureomycin required to be present in each aureomycin vaginal suppository to 100 milligrams, shall become effective upon publication in the FEDERAL REGISTER, since both the public and the affected industry will benefit by the earliest effective date, and I so find.

Notice and public procedure are not necessary prerequisites to the promulgation of this order, and I so find, since it was drawn in collaboration with interested members of the affected industry and since it would be against public interest to delay providing for the amendments set forth above.

(Sec. 701, 52 Stat. 1055; 21 U. S. C. 371. Interpret or apply sec. 507, 59 Stat. 463, as amended; 21 U. S. C. and Sup. 357)

Dated: August 25, 1952.

[SEAL] JOHN L. THURSTON,
Acting Administrator.

TITLE 31—MONEY AND FINANCE: TREASURY

Chapter I—Monetary Offices, Department of the Treasury

PART 50—EXECUTIVE ORDERS RELATING TO THE HOARDING, EXPORT, AND EARMARKING OF GOLD COIN, GOLD BULLION, AND GOLD CERTIFICATES

REVOCATION OF REGULATIONS OF SEPTEMBER 12, 1933

The regulations of September 12, 1933, issued under the authority of Executive Order 6260 of August 28, 1933 (31 CFR 1938 ed. Part 50), are hereby revoked. The revocation of such regulations shall not affect any act done, or any right accruing or accrued, or any suit or proceeding had or commenced in any civil or criminal cause prior to said revocation but all liabilities under said regulations shall continue and may be enforced in the same manner as if said revocation had not been made.

(Sec. 5 (b), 40 Stat. 415, as amended; 12 U. S. C. 95a, E. O. 6260, Aug. 28, 1933)

[SEAL] JOHN S. GRAHAM,
Acting Secretary of the Treasury.

[F. R. Doc. 52-9474; Filed, Aug. 28, 1952; 8:45 a. m.]

PART 54—GOLD REGULATIONS

The Gold Regulations, 13 F. R. 2742; 31 CFR Part 54, are hereby amended and revised for the purpose of modifying certain requirements for dealing in gold, incorporating in the regulations certain administrative interpretations and rulings, and setting forth in greater detail existing law applicable to the acquisition, possession, holding and use of gold.

The amendments to §§ 54.1, 54.4, 54.6 (c), 54.20, and 54.26 are issued after due consideration of all relevant views and material submitted pursuant to a notice of proposed rule making published in the FEDERAL REGISTER on April 30, 1952 (17 F. R. 3831) setting forth the substance of the proposed rules and affording interested persons 30 days within which to submit their views in writing.

The amendments to §§ 54.2, 54.4 (a) (1) to (a) (10) (ii) inclusive and 54.4 (a) (12) to (c) inclusive, 54.6 (a) (b) and (d), 54.7, 54.9, 54.10, 54.11, 54.12, 54.15, 54.16, 54.17, 54.18, 54.19, 54.21, 54.22, 54.23, 54.25, 54.26 (d), 54.28, 54.29, 54.31, 54.33, 54.34, 54.35, 54.36, 54.37, 54.38, 54.39, 54.40, 54.41, 54.42, 54.43, and 54.44 are made without notice and public procedure thereon because such amendments either make no substantive change in existing regulations or constitute statements of organization and procedure, or because notice and public procedure thereon are deemed to be impracticable, unnecessary or contrary to the public interest.

Accordingly, effective September 29, 1952, 31 CFR Part 54, Gold Regulations, is amended to read as follows:

SUBPART A—GENERAL PROVISIONS

Sec.
54.1 Authority for regulations.
54.2 General provisions.
54.3 Titles and subtitles.
54.4 Definitions.
54.5 General provisions affecting applications, statements, and reports.
54.6 General provisions affecting licenses and authorizations.
54.7 General provisions affecting export licenses.
54.8 General provisions affecting import licenses.
54.9 Forms available.
54.10 Representations by licensees.
54.11 Civil and criminal penalties.

SUBPART B—CONDITIONS UNDER WHICH GOLD MAY BE ACQUIRED AND HELD, TRANSPORTED, MELTED OR TREATED, IMPORTED, EXPORTED, OR EARMARKED

54.12 Conditions under which gold may be acquired, held, melted, etc.
54.13 Transportation of gold.
54.14 Gold situated outside of the United States.
54.15 Gold situated in the possessions of the United States.
54.16 Fabricated gold.
54.17 Metals containing gold.
54.18 Unmelted scrap gold.
54.19 Gold in its natural state.
54.20 Rare coin.

SUBPART C—GOLD FOR INDUSTRIAL, PROFESSIONAL, AND ARTISTIC USE

54.21 Thirty-five ounce exemption for processors.
54.22 Licenses required.
54.23 Issuance of licenses or general authorizations.
54.24 Applications.
54.25 Licenses.
54.26 Investigations; records; subpoenas.
54.27 Reports.

SUBPART D—GOLD FOR THE PURPOSE OF SETTLING INTERNATIONAL BALANCES, AND FOR OTHER PURPOSES

Sec.
54.28 Acquisitions by Federal Reserve banks for purposes of settling international balances, etc.
54.29 Dispositions by Federal Reserve banks.
54.30 Provisions limited to Federal Reserve banks.

SUBPART E—GOLD FOR OTHER PURPOSES NOT INCONSISTENT WITH THE PURPOSES OF THE GOLD RESERVE ACT OF 1934 AND THE ACT OF OCTOBER 6, 1917, AS AMENDED

54.31 Licenses required.
54.32 Gold imported in gold-bearing materials for re-export.
54.33 Gold imported for re-export.
54.34 Licenses for other purposes.

SUBPART F—PURCHASE OF GOLD BY MINTS

54.35 Purchase by mints.
54.36 Gold recovered from natural deposits in the United States or any place subject to the jurisdiction thereof.
54.37 Gold contained in deposits of silver, other than newly mined domestic silver.
54.38 Scrap gold.
54.39 Gold refined from sweeps purchased from a United States mint.
54.40 Imported gold.
54.41 Gold refined from imported gold-bearing material.
54.42 Deposits.
54.43 Rejection of gold by mint.
54.44 Purchase price.

SUBPART G—SALE OF GOLD BY MINTS

54.51 Authorization to sell gold.
54.52 Sale price.

SUBPART H—INSTRUCTIONS ISSUED PURSUANT TO THE REGULATIONS IN THIS PART

54.60 Gold exported from Mexico.

SUBPART I—TRANSITORY PROVISIONS

54.70 Legal effect of amendment of regulations.

AUTHORITY: §§ 54.1 to 54.70 issued under sec. 5 (b), 40 Stat. 415, as amended, secs. 3, 8, 9, 11, 48 Stat. 340, 341, 342; 12 U. S. C. 95a, 31 U. S. C. 442, 733, 734, 822b, E. O. 6260, Aug. 28, 1933, E. O. 6359, Oct. 25, 1933; E. O. 9193, July 6, 1942, as amended, 7 F. R. 5205; 3 CFR 1943 Cum. Supp.; E. O. 10289, Sept. 17, 1951, 16 F. R. 9499; 3 CFR 1951 Supp.

SUBPART A—GENERAL PROVISIONS

§ 54.1 *Authority for regulations.* By virtue of and pursuant to:

(a) The authority vested in the Secretary of the Treasury by the Gold Reserve Act of 1934, approved January 30, 1934 (48 Stat. 337; 31 U. S. C. 440), and the authority with respect to the approval of regulations issued thereunder which the President of the United States has delegated to the Secretary of the Treasury in paragraph 2 (d) of Executive Order No. 10289 of September 17, 1951 (16 F. R. 9501) and

(b) The authority which the President of the United States has delegated to the Secretary of the Treasury by Executive Orders Nos. 6260 of August 28, 1933 (31 CFR 1938 ed. Part 50), 6359 of October 25, 1933 and 9193 of July 6, 1942, as amended (7 F. R. 5205, 3 CFR 1943 Cum. Supp.), which delegations were made by the President of the United States by virtue of and pursuant to the authority vested in him by section 5 (b) of the act of October 6, 1917 (40 Stat. 415), as amended by section 2 of the act of March 9, 1933 (48 Stat. 1), and title III, section 301 of the "First War Powers Act, 1941" (55 Stat. 839; 12 U. S. C. 95a), and all other authority vested in him, the following regulations, entitled "Gold Regulations," deemed in the public interest and necessary and proper to carry out the purposes of said acts and Executive orders, are issued by the Secretary of the Treasury.

§ 54.2 *General provisions*—(a) *Scope.* Sections 54.12 to 54.34 refer particularly to section 3 of the Gold Reserve Act of 1934, as amended, and to Executive Order No. 6260 of August 28, 1933, sections 4, 5 and 6 of the Executive Order No. 6359 of October 25, 1933, and Executive Order No. 9193 of July 6, 1942, as amended; and §§ 54.35 to 54.44 refer particularly to sections 8 and 9 of the Gold Reserve Act of 1934, as amended.

(b) *Delivery requirements of 1933 Gold Orders.* Executive Order 6102 of April 5, 1933, Executive Order 6260 of August 28, 1933 (31 CFR 1938 ed. Part 50), and the Order of the Secretary of the Treasury of December 28, 1933, as amended and supplemented required that, with certain exceptions, all persons subject to the jurisdiction of the United States deliver to the United States gold coins, gold bullion, and gold certificates situated in the United States and held or owned by such persons on the dates of such orders. The regulations in this part do not alter or affect in any way the obligations with respect to the delivery of such gold coins, bullion, and certificates existing under said orders, and gold coins, bullion, and certificates required to be delivered pursuant to such orders are still required to be delivered, and may be received in accordance with the Instructions of the Secretary of the Treasury of January 17, 1934 (§ 53.1 of this chapter), subject to the rights reserved in such instructions.

(c) *Effect of authorizations and licenses.* (1) A general authorization contained in, or a license issued pursuant to the regulations in this part, permitting the acquisition, holding, transporting, melting or treating, importing, exporting or earmarking of gold, constitutes within the limits and subject to the terms and conditions thereof a license issued under and pursuant to Executive Order No. 6260 of August 28, 1933, for such acquisition, holding, transporting, etc.

(2) Any authorization in the regulations in this part, or in any license issued hereunder to acquire, hold, transport, melt or treat, import or export gold in any form shall not be deemed to authorize, unless it specifically so provides, the acquisition, holding, transporting, melting or treating, importing, or exporting of the following:

(i) Any gold coin (except rare gold coin as defined in § 54.20) or any gold melted by any person from gold coin subsequent to April 5, 1933.

(ii) Any gold which has been held at any time in noncompliance with the acts, the orders, or any regulations, rulings, instructions or licenses issued thereunder, including the regulations in this part, or in noncompliance with section 3 of the act of March 9, 1933, or any orders, regulations, rulings, or instructions issued thereunder.

(d) *Revocation or modification.* The provisions of this part may be revoked or modified at any time and any license outstanding at the time of such revocation or modification shall be modified thereby to the extent provided in such revocation or modification.

§ 54.3 *Titles and subtitles.* The titles in this part are inserted for purposes of ready reference and are not to be construed as constituting a part of the regulations in this part.

§ 54.4 *Definitions.* (a) As used in this part, the terms:

(1) "The acts" means the Gold Reserve Act of 1934, as amended, and section 5 (b) of the act of October 6, 1917, as amended by section 2 of the act of March 9, 1933 and Title III, section 301 of the "First War Powers Act, 1941" approved December 18, 1941.

(2) "The orders" means Executive Orders Nos. 6260 of August 28, 1933; 6359 of October 25, 1933; and 9193 of July 6, 1942, as amended.

(3) "United States" means the Government of the United States, or where used to denote a geographical area, means the continental United States and all other places subject to the jurisdiction of the United States.

(4) "Continental United States" means the States of the United States, the District of Columbia, and the Territory of Alaska.

(5) "Person" means any individual, partnership, association, or corporation, including the Board of Governors of the Federal Reserve System, Federal Reserve banks, and Federal Reserve agents.

(6) "Mint" means a United States mint or assay office, and wherever authority is conferred upon a "mint" such authority is conferred upon the person locally in charge of the respective United States mint or assay office acting in accordance with the instructions of the Director of the Mint or the Secretary of the Treasury.

(7) "Mint district" means one of the following areas:

(i) The mint district of Philadelphia, which for the purposes of this part consists of the States of Alabama, Arkansas, Florida, Georgia, Illinois, Indiana, Kentucky, Louisiana, Maryland, Mississippi, Missouri, North Carolina, Ohio, Pennsylvania, South Carolina, Tennessee, Virginia, and West Virginia, and the District of Columbia.

(ii) The mint district of New York, which for the purposes of this part consists of the States of Connecticut, Delaware, Maine, Massachusetts, Michigan, New Hampshire, New Jersey, New York, Rhode Island, Vermont, and Wisconsin, and Puerto Rico, the Virgin Islands of the United States, and the Panama Canal Zone.

(iii) The mint district of Denver, which for the purposes of this part consists of the States of Colorado, Iowa, Kansas, Minnesota, Nebraska, New Mexico, North Dakota, Oklahoma, South Dakota, Texas, Utah, and Wyoming.

(iv) The mint district of San Francisco, which for the purposes of this part consists of the States of Arizona, California, and Nevada, and the Territories and possessions of the United States not specifically included in other mint districts.

(v) The mint district of Seattle, which for the purposes of this part consists of the States of Idaho, Montana, Oregon, and Washington, and the Territory of Alaska.

(8) "Gold coin" means any coin containing gold as a major element, including gold coin of a foreign country.

(9) "Gold bullion" means any gold which has been put through a process of smelting or refining, and which is in such state or condition that its value depends primarily upon the gold content and not upon its form; the term "gold bullion" includes, but not by way of limitation, semi-processed gold and scrap gold, but it does not include fabricated gold as defined in this section, metals containing less than 5 troy ounces of fine gold per short ton, or unmelted gold coin.

(10) Fabricated and semi-processed gold:

(i) "Fabricated gold" means processed or manufactured gold in any form (other than gold coin or scrap gold) which:

(*a*) Has a gold content the value of which does not exceed 80 percent of the total domestic value of such processed or manufactured gold; and

(*b*) Has, in good faith, and not for the purpose of evading or enabling others to evade the provisions of the acts, the orders, or the regulations in this part, been processed or manufactured for some one or more specific and customary industrial, professional or artistic uses.

(ii) "Semi-processed gold" means processed or manufactured gold in any form (other than gold coin or scrap gold) which:

(*a*) Has a gold content the value of which exceeds 80 percent of the total domestic value of such processed or manufactured gold; and

(*b*) Has, in good faith, and not for the purpose of evading or enabling others to evade the provisions of the acts, the orders, or the regulations in this part, been processed or manufactured for some one or more specific and customary industrial, professional or artistic uses.

(iii) The value of the gold content of an article shall be computed for the purposes of this subparagraph at $35 per troy ounce of fine gold content.

(iv) For the purpose of this subparagraph, the total domestic value of processed or manufactured gold shall be based on the cost to the owner and not the selling price. The allowable elements of such value are:

(*a*) In the case of a manufacturer or processor, only the cost of material in the article, labor performed on the article, and processing losses and overhead applicable to the manufacture or processing of such article; and

(*b*) In the case of a dealer or other person who holds or disposes of gold without further processing, only the net purchase price paid by such person, including transportation costs, if any, incurred in obtaining delivery of such article to his usual place of business.

(11) "Scrap gold" means gold filings, clippings, polishings, sweepings and the like and any other melted or unmelted

scrap gold, semi-processed gold or fabricated gold, the value of which depends primarily upon its gold content and not upon its form, which is no longer held for the use for which it was processed or manufactured.

(12) "Gold in its natural state" means gold recovered from natural sources which has not been melted, smelted, or refined, or otherwise treated by heating or by a chemical or electrical process.

(13) "Hold", when used with reference to gold includes actual or constructive possession of or the retention of any interest, legal or equitable, in such gold, and includes, but not by way of limitation, acts of agency with respect thereto although the principal be unknown.

(b) Wherever reference is made in this part to equivalents as between dollars or currency of the United States and gold, $1 or $1 face amount of any currency of the United States equals fifteen and five twenty-firsts ($15\frac{5}{21}$) grains of gold, nine-tenths fine.

(c) Wherever reference is made in this part to "sections", the reference is, unless otherwise indicated, to the designated sections of this part.

§ 54.5 *General provisions affecting applications, statements, and reports.* Every application, statement, and report required to be made under this part shall be made upon the appropriate form prescribed by the Secretary of the Treasury. Action upon any application or statement may be withheld pending the furnishing of any or all of the information required in such forms or of such additional information as may be deemed necessary by the Secretary of the Treasury, or the agency authorized or directed to act under this part. There shall be attached to the applications, statements, or reports such instruments as may be required by the terms thereof and such further instruments as may be required by the Secretary of the Treasury, or by such agency.

§ 54.6 *General provisions affecting licenses and authorizations.* (a) Licenses issued pursuant to the regulations in this part shall be upon the appropriate form prescribed by the Secretary of the Treasury. Licenses shall be nontransferable and shall entitle the licensee to acquire, hold, transport, melt or treat, import, export, or earmark gold only in such form and to the extent permitted by, and subject to the conditions prescribed in, the regulations in this part and such licenses.

(b) *Revocation or modification of licenses.* Licenses may be modified or revoked at any time in the discretion of the Director of the Mint. In the event that a license is modified or revoked (other than by a modification or revocation of the regulations in this part), the Director of the Mint shall advise the licensee by letter, mailed to the last address of the licensee on file in the Bureau of the Mint. The licensee, upon receipt of such advice, shall forthwith surrender his license as directed in such advice. If the license has been modified but not revoked, the Director of the Mint shall thereupon issue or cause to be issued a modified license.

(c) *Exclusions.* The Director of the Mint may exclude particular persons or classes thereof from the operation of any section of the regulations in this part (except §§ 54.28 to 54.30, inclusive) or licenses issued thereunder or from the privileges therein conferred. Such action shall be binding upon all persons receiving actual notice or constructive notice thereof. Any violation of the provisions of the regulations in this part or any license issued hereunder, shall constitute, but not by way of limitation, grounds for such exclusion.

(d) *Requests for reconsideration.* A written request for reconsideration of a denial of an application for a license, of a revocation, suspension, or modification of an existing license, or of an exclusion from the authorizations or privileges conferred in any section of the regulations in this part setting forth in detail the reasons for such request, may be addressed to the Director of the Mint, Treasury Department, Washington 25, D. C. In addition, upon written request, the Director will schedule a hearing in the matter at which time there may be brought to the attention of the Bureau of the Mint any information bearing thereon.

(e) No license issued hereunder shall exempt the licensee from the duty of complying with the legal requirements of any State or Territory or local authority.

(f) No license shall be issued to any person doing business under a name which in the opinion of the Secretary of the Treasury or the designated agency issuing the license, is designed or is likely to induce the belief that gold is purchased, treated, or sold on behalf of the United States or for the purpose of carrying out any policy of the United States.

§ 54.7 *General provisions affecting export licenses.*[1] At the time any license to export gold is issued, the mint issuing the same shall transmit a copy thereof to the collector of customs at the port of export designated in the license. No collector of customs shall permit the export or transportation from the continental United States of gold in any form except upon surrender of a license to export, a copy of which has been received by him from the mint issuing such license: *Provided, however,* That the export, or transportation from the continental United States of fabricated gold may be permitted pursuant to § 54.25 and the export or transportation from the continental United States of gold imported for re-export may be permitted pursuant to § 54.33: *And provided further,* That gold held by the Federal Reserve banks under §§ 54.28 to 54.30, inclusive, may be exported for the purposes of such sections without a license. The collector of customs to whom a license to export is surrendered shall cancel such license and return it to the Federal Reserve bank or mint which issued the same. In the event that the shipment is to be made by mail, a copy of the export license shall be sent to the postmaster of the post office designated in the application, who will act under the instructions of the Postmaster General in regard thereto.

§ 54.8 *General provisions affecting import licenses.* No gold in any form imported into the United States shall be permitted to enter until the person importing such gold shall have satisfied the collector of customs at the port of entry that he holds a license authorizing him to import such gold or that such gold may be imported without a license under the provisions of §§ 54.12 to 54.21, inclusive, or §§ 54.28 to 54.30, inclusive. Postmasters receiving packages containing gold will deliver such gold subject to the instructions of the Postmaster General.

(a) *Certificates with respect to imported gold.* Collectors of customs shall, upon receipt of instructions[2] issued from time to time by the Secretary of the Treasury with the approval of the President, refuse entry into the continental United States of gold in the form and condition described in such instructions, which is exported from the country or countries specified in such instructions, unless there is filed with the collector of customs at the port of entry a certificate duly certified by an officer of the country from which the gold is exported to the effect that such gold was or may be lawfully exported from such country.

§ 54.9 *Forms available.* Any form, the use of which is prescribed in this part, may be obtained at, or on written request to, any United States Mint or assay office, or the Director of the Mint, Treasury Department, Washington 25, D. C.

§ 54.10 *Representations by licensees.* Licensees may include in public and private representations or statements the clause "licensed on form TGL ------ (here inserting the number of the form of license held by the licensee) pursuant to the regulations issued by the Secretary of the Treasury," but any representation or statement which might induce the belief that the licensee is acting or is especially privileged to act on behalf of or for the United States, or is purchasing, treating, or selling gold for the United States, or in any way dealing in gold for the purpose of carrying out any policy of the United States, shall be a violation of the conditions of the license.

(a) *Business names and representations generally.* No person doing business under a name which is designed or is likely to induce the belief that gold is being purchased, treated, or sold on behalf of the United States, or any agency thereof, or for the purpose of carrying out any policy of the United States, or making representations or statements which might induce the belief that such person is acting or is especially privileged to act on behalf of or for the United States, or is purchasing, treating, or selling gold for the United States, or in any way dealing in gold for the purpose of carrying out any policy of the United States, may acquire, hold, transport, melt, or treat, import, export or earmark any gold under authority of §§ 54.12 to 54.20 inclusive, or §§ 54.21 to 54.27, inclusive.

[1] The regulations in this part shall not be construed as relieving any person from the obligation of compliance with the regulations of the Office of International Trade, (15 CFR Parts 360 to 399), the Bureau of Customs (19 CFR Chapter I), or other laws or regulations relating to the importation or exportation of merchandise, where applicable to imports or exports of gold, or articles containing gold.

[2] See Subpart H of this part for instructions issued pursuant to § 54.8 (b).

§ 54.11 *Civil and criminal penalties.* (a) *Civil penalties.* Attention is directed to section 4 of the Gold Reserve Act of 1934, which provides:

> Any gold withheld, acquired, transported, melted or treated, imported, exported, or earmarked or held in custody, in violation of this act or of any regulations issued hereunder, or licenses issued pursuant thereto, shall be forfeited to the United States, and may be seized and condemned by like proceedings as those provided by law for the forfeiture, seizure, and condemnation of property imported into the United States contrary to law; and in addition any person failing to comply with the provisions of this Act or of any such regulations or licenses, shall be subject to a penalty equal to twice the value of the gold in respect of which such failure occurred. (31 U. S. C. 443)

(b) *Criminal punishment.* Attention is also directed to (1) section 5 (b) of the act of October 6, 1917, as amended, which provides in part:

> Whoever wilfully violates any of the provisions of this subdivision or of any license, order, rule or regulation issued thereunder, shall, upon conviction, be fined not more than $10,000 or, if a natural person, may be imprisoned for not more than ten years, or both; and any officer, director, or agent of any corporation who knowingly participates in such violation may be punished by a like fine, imprisonment, or both. As used in this subdivision the term "person" means an individual, partnership, association, or corporation. (12 U. S. C. 95a (3))

This section of the act of October 6, 1917, as amended, is applicable to violations of any provisions of this part and to violations of the provisions of any license, ruling, regulation, order, direction, or instruction issued by or pursuant to the direction or authorization of the Secretary of the Treasury pursuant to the regulations in this part or otherwise under section 5 (b) of the act of October 6, 1917, as amended.

(2) Section 1001 of the United States Criminal Code, which provides:

> Whoever, in any matter within the jurisdiction of any department or agency of the United States knowingly and wilfully falsifies, conceals or covers up by any trick, scheme, or device a material fact, or makes any false, fictitious or fraudulent statements or representations, or makes or uses any false writing or document knowing the same to contain any false, fictitious of fraudulent statement or entry, shall be fined not more than $10,000 or imprisoned not more than five years, or both. (18 U. S. C. 1001.)

SUBPART B—CONDITIONS UNDER WHICH GOLD MAY BE ACQUIRED AND HELD, TRANSPORTED, MELTED OR TREATED, IMPORTED, EXPORTED, OR EARMARKED

§ 54.12 *Conditions under which gold may be acquired, held, melted, etc.* Gold in any form may be acquired, held, transported, melted or treated, imported, exported, or earmarked only to the extent permitted by and subject to the conditions prescribed in, the regulations in this part or licenses issued thereunder.

§ 54.13 *Transportation of gold.* Gold may be transported by carriers for persons who are licensed to hold and transport such gold or who are permitted by the regulations in this part to hold and transport gold without a license.

§ 54.14 *Gold situated outside of the United States.* Gold in any form situated outside of the United States may be acquired, transported, melted or treated, or earmarked or held in custody for foreign or domestic account without the necessity of holding a license.

§ 54.15 *Gold situated in the possessions of the United States.* Gold in any form (other than United States gold coin) situated in places subject to the jurisdiction of the United States beyond the limits of the continental United States may be acquired, transported, melted or treated, imported, exported, or earmarked or held in custody for the account of persons other than residents of the continental United States, by persons not domiciled in the continental United States: *Provided, however,* That gold may be transported from the continental United States to the possessions of the United States only as authorized by §§ 54.25, 54.32, 54.33 or 54.34, or licenses issued pursuant thereto.

§ 54.16 *Fabricated gold.* Fabricated gold as defined in § 54.4 may be acquired, held, transported within the United States or imported without the necessity of holding a license therefor. Fabricated gold may be exported only as authorized in § 54.25 or in a license issued pursuant to that section.

§ 54.17 *Metals containing gold.* Metals containing not more than 5 troy ounces of fine gold per short ton may be acquired, held, transported within the United States, or imported without the necessity of holding a license therefor. Such metals may be melted or treated, and exported only to the extent permitted by and subject to the conditions prescribed in or pursuant to §§ 54.21 to 54.27, inclusive.

§ 54.18 *Unmelted scrap gold.* Unmelted scrap gold may be acquired, held, transported within the United States, or imported, in amounts not exceeding at any one time 35 fine troy ounces of gold content without the necessity of holding a license therefor. Persons holding licenses issued pursuant to paragraph (a) of § 54.25, or acquiring, transporting, importing or holding gold pursuant to § 54.21, may not acquire, transport, import or hold any gold under authority of this section.

§ 54.19 *Gold in its natural state.* (a) Gold in its natural state as defined in § 54.4 may be acquired, transported within the United States, imported, or held in custody for domestic account only, without the necessity of holding a license therefor.

(b) Gold amalgam which results from the addition of mercury to gold in its natural state recovered from natural deposits in the United States or a place subject to the jurisdiction thereof, may be heated to a temperature sufficient to separate the mercury from the gold (but not to the melting temperature of gold) without a license by the person who recovered the gold from such deposits, or his duly authorized agent or employee. The retort sponge resulting from such heating of such gold amalgam may be held and transported by such person without a license: *Provided, however,* That no such person may hold at any one time an amount of such retort sponge which exceeds in fine gold content 200 troy ounces. Such retort sponge may be acquired from such persons:

(1) By the United States;

(2) By persons holding licenses issued pursuant to paragraph (a) of § 54.25;

(3) By other persons provided that the aggregate amount of such retort sponge acquired and held by such other persons does not exceed at any one time 35 fine troy ounces of gold content.

(c) Persons acquiring retort sponge under paragraph (b) (3) of this section are authorized to dispose of such retort sponge only to the United States and to persons holding licenses issued pursuant to paragraph (a) of § 54.25.

(d) Except as provided in §§ 54.12 to 54.20 inclusive, and in § 54.33, gold in its natural state may be melted or treated or exported only to the extent permitted by, and subject to the conditions prescribed in, or pursuant to, §§ 54.21 to 54.27, inclusive.

§ 54.20 *Rare coin.* (a) Gold coin of recognized special value to collectors of rare and unusual coin may be acquired and held, transported within the United States, or imported without the necessity of holding a license therefor.

(b) Such coin may be exported only in accordance with the provisions of § 54.25.

(c) Gold coin of foreign issue made subsequent to April 5, 1933, is presumed not to be of recognized special value to collectors of rare and unusual coin.

SUBPART C—GOLD FOR INDUSTRIAL, PROFESSIONAL, AND ARTISTIC USE

§ 54.21 *Thirty-five-ounce exemption for processors.* (a) Subject to the conditions in paragraph (b) of this section, any person regularly engaged in an industry, profession or art, who requires gold for legitimate, customary, and ordinary use therein, may, without the necessity of obtaining a Treasury gold license:

(1) Import unmelted scrap gold or acquire gold in any form from any person authorized to hold and dispose of gold in such form and amount under the regulations in this part or a license issued pursuant hereto;

(2) Hold, transport, melt, and treat such gold; and

(3) Furnish unmelted scrap gold to the United States, to persons operating pursuant to §§ 54.18 or 54.21, or to the holder of a license issued pursuant to paragraph (a) of § 54.25;

(4) Furnish melted scrap gold to the United States, to other persons operating pursuant to § 54.21, or to the holder of a license issued pursuant to paragraph (a) of § 54.25, which authorizes the acquisition of such melted scrap gold.

(b) The privileges of paragraph (a) of this section are granted subject to the following conditions:

(1) That the aggregate amount of such gold acquired, held, transported, melted and treated, and imported, does not exceed at any one time 35 fine troy ounces of gold content (not including gold which may be acquired, held, etc., without a license under any other section of this part, except § 54.18);

(2) That such gold is acquired and held only for processing into fabricated gold, as defined in § 54.4, by such person in the industry, profession, or art in which he is engaged; and

(3) That full and exact records are kept and furnished in compliance with § 54.26.

(c) Persons acquiring, holding, transporting, melting and treating, and importing, gold under authority of this section are not authorized:

(1) To consign gold bullion, including semi-processed gold, to other persons for processing;

(2) To furnish melted scrap gold to persons operating pursuant to the provisions of § 54.18; or

(3) To dispose of gold held under authority of this section otherwise than in the form of fabricated gold or scrap gold.

(d) Persons holding licenses issued pursuant to paragraph (a) of § 54.25 or acquiring, holding, transporting, or importing, gold pursuant to § 54.18 may not acquire, hold, transport, melt or treat, or import, any gold under authority of this section.

§ 54.22 *Licenses required.* Except as permitted in §§ 54.12 to 54.20, inclusive, and § 54.21, gold may be acquired and held, transported, melted or treated, imported, exported or earmarked for industrial, professional, or artistic use only to the extent permitted by licenses issued under § 54.25.

§ 54.23 *Issuance of licenses or general authorizations.* The Director of the Mint may issue or cause to be issued licenses or other authorizations permitting the acquisition and holding, transportation, melting and treating, importing and exporting of gold which the Director is satisfied is required for legitimate and customary use in industry, profession, or art, by persons regularly engaged in the business of furnishing or processing gold for industry, profession, or art, or for sale to the United States.

§ 54.24 *Applications.* Every application for a license under paragraph (a) of § 54.25 shall be made on form TG–12 (except that applications for export shall be made on form TG–15) and shall be filed in duplicate with the United States mint for the mint district in which is located the applicant's principal place of business. No person shall make application to more than one mint; and in the event any one person is through misrepresentation issued a license under this subpart by more than one mint, all licenses issued to such person shall be void from the date of the issuance to such person of a license by a second mint. Every applicant for a license under paragraph (a) of § 54.25 shall state in his application whether or not any applications have been filed by or licenses issued to any partnership, association, or corporation in which the applicant has a substantial interest or if the applicant is a partnership, association, or corporation, by or to a person having a substantial interest in such partnership, association, or corporation. No mint shall issue any license to any person if in its judgment more than one license for the same purpose will be held for the principal use or benefit of the same persons or interests. Any person licensed under this subpart acquiring a principal interest in any partnership, association, or corporation, holding a license under this subpart for this purpose shall immediately so inform the mints which issued the licenses.

§ 54.25 *Licenses.*—(a) *Licenses for the acquisition and holding, transportation, melting and treating, importing and disposition of gold.* (1) Upon receipt of the application and after obtaining such additional information as may be deemed advisable, the Director of the Mint, shall, if satisfied that gold is necessary for the legitimate and customary requirements of the applicant's industry, profession, art, or business, and that the applicant is qualified in all respects to conduct gold operations in full compliance with the provisions of this part and the provisions of a Treasury gold license, issue or cause to be issued to the applicant a Treasury gold license on the approved form for the kind of industry, profession, art, or business, in which the applicant is engaged.

(2) Licenses issued under this section may authorize the licensee to acquire and hold not to exceed a maximum amount specified therein, which amount shall not, except in justified cases, be greater than the estimated requirements of the licensee for a period of 3 months; to transport such gold, melt or treat it to the extent necessary to meet the requirements of the industry, profession, art or business for which it was acquired and held or otherwise to carry out the purposes for which it is held under license; and to import gold so long as the aggregate amount of all gold held after such importation does not exceed the maximum amount authorized by the license to be held.

(3) Licenses issued under this paragraph do not permit the exportation or transportation from the continental United States of gold in any form. Such exportation or transportation is permitted only to the extent authorized in paragraph (b) of this section or in a separate license issued pursuant to such paragraph.

(b) *Licenses and authorizations for the exporting of gold.*—(1) *Semi-processed gold.* Semi-processed gold as defined in § 54.4 may be exported or transported from the continental United States only pursuant to a separate export license issued by the mint in the district in which the applicant has its principal place of business. Such licenses shall be issued only with the approval of the Director of the Mint and upon application made on Form TG–15 establishing to the satisfaction of the Director that the gold to be exported is semi-processed gold and that the export or transport from the continental United States is for a specific and customary industrial, professional, or artistic use and not for the purpose of using or holding or disposing of such semi-processed gold beyond the limits of the continental United States as, or in lieu of money, or for the value of its gold content.

(2) *Fabricated gold.* Fabricated gold as defined in § 54.4 may be exported or transported from the continental United States without the necessity of obtaining a Treasury gold license: *Provided, however,* That the words "Fabricated Gold" shall be plainly marked on the outside of the package or container, the shipper's export declaration shall contain a statement that such gold is fabricated gold as defined in § 54.4 and is being exported pursuant to the authorization contained in this subparagraph, and such additional documentation shall be furnished as may be required by the Bureau of Customs or any other government agency charged with the enforcement of laws relating to the exportation of merchandise from the United States.

(3) *Rare coin.* Rare gold coin as defined in § 54.20 may be exported or transported from the continental United States only under license on form TCL–11 issued by the Director of the Mint. Application for such a license shall be executed on form TC–11 and filed with the Director of the Mint, Treasury Department, Washington 25, D. C.

(4) *Other exports of gold.* Export licenses may also be issued upon application made on Form TC–15 in the same manner as prescribed in subparagraph (1) of this paragraph, authorizing the exportation of gold in any form for refining or processing subject to the condition that the refined or processed gold (or the equivalent in refined or processed gold) be returned to the United States, or subject to such other conditions as the Director may prescribe.

§ 54.26 *Investigations; records; subpoenas.* (a) The Director of the Mint is authorized to make or cause to be made such studies and investigations, to conduct such hearings, and to obtain such information as the Director deems necessary or proper to assist in the consideration of any applications for licenses, or in the administration and enforcement of the acts, the orders, and the regulations in this part.

(b) Every person holding a license issued under paragraph (a) of § 54.25, or acquiring, holding or disposing of gold pursuant to the authorizations in §§ 54.18 and 54.21, shall keep full and accurate records of all his operations and transactions with respect to gold, and such records shall be available for examination by a representative of the Treasury Department until the end of the third calendar year (or if such person's accounts are kept on a fiscal year basis, until the end of the third fiscal year) following such operations or transactions. The records required to be kept by this section shall include the name, address, and Treasury gold license number of each person from whom gold is acquired or to whom gold is delivered, and the amount, date, description and purchase or sales price of each such acquisition and delivery, and any other records or papers required to be kept by the terms of a Treasury Department gold license. If the person from whom gold is acquired, or to whom gold is delivered, does not have a Treasury gold license such records shall show, in lieu of the license number of such person, the section of the regulations in this part pursuant to which such gold was held or acquired by such person. Such records shall also show all costs and expenses entering into the computation of the total domestic value of articles of fabricated or semi-processed gold as defined in § 54.4.

(c) The Director of the Mint (or the officers and employees of the Bureau of the Mint specifically designated by the Director) or any department or agency charged with the enforcement of the acts, the orders, or the regulations in this part, may require any person to permit the inspection and copying of records and other documents and the inspection of inventories of gold and to furnish, under oath or affirmation or otherwise, complete information relative to any transaction referred to in the acts, the orders, or the regulations in this part involving gold or articles manufactured from gold. The records which may be required to be furnished shall include any records required to be kept by this section and, to the extent that the production of such information is necessary and appropriate to the enforcement of the provisions of the acts, the orders, and the regulations in this part, or licenses issued thereunder, any other records, documents, reports, books, accounts, invoices, sales lists, sales slips, orders, vouchers, contracts, receipts, bills of lading, correspondence, memoranda, papers and drafts, and copies thereof, either before or after the completion of the transaction to which such records refer.

(d) The Director of the Mint may administer oaths and affirmations and may, whenever necessary, require any person holding a license under § 54.25 or acquiring, holding or disposing of gold pursuant to the authorizations of §§ 54.18 or 54.21, or any officer, director, or employee of such person, to appear and testify or to appear and produce any of the records specified in paragraph (c) of this section or both, at any designated place.

§ 54.27 *Reports.* Every person holding a license issued pursuant to paragraph (a) of § 54.25 shall make quarterly reports on the appropriate report form specified in such license for the quarterly periods ending on the last days of March, June, September, and December, respectively, and shall file such reports with the Director of the Mint, Treasury Department, Washington 25, D. C. Reports shall be filed within a certain number of days after the termination of the quarterly period for which such reports are made, as specified in the report form.

SUBPART D—GOLD FOR THE PURPOSE OF SETTLING INTERNATIONAL BALANCES AND FOR OTHER PURPOSES

§ 54.28 *Acquisitions by Federal Reserve banks for purposes of settling international balances, etc.* The Federal Reserve banks may from time to time acquire from the United States by redemption of gold certificates in accordance with section 6 of the Gold Reserve Act of 1934, such amounts of gold bullion as, in the judgment of the Secretary of the Treasury, are necessary to settle international balances or to maintain the equal purchasing power of every kind of currency of the United States. Such banks may also acquire gold (other than United States gold coin) abroad or from private sources within the United States.

§ 54.29 *Dispositions by Federal Reserve banks.* The gold acquired under § 54.28 may be held, transported, imported, exported, or earmarked for the purposes of settling international balances or maintaining the equal purchasing power of every kind of currency of the United States: *Provided,* That if the gold is not used for such purposes within 6 months from the date of acquisition, it shall (unless the Secretary of the Treasury shall have extended the period within which such gold may be so held) be paid and delivered to the Treasurer of the United States against payment therefor by credits in equivalent amounts in dollars in the accounts authorized under the sixteenth paragraph of section 16 of the Federal Reserve Act, as amended (48 Stat. 339; 12 U. S. C. 467).

§ 54.30 *Provisions limited to Federal Reserve banks.* The provisions of this subpart shall not be construed to permit any person subject to the jurisdiction of the United States, other than a Federal Reserve bank, to acquire gold for the purposes specified in this subpart or to permit any person to acquire gold from a Federal Reserve bank except to the extent that his license issued under this part specifically so provides.

SUBPART E—GOLD FOR OTHER PURPOSES NOT INCONSISTENT WITH THE PURPOSES OF THE GOLD RESERVE ACT OF 1934 AND THE ACT OF OCTOBER 6, 1917, AS AMENDED

§ 54.31 *Licenses required.* Gold may be acquired and held, transported, melted or treated, imported, exported, or earmarked for purposes other than those specified in §§ 54.21 to 54.30, inclusive, not inconsistent with the purposes of the Acts only to the extent permitted in §§ 54.12 to 54.20 inclusive, or under a license issued under §§ 54.32, 54.33 or 54.34.

§ 54.32 *Gold imported in gold-bearing materials for re-export.* The United States assay office at New York or the United States mint at San Francisco, with the approval of the Director of the Mint, shall issue licenses on Form TGL–16 authorizing the exportation of gold refined (or the equivalent to gold refined) from gold-bearing materials imported into the United States for refining and re-export to the foreign exporter, or pursuant to his order, subject to the following provisions:

(a) The Director and such assay office or mint are satisfied that:

(1) The imported gold-bearing material either (i) was imported into the United States from a foreign resident or a foreign organization, or (ii) was mined by a branch or other office of a United States organization and imported into the United States from such branch or office;

(2) The importer has no right, title, or interest in the gold refined from the imported gold-bearing material other than through its branch or office which is the foreign exporter as provided in subparagraph (1) (ii) of this paragraph, and the importer will not participate in the sale of such refined gold or receive any commission in connection with the sale of such refined gold;

(3) The refined gold is to be reexported to the foreign exporter or, pursuant to his order, to a foreign resident or foreign organization; and

(4) The exportation of the gold-bearing material from the country of origin and the importation of the refined gold into the country or countries of importation are authorized under the applicable laws and regulations of such countries;

(b) Such gold is imported, acquired, and held, transported, melted and treated as permitted in §§ 54.12 to 54.20, inclusive, or in accordance with a license issued under § 54.32 and subject to the following provisions:

(1) *Notation upon entry.* Upon the formal entry into the United States of any gold-bearing materials, the importer shall declare to the collector of customs at the port where the material is formally entered that the importation is made with the intention of exporting the gold refined therefrom to the foreign exporter, or pursuant to his order. The collector shall make on the entry a notation to this effect and forward a copy of the entry to the United States assay office at New York or to the United States mint at San Francisco, whichever is designated by the importer.

(2) *Sampling and assaying.* Promptly upon the receipt of each importation of gold-bearing material at the plant where it is first to be treated, it shall be weighed, sampled, and assayed for the gold content. A reserve commercial sample shall be retained by such plant for at least 1 year from the date of importation, unless the assay is sooner verified by the Bureau of the Mint.

(3) *Plant records.* The importer shall cause an exact record, covering each importation, to be kept at the plant of first treatment. The records shall show the gross wet weight of the importation, the weight of containers, if any, the net wet weight, the percentage and weight of moisture, the net dry weight, and the gold content shown by the settlement assay. An attested copy of such record shall be filed promptly with the assay office at New York or the mint at San Francisco, whichever has been designated to receive a copy of the entry. The plant records herein required to be kept shall be available for examination by a representative of the Treasury Department for at least 1 year

after the date of the disposition of such gold.

(4) *Application for export license.* Not later than 3 months from the date of entry the importer shall file with the New York assay office or the mint at San Francisco, whichever has been designated to receive a copy of the entry, an application on form TG–16 for a permit to export refined gold not in excess of the amount shown by the settlement sheet covering the importation. The application shall be accompanied by two duly attested copies of the settlement sheet.

(5) *Issuance of export license.* If the application indicates that the refined gold is to be exported forthwith upon issuance of a license, the assay office or mint, if satisfied that the data shown on such application is accurate and that the provisions of this section have been otherwise complied with, shall, with the approval of the Director of the Mint, issue to the importer an export license or licenses on form TGL–16 to export refined gold in a total amount not exceeding the amount specified in the settlement sheet.

(6) *Issuance of serial numbered certificates.* Upon request of the applicant, or in any case where the application indicates that the refined gold is not to be exported forthwith, the assay office or mint shall issue to the importer a dated serial numbered certificate which shall show the amount of gold specified in the application and the amount specified in the settlement sheet. Upon delivery of the dated serial numbered certificate to the assay office at New York or to the mint at San Francisco, whichever issued the certificate, not later than 120 days from the date of issuance, the assay office or mint shall issue to the importer an export license or licenses in the same manner as prescribed in subparagraph (5) of this paragraph.

(7) *Exportation prior to receipt of settlement sheet.* Upon a showing in the application that an exportation with respect to any gold-bearing materials imported into the United States for refining is necessary prior to the time the settlement sheet can be procured, the assay office at New York or the mint at San Francisco, whichever was designated by the importer, may receive the application with duplicate certified copies of the report of the applicant's actual test assay. If prior reports of such applicant have been approximately substantiated by the settlement sheets, a license or licenses may be granted to export up to 90 per cent of the amount of gold which such report estimates will be realized from such gold-bearing materials.

(8) *Number of licenses to be issued.* No more than three licenses will be issued in connection with each importation of gold-bearing material.

§ 54.33 *Gold imported for re-export*[1]—(a) *Exportation promptly without license.* Gold may be imported and transported for prompt export, and exported without the necessity of holding a license, provided the gold is, in fact exported promptly and remains under customs custody throughout the period during which it is within the customs limits of the United States. Upon the arrival in the United States of gold imported for re-export pursuant to the provisions of this section, the importer shall declare to the collector of customs at the port of entry that it will be re-exported promptly. The collector of customs shall make a notation of this declaration upon the entry and forward a copy of the entry to the Director of the Mint.

(b) *Exportation pursuant to license.* In the event that the export of any gold imported pursuant to this section is delayed due to the unavailability of facilities for the onward transportation of such gold, the Director of the Mint may, subject to the following provisions, issue licenses on form TGL–17 authorizing the importation, holding, transportation, and exportation of gold which the Director is satisfied is, in fact, imported for re-export promptly upon the completion of necessary arrangements for the transportation of such gold.

(1) Every application for a license under this section shall be made on form TG–17 and shall be filed with the Director of the Mint.

(2) Upon receipt of the application and after making such investigation of the case as may be deemed advisable, the Director of the Mint, if satisfied that the gold was, in fact, imported for re-export promptly upon the completion of necessary arrangements for the transportation of such gold, shall issue to the applicant a license on form TGL–17.

§ 54.34 *Licenses for other purposes.* The Secretary of the Treasury, with the approval of the President, shall issue licenses authorizing the acquisition, transportation, melting or treating, importing, exporting, or earmarking of gold, for purposes other than those specified in §§ 54.21 to 54.30, inclusive, 54.32 and 54.33, which, in the judgment of the Secretary of the Treasury, are not inconsistent with the purposes of the acts, subject to the following provisions:

(a) *Applications.* Every application for a license under this section shall be made on form TG–18 and shall be filed in duplicate with the Federal Reserve bank for the district in which the applicant resides or has his principal place of business. Upon receipt of the application and after making such investigation of the case as it may deem advisable, the Federal Reserve bank shall transmit to the Secretary of the Treasury the original of the application, together with any supplemental information it may deem appropriate. The Federal Reserve bank shall retain the duplicate of the application for its records.

(b) *Licenses.* If the issuance of a license is approved, the Federal Reserve bank which received and transmitted the application will be advised by the Secretary of the Treasury and directed to issue a license on form TGL–18. If a license is denied, the Federal Reserve bank will be so advised and shall immediately notify the applicant. The decision of the Secretary of the Treasury with respect to the granting or denying of a license shall be final. If a license is granted, the Federal Reserve bank shall thereupon note upon the duplicate of the application therefor, the date of approval and issuance and the amount of gold specified in such license.

(c) *Reports.* Within 7 business days of the date of disposition of the gold acquired or held under a license issued under this section, or within 7 business days of the date of export, if such exportation is authorized, the licensee shall file a report in duplicate on form TGR–18 with the Federal Reserve bank through which the license was issued. Upon receipt of such report, the Federal Reserve bank shall transmit the original thereof to the Secretary of the Treasury, and retain the duplicate for its records.

SUBPART F—PURCHASE OF GOLD BY MINTS

§ 54.35 *Purchase by mints.* The mints, subject to the conditions specified in the regulations in this part, particularly § 54.36 to § 54.43, and the general regulations governing the mints, are authorized to purchase:

(a) Gold recovered from natural deposits in the United States or any place subject to the jurisdiction thereof, which shall not have entered into monetary or industrial, professional, or artistic use, including gold contained in deposits of newly mined domestic silver;

(b) Gold contained in deposits of silver eligible for deposit at a mint for return in bar form;

(c) Scrap gold as defined in § 54.4;

(d) Gold refined from sweeps purchased from a United States mint;

(e) Gold (other than United States gold coin) imported into the United States after January 30, 1934;

(f) Gold refined (or the equivalent to gold refined) from imported gold-bearing material; and

(g) Such other gold (other than United States gold coin or gold derived therefrom) as may be authorized from time to time by rulings of the Secretary of the Treasury.

Provided, however, That no gold shall be purchased by any mint under the provisions of this subpart which, in the opinion of the mint, has been held at any time in noncompliance with the acts, the orders, or any regulations, rulings, instructions, or licenses issued thereunder, including the regulations in this part, or in noncompliance with section 3 of the act of March 9, 1933, or any orders, regulations, rulings, or instructions issued thereunder.[2]

§ 54.36 *Gold recovered from natural deposits in the United States or any place subject to the jurisdiction thereof, including gold contained in deposits of newly mined domestic silver.* (a) The mints may purchase gold under § 54.35

[1] Attention is directed to Order No. 4 of the Foreign Trade Zones Board (4 F. R. 541; 15 CFR 400.823a) which is applicable to gold.

[2] Gold which has been so held in noncompliance with section 3 of the act of March 9, 1933 or the order of the Secretary of the Treasury of December 28, 1933 may, however, be purchased in accordance with the Instructions of the Secretary of the Treasury of January 17, 1934 (31 CFR 53.1) subject to the rights reserved in such Instructions and at the price stated therein.

(a) only if the deposit of such gold is accompanied by a properly executed statement as follows:

(1) A statement on form TG–19 shall be filed with each delivery of gold by persons who have recovered such gold by mining or panning in the United States or any place subject to the jurisdiction thereof.

(2) A statement on form TG–20 shall be filed with each delivery of gold by persons who have recovered such gold from gold-bearing materials in the regular course of their business of operating a custom mill, smelter, or refinery.

(3) A statement on form TG–21 together with a statement giving the names of the persons from whom gold was purchased, the amount and description of each lot of gold purchased, the location of the mine or placer deposit from which each lot was taken, and the period within which such gold was taken from the mine or placer deposit, shall be filed with each such delivery of gold by persons who have purchased such gold directly from the persons who have mined or panned such gold.

(b) In addition, the depositors shall show that the gold was acquired, held, melted and treated, and transported by them in accordance with a license issued pursuant to § 54.25 or that such acquisition, holding, melting and treating, and transportation is permitted under §§ 54.12 to 54.20, inclusive, without the necessity of holding a license.

§ 54.37 *Gold contained in deposits of silver.* Gold contained in deposits of silver, eligible at a mint for return in bar form, may be purchased by the mints: *Provided,* That such silver contains not less than 600 parts of silver in 1,000 and not more than 10 parts of gold in 1,000: *Provided, further,* That the gold was not mixed with such silver for the purposes of selling gold to the United States which was not eligible for purchase by the United States under paragraphs (a), (c), (d), (e), or (f) of § 54.35.

§ 54.38 *Scrap gold.* Deposits of scrap gold must be accompanied by a statement executed on form TG–22. In addition the depositors of such gold shall establish to the satisfaction of the mint that the gold was acquired, held, and transported by them in accordance with the regulations in this part or a license issued pursuant thereto.

§ 54.39 *Gold refined from sweeps purchased from a United States mint.* Gold refined from sweeps purchased from a United States mint shall be purchased only if the deposit of such gold is accompanied by a statement executed on form TG–28.

§ 54.40 *Imported gold.* Except for gold which may be purchased in accordance with the provisions of § 54.41, the mints are authorized to purchase only such gold imported into the United States as has been in customs custody throughout the period in which is shall have been situated within the customs limits of the continental United States, and then only subject to the following provisions:

(a) *Notation upon entry.* Upon formal entry into the United States of any gold intended for sale to a mint under this subpart, the importer shall declare to the collector of customs at the port of entry where the gold is formally entered that the gold is entered for such sale. The collector shall make a notation of this declaration upon the entry and forward a copy to the mint designated by the importer.

(b) *Statement by importer.* Upon the deposit of the gold with the mint designated by the importer, the importer shall file a statement executed in duplicate on form TG–23.

§ 54.41 *Gold refined from imported gold-bearing material.* The mints are authorized to purchase gold refined (or the equivalent to gold refined) from gold-bearing material which has been either imported into the United States pursuant to a license issued under paragraph (a) of § 54.25 for sale of the gold derived therefrom to a designated mint, or imported into the United States under § 54.32 (notwithstanding the declaration made by the importer upon the entry into the United States of such gold-bearing material as required by § 54.32 (b)), whether or not such gold or gold-bearing material has been in customs custody throughout the period it has been in the customs limits of the continental United States, subject to the following provisions:

(a) In the case of gold-bearing material imported pursuant to license issued under paragraph (a) of § 54.25, the importer shall declare to the collector of customs at the port of entry that the gold-bearing material is being imported for sale of the gold refined therefrom to a designated mint; the collector shall make on the entry a notation to this effect and forward a copy thereof to the mint designated by the importer.

(b) In the case of gold-bearing material imported under § 54.32, if the gold refined therefrom is offered to a mint other than the mint at San Francisco or the assay office at New York, the importer shall have caused the copy of the entry described in § 54.32 (b) to be forwarded to the mint to which he is offering the gold for sale.

(c) Before any gold may be purchased under this section, the requirements of § 54.32 (b) (2) and (3) must be shown to have been complied with: *Provided, however,* That any person importing gold-bearing materials for sale of the gold refined therefrom to a mint other than the mint at San Francisco or the assay office at New York shall have caused the attested copy of the record described in § 54.32 (b) (3) to be forwarded to the mint to which he is offering the gold for sale.

(d) Upon presentation of the gold to a mint or assay office for purchase, the importer shall file a statement executed in duplicate on form TG–26, together with two duly attested copies of the settlement sheet covering the gold-bearing material imported.

(e) No gold shall be accepted for purchase under authority of this paragraph unless it is delivered to the mint and all of the terms hereof complied with within seven months from the date of the formal entry into the United States of the gold-bearing material from which it was extracted.

§ 54.42 *Deposits.* Deposits of gold described in § 54.35 and rulings issued thereunder will be received in amounts of not less than 1 troy ounce of fine gold when deposited in the following forms: Nuggets, grains, and dust which are in their native state free from earth and stone, or nearly so, retort sponge, lumps, coins, bars, kings, buttons, and scrap gold as defined in § 54.4. Deposits of gold shall not contain less than 200 parts of gold in 1,000 by assay. In the case of gold forwarded to a mint by mail or express, a letter of transmittal shall be sent with each package. When there is a material discrepancy between the actual and invoice weights of a deposit, further action in regard to it will be deferred pending communication with the depositor.

§ 54.43 *Rejection of gold by mint.* Deposits of gold which do not conform to the requirements of §§ 54.35 to 54.42, inclusive, or which otherwise are unsuitable for mint treatment shall be rejected and returned to the person delivering the same at his risk and expense. The mints shall not purchase gold under the provisions of this subpart from any person who has failed to comply with the regulations in this part or the terms of a Treasury gold license. Any deposit of gold which has been held in noncompliance with the acts, the orders, or any regulations, rulings, instructions or licenses issued thereunder, including the regulations in this part, or in noncompliance with section 3 of the act of March 9, 1933, or any orders, regulations, rulings, or instructions issued thereunder, may be held subject to the penalties provided in § 54.11 or section 3 of the act of March 9, 1933.

§ 54.44 *Purchase price.* The mints shall pay for all gold purchased by them in accordance with this subpart $35.00 (less one fourth of 1 percent) per troy ounce of fine gold, but shall retain from such purchase price an amount equal to all mint charges. This price may be changed by the Secretary of the Treasury without notice other than by notice of such change mailed or telegraphed to the mints.

SUBPART G—SALE OF GOLD BY MINTS

§ 54.51 *Authorization to sell gold.* Each mint is authorized to sell gold to persons holding licenses issued pursuant to § 54.25, or to persons authorized under § 54.21 to acquire such gold for use in industry, profession, or art: *Provided, however,* That except in justified cases, no mint may sell gold to any person in an amount which, in the opinion of such mint, exceeds the amount actually required by such person for a period of 3 months. Prior to the sale of any gold under this subpart, the mint shall require the purchaser to execute and file in duplicate a statement on form TG–24, or, if such purchaser is in the business of furnishing gold for use in industries, professions, and arts, on form TG–25. The mints are authorized to refuse to sell gold in amounts less than 25 ounces, and shall not sell gold under the provi-

sions of this subpart to any person who has failed to comply with the regulations in this part or the terms of his license.

§ 54.52 *Sale price.* The mints shall charge for all gold sold under this article $35.00 (plus one fourth of 1 percent) per troy ounce of fine gold plus the regular mint charges. This price may be changed by the Secretary of the Treasury without notice other than by notice of such change mailed or telegraphed to the mints.

SUBPART H—INSTRUCTIONS ISSUED PURSUANT TO § 54.8 (b) OF THE REGULATIONS IN THIS PART

§ 54.60 *Gold exported from Mexico.*

To Collectors of Customs in the Continental United States:

Pursuant to the provisions of § 54.8 (a) [now § 54.8 (b)] of the regulations issued under the Gold Reserve Act of 1934, you are hereby instructed, effective immediately, and regardless of whether said regulations are otherwise complied with, to refuse entry into the continental United States of gold in any form (including gold in its natural state) exported from Mexico, unless there is filed with you a certificate, duly certified by an officer of the Mexican Government, to the effect that such gold was or may be lawfully exported from Mexico. However, these instructions do not apply to

(1) "Fabricated gold" as defined in said regulations.

(2) Any substance, including gold in its natural state, which you are satisfied, after the filing of an appropriate affidavit by the importer, does not contain more than 5 troy ounces of fine gold per short ton.

HENRY MORGENTHAU, JR.,
Secretary of the Treasury.

Approved:

FRANKLIN D. ROOSEVELT,
The White House, March 11, 1937.

SUBPART I—TRANSITORY PROVISIONS

§ 54.70 *Legal effect of amendment of regulations.* This amendment of the Gold Regulations shall not affect any act done or any right accruing or accrued or any suit or proceeding had or commenced in any civil or criminal cause prior to the effective date of this amendment but all such liabilities shall continue and may be enforced as if said amendment had not been made.

[SEAL] JOHN S. GRAHAM,
Acting Secretary of the Treasury.

[F. R. Doc. 52-9472; Filed, Aug. 28, 1952; 8:45 a. m.]

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter III—Office of Price Stabilization, Economic Stabilization Agency

[General Ceiling Price Regulation, Supplementary Regulation 63, Area Milk Price Regulation 30]

GCPR, SR 63—AREA MILK PRICE ADJUSTMENTS

AMPR 30—NORTH TEXAS MILK MARKETING AREA, STATE OF TEXAS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2 (16 F. R. 738), this Area Milk Price Regulation pursuant to Supplementary Regulation 63 to the General Ceiling Price Regulation (16 F. R. 9559) is hereby issued.

STATEMENT OF CONSIDERATIONS

The General Ceiling Price Regulation issued on January 26, 1951, pointed out that the general freeze which it imposed on prices at all levels of production and distribution was an emergency measure made imperative by the urgency of bringing the inflationary spiral to a halt. On September 24, 1951, Supplementary Regulation 63 became effective permitting adjustments of ceiling prices for fluid milk products in individual marketing areas upon petition or upon the initiative of the appropriate District or Regional Director. Pursuant to this authority, this area milk price regulation is being issued adjusting ceiling prices for the North Texas Milk Marketing Area on sales of fluid milk products within that area by processors, distributors, and operators of receiving plants. Sales of milk products not covered by this regulation remain subject to the provisions of the General Ceiling Price Regulation.

The marketing area was determined after considering all relevant factors such as places where milk is processed and utilized, the places where milk in the area originates, and local ordinances or state statutes dealing with health standards in the localities involved.

This regulation provides uniform dollar and cent ceiling prices. They have been determined by taking prices in effect during the period January through June 1950, and adding increases and deducting decreases in cost per sales point of (1) raw milk and other agricultural commodities or products processed therefrom which are ingredients of milk products, (2) direct labor (including distribution labor and commissions), and (3) containers, cans and cases. Changes in marketing practices which have occurred since the base period were also considered. The regulation was issued on the basis of data found to be representative of the operations in the marketing area.

This regulation indicates the price for raw milk upon which the adjustments in ceiling prices are based. This producer price is to be the basis for computing future parity adjustments.

Every effort has been made to conform this regulation to existing business practices, cost practices or methods, or means or aids to distribution. Insofar as any provisions of this regulation may operate to compel changes in the business practices, cost practices or methods, or means or aids to distribution, such provisions are found by the Regional Director of the Office of Price Stabilization to be necessary to prevent circumvention or evasion of this regulation.

In the judgment of the Regional Director of the Office of Price Stabilization, the provisions of this area milk price regulation are generally fair and equitable and are necessary to effectuate the purpose of Title IV of the Defense Production Act of 1950, as amended.

The Regional Director of the Office of Price Stabilization gave due consideration to the national effort to achieve maximum production in furtherance of the objectives of the Defense Production Act of 1950, as amended; to prices prevailing during the period from May 24, 1950, to June 24, 1950, inclusive; and to all relevant factors of general applicability.

The Director has consulted the industry to the extent practicable and has given due consideration to its recommendations.

REGULATORY PROVISIONS

Sec.
1. What this area milk price regulation does.
2. Where this area milk price regulation applies.
3. Sellers and sales covered by this area milk price regulation.
4. Ceiling prices of listed items for processors and distributors.
5. Ceiling prices of unlisted items for processors and distributors.
6. Use of competitor's ceiling prices to establish your ceiling prices.
7. Sellers who cannot price under other sections of this regulation.
8. Producer prices.
9. Rounding of fractions.
10. Transfer of business or stock in trade.
11. Prohibitions.
12. Violation.

AUTHORITY: Sections 1 to 12 issued under sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154. Interpret or apply Title IV, 64 Stat. 803, as amended; 50 U. S. C. App. Sup. 2101-2110; E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.; SR 63 to GCPR, Sept. 19, 1951, 16 F. R. 9559.

SECTION 1. *What this area milk price regulation does.* This area milk price regulation, issued pursuant to Supplementary Regulation 63 to the General Ceiling Price Regulation, establishes ceiling prices for fluid milk products when sold in the North Texas Milk Marketing Area on a home-delivered and store-delivered basis. It provides adjusted uniform ceiling prices for the listed milk products in designated types and sizes of containers. It also provides a method for determining ceiling prices for the listed products sold in containers of other types and sizes and to other classes of purchasers, as well as ceiling prices of unlisted products.

SEC. 2. *Where this area milk price regulation applies.* This area milk price regulation applies to the North Texas Milk Marketing Area. The North Texas Milk Marketing Area is identical with the North Texas Marketing Area established by Federal Order No. 48 (16 F. R. 8420) of the Production and Marketing Administration of the United States Department of Agriculture. The North Texas Milk Marketing Area is composed of the following Texas counties:

Cooke	Hopkins
Collin	Hunt
Dallas	Johnson
Delta	Kaufman
Denton	Lamar
Ellis	Parker
Fannin	Rockwall
Grayson	Tarrant.

SEC. 3. *Sellers and sales covered by this area milk price regulation.* This area milk price regulation covers sales in this marketing area of milk products for fluid consumption by processors, distributors, and operators of receiving plants. This regulation is not applicable to sales by retail stores which remain subject to the General Ceiling Price Regulation. Definitions of these terms may be found in sections 3 and 11 (e) of Supplementary Regulation 63 to the General Ceiling Price Regulation. This area milk price regulation also covers sales of milk products to be delivered to a purchaser located in this area, although the seller is located outside of this area, but it does not cover sales of milk products to be delivered from a plant located in this area to a purchaser located outside of the area.

SEC. 4. *Ceiling prices of listed items for processors and distributors.* Your ceiling prices for the listed milk products for fluid consumption in the designated types and sizes of containers are set forth below:

Products and container type	Home-delivered, cents per—				Delivered to the store, cents per—			
	½ gallon	Quart	Pint	½ pint	½ gallon	Quart	Pint	½ pint
Homogenized milk, glass and paper	53	27	.....	.....	47	24	12.5	6.25
Regular milk, glass and paper	53	27	.....	.....	47	24	12.5	6.25
Buttermilk, glass and paper	43	22	.....	.....	39	20	10	5.25
Skim milk, glass and paper	38	19	.....	.....	33	17	.....	.....
Whipping cream, glass and paper (butterfat content 32 percent or more)	.....	131	68	35	.....	114	60	31
Light cream, glass and paper (butterfat content 18 to 31 percent)	.....	85	45	23	.....	77	39	20
Half and half, glass and paper	.....	59	32	17	.....	54	28	14
Chocolate drink, glass and paper	.....	25	14	.....	.....	22	12	6.25
Chocolate milk, glass and paper (butterfat content over 3.25 percent)	53	27	.....	.....	47	24	12.5	6.25
Premium test milk, glass and paper (butterfat content over 4 percent)	59	30	.....	.....	53	27	14	.....

Product:	*Wholesale, cents per gallon in bulk*
Homogenized milk	93
Regular milk	93
Buttermilk	77
Heavy cream (butterfat content 32 percent or more)	450
Coffee cream (butterfat content 18 to 31 percent)	300
Half and half	210
Skim milk	65

SEC. 5. *Ceiling Prices of unlisted items for processors and distributors.*—(a) *Listed products in unlisted types of sizes, or unlisted types and sizes of containers.* Your ceiling price for a product listed in section 4 which is packed in a container of an unlisted type or size, or an unlisted type and size, shall be the ceiling price listed in section 4 of this regulation for a comparison item, adjusted by the dollars-and-cents differential which existed between your ceiling prices, established under section 3 of the GCPR, of the comparison item and the unlisted item for which you are seeking a ceiling price. The comparison item which you must use is the same product packed in the container most similar; first, as to size; and, second, as to type, and delivered to the same class of purchaser as the item for which you are determining a ceiling price.

(b) *Listed products sold to unlisted classes of purchasers.* Your ceiling price for a product listed in section 4 of this regulation to an unlisted class of purchaser is the ceiling price listed in section 4 of this regulation for the same product in the same container type and size delivered to the store, adjusted by the dollars-and-cents differential which existed between your ceiling prices, established under section 3 of the GCPR, of this product delivered to the store and this product delivered to the unlisted class of purchaser, the container being of the same type and size.

(c) *Listed products in unlisted types and sizes of containers and sold to unlisted classes of purchasers.* Your ceiling price for a product listed in section 4 of this regulation which is packed in a container of an unlisted type and size (or either type or size) and is sold to an unlisted class of purchaser, shall be the ceiling price for a comparison item listed in section 4 of this regulation, adjusted by the dollars-and-cents differential which existed between your ceiling prices, established under section 3 of the GCPR, of the comparison item and the unlisted item for which you are seeking a ceiling price. The comparison item which you must use is the same product as the item for which you are determining a ceiling price packed in the container most similar; first, as to size; and, second, as to type and delivered to the same class of purchaser; or, if the sale is to an unlisted class of purchaser, then delivered to the store.

(d) *Unlisted products.* Your ceiling price for a product which is not listed in section 4 of this regulation, shall be the ceiling price for a comparison item listed in section 4 of this regulation, adjusted by dollars-and-cents differential which existed between your ceiling prices, established under section 3 of the GCPR, of your comparison item and the unlisted item for which you are seeking a ceiling price. The comparison item which you must use is the product listed in section 4 of this regulation, most similar in composition as to butterfat and other ingredients, packed in the container most similar; first, as to size; and, second, as to type, and delivered to the same class of purchaser as the item for which you are determining a ceiling price, or if the sale is to an unlisted class of purchaser, then delivered to the store.

(e) *Price differentials.* Ceiling prices established pursuant to sections 4 and 5 of this regulation, must be modified by price differentials which existed between your ceiling prices determined under section 3 of GCPR and which resulted from discounts, allowances, premiums, extras, location of purchasers, and terms and conditions of sale or delivery.

(f) *Reporting of differentials and prices resulting therefrom.* You shall report the ceiling prices computed pursuant to paragraphs (a) through (e) of this section and the differentials used in determining these ceiling prices to the Regional Director of the Office of Price Stabilization, 3306 Main Street, Dallas, Texas, by registered mail, return receipt requested, within five days after the effective date of this regulation. This report shall be filed on OPS Public Form 123 which may be obtained from the aforementioned office. Your price lists in effect during any part or all of the GCPR base period, including the time during which they were in effect, must accompany the report, unless you have previously mailed such price lists by registered mail to the Director who is issuing this regulation. You shall not sell at the ceiling prices computed pursuant to this section until the Office of Price Stabilization has received the report required by this paragraph (f) as shown by your return postal receipt.

(g) *Modification of proposed ceiling prices by Regional Director of Price Stabilization.* The Regional Director of the Office of Price Stabilization may at any time disapprove or revise downward ceiling prices established under this section 5 so as to bring them into line with the level of ceiling prices otherwise established under this regulation.

SEC. 6. *Use of competitor's ceiling prices to establish your ceiling prices.*—(a) *How you determine your ceiling price.* If you cannot determine a ceiling price under either sections 4 or 5 of this regulation your ceiling price for the sale of any milk product for fluid consumption to any class of purchaser is the ceiling price determined under this regulation for the sale of the same milk product in the same size and type of container by your most closely competitive seller of the same class (as defined in section 22 of GCPR) to the same class of purchaser.

(b) *When you may sell at your competitor's ceiling price.* You shall not sell any such milk product until you have sent the report required by paragraph (c) of this section by registered mail, return receipt requested, to the Regional Director of the Office of Price Stabilization who issued this regulation. After OPS has received your reports, as shown by your return postal receipt, you may sell the product at your proposed ceiling price unless you are notified by the Regional Director that your proposed ceiling price has been disapproved or that more information is required.

(c) *Report required when you use your competitor's ceiling prices.* Your report shall state the name and address of your company; the name, address, and type of business of your most closely competitive seller of the same class; your reasons for selecting him as your most closely competitive seller; and if you are starting a new business, a statement indicating whether you or the principal owner of your business has been engaged in any part of the past 12 months in any capacity in the same or similar business at any other establishment and, if so, the trade name and address of each such establishment. Your report should also include the following:

(1) If you are a processor: A description of the product you are pricing; the

processing involved in the production of that product; the classes of purchasers to whom you will be selling; the ceiling price of your nearest competitor, and your proposed ceiling price to each class of purchaser.

(2) If you are a distributor: A description of the product you are pricing; your net invoice cost of the commodity being priced; the names and addresses of your sources of supply; the function performed by them (e. g., processing, distributing, etc.), and the class of purchasers to whom they customarily sell; the classes of purchasers to whom you plan to sell; the ceiling price of your most closely competitive seller; your proposed ceiling price to each class of purchaser; and a statement that your proposed ceiling prices will not exceed the ceiling price your customers paid to their customary sources of supply. A report under this section may be filed on OPS Public Form 122 which may be obtained from the Regional Office of the Office of Price Stabilization which issued this regulation.

SEC. 7. *Sellers who cannot price under other sections of this regulation*—(a) *How you obtain your ceiling price.* If you cannot determine a ceiling price under sections 4, 5, and 6 of this regulation you must apply to the Regional Director of the Office of Price Stabilization who issued this regulation for the establishment of a ceiling price for sales by you of that milk product for fluid consumption. The Director will, as soon as possible after the receipt of the application or the receipt of such additional information as he may request, issue a letter order establishing a ceiling price for the sale by you of that product at the various levels of distribution, and specifying a producer price for milk from which parity adjustments will be computed. You may not sell the milk product until the Director has issued a letter order establishing your ceiling price for the sale of the product.

(b) *What your application must contain.* An application under the provisions of this section must contain the following information: An explanation of why you are unable to determine your ceiling price under any other provision of this regulation; all pertinent information describing the product and the nature of your business such as indicated in section 6 (c), (1) or 6 (c) (2); a description of the product, its butterfat content, the type and size of container in which it will be sold and the class of purchaser to whom you intend to sell; your proposed ceiling price and the method used by you to determine it, including the producer price upon which it is based; and the reason you believe the proposed ceiling price is in line with the level of ceiling prices otherwise established by this regulation.

SEC. 8. *Producer prices.* (a) The adjusted ceiling prices used in this regulation are based on a Class I price of $7.04 per hundredweight for 4 percent raw milk f. o. b. the plant.

(b) Producer prices specified in section 8 (a) must be used as the basis for computing parity adjustments of ceiling prices in accordance with section 8 of Supplementary Regulation 63 to the GCPR.

(c) After the determination of your ceiling price under either section 6 or 7 you may increase, and you must decrease, the ceiling prices so established by parity adjustments in conformity with section 8 (a) of Supplementary Regulation 63. If your ceiling price was determined under section 6 of this regulation, you shall compute your parity adjustments from the highest price you paid or incurred for your customary purchase of milk or products processed therefrom during the most recent paying period prior to the date you mailed your report. If you made no customary purchase prior to the date you mailed your report, the price you paid or incurred for your first customary purchase between the date you mailed your report and the date you first offered your product for immediate delivery shall be your base for computing parity adjustments. If your ceiling price was determined under section 7 of this regulation, you shall compute your parity adjustments from the producer price specified in the letter order.

SEC. 9. *Rounding of fractions.* Fractions of a cent remaining after you have computed your ceiling price for the total number of units of any milk product (and after giving effect to section 8 (b) of Supplementary Regulation 63) shall be dropped if less than one-half cent and may be increased to the next higher cent if one-half cent or more. If, however, you have customarily billed any particular purchaser or any class of purchasers for milk products for fluid consumption purchased during a month or other billing period, any fraction remaining after the computation of the ceiling price for the total number of units of all milk products for fluid consumption so sold during the preceding month or other billing period shall be dropped if less than one-half cent and may be increased to the next higher cent if one-half cent or more.

SEC. 10. *Transfers of business or stock in trade.* If the business, assets or stock in trade of any business are sold or otherwise transferred after this regulation becomes effective, and the transferee carries on the business, or continues to deal in the same type of commodities or services, in an establishment separate from any other establishment previously owned or operated by him, the maximum prices of the transfer shall be the same as those to which his transferor would have been subject if no such transfer had taken place, and his obligation to keep records sufficient to verify such prices shall be the same. The transferor shall either preserve and make available, or turn over, to the transferee all records of transactions prior to the transfer which are necessary to enable the transferee to comply with the record provisions of this regulation.

SEC. 11. *Prohibitions.* After the effective date of this regulation, regardless of any contract or other obligation, you shall not sell, and you shall not buy in the regular course of business or trade, any milk product at a price in excess of the ceiling price established by this regulation. The term "sell" includes sell, supply, dispose, barter, exchange, transfer, deliver, and contracts and offers to do any of the foregoing. The term "buy" shall be construed accordingly.

SEC. 12. *Violation*—(a) *Civil and criminal action.* Persons violating any provision of this regulation are subject to the criminal penalties, civil enforcement actions, and suits for treble damages provided for by the Defense Production Act of 1950, as amended.

(b) *Violations of reporting requirements.* If any person subject to this regulation fails to file the reports required by this regulation, or if any person subject to this regulation fails to establish a ceiling price, or apply to the Office of Price Stabilization for the establishment of a ceiling price, if he is required to do so, the Director may issue an order fixing ceiling prices for the milk products such person sells. Any ceiling price fixed in this manner will be in line with ceiling prices established by this regulation. The order fixing the ceiling price may apply to all deliveries or transfers for which a ceiling price was not established in accordance with the provisions of this regulation, including deliveries or transfers completed prior to the date of issuance of the order. The issuance of such an order will not relieve the seller of his obligation to comply with the requirements of this regulation or of the various penalties for failure to do so.

Effective date. This area milk price regulation is effective as of August 21, 1952.

NOTE: The reporting and record keeping requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

ALFRED L. SEELYE,
Regional Director, Region X,
Office of Price Stabilization.

AUGUST 27, 1952.

[F. R. Doc. 52-9529; Filed, Aug. 27, 1952, 10:55 a. m.]

[General Ceiling Price Regulation, Supplementary Regulation 63, Area Milk Price Regulation 31]

GCPR, SR 63—AREA MILK PRICE ADJUSTMENTS

AMPR 31—MILK PRODUCTS FOR FLUID CONSUMPTION IN THE FALL RIVER, MASSACHUSETTS, MILK MARKETING AREA

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161 (15 F. R. 6105), Economic Stabilization Agency General Order No. 2 (16 F. R. 738), Supplementary Regulation 63 to the General Ceiling Price Regulation (16 F. R. 9559), and Delegation of Authority No. 41 (16 F. R. 12679), this Area Milk Price Regulation is hereby issued.

STATEMENT OF CONSIDERATIONS

The General Ceiling Price Regulation issued on January 26, 1951, pointed out that the general freeze which it imposed on prices at various levels of production and distribution was an emergency measure made imperative by the urgency of bringing the inflationary spiral to a halt. On September 24, 1951, Supplementary Regulation 63 became effective authorizing adjustments of ceiling prices for milk products for fluid consumption for individual marketing areas by issuance of area milk price regulations.

Pursuant to this authority, as delegated, this area milk price regulation establishes ceiling prices for certain sales by processors and distributors of milk and cream items in the Fall River Milk Marketing Area. This area includes portions of the county of Bristol.

The regulation covers retail and wholesale sales of milk and cream by processors and distributors. Such sales are covered when made to a purchaser whose establishment is located in the area, unless the products are to be resold outside the area.

Sales of such products to a purchaser whose establishment is located outside the area are not covered, unless those products are resold by the purchaser inside the area. The only milk products for fluid consumption covered by this regulation are "milk" and "cream" items as these terms are defined in Section 17 of the regulation. In general these terms include most milk products for fluid consumption except cheese. Sales by receiving plants and by retail stores are not covered by this regulation because they present different problems. Milk products and sales not covered by this regulation remain under the General Ceiling Price Regulation.

The important factors determining the boundaries of the area are:

(1) The area is a homogenous industrial and agricultural area, all within a radius of about 10 miles.

(2) All of this area is substantially on the same producer price basis. The producer prices are determined either by the Federal Milk Market Administrator or by the Massachusetts Milk Control Board. Historically, producer prices have been adjusted by the same amount at the same time; and differentials between producers in these areas have remained constant.

(3) Some milk is derived from farmers in these areas; some from processors who operate their own farms from which milk is produced; and some of the milk is procured from out-of-state sources.

(4) The milk is processed at local plants in the area under similar conditions and the distribution and marketing pattern is quite similar throughout this area.

(5) It does not appear that this area conflicts with the boundaries of other marketing areas for which area milk price regulations have been or may be issued under SR 63 to the GCPR.

(6) Individual processors and distributors covered by this regulation have proposed this marketing area in their petitions and in their discussions with this office.

The uniform adjustment method is used in this regulation instead of the method of establishing uniform dollars-and-cents ceiling prices because selling prices in the area historically have not been completely uniform. It was thought best to maintain these individual price differences in establishing ceilings.

In general, a seller determines his ceiling price to a class of purchaser under this regulation by applying a uniform adjustment to the highest price he charged that class of purchaser for a milk or cream item in the period December 19, 1950, through January 25, 1951. For sales of each such product in the basic container size, a uniform adjustment is specifically listed. For sales of each such product in other sizes, a uniform adjustment is provided which is in the same relationship to the uniform adjustment listed for the applicable basic container size as the other size is to such basic container size.

The uniform adjustments were based on an examination of the differences between the pre-Korean period and a current period of the following costs: direct labor, container and raw materials. There was also an examination of any price increases between the pre-Korean period and the GCPR base period that may have compensated for any such cost increases.

The producer price specified for Class I, 3.7 percent butterfat milk, is that announced for the month of July 1952, by the Federal Milk Market Administrator for Area 19A, $6.46 per hundredweight, and by the Massachusetts Milk Control Board for Area 19B, $6.27 per hundredweight.

The weighted average price of 40 percent bottling quality cream f. o. b. Boston is that announced for the month of July 1952 by the Federal Milk Market Administrator, $32.326 per 40-quart can. These specified prices will be used as the basis for computing future raw material cost changes in determining ceiling prices upward and downward. If the most recently officially announced price for milk or cream exceeds the price specified therefor in this regulation, upward adjustments of ceiling prices are permitted; if that price is less than the price so specified, downward adjustments must be made.

Petitions submitted by processors and distributors operating in the area and accounting for a substantial majority of the total volume of milk sold in that area were received from a representative sample of large, medium, and small sellers. Of a total volume of about 10,800,000 sales points of milk products sold in the area in the base period January 1–June 30, 1950, these petitioners handled about 7,250,000, or about 67 percent of that volume.

Calculations were based on information presented by the petitioners; and accounting audits and spot checks were carefully made to determine the accuracy of costs, sales and volume figures contained in the petition.

Every effort has been made to conform this regulation to existing business practices, cost practices or methods, or means or aids to distribution. Insofar as any provisions of this regulation may operate to compel changes in the business practices, cost practices or methods, or means or aids to distribution, such provisions are found by the Director of the Region I Office of the Office of Price Stabilization to be necessary to prevent circumvention or evasion of this regulation.

In the judgment of the Director of the Region I Office of the Office of Price Stabilization, the provisions of this area milk price regulation are generally fair and equitable and are necessary to effectuate the purposes of Title IV of the Defense Production Act of 1950, as amended.

The Director of the Region I Office of the Office of Price Stabilization gave due consideration to the national effort to achieve maximum production in furtherance of the objectives of the Defense Production Act of 1950, as amended; to prices prevailing during the period from May 24, 1950, to June 24, 1950, inclusive; and to all relevant factors of general applicability. The Director has consulted the industry to the extent practicable and has given due consideration to its recommendations.

REGULATORY PROVISIONS

Sec.
1. What this area milk price regulation does.
2. Description of the Fall River Milk Marketing Area.
3. Sellers and sales covered by this regulation.
4. Ceiling price adjustments.
5. Adjustments for raw material cost changes.
6. Rounding of fractions.
7. Sellers who cannot price under other sections.
8. Reports.
9. Transfers of business or stock in trade.
10. Records.
11. Evasion.
12. Charges lower than ceiling prices.
13. Sales slips and receipts.
14. Power of Director.
15. Prohibitions.
16. Penalties.
17. Definitions.

AUTHORITY: Sections 1 to 17 issued under sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154. Interpret or apply Title IV, 64 Stat. 803, as amended; 50 U. S. C. App. Sup. 2101–2110. E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR 1950 Supp.

SECTION 1. *What this area milk price regulation does.* This area milk price regulation establishes ceiling prices for certain sales of certain milk products for fluid consumption in the Fall River milk marketing area by establishing uniform adjustments to be applied by each seller to the highest price he charged a particular class of purchaser for each such product during the period December 19, 1950 through January 25, 1951.

SEC. 2. *Description of the Fall River Milk Marketing Area.* When used in this regulation, the word "area" means the Fall River Milk Marketing Area. This area consists of the following localities in the Commonwealth of Massachusetts, namely: the city of Fall River, the towns of Somerset and Swansea, and that portion of the town of Westport lying west of the line running midway between Drift and Pine Hill Roads, all in the County of Bristol.

SEC. 3. *Sellers and sales covered by this regulation.* This regulation covers retail and wholesale sales of milk and cream by processors and distributors.

This regulation covers all such sales to a purchaser whose establishment is located inside the area, except as to sales where such purchaser has certified in writing to the seller that the products will be resold outside the area. It does not cover any such sales to a purchaser whose establishment is located outside the area, unless he resells those products inside the area.

SEC. 4. *Ceiling price adjustments.* Your ceiling price for the sale of a milk or cream item to a particular class of purchaser shall be the highest price you charged that purchaser for the item during the period December 19, 1950, through January 25, 1951, adjusted by a uniform adjustment in accordance with the applicable provisions of this section.

(a) *Basic container sizes.* The uniform adjustments for all milk and cream items in basic container sizes shall be as shown in the following table:

Product	Basic container size	Uniform adjustment (in cents) retail and wholesale sales
Milk	Quart	0.5
Heavy cream (above 34 percent butterfat).	½ pint	1.5
Light cream (10-34 percent butterfat).	do	1.0

(b) *Other sizes.* The uniform adjustment for each milk or cream item packaged in a container of a size other than the basic container size applicable to the particular product shall be an amount which is in the same relationship to the uniform adjustment applicable to the basic container size as the other size is to the basic size. Examples of an adjustment for other container sizes are included under section 5 of this regulation.

SEC. 5. *Adjustments for raw material cost changes.* Your ceiling prices as established by section 4 of this regulation, or pursuant to a letter order issued under section 7 of this regulation, shall be adjusted to reflect future changes in raw material costs of milk and cream. Such adjustments are also subject to the "rounding" provisions of section 6 of this regulation.

(a) *Specified prices.* Ceiling prices determined pursuant to section 4 of this regulation are predicated upon the following specified prices for July 1952: Class I milk price per hundredweight containing 3.7 percent butterfat, payable to producers, as announced (1) by the Federal Milk Market Administrator for Area 19A $6.46 and (2) by the Massachusetts Milk Control Board for Area 19B $6.27.

Weighted average price per 40-quart can of 40 percent bottling quality cream, f. o. b. Boston, as announced by the Federal Milk Market Administrator $32.326.

(b) *Changes from specified prices; basic sizes.* If the most recently officially announced price of a product specified in paragraph (a) of this section is higher than the specified price, you may increase your ceiling price for each applicable milk or cream item by an equivalent rate per unit. If the most recently officially announced price is lower than the specified price you must decrease your ceiling price for each such item by the equivalent rate per unit.

(A price announced by the Federal Milk Market Administrator or by the Massachusetts Milk Control Board is an officially announced price).

Example No. 1. You are a processor or distributor of milk in quart containers. The price of $6.46 per hundredweight specified for Class I milk in paragraph (a) of this section is later increased to $6.90 per hundredweight. Subtract $6.46 from $6.90 and divide the difference of $0.44 by 46.5 (the number of quarts in 100 pounds of milk). The equivalent rate of increase per quart of milk is therefore $0.946 cent per quart.

Example No. 2. You are a processor or distributor of heavy and light cream in half-pint containers. The price of $32.326 for a 40-quart can of 40 percent cream specified in paragrah (a) of this section is later increased to $35.326. Subtract $32.326 from $35.326 and divide the result of $3.00 by the particular divisor shown below for each of these items, to obtain the indicated adjustment. In each case, the divisor represents the number of ½ pints which would contain the same quantity of butterfat as a 40-quart can of 40 percent cream. It is to be assumed that the respective grades of cream contain the indicated percentages of butterfat.

Item	Divisor	Adjustment (in cents)
½ pint heavy cream (16 percent)	160	1.875
½ pint light cream (20 percent)	320	.9375

(c) *Changes from specified prices; other sizes.* Adjustments of ceiling prices of milk and cream items packaged in container sizes other than the basic container sizes, and due to changes from specified prices, shall be calculated as follows: First, calculate the adjustment for the basic container size, in accordance with paragraph (b) of this section. Then, apply the "rounding" provisions of section 6 (a) of this regulation for the basic container size. The adjustment for each item packaged in a size other than the basic container size shall be in the same relationship to the "rounded" adjustment as the other size is to the basic container size.

Example: You are a processor or distributor of milk in ½ pint and 8-quart containers and of light cream in quarts. The price changes referred to in Examples No. 1 and No. 2 in paragraph (b) of this section take place. The further calculations are:

Product	Rounded adjustment for basic container size (in cents)	Adjustment for other size (in cents)
Milk	1.0 per quart	0.25 per ½ pint; 8.0 per 8-quart can.
Light cream	1.0 per ½ pint	4.0 per quart.

SEC. 6. *Rounding of fractions.* If, in computing an adjusted ceiling price pursuant to section 5 of this regulation, you arrive at a unit price which includes a fraction of a cent, you may increase and you must decrease it to the nearest ½ cent per quart of milk and per ½ pint of cream in accordance with the following table:

Increase or decrease from specified price (in cents):	*Increase or decrease in ceiling price (in cents)*
Up to 0.250	0
0.251 to 0.750	½
0.751 and over	1

(b) Fractions of a cent remaining after you have computed your ceiling price for the total number of units of any milk product sold in a particular transaction or during a customary billing period, after rounding of fractions in unit prices as provided in paragraph (a) of this section, shall be dropped if less than ½ cent and may be increased to the next higher cent if ½ cent or more.

SEC. 7. *Sellers who cannot price under other sections.* This section applies to you, if you are unable to establish a ceiling price for the sale of a milk or cream item either because you did not sell that item during the period December 19, 1950 through January 25, 1951, or for any other reason. In such case you may, in writing, apply to the Region I Office of the Office of Price Stabilization for a determination of the ceiling price for the sale of that item. The application shall be sent by registered mail, return receipt requested, directed to the Region I Office of the Office of Price Stabilization, Boston 9, Massachusetts, and shall contain (1) an explanation of why you are unable to determine the ceiling price for that item, (2) your proposed price therefor, and the reason you believe that price is in line with the level of ceiling prices otherwise established by this regulation; and shall contain the following further information applicable to you:

(a) If you are a processor or a processor-distributor: (1) A description of the raw and other materials of which the item is composed, and the current direct unit cost of such materials; (2) the size and type of container and the current cost thereof; and (3) the total direct labor cost for that item. If you have a ceiling price under this regulation for a "comparison item", as that term is defined in section 17 (c) of this regulation, your application shall include also the following information: (1) A description of that comparison item; (2) the raw and other materials of which it is composed, and the current unit direct costs of the material in that item; (3) the type of container in which the item is contained, and the current cost of that container; and (4) the total unit direct labor cost for that item.

If you do not have such a comparison item, and your proposed price for the item being priced is based on the ceiling price of your most close by competitive seller of the same class selling the same item, or lacking the same item, a substantially similar item, to the same class of purchaser, your application shall state the name of that seller.

(b) If you are a distributor and have a ceiling price under this regulation for a "comparison item", your application shall also contain the following information: (1) A description of that comparison item, including the size and type of container; (2) your current net invoice cost of that comparison item; and (3) the percentage markup of the compari-

son item determined with reference to your most recent net invoice cost for that item.

You may not sell the item being priced until the Director of the Region I Office of the Office of Price Stabilization notifies you, in writing, by letter order of your ceiling price. After such determination of your ceiling price, that price shall be subject to the other provisions of this regulation applicable to you.

SEC. 8. *Reports.* (a) Within five days after the effective date of this regulation, you shall deposit in the mail a registered letter to the Director of the Region I Office of the Office of Price Stabilization, Boston 9, Massachusetts, notifying the Director of your ceiling prices, as determined by you under section 4 of this regulation, for each milk and cream item. This report shall be on OPS Public Form 124 which may be obtained from that office. In column f of that form, enter the highest price you charged for that item in the period December 19, 1950, through January 25, 1951.

(b) Within five days after the date of an official announcement indicating that the price of a product specified in section 5 (a) of this regulation, or in a Letter Order issued pursuant to section 7 of this regulation, is less than the specified price, you shall deposit in the mail a registered letter to the Director of the Region I Office of the Office of Price Stabilization, Boston, Massachusetts, giving the following information:

(1) Your ceiling price as determined under sections 4 and 7 of this regulation for each milk and cream item;

(2) The adjusted ceiling price for each milk and cream item determined under section 5 of this regulation.

(c) Upward adjustments in your ceiling prices pursuant to section 5 of this regulation may not be made before you deposit in the mail a registered letter to the Director of the Region I Office of the Office of Price Stabilization, Boston, Massachusetts, giving the information listed in paragraph (b) of this section.

SEC. 9. *Transfers of business or stock in trade.* If the business, assets or stock in trade of a processor or distributor is sold or otherwise transferred after the effective date of this regulation, and the transferee carries on the business, or continues to deal in milk and/or cream items, in an establishment separate from any other establishment previously owned or operated by him, the ceiling prices of the transferee shall be the same as those to which his transferor would have been subject under this regulation if no such sale or transfer had taken place, and the transferee's obligation to keep records sufficient to verify such prices shall be the same as the transferor's. The transferor shall either preserve and make available, or turn over, to the transferee, all records of transactions prior to the sale or transfer which are necessary to enable the transferee to comply with the record keeping provisions of this regulation.

SEC. 10. *Records.* With respect to transactions in milk and cream items covered by this regulation, the provisions of section 16 of the General Ceiling Price Regulation are hereby continued in effect, insofar as they apply to the preparation and preservation of "base period records" and such "current records" as were required thereby to be made with reference to sales of milk and/or cream items between January 26, 1951, and the effective date of this regulation.

(b) You shall prepare and preserve for the life of the Defense Production Act of 1950, as amended, and for two years thereafter, and keep available for examination by the Office of Price Stabilization all records showing, with respect to milk and/or cream items covered by this regulation, prices, material and labor costs in the period January 1, 1950 to June 30, 1950, inclusive; records, showing cost, prices, and sales for the other applicable periods and dates referred to in Supplementary Regulation 63 to the General Ceiling Price Regulation, and records necessary to determine whether you have computed your ceiling prices correctly. The records to be preserved under this paragraph must include appropriate work sheets. The work sheets may be in any convenient form so long as they include all data and calculations necessary to determine your ceiling prices.

(c) You must prepare and keep available for examination by the Office of Price Stabilization for a period of two years, records of the kind which you customarily keep showing the prices which you charged for milk and/or cream items covered by this regulation.

SEC. 11. *Evasion.* Any practice which results in obtaining directly or indirectly a higher price than is permitted by this regulation is a violation of this regulation. Such practices include, but are not limited to, devices making use of commissions, services, cross sales, transportation arrangements, premiums, discounts, special privileges, tie-in agreements, and trade understandings.

SEC. 12. *Charges lower than ceiling prices.* Lower prices than those established under this regulation may be charged, demanded, paid or offered.

SEC. 13. *Sales slips and receipts.* If you have customarily given a purchaser a sales slip, receipt, or similar evidence of purchase, you shall continue to do so. Upon request from a purchaser, regardless of previous custom, you shall give the purchaser a receipt showing the date, your name and address, the name of each item sold, and the price received for it.

SEC. 14. *Power of Director.* The Director of the Region I Office of the Office of Price Stabilization may at any time disapprove and revise downward ceiling prices established under this regulation, so as to bring prices so established into line with the level of ceiling prices for such items otherwise prevailing in the area. He may also revoke or suspend for any specified period of time and reinstate or postpone the effective date of this regulation.

SEC. 15. *Prohibitions.* After the effective date of this regulation, regardless of any contract or other obligation, you shall not sell and you shall not buy in the regular course of business or trade, any milk and/or cream item at a price in excess of the ceiling price established for it by this regulation. The term "sell" includes sell, supply, dispose, barter, exchange, transfer, deliver, and contracts and offers to do any of the foregoing. The term "buy" shall be construed accordingly.

SEC. 16. *Penalties.* (a) Any person violating any provision of this regulation is subject to the criminal penalties, civil enforcement actions, and suits for damages provided for by the Defense Production Act of 1950, as amended.

(b) *Violations of reporting requirements.* If any person subject to this regulation fails to file the reports required by this regulation, or if any person required to do so by this regulation fails to establish a ceiling price, or to apply to the Director of the Region I Office of the Office of Price Stabilization for the establishment of a ceiling price, then the Director may issue a Letter Order establishing ceiling prices for the milk and/or cream items such person sells. Any ceiling price established in this manner will be in line with ceiling prices otherwise established pursuant to this regulation. The Letter Order establishing the ceiling price may apply to all deliveries or transfers for which a ceiling price was not established in accordance with the provisions of this regulation, including deliveries or transfers completed prior to the date of issuance of the Letter Order. The issuance of such a Letter Order will not relieve the seller of his obligation to comply with the requirements of this regulation or of the various penalties for failure to do so.

SEC. 17. *Definitions*—(a) *Milk.* This term means standard milk; homogenized milk; vitamin and mineral fortified milk; high fat milks; milks of special curd tensions and other milks with special dietary qualities and properties; buttermilk; chocolate milk; skim milk, plain; skim milk, vitamin or mineral fortified; skim milk drinks such as chocolate milk; and any other milk or skim milk variations; regardless of whether such products are sold in glass, paper or other type of container, or in bulk.

(b) *Cream.* This term means cream of various percentages of butterfat, including soured cream; butter cream; cream mixed with other ingredients or gases used as whipping cream; other specialized fluid cream products and any other cream variation; regardless of whether such products are sold in glass, paper, or other type of container, or in bulk. Cottage, pot and bakers cheese remain under the General Ceiling Price Regulation.

(c) *Comparison item.* This term means, with reference to a milk item being priced, an item which falls within the definition of the term "milk" and with reference to a cream item being priced, an item which falls within the definition of the term "cream". In addition the comparison item must be an item the ceiling price of which was established pursuant to this regulation; must be the item most nearly like the one being priced, and must be one with lower

current unit direct costs (with respect to processed items sold by a processor or processor-distributor) or with lower costs (with respect to items sold by a distributor). If there is no such item with lower current unit direct costs or lower costs, the comparison item is the one with the same or higher current unit direct costs or higher costs, most nearly like the item being priced.

(d) *Retail and wholesale sales.* This term means sales by a processor or distributor to a purchaser other than a distributor. Examples are sales to homes, stores, restaurants, and institutions.

(e) *Basic container size.* This term means a one quart size container for milk items, and a one-half pint size container for cream items.

(f) *Terms defined elsewhere.* Terms not defined in this regulation but defined in Supplementary Regulation 63 to the General Ceiling Price Regulation or in the General Ceiling Price Regulation shall be construed as therein defined unless otherwise clearly required by the context of this regulation.

Effective date. This area milk price regulation issued pursuant to Supplementary Regulation 63 to the General Ceiling Price Regulation is effective September 1, 1952.

NOTE: The record keeping and reporting requirements of this regulation have been approved by the Bureau of the Budget, in accordance with the Federal Reports Act of 1942.

JOSEPH M. MCDONOUGH,
Director of the Region I Office,
Boston 9, Massachusetts.

AUGUST 27, 1952.

[F. R. Doc. 52-9530; Filed, Aug. 27, 1952; 10:55 a. m.]

[Ceiling Price Regulation 134, Amdt. 6]

CPR 134—CEILING PRICES FOR EATING AND DRINKING ESTABLISHMENTS

ELIMINATION OF CUT-OFF DATE IN SECTION 10

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment 6 to Ceiling Price Regulation 134 is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment deletes the cut-off date for redetermination of ceiling prices under section 10 of this regulation.

The present cut-off date for redetermination of ceiling prices under section 10 is August 1, 1952. It has come to the attention of the Office of Price Stabilization that many operators have not taken advantage of the authorized redetermination permitted by section 10 prior to the present cut-off date. In the main, most of these operators are those who operate smaller eating and drinking establishments and in many cases were unaware of the purpose of the adjustment permitted by this section. Since the section 10 adjustment permits operators to increase their freeze week ceiling prices only in those cases where their selling prices were frozen at levels below those permitted under CPR 11 and then only in an amount necessary to permit them to recover the amount of the increased cost of food they absorbed under CPR 11, the Director of Price Stabilization has on reconsideration determined that a cut-off date for this type of adjustment is not necessary at this time.

Because of the beneficial nature of this amendment and the necessity for speedy action, the Director of Price Stabilization has found it neither necessary nor practical to consult with industry representatives, including trade association representatives. In the judgment of the Director of Price Stabilization, the provisions of this amendment are generally fair and equitable, are necessary to effectuate the purposes of Title IV of the Defense Production Act of 1950, as amended, and comply with all the applicable standards of that Act.

AMENDATORY PROVISIONS

Paragraph (a) of section 10 of Ceiling Price Regulation 134 is amended by deleting the words "August 1, 1952" wherever they appear in that paragraph.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154).

Effective date. This Amendment 6 to Ceiling Price Regulation 134 is effective August 28, 1952.

ELLIS ARNALL,
Director of Price Stabilization.

AUGUST 28, 1952.

[F. R. Doc. 52-9590; Filed, Aug. 28, 1952; 10:35 a. m.]

Chapter IV—Salary and Wage Stabilization, Economic Stabilization Agency

Subchapter A—Salary Stabilization Board

[Interpretation 10, Amdt. 1]

INT. 10—SALARIES FOR NEW OR CHANGED POSITIONS UNDER SECTION 63 OF GENERAL SALARY STABILIZATION REGULATION 1, AMENDED

MISCELLANEOUS AMENDMENTS

The purpose of this amendment to Interpretation 10 is to substitute appropriate section references in General Salary Stabilization Regulation 1, Amended, for references in the superseded provisions of General Salary Stabilization Regulation 3.

1. (a) The second introductory paragraph (unnumbered) is amended by substituting the words, "General Salary Stabilization Regulation 1, Amended, section 63" for the words, "General Salary Stabilization Regulation 3, section 8".

(b) The third introductory paragraph (unnumbered) is amended by substituting the text, "section 63" for the text, "section 8".

2. The answer contained in paragraph 1.1 is amended to read as follows:

A. No. Salaries for new employees who will occupy positions identical with those held by present employees may be established at a level comparable to that of the employee having the most nearly comparable duties and responsibilities. See section 62 of General Salary Stabilization Regulation 1, Amended.

3. The answer contained in paragraph 2.14 is amended to read as follows:

A. No. The company's salary plan provides for merit increases and this increase in efficiency may be recognized by such increase in salary on the basis of an amount normally granted under the provisions of the plan. Since he is at grade 5, $790 per month, he may be considered for advancement to step 2, $875 per month, subject to the provisions of the plan and to the over-all limitations of section 52 (e) of General Salary Stabilization Regulation 1, Amended.

4. The answer contained in paragraph 3.2 is amended to read as follows:

A. No. The regulation relating to this problem is defined in section 62 of General Salary Stabilization Regulation 1, Amended, relative to salaries for new employees. Since this regulation does not offer a direct solution to this problem, the company may petition the Office of Salary Stabilization for an increase in the salary range if it can clearly establish the inadequacy of the existing salary range.

5. The answer contained in paragraph 3.4 is amended to read as follows:

A. Yes. The regulation which defines the method of setting these salaries is section 62 of General Salary Stabilization Regulation 1, Amended. Such salary is consistent in amount with the salaries paid employees having the most nearly comparable duties and responsibilities.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Issued by the Office of Salary Stabilization on August 22, 1952.

JOSEPH D. COOPER,
Executive Director.

TITLE 36—PARKS, FORESTS, AND MEMORIALS

Chapter I—National Park Service, Department of the Interior

PART 20—SPECIAL REGULATIONS

COLONIAL NATIONAL HISTORICAL PARK AND EVERGLADES NATIONAL PARK; SPEED

1. Paragraph (c), *Speed*, of § 20.1, *Colonial National Historical Park*, is amended to read as follows:

(c) *Speed.* Except where different speed limits are indicated by posted signs or markers, speed of automobiles and other vehicles, except ambulances and Government cars on emergency trips, shall not exceed 45 miles per hour on park roadways.

2. Section 20.45, *Everglades National Park*, is amended by the addition of paragraph (h), reading as follows:

(h) *Speed.* Except where different speed limits are indicated by posted signs or markers, speed of automobiles and other vehicles, except ambulances and Government cars on emergency trips, shall not exceed 45 miles per hour on park roadways.

(39 Stat. 535; 16 U. S. C., sec. 3)

Issued this 25th day of August 1952.

OSCAR L. CHAPMAN,
Secretary of the Interior.

[F. R. Doc. 52-9485; Filed, Aug. 28, 1952; 8:46 a. m.]

TITLE 49—TRANSPORTATION

Chapter I—Interstate Commerce Commission

PART 57—RECORDATION OF DOCUMENTS

ELIGIBILITY OF DOCUMENTS

At a session of the Interstate Commerce Commission, Division 1, held at its office in Washington, D. C., on the 25th day of August A. D. 1952.

There being under further consideration the provisions of section 20c of the Interstate Commerce Act, as amended, providing for the recordation of any mortgage, lease, equipment trust agreement, conditional sale agreement, or other instrument evidencing the mortgage, lease, conditional sale, or bailment of railroad rolling stock, as described in said section, and the rules and regulations prescribed in order of July 28, 1952:

It is ordered, That paragraph (d) of § 57.3 *Eligibility of documents*, be hereby amended to read as follows:

(d) The document is accompanied by the required recordation fee, which fee, (1) for each document of the type named in § 57.1 (a), shall be $50, and (2) for each document of the type named in § 57.1 (b) shall be $10, except that assignments which are executed prior to the filing of the original instrument and which are submitted concurrently for recordation as one document, shall be counted as one document. A lease and agreement (Philadelphia Plan) shall be counted as one document.

And it is further ordered, That notice of these regulations be given to the general public by posting copies in the office of the Secretary of the Interstate Commerce Commission, Washington, D. C., and by filing with the Director of the Federal Register.

(65 Stat. 290, 66 Stat. 724; 5 U. S. C. 140, 49 U. S. C. 20c)

By the Commission, Division 1.

[SEAL] W. P. BARTEL,
Secretary.

[F. R. Doc. 52-9191; Filed, Aug. 28, 1952; 8:47 a. m.]

TITLE 50—WILDLIFE

Chapter I—Fish and Wildlife Service, Department of the Interior

Subchapter B—Hunting and Possession of Wildlife

PART 6—MIGRATORY BIRDS AND CERTAIN GAME MAMMALS

MISCELLANEOUS AMENDMENTS

Basis and purposes. Section 3 of the Migratory Bird Treaty Act of July 3, 1918, as amended (40 Stat. 755, 16 U. S. C. 704) authorizes and directs the Secretary of the Interior, from time to time, having due regard for the zones of temperature and to the distribution, abundance, economic value, breeding habits, and times and lines of flight of migratory birds to determine when, to what extent, and by what means, such birds, or any part, nest or egg thereof, may be taken, captured, killed, possessed, sold, purchased, shipped, carried, or transported.

On April 8, 1952, the public was invited to participate in the preparation of these regulations by submitting their views, data, or arguments, in writing to Albert M. Day, Director, Fish and Wildlife Service, Washington 25, D. C., on or before July 7, 1952 (17 F. R. 3355). After due consideration of all relevant material submitted pursuant to the notice, and under authority of said statutory provision, the regulations under the Migratory Bird Treaty Act are amended as follows:

1. Section 6.3 (a) and (b) are amended to read as follows:

(a) Migratory game birds on which open seasons are specified in § 6.4 may be taken during such seasons only with bow and arrow or with a shotgun not larger than No. 10 gage, fired from the shoulder, except as permitted by §§ 6.5, 6.8, and 6.9, but they shall not be taken with or by means of any automatic-loading or hand-operated repeating shotgun capable of holding more than three shells, the magazine of which has not been cut off or plugged with a one-piece metal or wooden filler incapable of removal without disassembling the gun so as to reduce the capacity of the said gun to not more than three shells at one time in the magazine and chamber combined. Such birds may be taken during the open season with the aid of a dog and from land or water (including a blind, or a boat or other craft not under tow, but not including any boat or other craft having a motor attached or any sailboat unless such boat, craft or sailboat is fastened within or tied immediately alongside of any type of stationary hunting blind): *Provided*, That nothing in this section shall permit the taking of migratory game birds from or by means, aid, or use of any sinkbox (battery), motor-driven conveyance, motor vehicle, or aircraft of any kind, the taking of waterfowl by means, aid, or use of cattle, horses, mules, or live duck or goose decoys, the concentrating, driving, rallying, or stirring up of waterfowl and coots by means or aid of any motor-driven land, water, or air conveyance or sailboat: *Provided further*, That nothing in this section shall prohibit the picking up of injured or dead waterfowl, coot, rails, or gallinules by means of a motorboat, sailboat, or other craft.

(b) Waterfowl, coot, gallinules, doves, and pigeons may not be taken under any circumstances by the aid of salt, or shelled, shucked or unshucked corn, wheat or other grains, or other feed similarly used to lure, attract or entice such birds to, on, or over the area where hunters are attempting to take them. In addition, such birds may not be taken within one-half mile of any place where salt, or shelled, shucked or unshucked corn, wheat, or other grains, or other feed of similar use in attracting such birds is placed, exposed, deposited, distributed, scattered or present at any time during or within two weeks prior to the open season on such birds.

As used in this section the terms "salt, or shelled, shucked or unshucked corn, wheat or other grains", "other feed of similar use", or "other feed similarly used", shall not be construed as including properly shocked corn, standing crops (including aquatics), or grains found scattered solely as a result of normal agricultural harvesting. Nothing in this section shall be construed to apply to propagating, scientific, or other operations in accordance with the terms of permits issued pursuant to this part.

2. The schedules designated as subparagraphs (1), (2), (3), and (4) in § 6.4 (e) are amended as follows:

a. Subparagraph (1) *Atlantic Flyway States* is amended to prescribe seasons for rails and gallinules in Maine from October 1 to October 22 and from November 19 to December 10, and in New York from October 25 to December 18, and further by transferring footnote 4 relating to scoter, eider and old-squaw ducks to subparagraph (5) Atlantic Flyway States as footnote 4.

b. Subparagraph (2) *Mississippi Flyway States* is amended to prescribe seasons for rails and gallinules in Alabama from November 17 to January 10, in Michigan from October 1 to November 24, and in Wisconsin from October 4 to November 27 and also that on the first day of the season hunting of these birds in Wisconsin may not start before 1 p. m.

c. Subparagraph (3) *Central Flyway States* is amended to prescribe a season for rails and gallinules in New Mexico from October 14 to November 6 and from December 18 to January 10.

d. Subparagraph (4) *Pacific Flyway States* is amended by changing the mourning dove season in Arizona to read "September 1–October 12".

3. The schedules designated as subparagraphs (5), (6), (7), and (8) of § 6.4 (e) are amended to read as follows:

(5) *Atlantic Flyway States:*

	Migratory waterfowl and coot: Ducks	Geese (except snow geese)	Coot	Woodcock
Daily bag limits	[1] 4	[2] 3	10	4
Possession limits	[1] 8	[2] 3	10	8
Seasons in: [3]				
Connecticut [4]	Nov. 7–Dec. 31			Oct. 18–Nov. 17.
Delaware	Oct. 31–Dec. 21			Nov. 15–Dec. 14.
Florida	Nov. 17–Jan. 10			
Georgia	Nov. 17–Jan. 10			Dec. 23–Jan. 21.
Maine [4]	Oct. 1–Oct. 22 and Nov. 19–Dec. 10.			Oct. 1–Oct. 31.
Maryland	Nov. 17–Jan. 10			Nov. 15–Dec. 11.
Massachusetts [4, 5]	Nov. 7–Dec. 31			Oct. 20–Nov. 20.
New Hampshire [4]	Oct. 10–Dec. 3			Oct. 1–Oct. 31.
New Jersey	Nov. 7–Dec. 31			Oct. 18–Nov. 17.
New York [4, 6]	Oct. 25–Dec. 18			See footnote 6.
North Carolina	Nov. 17–Jan. 10			Dec. 12–Jan. 11.
Pennsylvania	Oct. 20–Dec. 13			Oct. 15–Nov. 14.
Rhode Island [4]	Nov. 12–Jan. 5			Nov. 1–Dec. 1.
South Carolina	Nov. 17–Jan. 10			Dec. 12–Jan. 11.
Vermont	Oct. 7–Nov. 30			Oct. 1–Oct. 31.
Virginia	Nov. 17–Jan. 10			Nov. 20–Dec. 19.
West Virginia	Nov. 3–Dec. 27			Oct. 18–Nov. 17.
Puerto Rico	Dec. 15–Feb. 12			
District of Columbia [7]	----------			

[1] Wood duck: No open season in West Virginia. In other States, bag or possession limit may include 1 wood duck only. Daily bag for American and red-breasted mergansers 25 singly or in the aggregate of both kinds; no possession limit after opening day of the season.

[2] Not more than 3 Canada geese or its subspecies, or 3 white-fronted geese, or a mixed bag to include not more than 3 in the aggregate of these species, and in addition 3 blue geese a day or in possession.

[3] Brant: In Connecticut, Massachusetts and New Jersey Nov. 7–Nov. 21; Delaware Oct. 31–Nov. 14; Georgia, Maryland, North Carolina, South Carolina, Virginia Nov. 17–Dec. 1; Maine Oct. 1–Oct. 15; New Hampshire Oct. 10–Oct. 24; New York Oct. 25–Nov. 8, Pennsylvania Oct. 20–Nov. 3; Rhode Island Nov. 12–Nov. 26; Vermont Oct. 7–Oct. 21; and West Virginia Nov. 3–Nov. 17, all dates inclusive. Daily bag and possession limit 3. No open season in Florida.

[4] Scoter, eider and old-squaw ducks may be taken in open coastal waters only, beyond outer harbor lines, in Maine, Massachusetts, New Hampshire and New York from Sept. 28–Dec. 31, inclusive, in Connecticut from Oct. 17–Dec. 31, inclusive, and in Rhode Island from Sept. 28–Jan. 5, inclusive. In areas other than those beyond outer harbor lines such birds may be taken during the open seasons for other ducks. In these States only, the daily bag limit is 7 scoter, eider or old-squaw ducks singly or in the aggregate, and not exceeding 14 in possession singly or in the aggregate.

[5] Only Canada geese or its subspecies may be taken in Massachusetts.

[6] New York: East and north of Oswego River from Lake Ontario to its junction with the Oneida River, Oneida River to Oneida Lake, north shore of Oneida Lake to Barge Canal, Barge Canal to Rome, the main line of New York Central R. R. from Rome to Albany, and main line of Boston & Albany R. R. from Albany to Massachusetts State line, Oct. 10–Nov. 4, inclusive; west and south of the above described boundary (except Long Island) Oct. 20–Nov. 14, inclusive; that part of New York known as Long Island, Oct. 23–Nov. 17, inclusive, from 9 a. m. until 5 p. m. on the opening day, and thereafter from 7 a. m. until 5 p. m. in each of these zones.

[7] No open season in District of Columbia but migratory game birds may be possessed therein in accordance with § 6.6 (c).

(6) *Mississippi Flyway States:*

	Migratory waterfowl and coot: Ducks	Geese	Coot	Woodcock
Daily bag limits	[1] 4	[2] 5	10	4
Possession limits	[1] 8	[3] 5	10	8
Seasons in:				
Alabama	Nov. 17–Jan. 10			Dec. 1–Dec. 30.
Arkansas	Nov. 17–Jan. 10			Dec. 1–Dec. 30.
Illinois	Oct. 20–Dec. 14 [3]			
Indiana	Oct. 20–Dec. 13			Oct. 20–Nov. 18.
Iowa	Oct. 8–Dec. 1			
Kentucky	Nov. 17–Jan. 10			
Louisiana	See footnote 4			Dec. 22–Jan. 20.
Michigan	Oct. 1–Nov. 21			See footnote 5.
Minnesota	Oct. 1–Nov. 21			Oct. 1–Oct. 30.
Mississippi	See footnote 6			Dec. 10–Jan. 8.
Missouri	Oct. 20–Dec. 13			Nov. 10–Dec. 9.
Ohio	Oct. 13–Dec. 6 [7]			Oct. 8–Nov. 6.
Tennessee	Nov. 17–Jan. 10			Oct. 1–Nov. 2.
Wisconsin [8]	Oct. 4–Nov. 27			

[1] Bag or possession limit may include 1 wood duck only. Daily bag for American and red-breasted mergansers 25 singly or in the aggregate of both kinds; no possession limit after opening day of the season.

[2] Including in such limit not more than (a) 2 Canada geese or its subspecies, or (b) 2 white-fronted geese, or (c) 1 Canada goose or its subspecies and 1 white-fronted goose.

[3] No open season for geese in that part of Alexander County, Ill., established as closed area by proclamation 2748 of Oct. 1, 1947 (12 F. R. 6521).

[4] Louisiana: Excluding lands and waters of the State of Louisiana lying easterly of the center line of the main navigable channel of the Mississippi River between the northerly boundary of Louisiana and latitude 31° North, but including any lands and waters of the State of Mississippi lying westerly of the aforesaid center line, Nov. 5–Dec. 29.

[5] Michigan. Woodcock in Zones 1 and 2 as defined by State law or orders or regulations of the Michigan Department of Conservation, Oct. 1–Oct. 31, and in Zone 3, Oct. 20–Nov. 7.

[6] Mississippi: Excluding lands and waters of the State of Mississippi lying westerly of the center line of the main navigable channel of the Mississippi River between the northerly boundary of Louisiana and latitude 31° North, but including any lands and waters of the State of Louisiana lying easterly of the aforesaid center line, Nov. 17–Jan. 10.

[7] Ducks, geese, coot on Pymatuning Reservoir in Ashtabula County, Ohio, and one-quarter mile distant in any direction from said reservoir, Oct. 20–Dec. 13.

[8] Wisconsin: On the first day of the season waterfowl coot and woodcock hunting may not start before 1 p. m.

(7) *Central Flyway States:*

	Migratory waterfowl and coot: Ducks	Geese	Coot
Daily bag limits	[1] 5	[2, 3] 5	10
Possession limits	[1] 10	[2, 3] 5	10
Seasons in:			
Colorado	Oct. 20–Dec. 18.[1]		
Kansas	Oct. 12–Dec. 10.		
Montana	Oct. 10–Dec. 8.[3]		
Nebraska	Oct. 11–Dec. 9.		
New Mexico [4]	Oct. 14–Nov. 6 and Dec. 18–Jan. 10.		
North Dakota	Oct. 1–Nov. 29.		
Oklahoma [5]	Oct. 18–Dec. 16.		
South Dakota	Oct. 3–Dec. 1.		
Texas [5, 6]	Oct. 31–Dec. 29.		
Wyoming	Oct. 17–Dec. 15.[1]		

[1] Wood duck: No open season in Colorado, Kansas, North Dakota, South Dakota, and Wyoming. In other States, bag or possession limit may include 1 wood duck only. Daily bag for American and red-breasted mergansers 25 singly or in the aggregate of both kinds; no possession limit after opening day of the season.

[2] Including in such limit not more than (a) 2 Canada geese or its subspecies, or (b) 2 white-fronted geese, or (c) 1 Canada goose or its subspecies and 1 white-fronted goose.

[3] No open season on snow geese in Beaverhead, Gallatin, and Madison Counties in Montana, or in Colorado and Wyoming. No open season in Colorado on blue geese.

[4] The bag and possession limit on geese in New Mexico is 3 which may include not more than 2 Canada geese or its subspecies, or 2 white-fronted geese, or 1 snow goose.

[5] Woodcock: Oklahoma, Dec. 1–Dec. 30; Texas, in the counties of Shelby, Nacogdoches, Angelina, Trinity, San Jacinto, Liberty, Chambers, and all counties south and east thereof, Dec. 22–Jan. 21; no open season in rest of Texas. Daily limit 4, possession limit 8.

[6] Texas: Black-bellied tree duck, no open season.

(8) *Pacific Flyway States:*

	Migratory waterfowl and coot: Ducks	Geese (except Ross's goose)	Brant	Coot
Daily bag limits	[1] 6	[2] 6	[3] 3	15
Possession limits	[1] 6	[2] 6	[3] 3	15
Seasons in:				
Arizona	Oct. 21–Jan. 1.			
California	Oct. 21–Jan. 1.			
Idaho	Oct. 11–Dec. 19.[4]			
Nevada	Oct. 17–Dec. 25.			
Oregon	Oct. 24–Jan. 1.			
Utah	Oct. 17–Dec. 25.			
Washington	Oct. 17–Dec. 25.			
Alaska [5]				

[1] In addition 2 widgeons or 2 pintails or 1 of each a day or in possession. Wood duck: No open season in Arizona, Nevada, and Utah. In other Pacific Flyway States, bag or possession limit may include 1 wood duck only. Daily bag for American and red-breasted mergansers, 25 singly or in the aggregate of both kinds; no possession limit after opening day of the season.

[2] Including in such limit not more than 2 birds of the dark species, as follows: the common Canada and subspecies, white-fronted, Tule, blue, and Emperor geese.

[3] Brant, daily bag and possession limit 3.

[4] Idaho: Snow geese, no open season. No open season on geese of any species in the following described area in Canyon County: Beginning at the junction of U. S. Highway 30 and State Highway 45, in the city of Nampa, thence westerly along U. S. Highway 30 to its junction with State Highway 20, thence westerly along State Highway 20 to its junction with the Lake Lowell-Marsing road, thence southerly along the Lake Lowell-Marsing road to the south end of the west embankment of Lake Lowell, thence along the oil surfaced road bearing easterly to its junction with State Highway 45, thence northerly along State Highway 45 to its junction with U. S. Highway 30, the point of beginning.

[5] See footnote 5 under schedule (4) Pacific Flyway States.

4. Section 6.6 (c) is amended to read as follows:

(c) *Possession.* (1) Within the maximum possession limits prescribed by § 6.4 migratory game birds lawfully taken within a State or transported or imported in accordance with the provisions of paragraphs (a) or (b) of this section, may be possessed in any State, District of Columbia, Alaska, or Puerto Rico during the open season where taken and for an additional 90 days next succeeding the said open season.

(2) Any migratory game birds held for picking, cleaning, storage, processing or shipment by any person, other than the person who killed such birds, shall have a tag attached indicating the total number and kinds, the date killed, and the name and address of the owner.

(3) For the purpose of the regulations in this part the ownership and possession of birds legally taken by any hunter shall be deemed to have ceased when such birds have been delivered by him to (i) a post office, (ii) a common carrier, or (iii) a locker, storage plant, or similar facility for transportation to some person other than the hunter or a member of the hunter's immediate houshold. As used in this section, "locker, storage plant, or similar facility" includes only those facilities as are engaged in the business of receiving and handling birds and keep and make available for inspection by any officer authorized to enforce these regulations at any reasonable time records showing the names and

addresses of both the consignors and the consignees of such birds.

(Sec. 3, 40 Stat. 755; 16 U. S. C. 704)

These amendments shall become effective on October 1, 1952.

Dated: August 26, 1952.

R. D. SEARLES,
Acting Secretary.

[F. R. Doc. 52-9506; Filed, Aug. 28, 1952; 8:51 a. m.]

Subchapter C—Management of Wildlife Conservation Areas

PART 31—PACIFIC REGION

SUBPART—HART MOUNTAIN NATIONAL ANTELOPE REFUGE, OREGON

HUNTING

Basis and purpose. On the basis of observations and reports of field investigations conducted by representatives of the Oregon State Game Commission and the Fish and Wildlife Service, it has been determined that the controlled public hunting of deer, by use of bow and arrow only, can be permitted on a portion of the Hart Mountain National Antelope Refuge, Oregon, without interfering with the primary purpose of the refuge.

Since the following regulation is a modification of existing restrictions, publication in the FEDERAL REGISTER prior to the effective date is not required (60 Stat. 237; 5 U. S. C. 1001, et seq.).

Effective immediately upon publication in the FEDERAL REGISTER, § 31.136 is revised to read as follows:

§ 31.136 *Limitation on hunting methods.* Deer hunting is permitted with bow and arrow only, in accordance with State regulations. The possession or use of firearms of any description on the refuge is prohibited.

(Sec. 10, 45 Stat. 1224; 16 U. S. C. 715i)

O. H. JOHNSON,
Acting Director.

[F. R. Doc. 52-9511; Filed, Aug. 28, 1952; 8:52 a. m.]

PART 31—PACIFIC REGION

SUBPART—RED ROCK LAKES NATIONAL WILDLIFE REFUGE, MONTANA

HUNTING OF MOOSE

Basis and purpose. On the basis of observations and reports of field representatives of the Fish and Wildlife Service and of the Montana Fish and Game Commission, it has been determined that there is a surplus of moose on and in the vicinity of the Red Rock Lakes National Wildlife Refuge, Montana, the removal of which, in keeping with wildlife management objectives, can best be accomplished by public hunting on a portion of the refuge.

Since the following regulations are relaxations of the existing regulations applicable to the Red Rock Lakes National Wildlife Refuge, publication prior to the effective date is not required (60 Stat. 237; 5 U. S. C. 1001, et seq.).

Effective on the date of publication of this document in the FEDERAL REGISTER, the following subpart is added:

Sec.
31.291 Moose hunting permitted.
31.292 Entry.
31.293 State hunting laws.
31.294 State cooperation.

AUTHORITY: §§ 31.291 to 31.294, are issued under sec. 10, 45 Stat. 1224; 16 U. S. C. 715i.

§ 31.291 *Moose hunting permitted.* Moose may be taken with firearms during the 1952 State season for the hunting of moose on the refuge lands lying south and east of Elk Springs Creek, Shambow Creek, and Shambow Pond in the following subdivisions:

Sections 5, 6, 7, 8, 17, 18, and 19, T. 14 S., R. 1 E., section 31, T. 13 S., R. 1 E., and sections 13, 14, 15, and 20 to 30, inclusive, T. 14 S., R. 1 W., M. P. M.,

subject to the provisions, conditions, and requirements of § 31.292 and § 31.293.

§ 31.292 *Entry.* Entry on and use of the refuge are governed by the regulations in Parts 18 and 21 of this chapter, and strict compliance therewith is required. Hunters must follow such routes of travel within the refuge as are designated by posting by the officer in charge. When entering or leaving the public hunting area, hunters must report at such checking stations as may be established for the purpose of regulating the hunt.

§ 31.293 *State hunting laws.* Strict compliance with all State laws and regulations is required, and any person who hunts on the refuge must have in his possession and exhibit at the request of any authorized Federal or State officer a valid State hunting license for the taking of moose, if such is required by the State laws and regulations, which license shall serve as a Federal permit for the hunting of moose on the refuge.

§ 31.294 *State cooperation.* State cooperation may be enlisted in the regulation, management, and operation of the public hunting area, and the State may promulgate such special regulations as may be necessary for such regulation, management, and operation. In the event that such State regulations are issued, compliance therewith shall be a requisite to the lawful entry for the purpose of hunting. The officer in charge of the refuge may suspend hunting privileges upon the taking of the maximum number of moose determined to be surplus by mutual agreement with the Montana Fish and Game Commission.

Dated: August 25, 1952.

O. H. JOHNSON,
Acting Director.

[F. R. Doc. 52-9510; Filed, Aug. 28, 1952; 8:52 a. m.]

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Commodity Exchange Authority

[17 CFR Part 1]

GENERAL REGULATIONS UNDER COMMODITY EXCHANGE ACT

EXECUTION OF TRANSACTIONS

Pursuant to section 4 of the Administrative Procedure Act (60 Stat. 238; 5 U. S. C. 1003), notice is hereby given that the Secretary of Agriculture, under authority contained in section 8a (5) of the Commodity Exchange Act (7 U. S. C. 12a (5)), is considering the amendment of § 1.38 of the regulations under the Commodity Exchange Act (17 CFR 1.38), to read as follows:

§ 1.38 *Execution of transactions*—(a) *Competitive execution required; exceptions.* All purchases and sales of any commodity for future delivery on or subject to the rules of a contract market shall be executed openly and competitively as to price, by open outcry or posting of bids and offers or by other equally open and competitive methods, in the trading pit or ring or similar place provided by the contract market, during the regular hours prescribed by the contract market for trading in such commodity: *Provided, however,* That this requirement shall not apply to such transactions as are executed in accordance with written rules of the contract market which have been submitted to and not disapproved by the Secretary of Agriculture, specifically providing for the noncompetitive execution of such transactions.

(b) *"Transfer" or "office trades"; exchange of futures; requirements.* Every person handling, executing, clearing, or carrying trades or contracts which are not competitively executed, including transfer trades or office trades, or trades involving the exchange of futures for cash commodities or the exchange of futures in connection with cash commodity transactions, shall identify and mark by appropriate symbol or designation all such transactions or contracts and all orders, records, and memoranda pertaining thereto.

All persons who desire to submit written data, views, or arguments for consideration in connection with the proposed amendment should file the same with the Administrator, Commodity Exchange Authority, United States Department of Agriculture, Washington 25, D. C., not later than the 30th day after

the publication of this notice in the FEDERAL REGISTER.

Issued this 26th day of August 1952.

[SEAL] C. J. McCORMICK,
Acting Secretary of Agriculture.

[F. R. Doc. 52-9498; Filed, Aug. 28, 1952; 8:49 a. m.]

Production and Marketing Administration

[7 CFR Part 991]

[Docket No. AO-194-A5]

HANDLING OF MILK IN ROCKFORD-FREEPORT, ILLINOIS, MARKETING AREA

NOTICE OF CORRECTION OF DECISION

Notice is hereby given that the order, as amended, regulating the handling of milk in the Rockford-Freeport, Illinois, marketing area annexed to the decision of the Secretary with respect to a proposed marketing agreement and a proposed order amending the order, as amended, issued August 19, 1952, and filed with the FEDERAL REGISTER August 22, 1952, (F. R. Doc. 52-9291) is hereby corrected as follows:

1. Delete § 991.71 (f) (2) and substitute therefor the following:

(2) Subtract from such result the amount per hundredweight (subtrahend) subtracted pursuant to paragraph (e) of this section and add an amount computed as follows: Divide the amount of the cash balance as set forth in paragraph (c) of this section by the total quantity of producer milk.

2. In § 991.71 (f) (4) delete the figure "(2)" and substitute therefor the figure "(3)".

3. In § 991.71 (f) (5) delete the cross reference "paragraph (e) of this section" and substitute therefor the cross reference "paragraph (d) of this section".

4. Delete § 991.71 (f) (6) and substitute therefor the following:

(6) Adjust such sum to the full cent by subtracting not less than 4 cents but less than 5 cents.

5. Delete § 991.71 (g) (1) and substitute therefor the following:

(1) Multiply the hundredweight of producer milk for Rockford handlers by the per hundredweight figure computed for such handlers as provided in paragraph (f) (5) of this section.

6. Delete § 991.71 (g) (2) and substitute therefor the following:

(2) Subtract such amount from the sum computed in paragraph (c) of this section.

7. Delete § 991.71 (g) (3), (4), (5) and substitute therefor the following:

(3) Divide such net amount by the hundredweight of producer milk for Freeport handlers; and

(4) Adjust such sum to the full cent by subtracting not less than 4 cents but less than 5 cents.

Done at Washington, D. C., this 26th day of August 1952.

[SEAL] C. J. McCORMICK,
Acting Secretary of Agriculture.

[F. R. Doc. 52-9515; Filed, Aug. 28, 1952; 8:53 a. m.]

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 8]

[Docket No. 10209]

STATIONS ON SHIPBOARD IN MARITIME SERVICES

FURTHER NOTICE OF PROPOSED RULE MAKING

In the matter of amendment of Part 8 of the Commission's rules regarding the assignment of calling frequencies to ship stations using telegraphy in the bands between 4,000 and 23,000 kc and amendment of Part 8 of the Commission's rules to provide a plan of assignment of all assignable ship telegraph frequencies between 2,000 and 23,000 kc and ship telephone frequencies between 4,000 and 23,000 kc.; Docket No. 10209.

1. The proposal set forth under Docket Number 10209 sought to implement one phase of the Atlantic City Radio Regulations (1947) and Extraordinary Administrative Radio Conference (Geneva, 1951) by an assignment scheme for ship high frequency calling frequencies based upon call sign blocks. This further notice of proposed rule making proposes an alternative scheme of assignment and covers not only ship telegraph calling frequencies between 4,000 and 23,000 kc but all assignable ship telegraph frequencies between 2,000 and 23,000 kc as well as assignable ship telephone frequencies between 4,000 and 23,000 kc.

2. The frequency table in the Appendix set forth below presents a comprehensive and detailed listing of all assignable ship telegraph frequencies between 2,000 kc and 23,000 kc in the form of frequency columns identified by symbol number. The table also presents the same information with respect to ship telephone between 4,000 kc and 23,000 kc, the entire set of assignable frequencies being identified by the symbol R1.

3. As an alternative to the call sign block assignment scheme for ships using telegraphy, as proposed in Docket 10209, the Commission is considering the feasibility of allocating particular columns of frequencies to specific licensees, the number of columns allocated to any given licensee to be proportional to the number of ships served by that licensee. Under this plan, frequency columns would be assigned in rotation (as required by the Atlantic City Radio Regulations) but only as to those frequency columns set aside for the particular licensee. The result is expected to be the same as if direct rotation of frequency asignments had been made.

4. It is believed that a company-by-company assignment plan of the type herein proposed would possess a decided advantage, from the licensee's viewpoint, over any other plan, for the reason that each licensee would be able to predict with a reasonable degree of certainty which column or columns were to be next assigned, thus limiting the number of crystals to be stocked by any particular licensee, with the added advantage that equipment could be installed and tested on dummy antennas prior to receipt of the license.

5. Table 1 in the attached Appendix, which is based in part upon Appendix 10 of the Atlantic City Radio Regulations, indicates the calling and working frequencies in each band available to passenger and cargo ships. With the exception of the 22 mc band frequencies and one-half of the 2 mc band, frequencies are columnized in harmonic relationship, and each column is identified by a symbol to be used in applying for and licensing those series of frequencies. Each vessel must be assigned one series of calling frequencies; passenger ships must be assigned two or more series of working frequencies, the total number of series depending upon the anticipated traffic volume. If equipment is authorized for use on a passenger ship or aircraft which does not comply with the 0.02 percent frequency tolerance requirement, the only series of working frequencies which may be assigned are those headed P14 and P15. The same series would also be used for passenger ships if emission is proposed which cannot be contained within the channels indicated in other frequency columns. Cargo ships are assigned one series of working frequencies containing two frequencies in each band except the 2 mc band, where only one frequency is provided.

6. Table 2 in the attached Appendix shows the number of radio-telegraph equipped vessels licensed to the several steamship and communications companies, and contains an allocation of frequency column symbols to the companies proportional to the number of cargo or passenger vessels licensed. The Commission will from time to time review the number of ships served by the several licensees to determine whether more or less column symbols should be assigned to particular licensees.

7. Table 3 in the attached Appendix is a list of radiotelephone frequencies between 4,000 and 23,000 kc available for assignment to ships for communication with United States coast stations. The frequencies to be used for communication with foreign coastal telephone stations may be determined through consultation with the International Telecommunication Union "List of Coast and Ship Stations" (see also § 8.357). The entire family of frequencies is identified by a single symbol to be used in applying for and licensing ship radiotelephone transmitters. It does not include the radiotelephone frequencies below 4,000 kc or above 30 mc.

8. The proposals herein contained are issued under authority of sections 305 (c), (f), and (r) of the Communications Act of 1934, as amended.

9. Any interested person may file with the Commission, on or before September 30, 1952, a written statement or brief in support of, or in opposition to, the proposed amendment. Comments or briefs in reply to the original comments or briefs may be filed within 10 days from the last day for filing the described original comments or briefs. The Commission will consider all comments, briefs, and statements before taking final action.

10. In accordance with § 1.784 of the Commission's rules relating to practice and procedure, an original and 14 copies of all statements, briefs, or comments must be furnished to the Commission.

Adopted: August 13, 1952.

Released: August 14, 1952.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

Amend Part 8, rules governing Stations on Shipboard in the Maritime Services, to add Appendix III:

APPENDIX III—TABLES OF SHIP RADIOTELEGRAPH FREQUENCIES FROM 2,000 KC TO 23,000 KC AND SHIP RADIOTELEPHONE FREQUENCIES FROM 4,000 KC TO 23,000 KC

The following procedures and tables may be used in applying for license for the frequencies listed in tables 1 and 3 only insofar as the frequencies listed therein are consistent with the implementation and the effective dates of the Geneva Agreement (1951) and the other provisions of the Commission's rules which make frequencies available for assignment to Ship stations. Frequencies licensed by specific frequency column symbols may only be used in the manner and to the extent authorized by other provisions of this part.

Radiotelegraph, 2,000 kc to 23,000 kc. The applicant must consult table 2, below to find out which frequency column symbols have been allocated for ships licensed to him. The frequencies designated by the symbols shown in table 2 may be determined from table 1, which lists all of the frequencies in each series, designated by a frequency column symbol.

Calling frequencies. Application may be made for one calling frequency column symbol from the "C" series, which represents one frequency in each of the 2, 4, 6, 8, 12, 16, and 22 mc bands, for each ship. If more than one symbol of the "C" series is allocated for a particular licensee, application for the first vessel must be for the first sym-

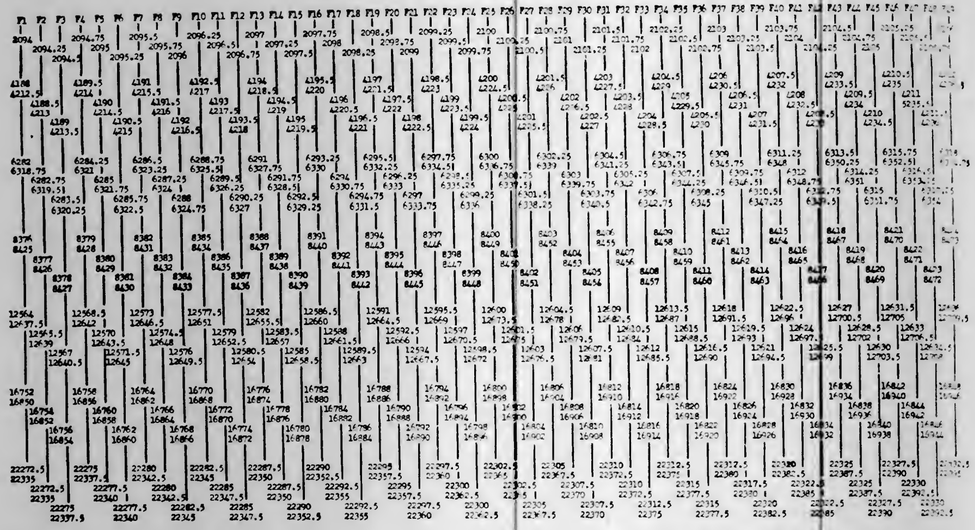
[1] 2091 kc. is available to ships operating in ITU Region II only.

[2] These frequencies are available only to public service aircraft lifeboats and other survival craft. The frequency 8364 kc. is additionally available to all aircraft desiring to establish communication with stations in the maritime mobile service.

[3] Lifeboats and survival craft equipped for high frequency operation must be capable of operating on this frequency.

TABLE 1-c—CARGO SHIP WORKING FREQUENCIES



bol, the second symbol for the second vessel, etc., until the allocated symbols are exhausted. The procedure is then repeated, beginning again with the first symbol.

Cargo ship working frequencies. Application may be made for one cargo working frequency column symbol, from the "F" series, for each cargo ship, which will include one frequency from the 2 mc and two frequencies each from the 4, 6, 8, 12, 16, and 22 mc bands. If more than one symbol of the "F" series is allocated for a particular licensee, the frequency symbols must be applied for in rotation for successive vessels as for calling frequencies.

Passenger ship working frequencies. Application may be made for the number of passenger ship working frequencies which, in the best judgment of the applicant, will be essential for the traffic volume of the particular vessel. The frequency column symbols shall be taken from the "P" series, with a minimum of two symbols. If more than two symbols of the "P" series are allocated for a particular licensee, the frequency symbols must be applied for in rotation for successive vessels as for calling frequencies, except that the first symbol for each vessel must be the one after the last of the series of two or more symbols of the previous vessel.

Wide band transmissions. When authorization for passenger ship radiotelegraph station using emissions broader than 0.16A1 on these frequencies is desired, application may only be made for working frequency column symbols P14 and/or P15, without regard to Table 2, for such wide band transmissions. This shall be in addition to application for normal band width emissions, which are applied for as provided above. Insofar as is possible, application for successive vessels of the same applicant must alternate in the selection of the two symbols.

High frequency (long distance) radiotelephone. Application for all frequencies contained in Table 3 may be made for vessels capable of radiotelephone transmissions on any of these frequencies by designating the frequency column symbol "R1" in the application.

TABLE 2—HIGH RADIOTELEGRAPH FREQUENCIES FOR SHIP STATION APPLICANTS

[For columns of frequencies designated by these symbols, see table 1, above]

	Number passenger ships	Number cargo ships	Calling frequency column symbols	Passenger ship working frequency column symbols	Cargo ship working frequency column symbols
Radiomarine Corp. of America	32	919	C1, C3, C5,[1] C7, C9.	P1, P3, P7, P11, P13.	F1, F4, F5, F7, F9, F11, F14, F15, F17, F19, F21, F23, F25, F27, F29, F31, F33, F35, F37, F39, F41, F43, F45, F47, F49.
Mackay Radio & Telegraph Co., Inc.	21	618	C2, C4, C5,[1] C6.	P2, P4, P8, P10.	F2, F6, F8, F10, F14, F18, F22, F24, F28, F32, F34, F36, F40, F42, F48.
Tropical Radio Telegraph Co.	10	24	C5,[1] C8	P6, P12	F4.
Matson Navigation Co.	3	23	C5,[1] C8	P6, P12	F12.

A–C			C5,[1] C8	P5, P9	F22.
D–L			C5,[1] C8	P5, P9	F26.
M			C5,[1] C8	P5, P9	F30.
N–R			C5,[1] C8	P5, P9	F38.
S			C5,[1] C8	P5, P9	F44.
T–Z			C5,[1] C8	P5, P9	F46.

[1] See footnotes 1, 2, and 3 in Table 1b, "Ship Radiotelegraph Calling Frequencies", above.

[2] Applicants other than the above listed companies must apply for the frequency column symbols shown, on alphabetic groups according to the first letter of their name. As an example, if the applicant's name begins with A, B, or C, he may apply only for frequency column symbols C5, P5, and P9, for a passenger ship, or C8 and F22 for a cargo ship. (Frequency symbol C5 may also be requested if lifeboats or other survival craft are radio equipped.) For this purpose, the alphabetic group of first letters of the name will be selected by using the first word of a trade name omitting "The"; the last name of a personal name; or the last name of the first person appearing in a series of personal names. As examples, the following names would all apply for the third, or "M" group: C5, P5 and P9, or F30: Marine Communications, Inc.; A. B. Miller & Co.; C. D. Munsey; E. F. Murphy, Alfred Abrams, et al.

DEPARTMENT OF COMMERCE

Civil Aeronautics Administration

[Amdt. 8]

ORGANIZATION AND FUNCTIONS

PRINCIPAL OFFICERS

In accordance with the public information requirements of the Administrative Procedure Act, the description of the Organization and Functions of the Civil Aeronautics Administration (16 F. R. 2975) is hereby amended.

1. Section 12 is amended to read:

SEC. 12. *Principal officers.* The duties and responsibilities of the principal officers in the Office of the Administrator are as follows:

(a) *The Administrator.* (1) Determines the policies of the Civil Aeronautics Administration.

(2) Directs the development and execution of its programs.

(b) *Deputy Administrator.* (1) Acts for the Administrator, as authorized, in planning, directing, coordinating, and controlling the programs, policies, and operations of the Civil Aeronautics Administration and in supervising all Washington Offices and field organizations.

(2) Acts as Administrator during the absence of the Administrator from duty at his official headquarters.

(c) *Assistant Administrator for Administration.* (1) Acts as principal assistant to the Administrator and Deputy Administrator in the planning, coordination, and evaluation of the budgetary and personnel management, organization planning, general administrative services, and defense production activities of the Civil Aeronautics Administration.

(2) Acts as the Administrator during the simultaneous absence of the Administrator and Deputy Administrator from duty at their official headquarters.

(d) *Assistant Administrator for Program Coordination.* (1) Acts as the principal assistant to the Administrator and the Deputy Administrator in the planning, coordination, and evaluation of Civil Aeronautics Administration program operations.

(2) Plans, directs, and coordinates the program planning and evaluation activities of the Office of the Administrator.

(3) Acts as Administrator during the simultaneous absence of the Administrator, Deputy Administrator, and Assistant Administrator for Administration from duty at their official headquarters.

This amendment shall become effective August 22, 1952.

[SEAL] C. F. HORNE,
Administrator of Civil Aeronautics.

Approved:

CHARLES SAWYER,
Secretary of Commerce.

Federal Maritime Board

MITSUI STEAMSHIP CO., LTD. ET AL.

NOTICE OF AGREEMENTS FILED FOR APPROVAL

Notice is hereby given that the following described agreements have been filed with the Board for approval pursuant to section 15 of the Shipping Act, 1916, as amended.

1. Agreement No. 7837 between Mitsui Steamship Co., Ltd. and United Fruit Company, covers the transportation of cargo under through bills of lading from designated areas in the Far East to New York or New Orleans, with transshipment at Cristobal, Canal Zone.

2. Agreement No. 7845 between the Port of New York Authority and Pittston

Stevedoring Corp., provides for the leasing of certain land at the Port Authority Grain Terminal, Gowanus Bay, Brooklyn, N. Y. to Pittston Stevedoring Corp., for the purpose of making available at the terminal a public open-storage area for the storage, handling and ancillary services in connection with lumber and general cargo transported by water, including New York State Barge Canal. The lessee agrees to observe the present and future rates and charges of the lessor which may be amended without the consent of the lessee. The agreement does not prevent the lessor from licensing others to perform similar services at the grain terminal.

Interested parties may inspect these agreements and obtain copies thereof at the Regulation Office, Federal Maritime Board, Washington, D. C., and may submit, within 20 days after publication of this notice in the FEDERAL REGISTER, written statements with reference to either of the agreements and their position as to approval, disapproval, or modification, together with request for hearing should such hearing be desired.

Dated: August 25, 1952.

By order of the Federal Maritime Board.

[SEAL] A. J. WILLIAMS,
Secretary.

Office of the Secretary

ORGANIZATION AND FUNCTIONS

SUBSTITUTION OF TERM: GENERAL COUNSEL FOR SOLICITOR

1. Public Law 584, 82d Congress, designates the Solicitor of the Department as the General Counsel. Accordingly, the material appearing at 16 F. R. 8189 is amended by substituting "General Counsel" for "Solicitor" wherever that term appears. Moreover, any other departmental orders and other official internal documents and papers of the Department of Commerce relating or referring to the Solicitor of the Department of Commerce shall be deemed to relate or refer to the General Counsel of the Department of Commerce. This paragraph is effective July 17, 1952.

2. In accordance with the provisions of Public Law 553, 82d Congress, any departmental orders and other official documents and papers of the Department of Commerce relating or referring to the Chief Clerk or the Chief Clerk and Superintendent of the Department of Commerce shall be deemed to relate or refer to the Administrative Officer of the Department of Commerce. The Director of the Office of Administrative Services is hereby authorized, pursuant to the authority contained in Reorganization Plan No. 5 of 1950, to sign as Administrative Officer of the Department those official documents and papers heretofore signed by the Chief Clerk and Superintendent under the authority contained in the act of June 28, 1944 and listed below:

Certifications to the Public Printer of the necessity for illustrations.

Certifications that persons signing official documents were at such time employees of the Department of Commerce and that full faith and credit should be given their certificates as such.

Endorsements of checks received in payment of services and publications of the Department when drawn other than to the Treasurer of the United States.

Certifications as to the official nature of copies of correspondence and records from files, publications and other documents requiring affixation of the official seal of the Department.

This paragraph is effective July 16, 1952.

[SEAL] CHARLES SAWYER,
Secretary of Commerce.

FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 10206]

FORT MEADE TAXI SERVICE

MEMORANDUM OPINION AND ORDER DESIGNATING MATTER FOR HEARING ON STATED ISSUES

In the matter of revocation of license of Taxicab, Radio Station KGA-444; W. W. Robinson, d/b as Fort Meade Taxi Service, Fort Meade, Maryland; Docket No. 10206.

1. The Commission has had under consideration a letter from W. W. Robinson, licensee of the above-designated station, requesting us to reconsider the revocation order which was issued in this proceeding on June 2, 1952, revoking the license of Station KGA-444. This order was adopted because of certain violations of the Commission's rules, including repeated failures to reply to official correspondence and a violation of the Communications Act which consisted in the operation of three (3) unlicensed mobile transmitters.

2. In his letter, Robinson attributes these violations and failures to respond to official correspondence to the fact that at the time they had taken place he was pre-occupied with business affairs which then demanded his full time and attention. He assures the Commission that the incidents which gave rise to the issuance of the revocation order would not recur in the future and states that he has discontinued the use of the three (3) unlicensed mobile transmitters and would not resume their operation until they are properly authorized. To this end, he filed an application (File No. 171-G4-P/ML-H) for modification of his license.

3. An investigation made subsequent to the receipt of the above-mentioned letter revealed that, in fact, the operation of the three (3) unlicensed transmitters has not been discontinued. These transmitters were observed to be in use in Cabs 2, 5 and 8 on July 22, 1952. Also, the Commission's inspector discovered that the dispatcher on duty at the base station did not have an operator license which would authorize him to operate the station, and that certain transmitters in cabs had no identification cards.

4. In the light of the foregoing, we are compelled to conclude that the licensee of Station KGA-444 appears to have deliberately chosen to disregard the law and to ignore his obligations as a licensee of a radio station and that, therefore, his request for reconsideration must be denied.

5. *Accordingly, it is ordered,* That the request of W. W. Robinson for consideration of the revocation order is denied; and

6. *It is further ordered,* That this matter is designated for hearing [1] to be held in Washington, D. C., at 10:00 a. m., on the 20th day of October, 1952, upon the following issues:

(a) To determine whether the licensee committed the violations of the Commission's rules and the Communications Act alleged in the Commission's order of revocation, dated June 2, 1952, as well as those set forth in paragraph 3 hereof; and

(b) If the licensee committed all or a portion of such violations, to determine whether on the basis of the facts or circumstances in connection therewith the Commission's order of revocation should be affirmed.

7. *It is further ordered,* That no action shall be taken on the application, which the licensee filed for modification of his license, File No. 171-G4-P/ML-H, pending the conclusion of the revocation proceeding; and

8. *It is further ordered,* That the licensee shall within fifteen (15) days from the date of his receipt of this opinion and order file written appearance indicating his intention to appear and participate in the hearing herein ordered,

Adopted: August 20, 1952.

Released: August 22, 1952.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

[F. R. Doc. 52-9513; Filed, Aug. 28, 1952; 8:52 a. m.]

[1] For this purpose, we consider the licensee's letter to be a request for hearing as an alternative to the reconsideration request.

[Docket No. 10230]

ARCTIC TELEPHONE & TELEGRAPH CO.

ORDER CONTINUING HEARING

In the matter of Arctic Telephone & Telegraph Company, application for modification of construction permit to change location of a fixed public point-to-point telephone station from Fourth of July Creek, Alaska, to Anchorage, Alaska, to add frequencies and to increase the maximum power; Docket No. 10230, File No. 11330-F4-MP-D.

It appearing, that the Commission's order of July 10, 1952, designating this matter for hearing set the time and place thereof as the 26th day of August 1952 in Washington, D. C.; and

It further appearing, that the Commission thereafter, by letter of July 23, 1952, afforded the applicant an extension of time within which to file an appearance herein and an opportunity to request a change of the place of hearing to Seattle, Washington or Portland, Oregon; and

It further appearing, that such appearance and request have not yet been filed and the time within which to make such filing may not expire prior to August 26;

It is ordered, This 19th day of August 1952, that the date of hearing is adjourned from August 26, 1952, to September 30, 1952, subject to such further order herein as may be appropriate if, and when, the applicant files the appearance and request referred to above.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

FEDERAL POWER COMMISSION

[Docket No. G-1391]

NEW YORK STATE NATURAL GAS CORP., AND TEXAS EASTERN TRANSMISSION CORP.

ORDER FIXING DATE OF HEARING

AUGUST 19, 1952.

On June 20, New York State Natural Gas Corporation (New York State Natural), a New York corporation having its principal place of business at New York, New York, and Texas Eastern Transmission Corporation (Texas Eastern), a Delaware corporation having its principal place of business at Shreveport, Louisiana (hereinafter sometimes referred to as "Applicants", filed a joint application supplementing the original application herein and Petition for Modification of the Commission's order of October 31, 1950, issuing a certificate of pubic convenience and necessity to said Applicants. Applicant's request modification of the Commission's order to permit drilling, plugging, and reconditioning of gas wells, not heretofore authorized, in order to insure the safe and efficient operation of the Oakford Storage Pool in Westmoreland County, Pennsylvania, all as more fully described in said supplement and petition on file with the Commission and open to public inspection.

The Commission finds: This proceeding is a proper one for disposition under the provisions of § 1.32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure, Applicants having requested that their joint supplement and petition be heard under the shortened procedure provided by the aforesaid rule for noncontested proceedings, and no request to be heard, protest or petition having been filed subsequent to the giving of due notice of the filing of the supplement and petition, including publication in the FEDERAL REGISTER on August 22, 1952 (17 F. R. 7708).

The Commission orders:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, a hearing be held on September 12, 1952, at 9:45 a. m., in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue NW., Washington, D. C., concerning the matters involved and the issues presented by such supplement and petition: *Provided, however,* That the Commission may, after a noncontested hearing, forthwith dispose of the proceeding pursuant to the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

(B) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the said rules of practice and procedure.

Date of issuance: August 25, 1952.

By the Commission.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

[F. R. Doc. 52-9495; Filed, Aug. 28, 1952; 8:48 a. m.]

[Docket No. G-2033]

CINCINNATI GAS & ELECTRIC CO.

ORDER SUSPENDING PROPOSED TARIFF SHEETS

AUGUST 21, 1952.

On July 28, 1952, Cincinnati Gas & Electric Company (Cincinnati), filed with the Commission Second Revised Sheet No. 4, Original Sheet No. 4A, First Revised Sheet No. 10, Second Revised Sheets Nos. 11 and 12, and Original Sheet No. 12A to its FPC Gas Tariff, Original Volume No. 1.

By the rate filing, Cincinnati proposes to increase the rates and charges to its only wholesale customer, the City of Hamilton, Ohio, by an amount of about $89,000 for the sales estimated for the year ending May 31, 1953. Cincinnati avers that the rate increase application is necessitated principally by the impact upon its purchased gas cost of increased rates filed by Cincinnati's suppliers, Ohio Fuel Gas Company and Central Kentucky Natural Gas Company. Such higher rates of Ohio Fuel Gas Company are, in part, not yet effective, having been suspended by the Commission and in part in effect under bond, subject to refund; and the rates of Central Kentucky Gas Company are presently in effect under bond, subject to refund.

The increased rates and charges provided in said sheets have not been shown to be justified and may be unjust, unreasonable, unduly discriminatory or preferential, or otherwise unlawful. The City of Hamilton has requested that the Commission determine the reasonableness of Cincinnati's rates.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing, pursuant to the authority contained in section 4 of such act, concerning the lawfulness of Cincinnati's proposed Second Revised Sheet No.4, Original Sheet No. 4A, First Revised Sheet No. 10, Second Revised Sheets Nos. 11 and 12, and Original Sheet No. 12A to its FPC Gas Tariff, Original Volume No. 1, and that said sheets be suspended as hereinafter provided and the use thereof be deferred pending hearing and decision thereon.

The Commission orders:

(A) Pursuant to the authority contained in Sections 4 and 15 of the Natural Gas Act, a public hearing be held upon a date to be fixed by further order of the Commission concerning the lawfulness of rates, charges, and classifications contained in Cincinnati's Second Revised Sheet No. 4, Original Sheet No. 4A, First Revised Sheet No. 10, Second Revised Sheets Nos. 11 and 12, and Original Sheet No. 12A to its FPC Gas Tariff, Original Volume No. 1.

(B) Pending such hearing and decision thereon, Cincinnati's Second Revised Sheet No. 4, Original Sheet No. 4A, First Revised Sheet No. 10, Second Revised Sheets Nos. 11 and 12, and Original Sheet No. 12A to its FPC Gas Tariff, Original Volume No. 1 be and the same are hereby suspended and the use thereof deferred until January 27, 1953, and until such further time as they may be made effective in the manner prescribed by the Natural Gas Act.

(C) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure.

Date of issuance: August 25, 1952.

By the Commission.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

FEDERAL TRADE COMMISSION

[File No. 173]

PROPER USE OF WORD MAHOGANY IN DESIGNATIONS OF WOOD AND WOOD PRODUCTS

NOTICE OF FURTHER HEARING AND OF OPPORTUNITY FOR PRESENTATION OF ORAL AND WRITTEN VIEWS, DATA, AND SUGGESTIONS

Notice is hereby given and opportunity extended by the Federal Trade Commission to all persons, partnerships, corporations, associations, including consumers, manufacturers, distributors, importers, dealers, officials of State and Federal agencies, foresters, botanists, and all other persons and organizations in any way interested in the subject of the proper use of the word "mahogany," with or without qualifications, as descriptive of wood or wood products marketed in the United States, to appear and take part in further public hearing on this subject and to present orally or in writing such pertinent views, data, information and suggestions as they may desire. Such further hearing will be held on September 16, 1952, beginning at 10 a. m., d. s. t., in Room 332, Federal Trade Commission Building, Sixth and Pennsylvania Avenue NW., Washington, D. C.

The written presentation of views, data, information and suggestions may be made by letter, memorandum or other written communication addressed to and filed with the Federal Trade Commission, Washington 25, D. C., on or before September 16, 1952.

Issued: August 26, 1952.

By the Commission.

OFFICE OF DEFENSE MOBILIZATION

[RC 55]

HARTFORD, CONNECTICUT AREA

DETERMINATION AND CERTIFICATION OF CRITICAL DEFENSE HOUSING AREA

AUGUST 27, 1952.

Upon specific data which has been prescribed by and presented to the Secretary of Defense and the Director of Defense Mobilization and on the basis of other information available in the discharge of their official duties, the undersigned find that the conditions required by section 204 (1) of the Housing and Rent Act of 1947, as amended, exist in the area designated as

Hartford, Connecticut, area. (The area consists of the towns of Avon, Bloomfield, Canton, East Granby, East Hartford, Farmington, Glastonbury, Granby, Hartford, Manchester, Newington, Rocky Hill, Simsbury, South Windsor, West Hartford, Wethersfield, Windsor and Windsor Locks in Hartford County; and the town of Bolton in Tolland County; all in Connecticut.)

This supersedes certification under Docket No. 205 dated October 19, 1951.

Therefore, pursuant to section 204 (1) of the Housing and Rent Act of 1947, as amended, and Executive Order 10276 of July 31, 1951, the undersigned jointly determine and certify that the aforementioned area is a critical defense housing area.

ROBERT A. LOVETT, *Secretary of Defense.*
JOHN R. STEELMAN, *Acting Director of Defense Mobilization.*

[F. R. Doc. 52-9547; Filed, Aug. 27, 1952; 2:43 p. m.]

[RC 57]

WAVERLY-CAMDEN, TENNESSEE, AREA

DETERMINATION AND CERTIFICATION OF CRITICAL DEFENSE HOUSING AREA

AUGUST 27, 1952.

Upon specific data which has been prescribed by and presented to the Secretary of Defense and the Director of Defense Mobilization and on the basis of other information available in the discharge of their official duties, the undersigned find that the conditions required by section 204 (1) of the Housing and Rent Act of 1947, as amended, exist in the area designated as

Waverly-Camden, Tennessee, Area. (The area consists of Benton and Humphreys Counties, Tennessee.)

Therefore, pursuant to section 204 (1) of the Housing and Rent Act of 1947, as amended, and Executive Order 10276 of July 31, 1951, the undersigned jointly determine and certify that the aforementioned area is a critical defense housing area.

ROBERT A. LOVETT, *Secretary of Defense.*
JOHN R. STEELMAN, *Acting Director of Defense Mobilization.*

[RC 58]

BARSTOW, CALIFORNIA, AREA

DETERMINATION AND CERTIFICATION OF CRITICAL DEFENSE HOUSING AREA

AUGUST 27, 1952.

Upon specific data which has been prescribed by and presented to the Secretary of Defense and the Director of Defense Mobilization and on the basis of other information available in the discharge of their official duties, the undersigned find that the conditions required by section 204 (1) of the Housing and Rent Act of 1947, as amended, exist in the area designated as

Barstow, California, Area. (The area consists of Barstow and Yermo Townships, and that part of Belleville Township bounded on the east by the eastern limit of Range 5 East; on the south by the southern limit of Township 8 North; and on the west and north by the Belleville Township line; all in California.)

This supersedes certification under Docket No. 94 dated March 4, 1952.

Therefore, pursuant to section 204 (1) of the Housing and Rent Act of 1947, as amended, and Executive Order 10276 of July 31, 1951, the undersigned jointly determine and certify that the aforementioned area is a critical defense housing area.

ROBERT A. LOVETT, *Secretary of Defense.*
JOHN R. STEELMAN, *Acting Director of Defense Mobilization.*

[CDHA 70]

FINDING AND DETERMINATION OF CRITICAL DEFENSE HOUSING AREAS UNDER DEFENSE HOUSING AND COMMUNITY FACILITIES AND SERVICES ACT OF 1951

AUGUST 27, 1952.

Upon a review of the construction of new defense plants and installations, and the reactivation or expansion of operations of existing defense plants and installations, and the in-migration of defense workers or military personnel to carry out activities at such plants or installations and the availability of housing and community facilities and services for such defense workers and military personnel in the area set forth below, I find that all of the conditions set forth in section 101 (b) of the Defense Housing and Community Facilities and Services Act of 1951 (Pub. Law 139, 82d Cong., 1st Sess.) exist.

Accordingly, pursuant to section 101 of the Defense Housing and Community Facilities and Services Act of 1951 and by virtue of the authority vested in me by paragraph number 1 of Executive Order 10296 of October 2, 1951, I hereby determine that said area is a critical defense housing area.

Barstow, California, Area. (The area consists of Barstow and Yermo Townships, and that part of Belleville Township bounded on the east by the eastern limit of Range 5 East; on the south by the southern limit of Township 8 North; and on the west and north by the Belleville Township line; all in California.)

This supersedes certification under Docket No. 94 dated March 4, 1952.

JOHN R. STEELMAN, *Acting Director of Defense Mobilization.*

[F. R. Doc. 52-9550; Filed, Aug. 27, 1952; 2:44 p. m.]

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 27344]

GROUND PHOSPHATE ROCK FROM NEW ORLEANS, LA., TO CHARLOTTE, N. C.

APPLICATION FOR RELIEF

AUGUST 26, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for carriers parties to Agent C. A. Spaninger's tariff I. C. C. No. 1167.

Commodities involved: Phosphate rock, ground, slush and floats, and soft phosphate, not acidulated nor ammoniated, carloads.

From: New Orleans, La.

To: Charlotte, N. C.

Grounds for relief: Competition with rail carriers and circuitous routes.

Schedules filed containing proposed rates: C. A. Spaninger, Agent, I. C. C. No. 1167, Supp. 65.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

[4th Sec. Application 27345]

CLASS AND COMMODITY RATES BETWEEN AUGUSTA, GA., AND THE PACIFIC COAST

APPLICATION FOR RELIEF

AUGUST 26, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for the Southern Railway Company, the Georgia & Florida Railroad, and other carriers.

Commodities involved: Class and commodity rates.

Between: Augusta, Ga., on the one hand, and Pacific Coast territory, on the other.

Grounds for relief: Rail competition, circuity, and grouping.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

[4th Sec. Application 27346]

RUBBER TIRES AND PARTS FROM MEMPHIS, TENN., TO FAIR LAWN, N. J.

APPLICATION FOR RELIEF

AUGUST 26, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: F. C. Kratzmeir, Agent, for carriers parties to Agent C. A. Spaninger's tariff I. C. C. No. 1193, pursuant to fourth-section order No. 16101.

Commodities involved: Rubber tires and parts, carloads.

From: Memphis, Tenn.

To: Fair Lawn, N. J.

Grounds for relief: Competition with rail carriers, circuitous routes, and operation through higher-rated territory.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

[4th Sec. Application 27347]

LIMESTONE FROM PEMBROKE, VA., TO POINTS IN CENTRAL AND TRUNK-LINE TERRITORIES

APPLICATION FOR RELIEF

AUGUST 26, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: C. W. Boin, Agent, for carriers parties to Agent R. B. Le Grande's tariff I. C. C. No. 241.

Commodities involved: Limestone, ground or pulverized, and stone dust, carloads.

From: Pembroke, Va.

To: Points in trunk-line and central territories.

Grounds for relief: Rail competition, circuity, grouping, and to apply over short tariff routes rates constructed on the basis of the short line distance formula.

Schedules filed containing proposed rates: R. B. Le Grande, Agent, I. C. C. No. 241, Supp. 48.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the

matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

CLASS RATES IN MISSOURI

APPLICATION FOR RELIEF

AUGUST 26, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: L. E. Kipp, Agent, for the Gulf, Mobile and Ohio Railroad Company.

Involving: Class rates governed by exceptions to the classification.

Between: St. Louis, Mo., on the one hand, and Kansas City, Mo., and other points in Missouri, on the other.

Grounds for relief: To meet intrastate rates.

Schedules filed containing proposed rates: L. E. Kipp, Agent, I. C. C. No. A-3698, Supp. 52.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. LITTERA SCRIPTA MANET
OF THE UNITED STATES 1934

FEDERAL REGISTER

VOLUME 17 NUMBER 171

Washington, Saturday, August 30, 1952

TITLE 7—AGRICULTURE

Chapter I—Production and Marketing Administration (Standards, Inspections, Marketing Practices), Department of Agriculture

Subchapter D—Warehouse Regulations

PART 101—COTTON WAREHOUSES

MISCELLANEOUS AMENDMENTS

On August 8, 1952, there was published in the FEDERAL REGISTER a notice of proposed amendments of the cotton warehouse regulations (7 CFR Part 101) under the United States Warehouse Act, as amended (7 U. S. C. 241-273). No objection, data, views, or arguments having been filed pursuant to the notice, under the authority of section 28 of the act, said regulations are hereby amended as follows:

1. A new section 101.3a is added to read:

§ 101.3a *All facilities to be licensed or exempted.* All facilities within the same city or town used for the storage of cotton by an applicant for a warehouse license must qualify for a license and be licensed under the act if the applicant is to be licensed to operate as a cotton warehouseman in such city or town, unless the facilities which are not to be covered by a license are exempted by the Secretary or his designated representative upon a finding that, due to the exercise of adequate controls by some independent agency over the operation of nonfederally licensed facilities, there would be no likelihood of interchange or substitution of cotton stored in such facilities with cotton stored in the federally licensed facilities. If all such facilities do not qualify for a license or for an exemption under this paragraph, the applicant shall not be licensed under the act as a cotton warehouseman in the city or town in which the facilities in question are located. Each applicant for a warehouse license must apply for a license covering all facilities operated by him for the storage of cotton within the same city or town or for exemption as provided in this paragraph. If a licensed cotton warehouseman acquires any additional cotton storage facilities within the same city or town in which his licensed warehouse is located, he shall file promptly an application for a license or an exemption of the additional facilities. No cotton storage facility acquired by a licensed cotton warehouseman, subsequent to the issuance of his license, in the same city or town as his licensed facilities, shall be used for the storage of cotton until it qualifies for license and is licensed or is exempted as provided in this paragraph. If any one of the licensed cotton storage facilities operated by a warehouseman in the same city or town becomes ineligible for a license at any time for any reason, it shall not thereafter be used for the storage of cotton until the condition making it ineligible is removed or an exemption is granted as provided in this section. The use for the storage of cotton by a licensed warehouseman of a facility which is in the same city or town as his licensed facilities and is neither licensed nor exempted, or other violation of the provisions of this section, shall be cause for suspension or revocation of any license issued to the warehouseman for the storage of cotton.

2. Section 101.4 is amended to read:

§ 101.4 *Grounds for not issuing a license.* A license for the conduct of a warehouse, or any amendment to a license, shall not be issued if it be found by the Secretary, or his designated representative, that the warehouse is not suitable for the storage of cotton, that the warehouseman does not possess a good reputation or is insolvent or incompetent to conduct such warehouse in accordance with the act and the regulations in this part, or that there is any other sufficient reason within the intent of the act for not issuing such license. If all the facilities operated for the storage of cotton by the applicant within the same city or town are not to be licensed under the act, the applicant shall not be licensed as a cotton warehouseman with respect to any of such facilities, unless an exemption of the facilities which are not to be licensed is granted as provided in § 101.3a.

3. Section 101.5 is amended to read:

§ 101.5 *Net assets.* (a) The warehouseman operating a warehouse for which application for license has been made, shall have and maintain, above all exemptions and liabilities, total net assets liable for the payment of any indebtedness arising from the operation of the warehouse equal to at least 4 percent of the total value of the maximum number of bales of cotton that the warehouse could accommodate when stored in the manner customary to the warehouse, calculated upon the basis of the unit price for cotton announced annually by the Administrator: *Provided*, That a warehouseman who does not meet the net assets requirement specified in this paragraph may be licensed under the act and the regulations in this part if he furnishes the bond required under § 101.12 for such warehouseman. In determining total net assets, credit may be given for insurable property such as buildings, machinery, equipment, and merchandise inventory, only to the extent that such property is protected by insurance against loss or damage by fire. Such insurance shall be in the form of lawful policies issued by one or more insurance companies authorized to do such business and subject to service of process in suits brought in the State in which the warehouse is located.

(b) In case a warehouseman has applied for a license to operate two or more warehouses in the same state, the maximum number of bales which all the warehouses to be licensed will accommodate when stored in the manner customary to the warehouses, shall be considered in determining whether the warehouseman meets the net worth requirements specified in paragraph (a) of this section.

(c) For the purposes of paragraphs (a) and (b) of this section only, capital stock as such shall not be considered a liability.

(d) In case a state agency licensed or applying for a license as provided in section 9 of the act has funds of not less than $500,000 guaranteeing the performance of obligations of the agency as a warehouseman, such funds shall be considered sufficient to meet the maximum net asset requirements of this section.

4. The third and fourth sentences in § 101.7 are amended to read: "The Secretary, or his designated representative, may, after opportunity for hearing has been afforded in the manner prescribed in this section, suspend or revoke a license issued to a warehouseman when such warehouseman (a) is bankrupt or insolvent; (b) has parted, in whole or in part, with his control over the licensed warehouse; (c) is in process of dissolution or has been dissolved; (d) has ceased to conduct such licensed warehouse; (e) has in any other manner become nonexistent or incompetent or incapacitated to conduct the business of the warehouse; (f) has made unreasonable or exorbitant charges for services rendered; (g) is operating in the same city or town in which his licensed warehouse facilities are located, any facility for storage of cotton which is not covered by a license or an exemption as provided in § 101.3a; or (h) has in any other manner violated or failed to comply with any provision of the act or the regulations in this part. Whenever any of the conditions mentioned in paragraphs (a) to (h) of this section shall come into existence, it shall be the duty of the warehouseman to notify immediately the Administrator of the existing condition."

5. Section 101.12 is amended to read:

§ 101.12 *Amount of bond; additional amounts.* (a) Exclusive of any amount which may be added in accordance with paragraph (c) of this section, the amount of bond to be furnished by a warehouseman who has met the net assets requirement of § 101.5 (a) shall be at least 6 percent of the total value of the maximum number of bales of cotton that his warehouse could accommodate when stored in the manner customary to the warehouse, calculated upon the basis of the unit price for cotton announced annually by the Administrator: *Provided*, That in any case the amount of bond shall not be less than $5,000 nor more than $200,000. The amount of bond, exclusive of any amount which may be added in accordance with paragraph (c) of this section, to be furnished by a warehouseman who has not met the net assets requirement of § 101.5 (a) shall be calculated in the manner prescribed above in this section except that it shall be at least 12 percent of the

total value above specified and in any case shall not be less than $10,000 nor more than $400,000.

(b) In case a warehouseman has applied for licenses to operate two or more warehouses in the same State and his total assets are subject to the liabilities of each warehouse, he may if he desires give a single bond meeting the requirements of the act and the regulations in this part to cover all his warehouses within the State. In such case all of his warehouses in the State shall be deemed to be one warehouse and the maximum number of bales that all of said warehouses will accommodate when stored in the manner customary to each of such warehouses shall be considered for the purpose of determining the amount of bond required under §§ 101.12 through 101.15.

(c) In case the Secretary, or his designated representative, finds that conditions exist which warrant requiring additional bond, there shall be added to the amount fixed in accordance with paragraph (a) of this section a further amount to meet such conditions.

6. Section 101.16 (f) is amended to read:

§ 101.16 *Forms.* • • •

(f) Licensed receipts issued to cover linters shall be clearly and conspicuously marked "Linters".

7. Section 101.50 is amended to read:

§ 101.50 *License fees.* There shall be charged and collected a fee of $20 for each original warehouseman's license, and a fee of $10 for each amended or reinstated warehouseman's license applied for by a warehouseman, and a fee of $6 for each license, or amendment thereto, issued to a sampler, classifier, and/or weigher.

8. Section 101.51 is amended to read:

§ 101.51 *Warehouse inspection fee.* There shall be charged and collected for each original inspection of a warehouse under the act, when such inspection is made upon application of a warehouseman, a fee at the rate of $20 for each 1,000 bales of the cotton storage capacity of the warehouse, or fraction thereof, determined in accordance with § 101.5 but in no case less than $20 nor more than $500, and for each reinspection, applied for by the warehouseman, a fee based on the extent of the reinspection, proportioned to, but not greater than, that prescribed for the original inspection.

9. The first sentence in § 101.86 is amended to read:

§ 101.86 *Bonds required.* Every person applying for a license, or licensed, under section 9 of the act, shall, as such, be subject to all portions of these regulations so far as they may relate to warehousemen. • • •

The amendments require all cotton warehouse facilities in the same city or town operated by a warehouseman holding a cotton warehouse license under the United States Warehouse Act, to be covered by such license, except under specified conditions. The amendments increase the amount of net assets and bond required of licensed warehousemen and the fees for inspection of warehouses, and for licenses of warehousemen, samplers, classifiers and weighers. The amendments also modify the provisions of the regulations relating to suspension and revocation of warehouse licenses.

The changes made in the present regulations by the amendments are deemed necessary for the better protection of depositors and other persons interested in cotton stored in warehouses licensed under the act. Since the cotton storage season has commenced in some areas and is about to commence in the balance of the cotton-producing area, in order to be of most benefit to such persons the amendments should be made effective as soon as possible. Accordingly under section 4 of the Administrative Procedure Act (5 U. S. C. 1003) good cause is found for making the amendments effective less than 30 days after their publication in the FEDERAL REGISTER.

Effective date. The foregoing amendments shall be effective September 5, 1952.

(Sec. 28, 39 Stat. 490; 7 U. S. C. 263)

Done at Washington, D. C., this 27th day of August 1952.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders), Department of Agriculture

PART 906—MILK IN TULSA, OKLAHOMA, MARKETING AREA

ORDER AMENDING ORDER, AS AMENDED, REGULATING HANDLING

§ 906.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of each of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Tulsa, Oklahoma, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply of and demand for milk in the marketing area, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial and commercial activity, specified in a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* It is necessary in the public interest to make this order amending the order, as amended, effective not later than September 1, 1952. Any delay beyond September 1, 1952, in the effective date of this order amending the order, as amended, will seriously disrupt the orderly marketing of milk for the Tulsa, Oklahoma, marketing area. The changes effected by this order amending the order, as amended, do not require of persons affected substantial or extensive preparation prior to the effective date. In view of the foregoing it is hereby found that good cause exists for making this order effective September 1, 1952 (sec. 4 (c), Administrative Procedure Act, 5 U. S. C. 1003 (c)).

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing or shipping milk covered by this order amending the order, as amended, which is marketed within the Tulsa, Oklahoma, marketing area) of more than 50 percent of the milk which is marketed within the said marketing area, refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area, and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said proposed marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order amending the order, as amended, is the only practical means, pursuant to the declared policy of the act, of advancing the interests of producers of milk which is produced for sale in the said marketing area; and

(3) The issuance of this order amending the order, as amended, is approved or favored by at least two-thirds of the producers who, during the determined representative period (July 1952), were engaged in the production of milk for sale in the said marketing area.

Order relative to handling. It is therefore ordered that on and after the effective date hereof the handling of milk in the Tulsa, Oklahoma, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended, and the aforesaid order, as amended, is hereby further amended as follows:

1. In § 906.51 (a) change the period at the end of the sentence to a colon and add the following proviso: *"And provided further,* That for the months of September through December, 1952, the amount to be added to the basic formula price shall be $2.25 in lieu of $1.85."

2. Delete § 906.65 (a) and substitute therefor the following:

(a) Divide the total pounds of milk received by a handler(s) from such producer during the months of September through January immediately preceding by the number of days, not to be less than ninety, of such producer's delivery in such period.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Issued at Washington, D. C., this 27th day of August 1952, to be effective on and after the 1st day of September 1952.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

[F. R. Doc. 52-9574; Filed, Aug. 29, 1952; 8:52 a. m.]

PART 921—MILK IN THE SPRINGFIELD, MISSOURI, MARKETING AREA

ORDER AMENDING ORDER, AS AMENDED, REGULATING HANDLING

§ 921.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and each of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agriculture Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Springfield, Missouri, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions of said order, as amended, and as hereby further amended, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk produced for sale in the said marketing area as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supply of and demand for such milk, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* It is necessary, in the public interest, to make this order, amending the order, as amended, effective not later than September 1, 1952. Any delay beyond that date in the effective date of this order would result in hardship to producers whose pastures and fields have been seriously affected by drought and extreme heat. Rates of milk production might suffer serious damage which could not be fully overcome before next spring.

The provisions of the said order are known to handlers, having been published in a decision which appeared in the FEDERAL REGISTER August 23, 1952 (17 F. R. 7743). The changes effected by this order will not require extensive preparation or substantial alteration in method of operation for handlers. It is hereby found therefore that good cause exists for making this order effective September 1, 1952. (Sec. 4 (c), Administrative Procedure Act, 5 U. S. C. 1001 et seq.)

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing or shipping milk covered by this order, amending the order, as amended, which is marketed within the Springfield, Missouri, marketing area) of more than 50 percent of the milk which is marketed within the said marketing area, refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area, and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said proposed marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order amending the order, as amended, is the only practical means, pursuant to the declared policy of the act, of advancing the interests of producers of milk which is produced for sale in the said marketing area; and

(3) The issuance of this order amending the order, as amended, is approved or favored by at least two-thirds of the producers who, during the determined representative period (June 1952), were engaged in the production of milk for sale in the said marketing area.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof, the handling of milk in the Springfield, Missouri, marketing area, shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended as follows:

1. Change the period at the end of § 921.51 (a) to a colon and add the following proviso: *"Provided further,* That the Class I price shall be the basic formula price for the preceding delivery period plus $2.00 in the months of September 1952 through November 1952 and not less than the basic formula price for the preceding delivery period plus $1.58 in the months of December 1952 through February 1953."

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Issued at Washington, D. C., this 27th day of August 1952, to be effective on and after September 1, 1952.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

[F. R. Doc. 52-9573; Filed, Aug. 29, 1952; 8:52 a. m.]

[Pear Order 5, Amdt. 1]

PART 939—BEURRE D'ANJOU, BEURRE BOSC, WINTER NELIS, DOYENNE DU COMICE, BEURRE EASTER, AND BEURRE CLAIRGEAU VARIETIES OF PEARS GROWN IN OREGON, WASHINGTON, AND CALIFORNIA

REGULATION BY GRADES AND SIZES

a. *Findings.* 1. Pursuant to the amended marketing agreement and order No. 39, as amended (7 CFR Part 939), regulating the handling of Beurre d'Anjou, Beurre Bosc, Winter Nelis, Doyenne du Comice, Beurre Easter, and Beurre Clairgeau varieties of pears grown in Oregon, Washington, and California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the Control Committee, established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of such pears, as hereinafter provided, will tend to effectuate the declared policy of the act.

2. It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure and postpone the effective date of this amendment until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) in that the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient; and this amendment relieves restrictions on the handling of such pears grown in Oregon, Washington, and California.

b. It is therefore ordered as follows: The provisions of paragraph (b) (2) and (3) of § 939.305 (Pear Order 5; 17 F. R. 7274) are hereby amended to read as follows:

(2) Pears grown in the Hood River-White Salmon-Underwood District which fail to meet the requirements with respect to shape specified in the U. S. No. 2 grade only because of frost injury may be shipped to destinations other than export markets: *Provided*, That such pears are not very seriously misshapen.

(3) Pears grown in the Wenatchee District, in the Yakima District, or in the Medford District which fail to meet the requirements with respect to shape specified in the U. S. No. 2 grade only because of frost injury or healed hail marks may be shipped to destinations other than export markets: *Provided*, That such pears are not very seriously misshapen.

c. Nothing contained herein shall be construed (1) as affecting or waiving any right or liability which has arisen or which, prior to the effective time of the provisions hereof, may arise in connection with any provisions of said Pear Order 5, or (2) as releasing or extinguishing any violation of said Pear Order 5, which has occurred or which, prior to the effective time of the provisions hereof, may occur.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Done at Washington, D. C., this 26th day of August 1952, to become effective at 12:01 a. m., P. s. t., August 27, 1952.

[SEAL] FLOYD F. HEDLUND,
Acting Director, Fruit and Vegetable Branch, Production and Marketing Administration.

[F. R. Doc. 52-9542; Filed, Aug. 29, 1952; 8:49 a. m.]

[Lemon Reg. 450]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 953.557 *Lemon Regulation 450*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953; 14 F. R. 3612), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions of this section effective as hereinafter set forth. Shipments of lemons, grown in the State of California or in the State of Arizona, are currently subject to regulation pursuant to said amended marketing agreement and order; the recommendation and supporting information for regulation during the period specified in this section was promptly submitted to the Department after an open meeting of the Lemon Administrative Committee on August 28, 1952; such meeting was held, after giving due notice thereof to consider recommendations for regulation, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period specified in paragraph (b) of this section; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time thereof.

(b) *Order.* (1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., August 31, 1952, and ending at 12:01 a. m., P. s. t., September 7, 1952, is hereby fixed as follows:

(i) District 1: Unlimited movement;

(ii) District 2: 300 carloads;

(iii) District 3: Unlimited movement.

(2) The prorate base of each handler who has made application therefor, as provided in the said amended marketing agreement and order, is hereby fixed in accordance with the prorate base schedule which is attached to Lemon Regulation 449 (17 F. R. 7717) and made a part hereof by this reference.

(3) As used in this section, "handled," "handler," "carloads," "prorate base," "District 1," "District 2," and "District 3," shall have the same meaning as when used in the said amended marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Done at Washington, D. C., this 28th day of August 1952.

[SEAL] FLOYD F. HEDLUND,
Acting Director, Fruit and Vegetable Branch, Production and Marketing Administration.

PART 957—IRISH POTATOES GROWN IN CERTAIN DESIGNATED COUNTIES IN IDAHO AND MALHEUR COUNTY, OREGON

APPROVAL OF BUDGET OF EXPENSES AND FIXING RATE OF ASSESSMENT

Notice of proposed rule making regarding rules and regulations relative to a proposed budget of expenses and rate of assessment, to be made effective under Marketing Agreement No. 98 and Order No. 57, as amended (7 CFR Part 957) regulating the handling of Irish potatoes grown in certain designated counties in Idaho and Malheur County, Oregon, was published in the FEDERAL REGISTER (17 F. R. 7019). This regulatory program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.). After consideration of all relevant matters presented, including the rules and regulations set forth in the aforesaid notice, which rules and regulations were adopted and submitted for approval by the Idaho-Eastern Oregon Potato Committee, established pursuant to said marketing agreement and amended order, the following rules and regulations are hereby approved.

§ 957.205 *Budget of expenses and rate of assessment.* (a) The expenses necessary to be incurred by the Idaho-Eastern Oregon Potato Committee, established pursuant to Marketing Agreement No. 98 and Order No. 57, as amended, to enable such committee to perform its functions pursuant to the provisions of the aforesaid marketing agreement and amended order, during the fiscal year ending May 31, 1953, will amount to $22,500.00.

(b) The rate of assessment to be paid by each handler who first ships potatoes shall be fifty cents per carload, or fraction thereof, or per truckload of 5,000 pounds or more, of potatoes handled by him as the first handler thereof during said fiscal year; and

(c) The terms used in this section shall have the same meaning as when used in Marketing Agreement No. 98 and Order No. 57, as amended (7 CFR Part 957).

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Done at Washington, D. C., this 27th day of August 1952, to become effective 30 days after publication in the FEDERAL REGISTER.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

[F. R. Doc. 52-9543; Filed, Aug. 29, 1952; 8:49 a. m.]

PART 991—MILK IN THE ROCKFORD-FREEPORT, ILLINOIS, MARKETING AREA

ORDER, AS AMENDED, REGULATING HANDLING

§ 991.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of each of the previously issued amendments thereto; and all said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Rockford-Freeport, Illinois, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* It is necessary that the amendments hereinafter set forth be made effective not later than September 1, 1952, so as to reflect current marketing conditions. Any delay beyond September 1, 1952, in the effective date of this order, as amended, will seriously threaten the orderly marketing of milk in the Rockford-Freeport, Illinois, marketing area. The provisions of the said order are well known to handlers, the public hearing having been held on December 4, 5, and 6, 1951, and reopened on March 17 and 18, 1952, the recommended decision having been published in the FEDERAL REGISTER on June 18, 1952, (17 F. R. 5471; 5831), and the final decision having been executed by the Secretary o nAugust 19, 1952 (17 F. R. 7748) and corrected on August 26, 1952. Therefore, reasonable time, under the circumstances, has been afforded persons affected to prepare for its effective date, and it would be contrary to the public interest to delay the effective date of this order for 30 days after its publication in the FEDERAL REGISTER (sec. 4 (c), Administrative Procedure Act, Pub. Law 404, 79th Cong., 60 Stat. 237).

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing, or shipping milk covered by this order, as amended) of more than 50 percent of the volume of the milk covered by this order, as amended, which is marketed within the said marketing area, refused or failed to sign the tentative marketing agreement regulating the handling of milk in the said marketing area, and it is hereby further determined that:

(1) The refusal or failure of such handler to sign said marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order, as amended, is the only practical means, pursuant to the declared policy of the act, of advancing the interests of producers of milk which is produced for sale in the said marketing area; and

(3) The issuance of this order, as amended, is approved or favored by at least two-thirds of the producers who participated in a referendum and who, during the determined representative period (February 1952), were engaged in the production of milk for sale in the said marketing area.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof the handling of milk in the Rockford-Freeport, Illinois, area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended, and the aforesaid order, as amended, is hereby further amended as follows:

Sec.
991.0 Findings and determinations.

DEFINITIONS

991.1 Act.
991.2 Secretary.
991.3 Department.
991.4 Person.
991.5 Cooperative Association.
991.6 Rockford-Freeport marketing area.
991.7 Route.
991.8 Approved plant.
991.9 Rockford plant.
991.10 Freeport plant.
991.11 Unapproved plant.
991.12 Handler.
991.13 Producer.
991.14 Producer milk.
991.15 Other source milk.
991.16 Producer-handler.

MARKET ADMINISTRATOR

991.20 Designation.
991.21 Powers.
991.22 Duties.

REPORTS, RECORDS AND FACILITIES

991.30 Monthly reports of receipts and utilization.
991.31 Producer payroll reports.
991.32 Reports by producer-handlers.
991.33 Records and facilities.
991.34 Retention of records.

CLASSIFICATION

991.40 Skim milk and butterfat to be classified.
991.41 Classes of utilization.
991.42 Shrinkage.
991.43 Responsibility of handlers and reclassification of milk.
991.44 Transfers.
991.45 Computation of skim milk and butterfat in each class.
991.46 Allocation of skim milk and butterfat classified.

MINIMUM PRICES

991.50 Class I milk prices.
991.51 Class II milk prices.
991.52 Class butterfat differentials.
991.53 Computation of prices of skim milk and butterfat.

APPLICATION OF PROVISIONS

991.60 Producer handlers.
991.61 Milk subject to pricing under other Federal orders.
991.62 Uniform price and payments for non-Grade A producer milk.

DETERMINATION OF UNIFORM PRICES

991.70 Computation of value of producer milk.
991.71 Computation of uniform price.
991.72 Notification to handlers.

PAYMENTS

991.80 Time and method of payment.
991.81 Producer butterfat differential.
991.82 Producer settlement fund.
991.83 Payments to the producer-settlement fund.
991.84 Payments out of the producer-settlement fund.
991.85 Expense of administration.
991.86 Marketing services.
991.87 Adjustment of accounts.
991.88 Termination of obligations.

MISCELLANEOUS PROVISIONS

991.90 Effective time.
991.91 Suspension or termination.
991.92 Continuing obligations.
991.93 Liquidation.
991.94 Agents.
991.95 Separability of provisions.

AUTHORITY: §§ 991.1 to 991.95 issued under sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c.

DEFINITIONS

§ 991.1 *Act.* "Act" means Public Act No. 10, 73d Congress, as amended, and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

§ 991.2 *Secretary.* "Secretary" means the Secretary of Agriculture or other officer or employee of the United States authorized to exercise the powers or to perform the duties of the said Secretary of Agriculture.

§ 991.3. *Department.* "Department" means the United States Department of Agriculture or such other Federal agency authorized to perform the price reporting functions specified in §§ 991.50, 991.54 and 991.81.

§ 991.4 *Person.* "Person" means any individual, partnership, corporation, association, or any other business unit.

§ 991.5 *Cooperative association.* "Cooperative association" means any cooperative marketing association which the Secretary determined after application by the association:

(a) To be qualified under the provisions of the act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act"; and

(b) To have full authority in the sale of milk of its members and to be engaged in making collective sales or marketing milk or its products for its members.

§ 991.6 *Rockford-Freeport marketing area.* "Rockford-Freeport marketing area," hereinafter called the "marketing area," means the territory lying within the corporate limits of the cities of Rockford, Loves Park and Freeport, together with the territory lying within the townships of Burritt, Cherry Valley, Harlem, Owen, Rockford and Winnebago, in Winnebago County, and Florence, Harlem, Lancaster and Silver Creek, in Stephenson County, all in the State of Illinois. "Rockford district" of the marketing area shall include the territory lying within the corporate limits of the cities of Rockford and Loves Park, and within the townships of Burritt, Cherry Valley, Harlem, Owen, Rockford and Winnebago, in Winnebago County, Illinois. "Freeport district" of the marketing area shall include that portion of the marketing area not included in the Rockford district.

§ 991.7 *Route.* "Route" means a delivery (including at a plant store) of milk, skim milk, buttermilk, flavored milk, or flavored milk drink in fluid form to a wholesale or retail stop(s) other than to a milk processing or distributing plant(s).

§ 991.8 *Approved plant.* "Approved plant" means a milk processing or distributing plant approved by the appropriate authorities for the distribution of Grade "A" milk under the milk ordinance of any municipality in the marketing area or under the Grade "A" milk and Grade "A" milk products law of the State of Illinois, and from which a route is operated wholly or partially within the marketing area. The term "approved plant" does not include any portions of the plant or facilities used for processing milk or any milk product required by the appropriate health authorities to be kept physically separate from that portion of the plant facilities used for receiving, processing, or packaging milk or milk products to be labeled Grade "A".

§ 991.9 *Rockford plant.* "Rockford plant" means a plant (a) located within the Rockford district, or (b) located outside the marketing area from which more than 50 percent of the Class I milk disposed of from such plant within the marketing area during the month is disposed of within the Rockford district.

§ 991.10 *Freeport plant.* "Freeport plant" means a plant (a) located within the Freeport district, or (b) located outside the marketing area from which more than 50 percent of the Class I milk disposed of from such plant within the marketing area during the month is disposed of within the Freeport district.

§ 991.11 *Unapproved plant.* "Unapproved plant" means any milk processing or distributing plant which is not an approved plant.

§ 991.12 *Handler.* "Handler" means any of the following:

(a) The operator of an approved plant in his capacity as such;

(b) The operator of an unapproved plant from which a route is operated wholly or partially within the marketing area; or

(c) Any cooperative association with respect to milk of producers caused to be diverted for its account from an approved plant to an unapproved plant from which no route is operated wholly or partially within the marketing area, which milk of producers shall be deemed as having been received by such cooperative association at the location of the plant from which the diversion was made.

§ 991.13 *Producer.* "Producer" means either of the following:

(a) "Grade A producer" means any person, except a producer-handler, who under inspection of the appropriate health authorities of any of the municipalities of the marketing area, or of the State of Illinois, produces milk approved by such authority for distribution as Grade "A" milk within the marketing area, which milk is received at an approved plant, or is diverted by a cooperative association for its account from an approved plant to an unapproved plant; or

(b) "Non-Grade A producer" means any person, except a producer-handler, who produces milk which is received at an unapproved plant from which a route is operated wholly or partially within the marketing area.

§ 991.14 *Producer milk.* "Producer milk" means either of the following:

(a) "Grade A producer milk" means milk of one or more producers produced and received or diverted under the conditions set forth in § 991.13 (a); or

(b) "Non-Grade A producer milk" means milk of one or more producers produced and received under the conditions set forth in § 991.13 (b).

§ 991.15 *Other source milk.* "Other source milk" means skim milk or butterfat received at an approved plant, or at an unapproved plant from which a route is operated wholly or partially within the marketing area, except that contained in (a) producer milk, (b) receipts from other handlers, (c) receipts from handlers under any marketing agreement or order issued pursuant to the act for any other fluid milk marketing area of items listed herein as Class I milk in packaged or bottled form ready for delivery to consumers, which are disposed of in the original package in which received, and (d) any non-fluid milk product received from a non-handler and disposed of in the form in which received.

§ 991.16 *Producer-handler.* "Producer-handler" means any person who produces milk and operates a route wholly or partially within the marketing area, but who receives no milk from producers.

MARKET ADMINISTRATOR

§ 991.20 *Designation.* The agency for the administration of this subpart shall be a market administrator, selected by the Secretary, who shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of the Secretary.

§ 991.21 *Powers.* The market administrator shall have the following powers with respect to this subpart.

(a) To administer its terms and provisions;

(b) To receive, investigate, and report to the Secretary complaints of violations;

(c) To make rules and regulations to effectuate its terms and provisions; and

(d) To recommend amendments to the Secretary.

§ 991.22 *Duties.* The market administrator shall perform all duties necessary to administer the terms and provisions of this subpart, including, but not limited to, the following:

(a) Within 30 days following the date on which he enters upon his duties, or such lesser period as may be prescribed by the Secretary, execute and deliver to the Secretary a bond, effective as of the date on which he enters upon such duties and conditioned upon the faithful performance of such duties, in an amount and with surety thereon satisfactory to the Secretary;

(b) Employ and fix the compensation of such persons as may be necessary to enable him to administer its terms and provisions;

(c) Obtain a bond in a reasonable amount and with reasonable surety thereon covering each employee who handles funds entrusted to the market administrator;

(d) Pay, out of the funds provided by § 991.85:

(1) The cost of his bond and of the bonds of his employees;

(2) His own compensation; and

(3) All other expenses, except those incurred under § 991.86, necessarily incurred by him in the maintenance and functioning of his office and in the performance of his duties;

(e) Keep such books and records as will clearly reflect the transactions provided for in this subpart, and, upon request by the Secretary surrender the same to such other person as the Secretary may designate;

(f) Publicly announce, unless otherwise directed by the Secretary, by posting in a conspicuous place in his office and by such other means as he deems appropriate, the name of any person who within 10 days after the day upon which he is required to perform such act, has not (1) made reports pursuant to §§ 991.30, 991.31 or 991.32, (2) maintained adequate records and facilities pursuant to § 991.33, or (3) made the payments required under §§ 991.80, 991.81, 991.83, 991.85, or 991.86;

(g) Submit his books and records to examination by the Secretary and furnish such information and reports as may be requested by the Secretary;

(h) On or before the 10th day after the end of each month report to each cooperative association which so requests the amount and class utilization of milk caused to be delivered by such cooperative association, either directly or from producers who have authorized such cooperative association to receive payments for them, to each handler to whom the cooperative association sells milk. For the purpose of this report the milk caused to be so delivered by a cooperative association shall be prorated to each class in the proportion that the total receipts of milk received from producers by such handler were used in such class;

(i) Audit all reports and payments by each handler by inspection of such handler's records and of the records of any handler or person upon whose utilization the classification of skim milk or butterfat for such handler depends;

(j) Publicly announce, by posting in a conspicuous place in his office and by such other means as he deems appropriate, the prices determined for each month as follows:

(1) On or before the 5th day after the end of such month, the minimum class prices pursuant to §§ 991.50, 991.51 and 991.53 and the butterfat differentials for each class pursuant to § 991.52, and

(2) On or before the 11th day after the end of such month, the uniform prices computed pursuant to § 991.71 and the butterfat differential computed pursuant to § 991.81 and

(k) Prepare and disseminate to the public such statistics and information as he deems advisable and as do not reveal confidential information.

REPORTS, RECORDS AND FACILITIES

§ 991.30 *Monthly reports of receipts and utilization.* On or before the 8th day after the end of each month each handler, except a producer-handler, shall report to the market administrator in the detail and on forms prescribed by the market administrator:

(a) The quantities of butterfat and quantities of skim milk contained in (or used in the production of) all receipts within such month of (1) producer milk, (2) skim milk and butterfat in any form from any other handler, and (3) other source milk, and the sources thereof;

(b) The product pounds of Class I and Class II milk received in packaged or bottled form ready for delivery to consumers from handlers under any marketing agreement or order issued pursuant to the act for any other fluid milk marketing area, and disposed of in the form in which received;

(c) The product pounds of non-fluid milk products received from any nonhandler and disposed of in the same form;

(d) The utilization of all receipts required to be reported under paragraphs (a) and (b) and (c) of this section; and

(e) Such other information with respect to all such receipts and utilization as the market administrator may prescribe.

§ 991.31 *Producer payroll reports.* On or before the 25th day after the end of each month each handler shall submit to the market administrator such handler's producer payroll for the preceding month which shall show (a) the total pounds of milk received from each producer and cooperative association and the total pounds of butterfat contained in such milk, (b) the amount of payment to each producer and cooperative association and (c) the nature and amount of all deductions and charges involved in the payments referred to in paragraph (b) of this section.

§ 991.32 *Reports by producer-handlers.* Each producer-handler shall make reports to the market administrator at such time and in such manner as the market administrator may prescribe.

§ 991.33 *Records and facilities.* Each handler shall maintain and make available to the market administrator or to his representative during the usual hours of business, such accounts and records of his operations and such facilities as are necessary for the market administrator to verify or to establish the correct data with respect to:

(a) The receipts and utilization, in whatever form, of all skim milk and butterfat received, including milk products received and disposed of in the same form;

(b) The weights, samples and tests for butterfat and for other content of all skim milk and butterfat handled;

(c) Payments to producers and cooperative associations; and

(d) The pounds of skim milk and butterfat contained in or represented by all milk, skim milk, cream and each milk product on hand at the beginning and at the end of each month.

§ 991.34 *Retention of records.* All books and records required under this subpart to be made available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the month to which such books and records pertain: *Provided*, That if, within such three-year period, the market administrator notifies the handler in writing that the retention of such books and records, or of specified books and records, is necessary in connection with a proceeding under section 8c (15) (A) of the act or a court action specified in such notice, the handler shall retain such books and records, or specified books and records, until further written notification from the market administrator. In either case the market administrator shall give further written notification to the handler promptly, upon the termination of the litigation or when the records are no longer necessary in connection therewith.

CLASSIFICATION

§ 991.40 *Skim milk and butterfat to be classified.* All skim milk and butterfat, in any form, received within the month by a handler, in producer milk, in other source milk, or from another handler shall be classified by the market administrator pursuant to the provisions of §§ 991.41 through 991.46.

§ 991.41 *Classes of utilization.* Subject to the conditions set forth in §§ 991.43 and 991.44 the skim milk and butterfat described in § 991.40 shall be classified separately by the market administrator on the basis of the following classes:

(a) Class I milk shall be all skim milk (including reconstituted skim milk) and butterfat;

(1) Disposed of (except as provided in paragraph (b) (4) of this section) (i) in fluid form as milk, skim milk, buttermilk, flavored milk, flavored milk drink, cream, any mixture which contains cream and milk or skim milk (not including ice cream mix) and not less than 6 percent butterfat, and eggnog, and (ii) in fluid or frozen form as concentrated milk, flavored milk, and flavored milk drink not sterilized; and

(2) Not specifically accounted for as any item included under subparagraph (1) of this paragraph or as Class II milk.

(b) Class II milk shall be all skim milk and butterfat:

(1) Used to produce a milk product other than any of those specified in paragraph (a) (1) of this section;

(2) In actual plant shrinkage of producer milk computed pursuant to § 991.42, but not in excess of 2 percent thereof;

(3) In inventory variation of milk, skim milk, cream or of any Class I milk product;

(4) In skim milk, flavored milk, flavored milk drink or buttermilk dumped or disposed of for livestock feed; and

(5) In actual plant shrinkage of other source milk computed pursuant to § 991.42.

§ 991.42 *Shrinkage.* The market administrator shall determine the shrinkage of skim milk and butterfat, respectively, in producer milk and in other source milk in the following manner:

(a) Compute the total shrinkage of skim milk and butterfat, respectively, for each handler; and

(b) Prorate the total shrinkage of skim milk and butterfat, respectively, computed pursuant to paragraph (a) of this section, between producer milk and other source milk after deducting receipts from other handlers.

§ 991.43 *Responsibility of handlers and reclassification of milk.* (a) All skim milk and butterfat shall be Class I milk, unless the handler who first receives such skim milk or butterfat proves to the market administrator that such skim milk or butterfat should be classified otherwise.

(b) Any skim milk or butterfat (except that transferred to a producer-handler) classified in one class shall be reclassified if used or reused by such handler or by another handler in another class.

§ 991.44 *Transfers.* Skim milk or butterfat disposed of by a handler either by transfer or diversion shall be classified:

(a) As Class I milk if transferred in the form of milk, skim milk, or cream, to an approved plant or to an unapproved plant from which a route is operated wholly or partially within the marketing area (except the plant of a producer-handler) unless utilization as Class II milk is mutually indicated in writing to the market administrator by both handlers on or before the 8th day after the end of the month within which such transaction occurred: *Provided*, That skim milk or butterfat so assigned to Class II milk shall be limited to the amount thereof remaining in such class in the plant of the transferee-handler after the subtraction of other source milk pursuant to § 991.46 (a) (2), and any excess of such skim milk or butterfat, respectively, shall be assigned to Class I milk: *And provided further*, That in no event shall skim milk or butterfat so transferred or diverted be so classified that other source milk is assigned to any

higher class in the plant of the transferring handler than the lowest class to which producer milk (other than allowable shrinkage) is assigned in the plant of the transferee-handler, after application of the allocation provisions of § 991.46.

(b) As Class I milk if moved in the form of milk, skim milk, or cream to (1) a producer-handler, or (2) any unapproved plant located 100 miles or more from the marketing area, by shortest highway distance as determined by the market administrator.

(c) According to his reported utilization, if moved in the form of milk, skim milk or cream to any unapproved plant from which no route is operated wholly or partially within the marketing area and which is not a plant covered by paragraph (b) of this section: *Provided*, That (1) the receiver (operator of the unapproved plant) maintains books and records showing the utilization of all skim milk and butterfat received at such plant from all sources, (2) if the reported utilization is Class II milk, the quantity of skim milk or butterfat transferred or diverted which may be allowed in such class shall not exceed the total amount of skim milk or butterfat, respectively, which the market administrator can establish definitely on the basis of such books and records as having been used by the receiver in Class II milk (as defined in § 991.41) in the month in which the milk, skim milk or cream so moved was received in the unapproved plant, and (3) any quantity in excess of such established Class II use shall be Class I milk: *And provided further*, That if such books and records are not made available to the market administrator at his request, the total quantity of skim milk and butterfat contained in the milk, skim milk or cream transferred or diverted by the handler shall be Class I milk.

§ 991.45 *Computation of skim milk and butterfat in each class.* For each month, the market administrator shall correct for mathematical and for other obvious errors the report submitted by each handler and compute the total pounds of skim milk and butterfat, respectively, in Class I milk and Class II milk for such handler.

§ 991.46 *Allocation of skim milk and butterfat classified.* (a) The pounds of skim milk remaining in each class after making the following computations shall be the pounds in such class allocated to producer milk;

(1) Subtract plant shrinkage of skim milk in producer milk pursuant to § 991.41 (b) (2) from the total pounds of skim milk in Class II milk;

(2) Subtract from the pounds of skim milk in Class I milk (to the extent available), the pounds of skim milk in other source milk received during September through December, inclusive, in bulk as milk, skim milk or cream, in fluid form from a plant where milk is priced under the class price provisions of a marketing agreement or order issued pursuant to the act for another fluid milk marketing area;

(3) Subtract from the remaining pounds of skim milk in each class, in series beginning with available Class II milk, the pounds of skim milk in other source milk not otherwise subtracted pursuant to subparagrah (2) of this paragraph;

(4) Subtract from the remaining pounds of skim milk in each class the skim milk received from other handlers and assigned pursuant to § 991.44; and

(5) Add to the remaining pounds of skim milk in Class II milk the pounds subtracted pursuant to subparagraph (1) of this paragraph; or if the remaining pounds of skim milk in all classes exceed the pounds of skim milk in producer milk, subtract such excess from the remaining pounds of skim milk in series beginning with Class II milk.

(b) Allocate classified butterfat to producer milk according to the method prescribed in paragraph (a) of this section for skim milk.

MINIMUM PRICES

§ 991.50 *Class I milk prices.* (a) The minimum price per hundredweight, on a 3.5 percent butterfat content basis, for Grade A producer milk received at, or diverted by a cooperative association from, Rockford plants and classified as Class I milk, shall be the price as determined for the month for the 70–85 mile zone pursuant to § 941.52 (a) (1) of this chapter, as amended, regulating the handling of milk in the Chicago, Illinois, marketing area issued pursuant to the act, plus 4 cents.

(b) The minimum price per hundredweight, on a 3.5 percent butterfat content basis, for Grade A producer milk received at, or diverted by a cooperative association from, Freeport plants and classified as Class I milk shall be the price determined for the month for the 100–115 mile zone pursuant to § 941.52 (a) (1) of this subchapter, as amended, regulating the handling of milk in the Chicago, Illinois, marketing area issued pursuant to the act, plus 4 cents.

(c) The minimum price per hundredweight for non-Grade A producer milk received at, or diverted by a cooperative association from, Rockford plants and classified as Class I milk shall be the Class I price computed pursuant to paragraph (a) of this section, less 10 cents.

(d) The minimum price per hundredweight for non-Grade A producer milk received at, or diverted by a cooperative association from, Freeport plants and classified as Class I milk shall be the Class I price computed pursuant to paragraph (b) of this section, less 10 cents.

§ 991.51 *Class II milk price.* The minimum price per hundredweight, on a 3.5 percent butterfat basis, for producer milk classified as Class II milk shall be the highest of the prices per hundredweight for milk of 3.5 percent butterfat content determined by the market administrator for the month pursuant to paragraphs (a), (b) and (c) of this section, computed to the nearest tenth of a cent.

(a) The average of the prices per hundredweight reported to have been paid, or to be paid, for such month to farmers for milk containing 3.5 percent butterfat content delivered during such month at each of the following listed manufacturing plants or places for which prices are reported to the Department or to the market administrator:

Companies and Location

Borden Co., Black Creek, Wis.
Borden, Co., Greenville, Wis.
Borden Co., Mt. Pleasant, Mich.
Borden Co., New London, Wis.
Borden Co., Orfordville, Wis.
Carnation Co., Berlin, Wis.
Carnation Co., Jefferson, Wis.
Carnation Co., Chilton, Wis.
Carnation Co., Richland Center, Wis.
Carnation Co., Oconomowoc, Wis.
Carnation Co., Sparta, Mich.
Pet Milk Co., Belleville, Wis.
Pet Milk Co., Coopersville, Mich.
Pet Milk Co., Hudson, Mich.
Pet Milk Co., New Glarus, Wis.
Pet Milk Co., Wayland, Mich.
White House Milk Co., Manitowoc, Wis.
White House Milk Co., West Bend, Wis.

(b) The price per hundredweight computed as follows:

(1) Multiply the simple average of the daily average wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter per pound at Chicago as reported by the Department during such month, by 6;

(2) Add an amount computed as follows: From the simple average of the daily prices paid per pound, using the midpoint of any price range as one price, for Wisconsin State Brand Cheddars in cars or truckloads, f. o. b. Wisconsin assembling points, as reported by the Department for the trading days during the month, subtract 1.3 cents, and multiply by 2.4; and

(3) Divide such sum by 7, add 30 percent thereof, and multiply by 3.5;

(c) The price per hundredweight computed as follows:

(1) Multiply by 4.24 the simple average, as computed by the market administrator of the daily wholesale selling prices (using the midpoint of any price range as one price) of Grade AA (93-score) bulk creamery butter per pound at Chicago, as reported by the Department during such month: *Provided*, That if no price is reported for Grade AA (93-score) butter, the highest of the Grade A (92-score) butter prices for that day shall be used in lieu of the price for Grade AA (93-score) butter;

(2) Multiply by 8.2 the weighted average of carlot prices per pound for spray process nonfat dry milk solids, for human consumption, f. o. b. manufacturing plants in the Chicago area, as published for the period from the 26th day of the immediately preceding month through the 25th day of such month by the Department;

(3) From the sum of the results arrived at under subparagraphs (1) and (2) of this paragraph, subtract 75.2 cents.

§ 991.52 *Class butterfat differentials*—(a) *Class I milk.* Multiply by 1.31 the simple average of the daily wholesale selling prices per pound (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter in the Chicago market as reported by the Department for the month preceding that in which the producer milk to be priced was received and divide the result by 10.

(b) *Class II milk.* Multiply by 1.20 the simple average of the daily wholesale selling prices per pound (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter at Chicago as reported by the Department during the month in which the producer milk to be priced was received, and divide the result by 10.

§ 991.53 *Computation of prices of skim milk and butterfat.* The prices per hundredweight of skim milk and butterfat to be paid by each handler for producer milk in each class shall be computed as follows: For each class, respectively, the price per hundredweight of skim milk shall be the applicable class price for the month (§§ 991.50 and 991.51) less the result of multiplying the applicable class butterfat differential for the month (§ 991.52) by 35. For each class, respectively, the price per hundredweight of butterfat shall be the applicable class price for the month plus the result of multiplying the applicable class butterfat differential for the month by 965.

APPLICATION OF PROVISIONS

§ 991.60 *Producer-handlers.* Sections 991.40 through 991.46, 991.50 through 991.55, 991.70 through 991.72, and 991.80 through 991.84, shall not apply to a producer-handler.

§ 991.61 *Milk subject to pricing under other Federal orders.* Except as follows, milk priced under any other Federal milk marketing agreement or order issued pursuant to the act for any other fluid milk marketing area shall not be subject to the provisions of this subpart:

(a) If such milk is disposed of on a route wholly or partially in the marketing area operated by or for a person subject to regulation as a handler under another order, such person shall report as requested by the market administrator, but shall not otherwise be considered a handler under this subpart;

(b) If such milk is received at the plant of a handler which is subject to the provisions of this subpart in any form other than those stated in § 991.15 (c) and (d), it shall be considered as other source milk; or

(c) If the provisions of the order for the other milk marketing area provide for determination as to the order under which milk shall be priced, the Secretary shall so determine.

§ 991.62 *Uniform price and payments for non-Grade A producer milk.* Sections 991.70, 991.71, 991.72, and 991.80 through 991.84 shall be applied to non-Grade A producer milk separately from Grade A producer milk.

DETERMINATION OF UNIFORM PRICES

§ 991.70 *Computation of value of producer milk.* The value of producer milk received during each month by each handler shall be computed by the market administrator by multiplying the pounds of skim milk and the pounds of butterfat in each class for such handler pursuant to § 991.46, by the applicable skim milk and butterfat prices computed pursuant to § 991.53, adding together the resulting amounts, and adding to this sum the amounts computed as follows: Multiply the pounds subtracted from the various classes pursuant to §§ 991.46 (a) (5) and 991.46 (b) by the applicable skim milk and butterfat prices.

§ 991.71 *Computation of uniform price.* For each month the market administrator shall compute the uniform price per hundredweight of producer milk (3.5 percent butterfat content) for Rockford handlers and for Freeport handlers, as follows:

(a) Combine into one total the values computed pursuant to § 991.70 (and subject to the provisions of § 991.62) for all handlers who made the reports pursuant to § 991.30 except those in default of payments required pursuant to § 991.83 for the preceding month;

(b) Subtract, if the weighted average butterfat content of producer milk is greater than 3.5 percent, or add, if such butterfat content is less than 3.5 percent, an amount computed by multiplying the difference of such weighted average butterfat content from 3.5 percent by the producer butterfat differential computed pursuant to § 991.81, and multiplying the resulting figure by the total hundredweight of such producer milk;

(c) Add an amount representing the cash balance on hand in the producer-settlement fund less the amount of unpaid obligations to handlers pursuant to §§ 991.84 and 991.87;

(d) Divide by the hundredweight of such producer milk;

(e) Subtract not less than 4 cents but less than 5 cents:

Provided, That for any month for which the percentage of Class I milk to producer milk receipts for Rockford handlers does not exceed the percentage of Class I milk to producer milk receipts for Freeport handlers, the adjustments provided by paragraphs (f) and (g) of this section shall not apply.

(f) In the case of Rockford handlers an adjusted uniform price shall be computed as follows:

(1) Adjust the values for Freeport handlers, computed pursuant to § 991.70, to a 3.5 percent butterfat basis by the butterfat differential in § 991.81, combine the adjusted values into one total, and divide such total by the hundredweight of producer milk received by such handlers;

(2) Subtract from such result the amount per hundredweight (subtrahend) subtracted pursuant to paragraph (e) of this section and add an amount computed as follows: Divide the amount of the cash balance as set forth in paragraph (c) of this section by the total quantity of producer milk.

(3) Subtract such net amount from the per hundredweight figure resulting from paragraph (e) of this section;

(4) Determine the percentage which the total hundredweight of producer milk received by Freeport handlers bears to the total hundredweight of producer milk received by Rockford handlers, and multiply such percentage by the net amount per hundredweight resulting from subparagraph (3) of this paragraph;

(5) Add the amount computed under subparagraph (4) of this paragraph to the per hundredweight amount computed under paragraph (d) of this section;

(6) Adjust such sum to the full cent by subtracting not less than 4 cents but less than 5 cents.

(g) In the case of Freeport handlers an adjusted uniform price shall be computed as follows:

(1) Multiply the hundredweight of producer milk for Rockford handlers by the per hundredweight figure computed for such handlers as provided in paragraph (f) (5) of this section;

(2) Subtract such amount from the sum computed in paragraph (c) of this section;

(3) Divide such net amount by the hundredweight of producer milk for Freeport handlers; and

(4) Adjust such sum to the full cent by subtracting not less than 4 cents but less than 5 cents.

§ 991.72 *Notification to handlers.* On or before the 11th day after the end of each month, the market administrator shall mail to each handler at his last known address, a statement showing (a) the amount and value of his milk in each class and the totals thereof; (b) the applicable minimum class prices and uniform price; (c) the amount owed by him to, or the amount due him from, the producer-settlement fund, pursuant to § 991.83 or § 991.84; and (d) the amounts to be paid by him pursuant to §§ 991.80, 991.85, 991.86 and 991.87.

PAYMENTS

§ 991.80 *Time and method of payment.* Each handler shall make payments as follows:

(a) On or before the 18th day after the end of each month, to each producer, except producers for whom payment is made to a cooperative association pursuant to paragraph (b) of this section, at not less than the applicable uniform price for such month pursuant to § 991.71 adjusted by the producer butterfat differential pursuant to § 991.81, for all milk received from such producer during such month: *Provided*, That if by such date such handler has not received full payment for such month pursuant to § 991.84, he may reduce such payments uniformly per hundredweight for all producers by an amount not in excess of the per hundredweight reduction in payment from the market administrator: *And provided further*, That such handler shall make such balance of payment to those producers to whom it is due on or before the date for making payments pursuant to this paragraph next following that on which such balance of payment is received from the market administrator.

(b) On or before the 15th day after the end of each month, to a cooperative association with respect to milk caused to be delivered from producers' farms to such handler by such association for its account during such month not less than the value of such milk computed at the applicable uniform price, adjusted by the producer butterfat differential pursuant to § 991.81.

§ 991.81 *Producer butterfat differential.* In making payments pursuant to § 991.80 there shall be added to, or sub-

tracted from, the uniform price, for each one-tenth of one percent of butterfat content in such producer milk above or below 3.5 percent, an amount computed by multiplying the simple average of the daily wholesale selling prices per pound (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter at Chicago as reported by the Department during the month in which the producer milk to be priced was received, by 0.12 and rounding to the nearest tenth of a cent.

§ 991.82 *Producer-settlement fund.* The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made by handlers pursuant to § 991.83 and payments related thereto pursuant to § 991.87 and out of which he shall make all payments to handlers pursuant to § 991.84 and payments related thereto pursuant to § 991.87.

§ 991.83 *Payments to the producer-settlement fund.* On or before the 15th day after the end of each month, each handler shall pay to the market administrator the amount by which the value of producer milk (§ 991.70) received by such handler during such month is greater than the total of amounts to be paid pursuant to § 991.80.

§ 991.84 *Payments out of the producer-settlement fund.* On or before the 16th day after the end of each month, the market administrator shall pay to each handler the amount by which the value of producer milk (§ 991.70) received by such handler during such month is less than the sum of amounts due pursuant to §§ 991.83, 991.85, 991.86 and 991.87: *Provided*, That if the balance in the producer-settlement fund is insufficient to make all payments pursuant to this section, the market administrator shall reduce such payments uniformly per hundredweight and shall complete such payments as soon as the necessary funds are available.

§ 991.85 *Expense of administration.* As his prorata share of the expenses incurred pursuant to § 991.22 (d) each handler shall pay the market administrator on or before the 15th day after the end of each month, 4 cents per hundredweight, or such amount not exceeding 4 cents per hundredweight as the Secretary from time to time may prescribe, with respect to producer milk (including such handler's own production) and other source milk (excluding that subject to administrative expense assessment under another Federal milk marketing agreement or order issued pursuant to the act) received during such month.

§ 991.86 *Marketing services.* (a) Except as set forth in paragraph (b) of this section, each handler for each month shall deduct 5 cents per hundredweight, or such amount not exceeding 5 cents per hundredweight as may be prescribed by the Secretary, from the payments made to each producer pursuant to § 991.80, and shall pay such deductions to the market administrator on or before the 15th day after the end of such month. Such moneys shall be used by the market administrator to check weights, samples and tests of producer milk received by handlers and to provide producers with market information, such services to be performed by the market administrator or by an agent engaged by and responsible to him.

(b) In the case of producers for whom a cooperative association is actually performing the services set forth in paragraph (a) of this section, but for whom such cooperative association does not receive payment for milk, each handler shall make, in lieu of the deduction specified in paragraph (a) of this section, such deductions from the payment to be made to such producers as may be authorized by the membership agreement or marketing contract between such cooperative association and such producers and on or before the 15th day after the end of such month pay every such deduction to the cooperative association rendering such services.

§ 991.87 *Adjustment of accounts.* (a) Whenever audit by the market administrator of any handler's reports, books, records or accounts disclose errors resulting in moneys due (1) the market administrator from such handler, (2) such handler from the market administrator, or (3) any producer or cooperative association from such handler, the market administrator shall promptly notify such handler of any such amount due; and payment thereof shall be made on or before the next date for making payment set forth in the provision under which such error occurred following the 5th day after such notice.

(b) An unpaid obligation of a handler shall bear interest at the rate of one-half of one percent per month, such interest to accrue on the first day of the month next following the due date of such obligation and on the first day of each month thereafter until such obligation is paid.

§ 991.88 *Termination of obligations.* The provisions of this section shall apply to any obligation under this subpart for the payment of money.

(a) The obligation of any handler to pay money required to be paid under the terms of this subpart shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the month during which the market administrator receives the handler's utilization report on the milk involved in such obligation, unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk, with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this subpart, to make available to the market administrator or his representatives all books and records required by this subpart to be made available, the market administrator may, within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the month following the month during which all such books and records pertaining to such obligation are made available to the market administrator or his representatives.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this subpart to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this subpart shall terminate two years after the end of the month during which the milk involved in the claim was received if an underpayment is claimed, or two years after the end of the month during which the payment (including deduction or set-off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c (15) (A) of the act, a petition claiming such money.

MISCELLANEOUS PROVISIONS

§ 991.90 *Effective time.* The provisions of this subpart or any amendments to this subpart shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated.

§ 991.91 *Suspension or termination.* The Secretary may suspend or terminate this subpart or any of its provisions whenever he finds that this subpart or any provision obstructs or does not tend to effectuate the declared policy of the act. This subpart shall terminate in any event whenever the provisions of the act authorizing it cease to be in effect.

§ 991.92 *Continuing obligations.* If, upon the suspension or termination of any or all provisions of this subpart, there are any obligations thereunder the final accrual or ascertainment of which requires further acts by any person (including the market administrator), such further acts shall be performed notwithstanding such suspension or termination.

§ 991.93 *Liquidation.* Upon the suspension or termination of this subpart, except this section, the market administrator, or such other liquidating agent, as the Secretary may designate, shall if so directed by the Secretary, liquidate the business of the market administrator's office, dispose of all property in his possession or control, including accounts receivable, and execute and deliver all assignments or other instruments necessary or appropriate to effectuate any such disposition. If a liquidating agent is so designated, all assets, books, and records of the market administrator shall be transferred promptly to such liquidating agent. If upon such liquidation, the funds on hand exceed the amounts required to pay outstanding obligations of the office of the market administrator and to pay necessary expenses of liquidation and distribution, such excess shall be distributed to contributing handlers and producers in an equitable manner.

§ 991.94 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions of this subpart.

§ 991.95 *Separability of provisions.* If any provision of this subpart, or its application to any person or circumstances, is held invalid, the application of such provision, and of the remaining provisions of this subpart, to other persons or circumstances shall not be affected thereby.

Issued at Washington, D. C., this 28th day of August 1952, to be effective on and after the 1st day of September 1952.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

TITLE 9—ANIMALS AND ANIMAL PRODUCTS

Chapter I—Bureau of Animal Industry, Department of Agriculture

Subchapter C—Interstate Transportation of Animals and Poultry

[B. A. I. Order 309, Amdt. 11]

PART 76—HOG CHOLERA, SWINE PLAGUE, AND OTHER COMMUNICABLE SWINE DISEASES

CHANGES IN AREAS QUARANTINED BECAUSE OF VESICULAR EXANTHEMA

Pursuant to the authority conferred by sections 1 and 3 of the act of March 3, 1905, as amended (21 U. S. C. 123 and 125), sections 1 and 2 of the act of February 2, 1903, as amended (21 U. S. C. 111 and 120), and section 7 of the act of May 29, 1884, as amended (21 U. S. C. 117), § 76.10 in Part 76 of Title 9, Code of Federal Regulations, containing a notice of the existence in certain areas of the swine disease known as vesicular exanthema and establishing a quarantine because of such disease, is hereby amended to read as follows:

§ 76.10 *Notice and quarantine.* (a) Notice is hereby given that the contagious, infectious, and communicable disease of swine known as vesicular exanthema exists in the following areas:

The State of California;
Cook County in Illinois;
The area within the corporate limits of Kansas City in Wyandotte County in Kansas;
City of Baltimore, in Maryland;
Kaw Township in Jackson County in Missouri;
Ashland, Benson, Florence, Loveland, May, McHugh, Moorhead, Omaha, Ralston, and Union Townships in Douglas County; Platte Township in Dodge County; Alda Township in Hall County; and Richland Township in Sarpy County, in Nebraska;
Burlington, Gloucester, Hudson, Morris, and Ocean Counties in New Jersey;
New York County and Clarkstown Township in Rockland County, in New York;
Townships 1 and 2 North, Range 1 East of Willamette Meridian, in Multnomah County in Oregon;
Lancaster County in Pennsylvania;
That part of Sioux Falls Township in Minnehaha County in South Dakota lying east of U. S. Highway 77 (Cliff Avenue in City of Sioux Falls) and north of U. S. Highway 16 (10th Street in City of Sioux Falls); and
Township 25 North, Range 5 West in King County in Washington.

(b) The Secretary of Agriculture, having determined that swine in the States named in paragraph (a) of this section are affected with the contagious, infectious and communicable disease known as vesicular exanthema and that it is necessary to quarantine the areas specified in paragraph (a) of this section and the following additional areas in such States, in order to prevent the spread of said disease from such States, hereby quarantines the areas specified in paragraph (a) of this section and in addition Bergen, Essex, Hunterdon, and Union Counties in New Jersey.

Effective date. This amendment shall become effective upon issuance.

This amendment includes within the areas in which vesicular exanthema has been found to exist and in which a quarantine has been established, Morris County in New Jersey, City of Baltimore in Maryland, and Lancaster County in Pennsylvania. Hereafter, all of the restrictions of the quarantine and regulations in 9 CFR Part 76, Subpart B, as amended (17 F. R. 7070, 7570) apply with respect to shipments of swine and carcasses, parts and offal of swine from these localities.

The amendment excludes from the areas in which vesicular exanthema has been found to exist and in which a quarantine has been established, Woodbury County in Iowa, Geary County in Kansas, and Sioux Falls Township in Minnehaha County, in South Dakota, except that part of said Township lying east of U. S. Highway 77 (Cliff Avenue in City of Sioux Falls) and north of U. S. Highway 16 (10th Street in City of Sioux Falls). Hereafter, none of the restrictions of the quarantine and regulations in 9 CFR Part 76, Subpart B, as amended (17 F. R. 7070,7570) apply with respect to shipments of swine, and carcasses, parts and offal of swine from these localities.

The foregoing amendment in part relieves restrictions presently imposed and must be made effective immediately to be of maximum benefit to persons subject to such restrictions. In part the amendment imposes further restrictions necessary to prevent the spread of vesicular exanthema, a communicable disease of swine, and to this extent it must be made effective immediately to accomplish its purpose in the public interest. Accordingly, under section 4 of the Administrative Procedure Act (5 U. S. C. 1003) it is found upon good cause that notice and other public procedure with respect to the foregoing amendment are impracticable and contrary to the public interest and good cause is found for making the amendment effective less than 30 days after publication hereof in the FEDERAL REGISTER.

(Secs. 1, 2, 32 Stat. 791, 792, as amended, sec. 3, 33 Stat. 1265, as amended; 21 U. S. C. 111, 120, 125. Interprets or applies sec. 7, 23 Stat. 32, as amended, sec. 1, 33 Stat. 1264, as amended; 21 U. S. C. 117, 123)

Done at Washington, D. C., this 26th day of August 1952.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

Chapter III—Bureau of Foreign and Domestic Commerce, Department of Commerce

Subchapter C—Office of International Trade

[6th Gen. Rev. of Export Regs., Amdt. P. L. 7]

PART 399—POSITIVE LIST OF COMMODITIES AND RELATED MATTERS

REMOVAL OF CONTROLLED MATERIALS DESIGNATION FROM CERTAIN COMMODITIES

Section 399.1 *Appendix A—Positive List of Commodities* is amended in the following particulars:

The letter "C" set forth in the column headed "Commodity Lists" opposite the commodity entries listed below is hereby deleted to indicate that these commodities are no longer "Controlled Materials" as defined in § 398.5. These entries otherwise remain unchanged on the Positive List.

Dept. of Commerce Schedule B No.	Commodity
	Metal powders:
619130	Aluminum or aluminum-bronze powders and pastes (aluminum content)
619230	Foil and leaf (less than 0.006 inch in thickness) (report paper-backed foil in 15600): Aluminum.

This amendment shall became effective as of August 29, 1952.

(Sec. 3, 63 Stat. 7; 65 Stat. 43; 50 U. S. C. App. Sup. 2023. E. O. 9630, Sept. 27, 1945, 10 F. R. 12235, 3 CFR 1945 Supp.; E. O. 9919, Jan. 3, 1948, 13 F. R. 59, 3 CFR 1948 Supp.)

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 5841]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

UNITED STATES NAVY WEEKLY, INC., ET AL.

Subpart—*Advertising falsely or misleadingly:* § 3.15 *Business status, advantages, or connections—Government connection: Government indorsement: Government goods: Size and extent:* § 3.45 *Content;* § 3.85 *Government approval, connections or standards.* Subpart—*Using misleading name—Goods:* § 3.2290 *Government indorsement or connection.* In connection with the solicitation for the sale of advertising space in, or the offering for sale, sale or distribution of respondents' magazine or any other publication in commerce, (1) using the name "United States Navy Magazine" as the title of any publication not officially connected with or sponsored by the United States Navy, or using any other title which falsely represents, directly or by implication, that the publication so entitled is officially connected with or sponsored by the United States Navy; or, (2) representing, directly or by implication, (a) that said publication is officially connected with or sponsored by the United States Navy or the United States Navy Department or any of their branches or divisions; (b) that said publication is owned, edited or published by naval personnel or by anyone acting in other than a civilian capacity; (c) that said publication contains a complete coverage of Navy news from the ships, stations, bases or yards of the United States Navy or from Washington, D. C.; or, (d) that said publication has a national office or an editorial office at any location contrary to the fact; prohibited.

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, United States Navy Weekly, Inc., et al., Philadelphia, Pa., Docket 5841, May 15, 1952]

In the Matter of United States Navy Weekly, Inc., a Corporation, and George L. Carlin and Ray E. Fenstemaker, Individually and as Officers of Said Corporation

Pursuant to the provisions of the Federal Trade Commission Act, the Federal Trade Commission, on January 18, 1951, issued and subsequently served its complaint in this proceeding upon respondents, United States Navy Weekly, Inc., a corporation, and George L. Carlin and Ray E. Fenstemaker, individually and as officers of said respondent corporation, charging them with the use of unfair and deceptive acts and practices in commerce and unfair methods of competition in commerce in violation of the provisions of said act. After the issuance of said complaint and the filing of respondents' answer thereto, hearings were held at which testimony and other evidence in support of and in opposition to the allegations of said complaint were introduced before a hearing examiner of the Commission theretofore duly designated by it, and said testimony and other evidence were duly recorded and filed in the office of the Commission. Thereafter, the proceeding regularly came on for final consideration by said hearing examiner on the complaint, the answer thereto, testimony and other evidence, and proposed findings as to the facts and conclusions presented by counsel, and said hearing examiner, on May 31, 1951, filed his initial decision.

Within the time permitted by the Commission's rules of practice, counsel for respondents filed with the Commission an appeal from said initial decision, and thereafter this proceeding regularly came on for final consideration by the Commission upon the record herein, including briefs in support of and in opposition to said appeal and oral argument of counsel; and the Commission, having issued its order granting said appeal in part and denying it in part and being now fully advised in the premises, finds that this proceeding is in the interest of the public and makes this its findings as to the facts[1] and its conclusion[1] drawn therefrom and order, the same to be in lieu of the initial decision of the hearing examiner.

It is ordered, That the respondent, United States Navy Weekly, Inc., a corporation, and its officers, representatives, agents and employees and the individual respondents, George L. Carlin and Ray Fenstemaker, and their respective representatives, agents and employees, directly or through any corporate or other device, in connection with the solicitation for the sale of advertising space in, or the offering for sale, sale or distribution of respondents' magazine or any other publication in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Using the name "United States Navy Magazine" as the title of any publication not officially connected with or sponsored by the United States Navy, or using any other title which falsely represents, directly or by implication, that the publication so entitled is officially connected with or sponsored by the United States Navy;

2. Representing, directly or by implication:

(a) That said publication is officially connected with or sponsored by the United States Navy or the United States Navy Department or any of their branches or divisions.

(b) That said publication is owned, edited or published by naval personnel or by anyone acting in other than a civilian capacity.

(c) That said publication contains a complete coverage of Navy news from the ships, stations, bases or yards of the United States Navy or from Washington, D. C.

(d) That said publication has a national office or an editorial office at any location contrary to the fact.

It is further ordered, That the respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this order.

Issued: May 15, 1952.

By the Commission.

[SEAL] D. C. DANIEL, *Secretary.*

[Docket 5968]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

PHILIP KREMER ET AL.

Subpart—*Advertising falsely or misleadingly:* § 3.170 *Qualities or properties of product or service:* § 3.195 *Safety:* § 3.205 *Scientific or other relevant facts.* In connection with the offering for sale, sale or distribution in commerce of a rodenticide preparation designated "Zurd" or any other rodenticide preparation of substantially similar composition or possessing substantially similar properties, whether sold under the same name or under any other name or names, representing, directly or by implication, (1) that said rodenticide preparation is 100 percent efficient, that it will kill all rats or all mice on the premises, or that it will achieve complete control of any rat or mouse problem or will prevent reinfestation by such rodents; (2) that according to the U. S. Department of the Interior reports the ingredient Warfarin has been proven to eliminate all rats or all mice on the premises; or, (3) that respondents' said preparation is safe and will not be harmful to humans, pets or domestic animals; prohibited.

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or applies sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, Philip Kremer et al. t. a. The Murd Company, Philadelphia, Pa., Docket 5968, May 8, 1952]

In the Matter of Philip Kremer and Harry Monoker, Co-partners, Trading as The Murd Company

This proceeding was instituted by complaint, which charged respondent with unfair and deceptive acts and practices in commerce and unfair methods of competition therein, within the intent and meaning of the Federal Trade Commission Act.

It was disposed of, as announced by the Commission's "Notice", dated May 15, 1952, through the consent settlement procedure provided in Rule V of the Commission's rules of practice, as follows:

"The consent settlement tendered by the parties in this proceeding, a copy of which is served herewith, was accepted by the Commission on May 8, 1952, and ordered entered of record as the Commission's findings as to the facts, conclusion, and order in disposition of this proceeding.

"The time for filing report of compliance pursuant to the aforesaid order runs from the date of service hereof."

The order thus entered of record, following the findings as to the facts[1] and conclusion,[1] reads as follows:

It is ordered, That respondents Philip Kremer and Harry Monoker, individually and as co-partners trading as The Murd Company, or under any other name or names, their agents, representatives and employees, jointly or severally, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act, of a rodenticide preparation designated "Zurd" or any other rodenticide preparation of substantially similar composition or possessing substantially similar properties, whether sold under the same name or under any other name or names, do forthwith cease and desist from representing directly or by implication:

1. That said rodenticide preparation is 100 percent efficient, that it will kill all rats or all mice on the premises, or that it will achieve complete control of any rat or mouse problem or will prevent reinfestation by such rodents.

2. That according to the U. S. Department of the Interior reports the ingredient Warfarin has been proven to eliminate all rats or all mice on the premises.

3. That respondents' said preparation is safe and will not be harmful to humans, pets or domestic animals.

Issued: May 15, 1952.

By direction of the Commission.

[SEAL] D. C. DANIEL, *Secretary.*

[F. R. Doc. 52-9522; Filed, Aug. 29, 1952; 8:45 a. m.]

TITLE 29—LABOR

Chapter V—Wage and Hour Division, Department of Labor

Subchapter B—Statements of General Policy or Interpretation Not Directly Related to Regulations

PART 780—AGRICULTURE, PROCESSING OF AGRICULTURAL COMMODITIES, AND RELATED SUBJECTS

SUBPART A—GENERAL, AND PROCESSING AGRICULTURAL COMMODITIES

Pursuant to authority under the Fair Labor Standards Act of 1938, as amended, the present § 780.50 is hereby revoked and the following new sections, designated §§ 780.50, 780.51, and 780.52 are issued:

SUBPART A—GENERAL, AND PROCESSING AGRICULTURAL COMMODITIES

Sec.
780.50 Meaning of term "canning."
780.51 First processing under section 7 (c).
780.52 Shelling corn.

AUTHORITY: §§ 780.50 to 780.52 issued under 52 Stat. 1060, as amended; 29 U. S. C. 201-219.

§ 780.50 *Meaning of term "canning."* (a) As used in sections 7 (c) and 13 (a) (10) of the Fair Labor Standards Act (as in sections 13 (a) (5) and 13 (b) (4)), the term "canning" means hermetically sealing and sterilizing or pasteurizing and has reference to a process involving the performance of such operations. Other operations performed in connection therewith as integral parts of a single uninterrupted canning process are included, such as necessary preparatory operations performed on the products before they are placed in bottles, cans, or other containers to be hermetically sealed, as well as the actual placing of the commodities in such containers. Also included are subsequent operations such as the labeling of the cans or other containers and the placing of the sealed containers in cases or boxes whether such subsequent operations are performed as a part of an uninterrupted or interrupted process. The term "canning" does not include the placing of commodities or products in cans or other containers that are not hermetically sealed, nor hermetically sealing where no sterilization or pasteurization is performed, as such operations are "processing" as distinguished from "canning."

(b) This section replaces and supersedes the statement published in the FEDERAL REGISTER November 27, 1947, as § 780.50 of this part and as Release D-162, which is hereby rescinded and withdrawn. All prior interpretations of the meaning of the term "canning" as used in the Fair Labor Standards Act of 1938, as amended, contained in Interpretative Bulletin No. 14, in Release R-1892 dated January 25, 1943, and in any other releases, statements, rulings, or opinion letters issued by the Department of Labor are, to the extent that they are inconsistent or in conflict with paragraph (a) of this section, hereby rescinded and withdrawn.

§ 780.51 *First processing under section 7 (c)—(a) Introductory statement.* In the light of administrative experience and of certain relevant court decisions, the Secretary of Labor and the Administrator of the Wage and Hour and Public Contracts Divisions hereby set forth in this section a modification and clarification of certain interpretations published in Interpretative Bulletin No. 14, in Release R-1892, or in any other statements relating to the "first processing" exemptions provided in section 7 (c) of the Fair Labor Standards Act.

(b) *Perishable commodities—(1) Processing performed in a single place of employment.* An employer who commences processing operations on a perishable commodity to which the exemption in section 7 (c) for first processing applies, is considered engaged in the first processing of the named commodity throughout each series of operations, including byproduct operations, which commence with such initial processing of the named commodity and are performed in the same place of employment as a continuous series of operations during which the commodities remain perishable.[1] Thus, where an employer "first processes" perishable or seasonal fresh fruits or vegetables and after a certain point in the operations the processing line divides so that different portions of the material being worked on may be processed into different products or byproducts, his employees who continue to process such different portions into the respective products or byproducts will be considered engaged in the first processing of the perishable or seasonal fresh fruits or vegetables: *Provided*, That all the operations take place in the same place of employment and are part of a continuous series of operations throughout which the commodities being worked on remain perishable. For example, where an apple processor starts with whole apples which he peels and cores, and continues to process the main portions on one production line and the peelings and cores on another to produce pomace, first processing includes not only the primary operations on the whole apples and the main portions but also the byproduct operations, provided each series of processing operations is performed in the same place of employment as a continuous series of operations commencing with the peeling and coring of the whole apples. Similarly, where a citrus fruit canner or processor makes cattle feed and molasses from citrus waste as a part of a continuous series of operations beginning with the fresh fruit, the section 7 (c) exemption applies where both the primary operations on the edible fruit and the cattle feed and molasses operations take place in the same place of employment. The applicability of the section 7 (c) exemption to such byproduct operations of a canner of perishable or seasonal fresh fruits or vegetables does not mean that operations performed on the "waste" portions after removal of the main portions of the fruit are exempt as part of "canning"; the basis of the exemption is that the byproduct operations, performed as a continuous series of operations commencing with separation of the portions of the whole fruit, constitute "first processing" of the fresh fruit within the meaning of section 7 (c). The fact that the initial processing operation on the whole fruit is also a part of the canning" process performed on the main portions does not affect this result.

(2) *Processing performed in more than one place of employment.* Where first processing operations are performed at one place of employment on a commodity named in section 7 (c), and further processing operations on the processed commodity are then performed at another place of employment, such further processing operations are not part of the "first processing" of the named commodity which commenced at the first place of employment, but comprise a separate process.[2] Thus, where a processor makes pomace from apple peels and cores in a place of employment other than the place where the processor starts with whole apples, or where the processor purchases apple peels and cores from others, the section 7 (c) exemption will not be applicable to his employees en-

[1] McComb v. C. H. Musselman & Co., 74 F. Supp. 185, affirmed 167 F. 2d 918; Sugar Creek Creamery Co. v. Walker, 187 S. W. 2d 178 (Sup. Ct. Ark.); Shain v. Armour & Co., 50 F. Supp. 907 (W. D. Ky.); Walling v. Bridgeman-Russell Co., 2 W. H. Cases 785 (D. Minn.).

[2] Walling v. Bridgeman-Russell Co., 2 W. H. Cases 785; Shain v. Armour & Co., 50 F. Supp. 207; Abram v. San Joaquin Cotton Oil Co., 46 F. Supp. 969. See also Sugar Creek Creamery Co. v. Walker, 187 S. W. 2d 178 (Ark. Sup. Ct.). Contra, McComb v. Hunt Foods, 167 F. 2d 905 (this opinion does not appear to be in accord with the general principles applicable to construction of exemptions under the Fair Labor Standards Act).

gaged in the operations on these peels and cores. Similarly, where citrus waste is processed in a place of employment other than the one where the fresh fruit is processed, or where citrus waste is purchased, the processing of the waste is not within the section 7 (c) exemption. However, such separate processing performed in a second place of employment, viewed separately, can be exempt "first processing" but only if the operations in the second place of employment are themselves "first processing" of a commodity named in section 7 (c). Illustrative of this principle is the situation where a processor is engaged in separating milk, a named commodity, into skimmed milk and cream in one place of employment and is engaged in making powdered milk from such skimmed milk, also a named commodity, in another place of employment. (See also subparagraph (3) of this paragraph.)

(3) *Edible portions of fresh fruits or vegetables.* The edible portions of fresh fruits or vegetables are considered to be fresh fruits or vegetables for purposes of section 7 (c), even though they have been subjected to an operation such as peeling, shelling, coring, or slicing so long as the whole fruit or vegetable or any severed parts thereof remain raw, perishable and recognizable in the common understanding as fresh fruits or vegetables. If a whole fresh fruit or vegetable has been thus processed in one establishment, the peeling, shelling, coring or slicing will be considered a "first processing" operation. If the peeled, shelled, cored or sliced portions of the fresh fruit or vegetable, which are raw, perishable and recognizable in the common understanding as fresh fruits or vegetables, are then shipped to another establishment, these edible portions will be considered to be "fresh fruits or vegetables" and may themselves be "first processed" in the second establishment. On the other hand, if peels, shells, or cores produced by the processing operations in the first establishment are shipped to another establishment, processing operations performed in the second establishment on these peels, shells and cores will not be considered first processing operations on "fresh fruits or vegetables" and will not be exempt under section 7 (c). (See subparagraph (2) of this paragraph.) Such byproduct operations, which are performed at a place of employment other than the one where the "first processing" of the fresh fruit or vegetable takes place, are not considered within the scope of the exemption.

For example, where peas are shelled (vined) or green beans are trimmed and cut into pieces in one establishment, and the raw peas or beans sent to another establishment for freezing, the exemption can apply to the freezing operations in the second establishment as well as to the operations in the first establishment.

(c) *Nonperishable commodities.* The principles stated in subparagraphs (1) and (2) of paragraph (b) will apply, with appropriate adaptation, to the first processing of other agricultural or horticultural commodities referred to in section 7 (c), regardless of whether they are perishable. This means that the "first processing" of such a commodity will include operations on either a main or a branch processing line, with respect to either a primary product or a by-product (up to the end point for exempt first processing of such commodity), provided such operations are part of a continuous series of operations starting with the initial processing operation on the named commodity and are all performed in the same place of employment.

(d) *Earlier interpretations superseded.* To the extent that prior general or specific interpretations contained in Interpretative Bulletin No. 14, in releases, in opinion letters, or in other statements issued with respect to the meaning and application of "first processing" under section 7 (c) of the Fair Labor Standards Act of 1938, as amended, are inconsistent with the principles above stated, they are rescinded and withdrawn.

§ 780.52 *Shelling corn.* (a) The shelling of corn constitutes "preparing in their raw or natural state" within the meaning of section 13 (a) (10) and not "first processing" within the meaning of section 7 (c).

(b) Shelled corn is an agricultural commodity for the purpose of section 13 (a) (10) and section 7 (c), no matter where it is shelled.

(c) The "corn" referred to in this section is corn such as is used for feed, seed, or industrial uses, the kernels of which are in the hard or dry state, as distinguished from corn harvested as a perishable fresh vegetable while the kernels are soft, to be prepared for human consumption as "corn on the cob" or as canned or frozen corn.

(d) All prior interpretations concerning the shelling of corn under the Fair Labor Standards Act of 1938, as amended, contained in Interpretative Bulletin No. 14, dated December 1940, and in any other releases, statements, rulings or opinion letters issued by the Department of Labor are, to the extent that they are inconsistent or in conflict with paragraphs (a), (b), and (c) of this section, hereby rescinded and withdrawn.

Signed at Washington, D. C., this 26th day of August, 1952.

F. GRANVILLE GRIMES, Jr.,
Acting Administrator,
Wage and Hour Division.

[F. R. Doc. 52-9520; Filed, Aug. 29, 1952; 8:45 a. m.]

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter III—Office of Price Stabilization, Economic Stabilization Agency

[Ceiling Price Regulation 7, Amdt. 3 to Supplementary Regulation 4]

CPR 7—RETAIL CEILING PRICES FOR CERTAIN CONSUMER GOODS

SR 4—UNIFORM CEILING PRICES FOR BRANDED ARTICLES

EXCEPTION FOR EXPIRATION OF ORDER DATES

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2 (16 F. R. 738), this amendment to Supplementary Regulation 4 to Ceiling Price Regulation 7 is issued.

STATEMENT OF CONSIDERATIONS

This amendment creates an exception to the provisions of section 10 of Supplementary Regulation 4 to Ceiling Price Regulation 7 under which special orders which were issued to manufacturers under section 43 of Ceiling Price Regulation 7 expire on certain specified dates, if they do not terminate earlier by authorizations becoming effective under SR 4 to CPR 7.

In the case of a manufacturer who distributed his product exclusively through wholesalers at the time his section 43 order was issued, but who now distributes directly to the retailer, the regulation in most cases does not presently permit continuation of uniform pricing at retail. Therefore, while the Office of Price Stabilization develops an appropriate method to remedy this situation, this amendment is necessary in order to leave in effect such manufacturers' orders which might otherwise lapse before their customary method of uniform retail pricing could be continued.

In view of the remedial nature of this amendment, special circumstances have rendered consultation with industry representatives, including trade association representatives, impracticable.

AMENDATORY PROVISIONS

Section 10 of Supplementary Regulation 4 to Ceiling Price Regulation 7 is amended to read as follows:

SEC. 10. *Orders under section 43 of Ceiling Price Regulation 7—(a) Expiration of orders.* (1) Except as provided in subparagraph (2), each special order issued to a manufacturer or wholesaler and in effect under section 43 of Ceiling Price Regulation 7 (including orders amended as provided in paragraph (c) of this section) shall continue in effect but shall expire and be deemed revoked on the date uniform ceiling prices for any of his articles covered by that order are authorized under this supplementary regulation or on the following applicable date, whichever is earlier:

For orders numbered—	*Expiration date is—*
1 through 205	Sept. 1, 1952
206 through 599	Oct. 15, 1952
600 and following	Nov. 15, 1952

(2) No special order issued under section 43 to CPR 7 to a manufacturer who at the time of its issuance distributed his branded articles exclusively through wholesalers, but who at the time of his application for an authorization under SR 4 to CPR 7 distributed them directly to retailers, shall expire or be deemed revoked until 60 days after the applicable termination date provided above (unless terminated by the manufacturer's authorization becoming effective under SR 4 to CPR 7): *Provided, however,* That such manufacturer has applied for uniform retail ceiling prices for his branded articles under SR 4 to CPR 7 before his special order under section 43 to CPR 7 expires.

Within 10 days after September 1, 1952, or the date of the acknowledgment by the OPS of the manufacturer's application under SR 4 to CPR 7, whichever is later, a manufacturer covered by this subparagraph must:

(i) Send to each of his retailers who received a copy of his special order under section 43 of CPR 7, a notice of the date until which his special order remains in effect (unless terminated by an authorization becoming effective under SR 4 to CPR 7);

(ii) Send a notice to the Distribution Branch of the OPS, Washington 25, D. C., stating that he falls within the exception of this subparagraph.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment is effective August 29, 1952.

NOTE: The reporting requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

JOSEPH H. FREEHILL,
Acting Director of Price Stabilization.

AUGUST 29, 1952.

[F. R. Doc. 52-9635; Filed, Aug. 29, 1952; 12:00 m.]

[Ceiling Price Regulation 24, Interpretation 2]

CPR 24—CEILING PRICES OF BEEF SOLD AT WHOLESALE

INT. 2—BEEF CUTS NOT PREPARED IN ACCORDANCE WITH THE DEFINITIONS OF CPR 24 (SEC. 11 (b))

A meat processor inquires whether under Ceiling Price Regulation 24 cuts specifically defined in that regulation may be further fabricated by him, if the wholesaler or retailer so requests, provided that no additional charge is made for this service, that all parts of the meat originally cut are delivered to the wholesaler or retailer, and that the product is billed on the basis of the original weight and the original cut.

In preparing Ceiling Price Regulation 24, it was necessary to prescribe standards for cutting and fabricating. These uniform standards were deemed necessary for effective administration of the regulation. Permission for further fabrication without additional charge to the buyer would open the door to evasion of the regulation, and create practical difficulties of enforcement. The uniform standards of fabrication established in CPR 24 conform to those generally in use in the beef packing business, and there is no practical alternative to such standardization.

For these reasons, the provisions of section 11 (b) were included in CPR 24 specifically to provide that no beef cut may be sold under that regulation except where prepared in accordance with the definitions in that regulation.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

HERBERT N. MALETZ,
Chief Counsel,
Office of Price Stabilization.

AUGUST 29, 1952.

[F. R. Doc. 52-9636; Filed, Aug. 29, 1952; 12:01 p. m.]

[General Ceiling Price Regulation, Supplementary Regulation 63, Area Milk Price Regulation 32]

GCPR, SR 63—AREA MILK PRICE ADJUSTMENTS

AMPR 32—WAUKEGAN MILK MARKETING AREA, STATE OF ILLINOIS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2 (16 F. R. 738), and Delegation of Authority No. 41 (16 F. R. 12679), this Area Milk Price Regulation, pursuant to Supplementary Regulation 63 to the General Ceiling Price Regulation (16 F. R. 9559), is hereby issued.

STATEMENT OF CONSIDERATIONS

Supplementary Regulation 63 to the General Ceiling Price Regulation authorizes the issuance of an area milk price regulation. In such a regulation, ceiling prices are to be determined by adding to the January 1–June 30, 1950, selling prices the cost increases incurred between that period and a current period for plant wages, delivery wages, cans, cases and containers and raw milk.

Two large dairies representing about 60 percent of the Waukegan dairy volume have filed petitions with this office requesting the issuance of such a regulation for the Waukegan marketing area. In addition, the Accounting Division of this office has procured data from two small dairies which also serve this territory. March 1952 was selected as the current period for all firms. The information obtained from these firms indicates that the Waukegan dairies are entitled to an increase of one-half cent per sales point over the ceiling prices now in effect. The regulation does not provide, however, for a processor to take this increase on sales to distributors (i. e., vendors). Data was not submitted to support such an increase. The half-cent increase may be taken on sales by distributors.

The ceiling prices of processors are geared to the fluctuations in the producer prices. If the producer prices rise, processors may increase their ceiling prices; if producer prices fall, they must reduce their ceiling prices. The producer prices for March 1952 are adopted as the basis for such ceiling price changes. Distributors and operators of retail stores are permitted to increase, and are required to decrease, their ceiling prices where a change in cost to them is due to the above provisions.

In the judgment of the Regional Director of the Office of Price Stabilization, the provisions of this Area Milk Price Regulation No. 32 in Region VII are generally fair and equitable and are necessary to effectuate the purpose of Title IV of the Defense Production Act of 1950, as amended.

The Regional Director of the Office of Price Stabilization gave due consideration to the National effort to achieve the maximum production in furtherance of the objectives of the Defense Production Act of 1950, as amended; to prices prevailing during the period from May 24, 1950, to June 24, 1950, inclusive; and to all relevant factors of general applicability. The Director has consulted the industry involved to the fullest extent practicable and has given due consideration to its recommendation.

REGULATORY PROVISIONS

Sec.
1. What this area milk price regulation does.
2. Where this area milk price regulation applies.
3. Sales and sellers covered.
4. Ceiling prices for milk products for fluid consumption.
5. Initial reporting requirements.
6. Ceiling prices for milk products for which ceiling prices cannot be determined under section 4.
7. Specified producer prices; parity; adjustments for processors; reporting requirements.
8. Rounding of fractions.
9. Modification of proposed ceiling prices.
10. Reference to the General Ceiling Price Regulation.
11. Prohibitions.
12. Parity adjustments for distributor and retail stores.

AUTHORITY: Sections 1 to 12 issued under sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154. Interpret or apply Title IV, 64 Stat. 803, as amended; 50 U. S. C. App. Sup. 2101–2110. E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR 1950 Supp.

SECTION 1. *What this area milk price regulation does.* This area milk price regulation issued under the authority of Supplementary Regulation 63 to the General Ceiling Price Regulation establishes ceiling prices for sales of delivery of "milk products for fluid consumption" (as that term is defined in section 11 of Supplementary Regulation 63) in the Waukegan Milk Marketing Area.

SEC. 2. *Where this area milk price regulation applies.* This area milk price regulation applies to sales or deliveries of milk products for fluid consumption in Lake County (except for the townships of Libertyville, Shields, Vernon, West Deerfield, and Deerfield); Dundee Township in Kane County; and Richmond, Burton, Greenwood, McHenry, Dorr, Nunda, Grafton and Algonquin Townships in McHenry County, all in the State of Illinois.

SEC. 3. *Sales and sellers covered.* This area milk price regulation covers all sales of milk products for fluid consumption by processors, distributors (i. e. vendors) and operators of retail stores, except that it does not cover sales by operators of retail stores of packaged cottage, pot and baker's cheese, and sales by operators of receiving plants. Ceiling prices for sales of packaged cottage, pot and baker's cheese by operators of retail stores shall continue to be subject to Ceiling Price Regulations 15 and 16. Definitions of many of these terms are contained in Supplementary Regulation 63.

SEC. 4. *Ceiling prices for milk products for fluid consumption.* Your ceiling prices for any milk product for fluid consumption shall be your ceiling price determined under the provisions of the General Ceiling Price Regulation and in effect on the day preceding the effective date of this regulation, plus (except for sales to distributors) one-half cent per sales point. Your ceiling price for any milk product for fluid consumption sold to distributors shall be your ceiling price determined under the provisions of the

General Ceiling Price Regulation and in effect on the day preceding the effective date of this regulation.

The following categories shall be considered one sales point for the specified container size. To determine the sales point value for a container of another size in any category, divide the contents of that container size by the contents of the container size in the same category specified in this section:

(a) One quart of each milk product for fluid consumption except as specified in the remaining paragraphs of this section.

(b) One-half pint of cream containing over 15 percent butterfat.

(c) One pint of cream containing between 10 percent and 15 percent of butterfat.

(d) Sixteen ounces of cottage cheese.

(e) Sixteen ounces or one pint of specialty products such as yogurt.

SEC. 5. *Initial reporting requirements.* (a) You shall report the ceiling prices resulting from the application of section 4 to the Regional Office of the Office of Price Stabilization, 9 West Washington Street, Chicago 2, Illinois, by registered mail, return receipt requested, within 5 days after the effective date of this regulation. The report shall be filed on OPS Public Form 124.

(b) Your price lists in effect during any part or all of the General Ceiling Price Regulation base period, including the time during which they were in effect, must accompany the report, unless you have previously mailed such price lists by registered mail to the Director who is issuing this regulation. You shall not sell at the ceiling prices computed pursuant to section 4 until the Office of Price Stabilization has received the report required by this paragraph as shown by your return postal receipt.

(c) In column (a) of OPS Public Form 124 the description of the product must include the butterfat content. In column (f) the ceiling price shown shall be your ceiling price determined under the General Ceiling Price Regulation and in effect on the day preceding the effective date of this regulation. In column (g) the uniform adjustment shall be the amount of the increases specified in section 4 for those products the ceiling prices of which are increased. All the other portions of OPS Public Form 124 shall be filled in as indicated by the form.

SEC. 6. *Ceiling prices for milk products for which ceiling prices cannot be determined under section 4.* If you cannot determine a ceiling price for a product being sold by you under the provisions of section 4 of this regulation, you may apply to the Regional Director of the Office of Price Stabilization, 9 West Washington Street, Chicago 2, Illinois, for the establishment of a ceiling price for that product in line with the other ceiling prices established by this regulation. Your application should contain:

(a) The name and address of your company;

(b) A complete description of the item being priced including the butterfat content;

(c) A description and the ceiling price of the most comparable commodity dealt in by you during the period between December 19, 1950, and the effective date of this area milk price regulation;

(d) An explanation as to why you are unable to determine a ceiling price under section 4 of this regulation;

(e) The types of customers to whom you will be selling;

(f) Your proposed ceiling price and the method used by you to determine it and the reason you believe the proposed price is in line with the level of ceiling prices otherwise established by this regulation.

If the Regional Director is satisfied that he has sufficient information upon which to base a ceiling price, he will, within a reasonable time, issue a letter order establishing your ceiling prices for all proposed sales of the milk products for fluid consumption being priced.

SEC. 7. *Specified producer prices; parity adjustments for processors; reporting requirements.* (a) The prices set forth in this regulation are predicated upon a producer paying price (exclusive of premiums and handling charges) of $4.984 per hundredweight for 3.5 percent Grade A Class I milk in the 55–70 mile zone, and of $4.684 per hundredweight for 3.5 percent Grade A Class II milk in the 55–70 mile zone, as these terms are defined in the order relating to the Chicago, Illinois, Milk Marketing Area (Order 41) (16 F. R. 6348), as amended. These producer prices are the specified producer prices to be used as a basis for computing the parity adjustment in ceiling prices under section 8 of Supplementary Regulation 63. In determining the ceiling prices under this area milk price regulation, consideration has been given to all available information as to increases and decreases from the January 1 through June 30, 1950 base period to the current period of March 1952, relating to premiums, hauling charges, Milk Administrator's charges and handling charges. No increases or decreases in premiums or in handling charges shall be taken into account in computing increases or decreases permitted or required under section 8 of Supplementary Regulation 63. Increases to and decreases from the specified producer price shall be governed solely by the monthly official price announcement made by the Market Administrator under §§ 941.51 and 941.52 of the order relating to the Chicago, Illinois, Milk Marketing Area (16 F. R. 6348) as amended.

(b) (1) In any month in which the official producer price announcement requires a decrease in your ceiling prices, you must put such decreases into effect no later than the 7th day of the month. In any month in which the official price announcement permits an increase in your ceiling prices, you may not put such increases into effect prior to the 7th day of the month.

(2) In making price increases or decreases on products which contain more or less than 3.5 percent butterfat, you must make appropriate allowance for the value of the butterfat and skim milk in the product.

(c) Prior to charging any increased prices permitted under section 8 of Supplementary Regulation 63, you must file with the Regional Director of the Office of Price Stabilization, 9 West Washington Street, Chicago 2, Illinois, a report including the following information:

(1) The name and description of the product being priced;

(2) The container size of the product;

(3) The butterfat content of the product;

(4) Your proposed ceiling price for the product.

If you are required to decrease your ceiling prices as a result of the operation of section 8 of Supplementary Regulation 63, you must file a report containing the information requested in the preceding paragraph within five days after you are required to make the decreases.

SEC. 8. *Rounding of fractions.* (a) If in computing an adjusted ceiling price under section 7 you arrive at a unit price involving a fraction of a cent, you must round the price in accordance with section 8 (b) of Supplementary Regulation 63 to the General Ceiling Price Regulation.

(b) If you sell at one time a single unit of a product covered by this regulation, a fraction of a cent shall be dropped if less than one-half cent and may be increased to the nearest higher cent if one-half cent or more. If you sell at one time more than one unit of a product covered by this regulation, the maximum sum due shall be figured by adding the ceiling prices including fractions of a cent of each unit sold. If the maximum sum contains a fraction of a cent, it shall be dropped if less than one-half cent and may be increased to the nearest higher cent if one-half cent or more.

(c) If you have customarily billed any purchaser or any class of purchasers for items covered by this regulation on a monthly (or other billing period) basis, you must continue to do so, and the maximum amount due must be figured under paragraph (b) of this section as though all sales for the month (or other billing period) had been made at one time.

SEC. 9. *Modification of proposed ceiling prices.* The Regional Director may at any time revoke, disapprove or revise ceiling prices reported under section 5 or established by him under section 6 of this regulation.

SEC. 10. *Reference to the General Ceiling Price Regulation.* Except insofar as inconsistent with the provisions of this area milk price regulation all sections of the General Ceiling Price Regulation as amended and supplemented including, but not restricted to, sections 15, 16, 17 and 19 are incorporated in and made a part of this area milk price regulation as though fully recited herein.

SEC. 11. *Prohibitions.* After the effective date of this area milk price regulation, regardless of any contract or other obligation, you shall not sell and you shall not buy in the regular course of business or trade, any milk product for fluid consumption at a price exceeding the ceiling price established by this regulation.

SEC. 12. *Parity adjustments for distributors and retail stores.* (a) This section applies to you only if (1) you are a distributor of an item of a milk product or an operator of a retail store who sells an item of a milk product; (2) the cost to you of a current customary purchase of the item differs from the highest ceiling price applicable to sales of that item to you from a customary source of supply on the day preceding the effective date of this regulation; and (3) the change in the cost to you is due to the operation of the provisions of section 7 of this area milk price regulation relating to parity adjustments for processors.

(b) In such case, on the first day following the effective change in your cost, you may increase and you must decrease your ceiling prices in effect on the day preceding the effective date of the regulation, by the dollars-and-cents difference per item in these costs.

Effective date. This area milk price regulation under Supplementary Regulation 63 to the General Ceiling Price Regulation shall become effective August 29, 1952.

NOTE: The reporting requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

LELAND J. ANDERECK,
Acting Regional Director,
Office of Price Stabilization.

AUGUST 29, 1952.

[F. R. Doc. 52-9637; Filed, Aug. 29, 1952; 12:01 p. m.]

[General Overriding Regulation 23, Amdt. 5]

GOR 23—TERRITORIAL EXEMPTIONS

SUSPENSION OF PRICE CONTROLS IN GUAM

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment 5 to General Overriding Regulation 23 is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment to General Overriding Regulation 23 suspends price control in Guam.

Recent reports from the Territorial Staff in Guam indicate the economy of that island is now reasonably stable. Since a preponderance of sales to civilians in Guam are from Armed Forces Canteens, Commissaries, and post exchanges this stability may be expected to continue.

The recent congressional action in drastically reducing the Office of Price Stabilization appropriation makes it impossible to maintain a staff in Guam sufficiently large to provide adequate enforcement of OPS regulations or to assure the continuing administration of generally fair and equitable regulations as applied to this area. Continuation of controls in the face of this reduction in staff would result in hardship to consumers and businessmen alike.

Suspension rather than decontrol is recommended since it is believed that the latter action, in the climate of rising costs, might upset the stabilizing influence which has been exercised by the territorial operation on the island, and, in the event of any sharp price upturn over the period of the next few months, could lead to inflationary markups and prices charged by civilian distributors, service establishments and restaurants. Should it appear, following suspension, that inflationary forces are again disturbing the stability of the economy, thought will be given to the restoration of controls.

To assist in the maintenance of a stabilized economy on Guam a small territorial staff operating as an arm of the Director of Region 14 will be retained. It will continue to meet with the industry advisory committees and consumer groups to report regularly to the Regional Office on price pressures and fluctuations and to operate, within the framework of the act, a moderate program of voluntary controls.

Because of the nature of this action consultation with industries affected, including trade association representatives, has been impractical. The OPS, however, has consulted with the Office of Territories in the Department of the Interior concerning this matter and has given full consideration to the recommendations of that office.

AMENDATORY PROVISIONS

1. A new article, Article 4—Suspensions, is added to General Overriding Regulation 23, as follows:

ARTICLE 4—SUSPENSIONS

SEC. 4.1. *Guam.* The application to Guam, of any ceiling price regulation heretofore or hereafter issued, is suspended until further notice by the Director of Price Stabilization. Persons in Guam who were required by any regulation heretofore issued to keep, prepare, or preserve any records shall continue to preserve and make available for examination by the Office of Price Stabilization, in the manner and for the period set forth in the regulation all such records which they were required to have on August 31, 1952.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This Amendment 5 to General Overriding Regulation 23 is effective September 2, 1952.

ELLIS ARNALL,
Director of Price Stabilization.

AUGUST 29, 1952.

Chapter VI—National Production Authority, Department of Commerce

[CMP Regulation No. 1, Direction 19, as amended August 28, 1952]

CMP REG. 1—BASIC RULES OF THE CONTROLLED MATERIALS PLAN

DIR. 19—EX-ALLOTMENT ACQUISITION AND USE OF CARBON CONVERSION STEEL

This amended direction under CMP Regulation No. 1 is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950, as amended. In the formulation of this amended direction, consultation with industry representatives has been rendered impracticable due to the need for immediate action and because the direction affects many different industries.

This amendment affects Direction 19 to CMP Regulation No. 1 by amending sections 2, 3, 4, and 6 thereof. As so amended, Direction 19 to CMP Regulation No. 1 reads as follows:

REGULATORY PROVISIONS

Sec.
1. What this direction does.
2. Definitions.
3. Acquisition and use without submitting application.
4. Acquisition and use pursuant to application submitted and approved.
5. Orders for carbon conversion steel.
6. Transfer of carbon conversion steel.
7. Applicability of other regulations and orders.

AUTHORITY: Sections 1 to 7 issued under sec. 704, 64 Stat. 816, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2154. Interpret or apply sec. 101, 64 Stat. 799, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2071; sec. 101, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.; sec. 2, E. O. 10200, Jan. 3, 1951, 16 F. R. 61; 3 CFR 1951 Supp.; secs. 402, 405, E. O. 10281, Aug. 28, 1951, 16 F. R. 8789; 3 CFR 1951 Supp.

SECTION 1. *What this direction does.* This direction establishes a procedure by which persons with authorized production schedules for the manufacture of Class A and B products containing steel may obtain quantities of carbon conversion steel without charging allotment authority received under the Controlled Materials Plan. This procedure is designed to limit the use of the additional authority granted herein to situations where such carbon conversion steel will be produced in excess of the supply of carbon steel available for delivery against other orders.

SEC. 2. *Definitions.* As used in this direction:

(a) "Finished carbon conversion steel" means carbon steel in the forms and shapes indicated in Schedule I of CMP Regulation No. 1, which has been obtained by a person in consequence of such person or some other person having furnished, directly or indirectly, to one or more steel producers or converters, semifinished carbon conversion steel (which is carbon steel in a less-finished form such as, but not limited to, ingots, blooms, billets, slabs, rods, skelp, and hot-rolled sheets in coils) for the express purpose of having such semifinished carbon conversion steel processed into another form indicated in Schedule I of CMP Regulation No. 1.

(b) "Product class" means a product class code as shown in the Official CMP Class B Product List.

SEC. 3. *Acquisition and use without submitting application.* Any producer of Class B products may, by self-authorization and without charging any allotment, order up to 500 tons of finished carbon conversion steel per calendar quarter for delivery during the third and fourth calendar quarters of 1952 and the first calendar quarter of 1953 with re-

spect to each product class for which he has received or hereafter receives one or more authorized production schedules and related allotments of carbon steel. He may use any finished carbon conversion steel so acquired to increase such authorized production schedule or schedules: *Provided, however,* That if any such authorized production schedule contains a specific limitation on the number of units which may be produced, he may not exceed that unit limitation. A producer of Class B products shall submit an application in accordance with the provisions of section 4 of this direction for any calendar quarter and product class in which his requirements for delivery of finished carbon conversion steel exceed 500 tons.

SEC. 4. *Acquisition and use pursuant to application submitted and approved.* (a) Any producer of Class A products who desires to order finished carbon conversion steel for delivery during the third or fourth calendar quarters of 1952 or the first calendar quarter of 1953, without charging an allotment, shall submit an application to NPA in acordance with the provisions of paragraph (c) of this section: *Provided, however,* That no such producer shall request authorization to order for delivery during the third calendar quarter of 1952 with respect to any authorized production schedule, without charging the related allotment, a quantity of finished carbon conversion steel which exceeds 20 percent of his related allotment of carbon steel for such schedule: *And provided further,* That no such producer shall request authorization to order for delivery during the fourth calendar quarter of 1952 or the first calendar quarter of 1953 with respect to any authorized production schedule, without charging the related allotment, a quantity of finished carbon conversion steel which exceeds 40 percent of his related allotment of carbon steel for such schedule.

(b) Any producer of Class B products who desires to order more than 500 tons of finished carbon conversion steel with respect to any product class for delivery during the third or fourth calendar quarters of 1952 or the first calendar quarter of 1953, without charging an allotment, shall submit an application to NPA in accordance with the provisions of paragraph (c) of this section for authorization to order finished carbon conversion steel with respect to such product class for delivery during such calendar quarter: *Provided, however,* That no such producer shall request authorization to order for delivery during the third calendar quarter of 1952 with respect to any product class, without charging an allotment, a quantity of finished carbon conversion steel which exceeds 20 percent of his total net allotment of carbon steel for such product class for the third calendar quarter of 1952: *And provided further,* That no such producer shall request authorization to order for delivery during the fourth calendar quarter of 1952 or the first calendar quarter of 1953 with respect to any product class, without charging an allotment, a quantity of finished carbon conversion steel which exceeds 40 percent of his total net allotment of carbon steel for such product class for the third calendar quarter of 1952.

(c) Each application filed pursuant to paragraphs (a) or (b) of this section shall be submitted by letter in triplicate to the Iron and Steel Division, National Production Authority, Washington 25, D. C., Ref: Direction 19 to CMP Regulation No. 1. Each application shall set forth the following facts:

(1) The name and address of the plant of the supplier of semifinished carbon conversion steel.

(2) For each such plant, a description of the semifinished carbon conversion steel product (ingot, billet, bloom, slab, etc.).

(3) For each such product, the tonnage by months of shipment.

(4) For each such product, the name and address of each plant providing a finishing facility in the conversion process.

(5) For each such plant (finishing facility) a description of the carbon steel product to be produced in the forms and shapes indicated in Schedule I of CMP Regulation No. 1.

(6) For each such carbon steel product, the tonnage by months of shipment.

(d) NPA will issue authorizations to acquire and use carbon conversion steel pursuant to applications submitted in accordance with the provisions of this section. Any person who receives such an authorization may, subject to the terms and conditions of such authorization, acquire finished carbon conversion steel in the quantities indicated without charging his allotment authority and use such steel to increase his authorized production schedule: *Provided, however,* That no person who has received an authorized production schedule for a Class B product or products which contains a specific limitation on the number of units which may be produced, shall exceed such unit limitation. In appropriate cases NPA may, in such authorization, specify restrictions upon the use of the related allotment authority to prevent increases in demand for certain forms and shapes of carbon steel which are in short supply.

SEC. 5. *Orders for carbon conversion steel.* (a) Any person who is authorized to acquire and use finished carbon conversion steel pursuant to section 3 or section 4 of this direction, may place authorized controlled material orders, without charging his allotment, for such finished carbon conversion steel with the finished conversion steel producer, and such producer may accept and fill such orders if they will not interfere with production and other directives which may be issued from time to time to such steel producer by NPA, or with the acceptance and filling of orders which such steel producer is required to accept pursuant to any regulation or order of NPA. The person ordering such steel shall make his own arrangements for obtaining the semifinished carbon conversion steel with the original ingot producer, or the finished conversion steel producer. In arranging to purchase the semifinished carbon conversion steel from an original ingot producer or an intermediate producer, such person shall furnish to such original ingot producer or intermediate producer a certification in the following form:

Certified under Direction 19 to CMP Regulation No. 1

which shall be signed as provided in section 8 of NPA Reg. 2. The certification shall constitute a representation to the original ingot producer or intermediate producer and to NPA that such person is authorized to place such order under the provisions of this direction to obtain the quantity of semifinished conversion steel covered by the delivery order, for conversion into finished conversion steel, and that he will furnish an authorized controlled material order to the finished conversion steel producer. Notwithstanding the provisions of any NPA regulation or order, a producer of semifinished carbon conversion steel may deliver semifinished carbon conversion steel pursuant to such a certification: *Provided, however,* That such delivery shall not interfere with production and other directives which may be issued from time to time to such steel producer by NPA, or with delivery on orders which such steel producer is required to accept pursuant to any regulation or order of NPA.

(b) An authorized controlled material order placed pursuant to the provisions of paragraph (a) of this section shall contain the same allotment symbol which identifies the allotment that accompanies the authorized production schedule in which the finished carbon conversion steel will be used.

SEC. 6. *Transfer of carbon conversion steel.* (a) In addition to increasing his own authorized production schedule, a person who is entitled to order, who has ordered, or who has received delivery of, finished carbon conversion steel pursuant to the provisions of this direction, may direct the delivery of all or part of such steel to a producer of Class A products to whom he has given an authorized production schedule. A person who so directs delivery of a quantity of finished carbon conversion steel to a producer of Class A products must charge such quantity against the total quantity of such steel which he is entitled to order. A producer of Class A products who receives such steel from his customer may use it to fulfill the authorized production schedule which he has received from that customer or to replace in inventory material used to fulfill such schedule. If such a producer has received authorization from NPA pursuant to section 4 of this direction to order finished carbon conversion steel with respect to such schedule, he must charge the quantity of such steel which he receives from his customer against the quantity which he was authorized to order with respect to such schedule.

(b) If it develops after a person has received delivery of finished carbon conversion steel pursuant to the provisions of this direction that he cannot use such steel for a purpose permitted by this direction, he shall not use or dispose of it except as provided in paragraph (a) of this section or in section 17 (d) of CMP Regulation No. 1.

SEC. 7. *Applicability of other regulations and orders.* The provisions of CMP Regulation No. 1, including the directions and amendments thereto, and of any other NPA regulation and order heretofore issued, are superseded to the extent to which they are inconsistent with the provisions of this direction. A user of controlled material may accept delivery of finished carbon conversion steel acquired pursuant to the provisions of this direction without regard to the inventory provisions of CMP Regulation No. 2, and need not include such steel in computing his inventory for purposes of that regulation. In all other respects, the provisions of all NPA regulations and orders heretofore issued shall remain in full force and effect.

NOTE: All reporting and record-keeping requirements of this direction have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

This direction as amended shall take effect August 28, 1952.

NATIONAL PRODUCTION AUTHORITY,
By JOHN B. OLVERSON,
Recording Secretary.

[F. R. Doc. 52-9608; Filed, Aug. 28, 1952; 4:41 p. m.]

[Revised CMP Regulation 6, Direction 7, as Amended August 28, 1952]

CMP REG. 6—CONSTRUCTION

DIR. 7—EX-ALLOTMENT ACQUISITION AND USE OF CARBON CONVERSION STEEL

This amended direction under Revised CMP Regulation 6 is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950, as amended. In the formulation of this amended direction, consultation with industry representatives has been rendered impracticable due to the need for immediate action and because the direction affects many different industries.

This direction as amended changes sections 3 and 4, by providing for the placing of orders for delivery in the third calendar quarter of 1952 of finished carbon conversion steel. Further, section 7 is amended to clarify the use to which finished carbon conversion steel may be put.

Direction 7 to Revised CMP Regulation 6 of August 18, 1952, is amended to read as follows:

REGULATORY PROVISIONS

Sec.
1. What this direction does.
2. Definition.
3. Acquisition and use without submitting application.
4. Acquisition and use pursuant to application submitted and approved.
5. Orders for carbon conversion steel.
6. Exemptions.
7. Disposal of carbon conversion steel.
8. Applicability of other regulations and orders.

AUTHORITY: Sections 1 to 8 issued under sec. 704, 64 Stat. 816, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2154. Interpret or apply sec. 101, 64 Stat. 799, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2071; sec. 101, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR 1950 Supp.; sec. 2, E. O. 10200, Jan. 3, 1951, 16 F. R. 61; 3 CFR 1951 Supp.; secs. 402, 405, E. O. 10281, Aug. 28, 1951, 16 F. R. 8789; 3 CFR 1951 Supp.

SECTION 1. *What this direction does.* This direction establishes a procedure by which persons with construction schedules authorized pursuant to Revised CMP Regulation 6, or NPA Order M-100, may obtain quantities of carbon conversion steel without charging allotment authority received under the Controlled Materials Plan. This procedure is designed to limit the use of the additional authority granted herein to situations where such carbon conversion steel will be produced in excess of the supply of carbon steel available for delivery against other orders.

SEC. 2. *Definition.* As used in this direction, "finished carbon conversion steel" means carbon steel in the forms and shapes indicated in Table II of Revised CMP Regulation 6, which has been obtained by a person in consequence of such person or some other person having furnished, directly or indirectly, to one or more steel producers or converters, semifinished carbon conversion steel (which is carbon steel in a less-finished form such as, but not limited to, ingots, blooms, billets, slabs, rods, skelp, and hot-rolled sheets in coils) for the express purpose of having such semifinished carbon conversion steel processed into another form indicated in Table II of Revised CMP Regulation 6.

SEC. 3. *Acquisition and use without submitting application.* Except as provided in section 6 of this direction, any person who has received an authorized construction schedule and a related allotment of carbon steel for the third or fourth calendar quarters of 1952 or the first calendar quarter of 1953 may, by self-authorization, order for delivery in each of such calendar quarters, with respect to each such authorized construction schedule, up to 500 tons of finished carbon conversion steel without charging the related allotment; and use such steel to increase such authorized construction schedule: *Provided, however,* That if his requirements for delivery with respect to any such schedule in any such calendar quarter exceed 500 tons of finished carbon conversion steel, he shall submit an application in accordance with the provisions of section 4 of this direction.

SEC. 4. *Acquisition and use pursuant to application submitted and approved.* (a) Except as provided in section 6 of this direction, any person who has received an authorized construction schedule and a related allotment of carbon steel for the third or fourth calendar quarters of 1952, or the first calendar quarter of 1953, and who desire to acquire and use, without charging the related allotment, more than 500 tons of finished carbon conversion steel in either of such quarters with respect to any such authorized schedule, shall submit an application to NPA in accordance with the provisions of paragraph (b) of this section: *Provided, however,* That no such person shall request authorization to order for delivery with respect to any such schedule in any such calendar quarter, without charging the related allotment, a quantity of finished carbon conversion steel which exceeds 20 percent of the tonnage of his allotment of carbon steel for such schedule in the third calendar quarter of 1952, or 40 percent of the tonnage of his allotment of carbon steel for such schedule in the fourth calendar quarter of 1952 or the first calendar quarter of 1953.

(b) Each application filed pursuant to paragraph (a) of this section shall be submitted by letter in triplicate to the Iron and Steel Division, National Production Authority, Washington 25, D. C., Ref: Direction 7 to Revised CMP Regulation 6. Each application shall set forth the following facts:

(1) The name and address of the plant of the supplier of semifinished carbon conversion steel.

(2) For each such plant, a description of the semifinished carbon conversion steel product (ingot, billet, bloom, slab, etc.).

(3) For each such product, the tonnage by months of shipment.

(4) For each such product, the name and address of each plant providing a finishing facility in the conversion process.

(5) For each such plant (finishing facility) a description of the carbon steel product to be produced in the forms and shapes indicated in Table II of Revised CMP Regulation 6.

(6) For each such carbon steel product, the tonnage by months of shipment.

(c) NPA will issue authorizations to acquire and use carbon conversion steel pursuant to applications submitted in accordance with the provisions of this section. Any person who receives such an authorization may, subject to the terms and conditions of such authorization, acquire finished carbon conversion steel in the quantities indicated without charging his allotment authority and use such steel to increase his authorized construction schedule. In appropriate cases NPA may, in such authorization, specify restrictions upon the use of the related allotment authority to prevent increases in demand for certain forms and shapes of carbon steel which are in short supply.

SEC. 5. *Orders for carbon conversion steel.* (a) Any person who is authorized to acquire and use finished carbon conversion steel pursuant to section 3 or section 4 of this direction, may place authorized controlled material orders, without charging his allotment, for such finished carbon conversion steel with the finished conversion steel producer, and such producer may accept and fill such orders if they will not interfere with production and other directives which may be issued from time to time to such steel producer by NPA, or with the acceptance and filling of orders which such steel producer is required to accept pursuant to any regulation or order of NPA. The person ordering such steel shall make his own arrangements for obtaining the semi-

finished carbon conversion steel with the original ingot producer, or the finished conversion steel producer. In arranging to purchase the semifinished carbon conversion steel from an original ingot producer or an intermediate producer, such person shall furnish to such original ingot producer or intermediate producer a certification in the following form:

Certified under Direction 7 to Revised CMP Regulation 6

which shall be signed as provided in section 12 of Revised CMP Regulation 6. This certification shall constitute a representation to the original ingot producer or intermediate producer and to NPA that such person is authorized to place such order under the provisions of this direction to obtain the quantity of semifinished conversion steel covered by the delivery order, for conversion into finished conversion steel, and that he will furnish an authorized controlled material order to the finished conversion steel producer. Notwithstanding the provisions of any NPA regulation or order, a producer of semifinished carbon conversion steel may deliver semifinished carbon conversion steel pursuant to such a certification: *Provided, however*, That such delivery shall not interfere with production and other directives which may be issued from time to time to such steel producer by NPA, or with delivery on orders which such steel producer is required to accept pursuant to any regulation or order of NPA.

(b) An authorized controlled material order placed pursuant to the provisions of paragraph (a) of this section shall contain the same allotment symbol which identifies the allotment that accompanies the authorized construction schedule in which the finished carbon conversion steel will be used.

SEC. 6. *Exemptions.* This direction is not applicable to any person engaged in the construction of a recreational, entertainment or amusement construction project (see Table I of Revised CMP Regulation 6).

SEC. 7. *Disposal of carbon conversion steel.* (a) In addition to increasing his own authorized construction schedule, a person who is entitled to order, who has ordered, or who has received delivery of, finished carbon conversion steel pursuant to the provisions of this direction, may direct the delivery of all or part of such steel to a producer of Class A products to whom he has given an authorized production schedule. A person who so directs delivery of a quantity of finished carbon conversion steel to a producer of Class A products must charge such quantity against the total quantity of such steel which he is entitled to order. A producer of Class A products who receives such steel from his customer may use it to fulfill the authorized production schedule which he has received from that customer or to replace in inventory material used to fulfill such schedule. If such a producer has received authorization from NPA pursuant to section 4 of this direction to order finished carbon conversion steel with respect to such schedule, he must charge the quantity of such steel which he receives from his customer against the quantity which he was authorized to order with respect to such schedule.

(b) If it develops after a person has received delivery of finished carbon conversion steel pursuant to the provisions of this direction that he cannot use such steel for a purpose permitted by this direction, he shall not use or dispose of it except as provided in paragraph (a) of this section or in section 17 (d) of CMP Regulation No. 1.

SEC. 8. *Applicability of other regulations and orders.* The provisions of CMP Regulation No. 1, Revised CMP Regulation 6, and NPA Order M–100, including the directions and amendments thereto, and of any other NPA regulation and order heretofore issued, are superseded to the extent to which they are inconsistent with the provisions of this direction. A user of controlled material may accept delivery of finished carbon conversion steel acquired pursuant to the provisions of this direction without regard to the inventory provisions of CMP Regulation No. 2, and need not include such steel in computing his inventory for purposes of that regulation. Further, no person shall obtain or use any form or shape of finished carbon conversion steel pursuant to this direction if the acquisition or use of such type of form or shape is prohibited by Revised CMP Regulation 6 or NPA Order M–100. In all other respects, the provisions of all NPA regulations and orders heretofore issued shall remain in full force and effect.

NOTE: All reporting and record-keeping requirements of this direction have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

This direction shall take effect August 28, 1952.

[CMP Regulation No. 1, Direction 16 as Amended August 29, 1952]

CMP REG. 1—BASIC RULES OF THE CONTROLLED MATERIALS PLAN

DIR. 16—THIRD AND FOURTH QUARTER AUTHORIZED CONTROLLED MATERIAL ORDERS

This direction as amended is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950, as amended. In the formulation of this amended direction, consultation with industry representatives has been rendered impracticable due to the need for immediate action and because the amendment affects many different industries.

EXPLANATORY

Direction 16 to CMP Regulation No. 1 is amended by revising section 4 to clarify the relationship between NPA Order M–1 and this direction.

REGULATORY PROVISIONS

Sec.
1. What this direction does.
2. Third quarter authorized controlled material orders.
3. Fourth quarter authorized controlled material orders.
4. Applicability of other regulations and orders.

AUTHORITY: Sections 1 to 4 issued under sec. 704, 64 Stat. 816, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2154. Interpret or apply sec. 101, 64 Stat. 799, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2071; sec. 101, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR 1950 Supp.; sec. 2, E. O. 10200, Jan. 3, 1951, 16 F. R. 61; 3 CFR 1951 Supp.; secs. 402, 405, E. O. 10281, Aug. 28, 1951, 16 F. R. 8789; 3 CFR 1951 Supp.

SECTION 1. *What this direction does.* The purpose of this direction is to permit the placement and acceptance of certain third quarter 1952 and fourth quarter 1952 authorized controlled material orders even though they call for delivery after the end of such quarters.

SEC. 2. *Third quarter authorized controlled material orders.* (a) The provisions of this section apply to all authorized controlled material orders for the third calendar quarter of 1952 which are placed on and after the effective date of this direction.

(b) An authorized controlled material order for steel placed pursuant to an allotment for the third calendar quarter of 1952 which contains the quarterly identification 3Q52, or an authorized controlled material order for steel placed pursuant to self-authorization (for example, Direction 1 to CMP Regulation No. 1) or quota (for example, CMP Regulation No. 5) for the third calendar quarter of 1952 which does not contain a quarterly identification, may call for delivery at any time up to November 30, 1952: *Provided, however*, That such order is placed pursuant to lead time requirements. A steel controlled materials producer or a steel controlled materials distributor who receives an authorized controlled material order for steel which bears the quarterly identification 3Q52 and which calls for delivery between October 1, 1952, and November 30, 1952, shall accept and fill such order in preference to an authorized controlled material order which bears the quarterly identification 4Q52 and which calls for delivery between October 1, 1952, and November 30, 1952, notwithstanding the sequence of order placement.

SEC. 3. *Fourth quarter authorized controlled material orders.* (a) The provisions of this section apply only to authorized controlled material orders for the fourth calendar quarter of 1952 which do not bear a program identification A, B, C, or E, and a digit (including the suffix B–5), or Z–2, and which are placed on and after the effective date of this direction.

(b) An authorized controlled material order for steel placed pursuant to an allotment for the fourth calendar quarter of 1952 which contains the quarterly identification 4Q52, or an authorized controlled material order for steel placed pursuant to self-authorization (for example, Direction 1 to CMP Regulation No. 1) or quota (for example, CMP Regulation No. 5) for the fourth calendar quarter of 1952 which does not contain a quarterly identification, may call for delivery at any time from October 1, 1952, to February 28, 1953: *Provided, however*, That such order is placed pursuant to lead time requirements. A steel controlled materials producer or a steel controlled materials distributor who receives an authorized controlled material order for steel which bears the quarterly identification 4Q52 and which calls for delivery between January 1, 1953, and February 28, 1953, shall accept and fill such order in preference to an order which bears the quarterly identification 1Q53 and which calls for delivery between January 1, 1953, and February 28, 1953, notwithstanding the sequence of order placement.

SEC. 4. *Applicability of other regulations and orders.* The provisions of CMP Regulations Nos. 1 and 4, Revised CMP Regulation No. 6, NPA Orders M–1 and M–6a, including the directions and amendments thereto, and of any other NPA regulation and order heretofore issued, are superseded to the extent to which they are inconsistent with the provisions of this direction, but in all other respects the provisions of such regulations and orders shall remain in full force and effect. This direction shall not be construed to interfere with the option given steel controlled material producers by section 8 of NPA Order M–1 to determine which authorized controlled material orders not bearing a program identification A, B, C, or E, and a digit (including the suffix B–5), or Z–2, they will accept and schedule prior to the 15-day period immediately preceding the commencement of the lead time. However, with regard to the acceptance and filling of such orders during the said 15-day period, the provisions of this direction shall govern, and in appropriate instances shall require the rescheduling of orders accepted prior to such 15-day period. This direction does not supersede the provisions of section 8 (a) (2) of NPA Order M–1, which limits the quantity of orders which steel controlled material producers may accept for shipment during any one month.

This direction as amended shall take effect August 29, 1952.

NATIONAL PRODUCTION AUTHORITY,
By JOHN B. OLVERSON,
Recording Secretary.

[F. R. Doc. 52-9628; Filed, Aug. 29, 1952; 11:24 a. m.]

[CMP Regulation No. 1, Direction 18 as Amended August 29, 1952]

CMP REG. 1—BASIC RULES OF THE CONTROLLED MATERIALS PLAN

DIR. 18—AUTOMATIC ALLOTMENT PROCEDURE FOR PRODUCERS OF CLASS B PRODUCTS

This direction as amended is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950, as amended. In the formulation of this direction, consultation with industry representatives has been rendered impracticable due to the need of this amended direction, consultation with industry representatives has been for immediate action and because the direction affects many different industries.

EXPLANATORY

Direction 18 to CMP Regulation No. 1 is amended by the addition of two sentences at the end of paragraph (b) of section 2.

REGULATORY PROVISIONS

Sec.
1. What this direction does.
2. Definitions.
3. Persons affected by automatic allotment procedure.
4. Use of allotment symbol to obtain controlled materials.
5. Use of rating to obtain production materials other than controlled materials.
6. Certification.

AUTHORITY: Sections 1 to 6 issued under sec. 704, 64 Stat. 816, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2154. Interpret or apply sec. 101, 64 Stat. 799, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2071; sec. 101, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.; sec. 2, E. O. 10200, Jan. 3, 1951, 16 F. R. 61; 3 CFR, 1951 Supp.; secs. 402, 405, E. O. 10281, Aug. 28, 1951, 16 F. R. 8789; 3 CFR, 1951 Supp.

SECTION 1. *What this direction does.* This direction relates only to producers of Class B products who received allotments pursuant to applications submitted on Form CMP–4B for the third calendar quarter of 1952. Such producers may calculate their own allotments and place purchase orders for delivery in any calendar quarter, beginning with the first calendar quarter of 1953, only if their allotments for the third quarter of 1952 did not exceed certain maximum amounts. A producer of a Class B product who received an allotment for such product pursuant to Form CMP–4B for the third quarter of 1952 which did not exceed such maximum amounts, but who desires quantities of controlled materials commencing with the first quarter of 1953 which exceed the automatic allotment quantities as calculated under this direction, must submit an application on Form CMP–4B. The provisions of Direction 1 to CMP Regulation No. 1 may be used only through the fourth quarter of 1952.

SEC. 2. *Definitions.* As used in this direction:

(a) "Product class" means a Product Class Code as shown in the Official CMP Class B Product List.

(b) "Total third-quarter allotment" means the total net allotments of a particular kind of controlled material (carbon steel, alloy steel, nickel-bearing stainless steel, all copper or aluminum) received by a producer of a Class B product for a particular product class for the third calendar quarter of 1952 pursuant to an allotment on Form CMP–4B or Form CMP–10, plus any quantity of such kind of controlled material for which such producer was entitled to self-authorize pursuant to Direction 1 to CMP Regulation No. 1 for the third calendar quarter of 1952 in such product class. Total net allotments shall be computed as of the close of business on August 29, 1952. In making such computation, the producer shall deduct any allotment decrease which he has received on Form CMP–11 and any portion of his third-quarter allotments which he has returned on Form CMP–12.

SEC. 3. *Persons affected by automatic allotment procedure.* (a) Subject to the limitations of paragraph (b) of this section, a producer of any Class B product which is listed in the Official CMP Class B Product List may, without submitting an application on Form CMP–4B, calculate his own allotments and place purchase orders calling for delivery in any calendar quarter, beginning with the first calendar quarter of 1953, if his total third-quarter allotment of each kind of controlled material (including controlled material for Class A product components) for the production of that product and all other products in the same product class did not exceed the amounts specified below:

Carbon steel (including wrought iron).	500 tons.
Alloy steel (except nickel-bearing stainless steel).	90 tons.
Nickel-bearing stainless steel.	10,000 pounds.
Copper and copper-base alloy brass mill products, copper wire mill products, copper and copper-base alloy foundry products and powder.	40,000 pounds.
Aluminum	60,000 pounds.

Provided, however, That no such producer, unless specifically authorized by NPA, shall avail himself of the automatic allotment procedure provided by this direction if he has not received an allotment pursuant to application submitted on Form CMP–4B for the third calendar quarter of 1952, or if his total third quarter allotment of any kind of controlled material exceeded the above amounts, for the manufacture of the same product and all other products in the same product class. Instead, a producer who has not received such third quarter allotment, or whose total third quarter allotment of any kind of controlled material exceeded the above amounts, shall obtain his controlled material requirements beginning with the first calendar quarter of 1953 either pursuant to Direction 17 to CMP Regulation No. 1 or pursuant to application submitted on Form CMP–4B, whichever is appropriate.

(b) Subject to the limitations of paragraph (a) of this section, a producer of any Class B product who may and desires to avail himself of the automatic allotment procedure under this section, shall calculate as his allotment authority for any calendar quarter a quantity of each of the following kinds of controlled material equal to the specified percentage or percentages of his total third quarter allotment of such material for the manufacture of the same product and all other products in the same product class:

Kinds of controlled material	Calculation of allotments on basis of total third quarter 1952 allotments
Carbon steel (including wrought iron).	100 percent of first 60 tons of total third quarter 1952 allotment, plus 60 percent of any excess between 60 tons and 500 tons.
Alloy steel (except nickel-bearing stainless steel).	100 percent of first 16 tons of total third quarter 1952 allotment, plus 80 percent of any excess between 16 tons and 90 tons.
Nickel-bearing stainless steel.	100 percent of first 500 pounds of total third quarter 1952 allotment, plus 80 percent of any excess between 500 pounds and 10,000 pounds.
Copper and copper-base alloy brass mill products, copper wire mill products, copper and copper-base alloy foundry products and powder.	100 percent of total third quarter 1952 allotment if it did not exceed 40,000 pounds.
Aluminum	100 percent of total third quarter 1952 allotment if it did not exceed 60,000 pounds.

Provided, however, That such a producer need not during any calendar quarter, regardless of the foregoing calculation, reduce his allotment authority below the specified quantity of each of the following kinds of controlled material for the manufacture of the same product and all other products in the same product class:

Carbon steel (including wrought iron).	25 tons.
Alloy steel (except nickel-bearing stainless steel).	1 ton.
Nickel-bearing stainless steel.	500 pounds.
Copper and copper-base alloy brass mill products, copper wire mill products, copper and copper-base alloy foundry products and powder.	10,000 pounds.
Aluminum	20,000 pounds.

(c) A producer of any Class B product who may and desires to avail himself of the automatic allotment procedure under this section, but who has already received allotments for the first or a succeeding calendar quarter of 1953 pursuant to application or applications previously submitted on Form CMP–4B for such Class B product and others in the same product class, and has placed orders for controlled materials pursuant to such allotments, must deduct the quantity of orders so placed from the quantity of his calculated allotment under this section for such quarter.

(d) A producer of any Class B product who may and desires to avail himself of the automatic allotment procedure under this section but who has already received allotments for the first or a succeeding calendar quarter of 1953 pursuant to application or applications previously submitted on Form CMP–4B for such Class B product and others in the same product class, which exceed his automatic allotment authority as calculated under this section with respect to any kind of controlled material, need not return such excess allotments, but his allotment authority shall be limited to the amounts calculated under this section for such quarter.

(e) A producer of any Class B product who need not submit an application on Form CMP–4B pursuant to this direction shall be subject to all applicable regulations and orders of NPA. For example, he shall make allotments of controlled material to a person producing Class A product components for him in the manner prescribed by CMP Regulation No. 1.

(f) Class A products which a producer has been authorized by NPA to treat as Class B products in accordance with section 24 (b) of CMP Regulation No. 1, and Class A products which are sold to a distributor or for use as maintenance, repair, or operating supplies in accordance with paragraph (b) or (c) of section 15 of CMP Regulation No. 1, shall be deemed Class B products for purposes of this direction. A producer may calculate his own allotments and place purchase orders without filing a Form CMP–4B for any calendar quarter, beginning with the first calendar quarter of 1953, in which his total requirements for delivery from suppliers of each kind of controlled material (including controlled material for Class A product components) for the production of all Class A products which are deemed Class B products for purposes of this direction do not exceed the quantities indicated in this section.

(g) Except as otherwise provided by NPA, a producer of a Class B product must obtain his requirements of all kinds of controlled materials in a particular calendar quarter for a particular product class pursuant to this direction or pursuant to Direction 17 to CMP Regulation No. 1 or pursuant to application submitted on Form CMP–4B, and may not use the automatic allotment procedure of this direction or the self-authorization procedure of Direction 17 for one or more kinds of controlled materials and submit a Form CMP–4B for one or more other kinds of controlled materials.

SEC. 4. *Use of allotment symbol to obtain controlled materials.* Any producer of Class B products who, pursuant to this direction, may calculate his own allotments and place purchase orders without filing a Form CMP–4B, is authorized to use the allotment symbol which identifies the allotment he has received for the same products pursuant to application submitted on Form CMP–4B for the third calendar quarter of 1952 (and not the allotment symbol SU), or such other allotment symbol as NPA may expressly authorize, on delivery orders for controlled materials within the limits set forth in section 3 of this direction. He may also append the suffix program identification B–5 to such allotment symbol in accordance with the provisions of section 11 (d) of CMP Regulation No. 1. An order so designated, when certified as provided in section 6 of this direction, shall constitute an authorized controlled material order. The quantity of such Class B products which may be produced with controlled materials obtained with the use of such allotment symbol, or with such other allotment symbol as NPA may expressly authorize, plus controlled materials properly contained in inventory, shall constitute an authorized production schedule for the purpose of all CMP regulations.

SEC. 5. *Use of rating to obtain production materials other than controlled materials.* Any producer of Class B products who, pursuant to this direction, may calculate his own allotments and place purchase orders without filing a Form CMP–4B, is authorized to use the DO rating which accompanies the allotment he has received for the same products pursuant to application submitted on Form CMP–4B for the third calendar quarter of 1952 (and not the rating DO-SU), or such other rating as NPA may expressly authorize, on delivery orders for production materials as defined in CMP Regulation No. 3 in accordance with the provisions of that regulation. He may also append the suffix program identification B–5 to such rating in accordance with the provisions of section 6 (f) of CMP Regulation No. 3.

SEC. 6. *Certification.* Every delivery order placed under the provisions hereof shall contain, in the case of an order for controlled materials, the certification required by section 19 of CMP Regulation No. 1, or, in the case of an order for production materials other than controlled materials, the certification required by section 6 of CMP Regulation No. 3.

This amended direction shall take effect August 29, 1952.

NATIONAL PRODUCTION AUTHORITY,

[CMP Regulation No. 2 as Amended August 29, 1952]

CMP REG. 2—INVENTORIES OF CONTROLLED MATERIALS

This regulation as amended is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950, as amended. In the formulation of the amendment of this regulation, consultation with industry representatives was found to be impracticable due to the necessity for immediate action. However, there was consultation with industry representatives prior to the original issuance of this regulation on May 10, 1951.

EXPLANATORY

This amendment affects CMP Regulation No. 2 by amending sections 3, 6 (a), and 10, and by adding a footnote to section 3 (a). Concurrently with this amendment, Direction 1 to CMP Regulation No. 2, exempting copper and aluminum from inventory control, will be revoked, effective October 1, 1952.

AUTHORITY: Sections 1 to 13 issued under sec. 704, 64 Stat. 816, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2154. Interpret or apply sec. 101, 64 Stat. 799, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2071; sec. 101, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.; sec. 2, E. O. 10200, Jan. 3, 1951, 16 F. R. 61; 3 CFR, 1951 Supp.; secs. 402, 405, E. O. 10281, Aug. 28, 1951, 16 F. R. 8789; 3 CFR, 1951 Supp.

SECTION 1. *What this regulation does.* The purpose of this regulation is to prevent the accumulation of excessive inventories of controlled materials. It does this by limiting the quantities of such materials that may be ordered, received, or delivered.

SEC. 2. *Definitions.* As used in this regulation:

(a) "Item of controlled material" means any item in any class of controlled material listed in Schedule I of CMP Regulation No. 1, which is different from all other items in that class by reason of one or more of its specifications, such as length, width, thickness, temper, alloy, or finish.

(b) "User of controlled material" means any person who uses any item of controlled material for production, construction, or maintenance, repair, or operating supplies.

SEC. 3. *General maximum inventory limitations.* (a) No user of controlled material shall accept delivery of any item of steel listed in Schedule I of CMP Regulation No. 1,[1] if his inventory of such item is, or by such receipt would become, in excess of the quantity of such item necessary to meet his deliveries, supply his services, or perform his operations, on the basis of his currently scheduled method and rate of operation during the succeeding 45-calendar-day period, or in excess of a "practicable minimum working inventory" (as defined in NPA Reg. 1), whichever is less: *Provided, however,* That from September 1, 1952, to December 31, 1952, the above specified 45-calendar-day period shall be a 30-calendar-day period.

(b) Commencing October 1, 1952, no user of controlled material shall accept delivery of any item of copper or aluminum listed in Schedule I of CMP Regulation No. 1, if his inventory of such item is, or by such receipt would become, in excess of the quantity of such item necessary to meet his deliveries, supply his services, or perform his operations, on the basis of his currently scheduled method and rate of operation during the succeeding 60-calendar-day period, or in excess of a "practicable minimum working inventory" (as defined in NPA Reg. 1), whichever is less.

[1] Non-nickel-bearing stainless steel (containing less than one percent nickel) is not a controlled material (see Direction 9 to CMP Regulation No. 1) and therefore is not subject to this regulation but is subject to NPA Reg. 1.

(c) For the purpose of this regulation, any item of controlled material which is to be further processed is considered to be in inventory until actually put into process or actually installed or assembled. For the purpose of this regulation, processing does not include minor initial operations, such as painting, and does not include any shearing, cutting, trimming, or other operation, unless such initial operation is a part of a continuous fabricating or assembling operation; nor does it include operations such as inspection, testing, segregation or earmarking for a specific job.

SEC. 4. *Exceptions.* Notwithstanding the provisions of section 3 of this regulation, any person may accept delivery of any item of controlled material in excess of the prescribed inventory limits under the following circumstances:

(a) If any producer of controlled material exercises his privilege under section 20 of CMP Regulation No. 1 of making delivery prior to the delivery date specified by the user of controlled material, such delivery may be accepted and the prescribed limits exceeded to the extent that such excess results from such prior delivery.

(b) If a user of controlled material has instructed a producer or other supplier to reduce, postpone, or cancel a delivery, and the material has been shipped or loaded for shipment before receipt of such instruction, delivery of such material may be accepted and the prescribed limits exceeded to the extent that such excess results from such delivery.

(c) If a user of controlled material has instructed a producer to reduce, postpone, or cancel a delivery of a special item of controlled material which the producer has already produced or has in production, or for the production of which he has acquired special materials, delivery of such special item may be accepted and the prescribed limits exceeded to the extent that such excess results from such delivery. For the purposes of this section, a special item of controlled material is one which the producer does not usually make, stock, or sell, and which he cannot readily dispose of to others.

(d) If a user of controlled material would be authorized under section 3 of this regulation to accept delivery of a quantity of an item of controlled material less than the minimum shown for such item in Schedule IV of CMP Regulation No. 1, he may accept delivery of the full minimum shown in such schedule, provided that the controlled material involved is not procurable from a distributor.

(e) If any producer of controlled material, under a directive of NPA, makes delivery of controlled material to a person who will convert such controlled material into another form of controlled material, the person to whom such delivery was made may accept the delivery and exceed the prescribed limits to the extent that such excess results from such delivery.

(f) If a user of controlled material imports any controlled material that he acquired prior to landing, he may accept delivery of such material and exceed the prescribed limits to the extent that such excess results from such delivery. However, if by such acceptance his inventory exceeds the prescribed limits, he may not accept further deliveries of such controlled material from domestic sources until his inventory thereof is reduced to permitted levels.

SEC. 5. *Adjustment of receipts and orders.* Every user of controlled material must place orders and schedule receipts in such manner that deliveries of controlled material to him may be made without violating the provisions of this regulation. If, by reason of change in his operations, slowing or stoppage of production, delayed delivery by a controlled materials producer or other supplier, or other cause, a person who has ordered material for future delivery would, if he accepted delivery on the dates specified, exceed the limits prescribed by this regulation, he shall promptly revise and adjust his outstanding orders and scheduled receipts and, if necessary, reduce, postpone, or cancel the same, so that his acceptance of deliveries will conform to this regulation.

SEC. 6. *Separate inventories.* (a) A person who has more than one operating unit may elect to maintain separate inventory records for each such unit and, if he does, the provisions of this regulation shall apply to each such unit independently. After such an election has been made, it may not at any time thereafter be changed without the prior written approval of NPA.

(b) In determining his inventory, a person shall include all items of controlled material in his possession and all such items held for his account by another person, but not items of controlled material held by him for the account of another person.

SEC. 7. *Prohibited deliveries.* No person shall deliver any item of controlled material if he knows or has reason to believe that acceptance of such delivery would be in violation of this regulation.

SEC. 8. *Excess inventories.* This regulation does not provide for disposal of excess inventories which may be on hand. However, excess inventories of items of controlled material, including inventories of such items which are not in form usable by the holder, are subject to requisition, under appropriate circumstances, as provided in Title II of the Defense Production Act of 1950, as amended.

SEC. 9. *Applicability of other regulations and orders.* Nothing in this regulation shall be construed to relieve any person from complying with all other applicable regulations and orders of NPA.

SEC. 10. *Records and reports.* (a) Each person participating in any transaction covered by this regulation shall make and preserve, for at least 3 years thereafter, accurate and complete records of receipts, deliveries, inventories, production, and use, in sufficient detail to permit the determination, after audit, whether each transaction complies with the provisions of this regulation. This

regulation does not specify any particular accounting method and does not require alteration of the system of records customarily used, provided such records supply an adequate basis for audit. Records may be retained in the form of microfilm or other photographic copies instead of the originals by those persons who, at the time such microfilm or other photographic records are made, maintain such copies of records in the regular and usual course of business.

(b) All records required by this regulation shall be made available for inspection and audit by duly authorized representatives of the National Production Authority, at the usual place of business where maintained.

(c) Persons subject to this regulation shall make such records and submit such reports to NPA as it shall require, subject to the terms of the Federal Reports Act of 1942 (5 U. S. C. 139–139F).

SEC. 11. *Applications for adjustment or exception.* Any person subject to any provision of this regulation may file a request for adjustment, exception, or other relief upon the ground that such provision works an undue or exceptional hardship upon him not suffered generally by others in the same trade or industry, or that its enforcement against him would not be in the interest of the national defense or in the public interest. In examining requests claiming that the public interest is prejudiced, consideration will be given to the requirements of public health and safety, civilian defense, and dislocation of labor and resulting unemployment that would impair the defense program. Each request shall be in writing submitted in triplicate, shall set forth all pertinent facts and the nature of the relief sought, and shall state the justification therefor.

SEC. 12. *Communications.* All communications concerning this regulation shall be addressed to the National Production Authority, Washington 25, D. C., Ref: CMP Regulation No. 2.

SEC. 13. *Violations.* Any person who wilfully violates any provision of this regulation or any other regulation or order of the National Production Authority, or who wilfully conceals a material fact or furnishes false information in the course of operation under this regulation, is guilty of a crime and, upon conviction, may be punished by fine or imprisonment, or both. In addition, administrative action may be taken against any such person to suspend his privilege of making or receiving further deliveries of materials or using facilities under priority or allocation control and to deprive him of further priorities assistance.

NOTE: All reporting and record-keeping requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

This regulation as amended shall take effect August 29, 1952.

NATIONAL PRODUCTION AUTHORITY,

[CMP Regulation No. 2, Direction 1—Revocation]

CMP REG. 2—INVENTORIES OF CONTROLLED MATERIALS

DIR. 1—TEMPORARY SUSPENSION OF INVENTORY LIMITATIONS ON COPPER AND ALUMINUM

Direction 1 (17 F. R. 5894) to CMP Regulation No. 2 is hereby revoked. This revocation does not relieve any person of any obligation or liability incurred under Direction 1 to CMP Regulation No. 2, nor deprive any person of any rights received or accrued under said direction prior to the effective date of this revocation.

(64 Stat. 816, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2154)

This revocation is effective October 1, 1952.

Issued August 29, 1952.

[NPA Order M-2 as Amended August 29, 1952]

M-2—RUBBER

This order as amended is found necessary and appropriate to promote the national defense. It is issued pursuant to both the Defense Production Act of 1950 as amended, and the Rubber Act of 1948 as amended. In the formulation of this amended order, consultation with industry representatives has been impossible because of the need for immediate action.

EXPLANATORY

This amended order revises NPA Order M-2 of July 22, 1952, by deleting section 5, *Limitation on Purchase of Cold GR-S.*

REGULATORY PROVISIONS

Sec.

1. Explanation.
2. Applicability of other regulations and orders.
3. Definitions.
4. Limitation on inventory of dry natural rubber.
5. [Deleted August 29, 1952.]
6. Limitation on use of pale crepe or sole crepe.
7. Reports of rubber consumption and stocks.
8. Reports by tire, tube, and camelback manufacturers.
9. Records and reports.

12. Violations.

AUTHORITY: Sections 1 to 12 issued under sec. 704, 64 Stat. 816, Pub Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2154. Interpret or apply sec. 101, 64 Stat. 799, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2071; sec. 101, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.; sec. 2, E. O. 10200, Jan. 3, 1951, 16 F. R. 61; 3 CFR, 1951 Supp.; secs. 402, 405, E. O. 10281, Aug. 28, 1951, 16 F. R. 8789; 3 CFR, 1951 Supp.

SECTION 1. *Explanation.* This amended order continues in effect certain restrictions applicable to natural crepe rubber. The order contains no other controls on acquisition, inventories, and consumption of either natural or synthetic rubber. In the interest of national security, however, it has been jointly determined by the appropriate Government agencies that production by the Government-owned synthetic rubber plants should be maintained at levels substantially in excess of the minimum quantities required by the Rubber Act of 1948, as amended; viz, 200,000 long tons per annum for GR-S and 15,000 long tons per annum for butyl. In order to support the higher production levels desirable for national security, GR-S consumption cannot be permitted to fall below the rate of 450,000 long tons per annum, and butyl consumption cannot be permitted to fall below the rate of 60,000 long tons per annum. Since voluntary industry usage appears unlikely to drop below such levels, mandatory consumption of synthetic rubber has not been imposed, but if consumption falls below these levels the order will be amended by establishing industry-wide manufacturing specifications requiring the use of stated percentages of synthetic rubber in all rubber products. This action is in accord with the legislative policy of section 2 of the Rubber Act of 1948, as amended, which states that "In order to strengthen national security through a sound industry it is essential that * * * regulations requiring mandatory use of synthetic rubber * * * be ended and terminated whenever consistent with national security * * *."

SEC. 2. *Applicability of other regulations and orders.* Nothing contained in this order as amended shall be construed to relieve any person from complying with such limitations as may be contained in any other applicable NPA regulation or order, or any order or regulation of any other competent authority. Moreover, nothing contained in this order as amended shall be construed as relieving any person of any obligation or liability incurred under this order as originally issued or as amended from time to time.

SEC. 3. *Definitions.* As used in this order:

(a) "Natural rubber" means all forms and types of tree, vine, or shrub rubber, both dry and latex, including all grades of wild rubber, but excluding balata, gutta percha, and reclaimed natural rubber.

(b) "Dry natural rubber" means all natural rubber in solid form.

(c) "Natural rubber latex" means the dry latex solids contained in natural rubber liquid latex.

(d) "Synthetic rubber" means all new RHC products of chemical synthesis in solid or latex form, prepared from a diolefin or derivative therefrom as an essential component, similar in general properties and applications to natural rubber and specifically capable of vulcanization, but excluding reclaimed synthetic rubber.

(e) "GR-S" means a general-purpose synthetic rubber of the butadiene or butadiene-styrene type produced in the United States, generally suitable for use in the manufacture of transportation items such as tires or camelback, as well as any other type of synthetic rubber equally or better suited for use in the manufacture of transportation items such as tires or camelback, as determined from time to time by NPA, but excluding reclaimed general-purpose synthetic rubber.

(f) "Cold rubber" means GR-S polymers produced at low temperatures as classified by the Reconstruction Finance Corporation.

(g) "Butyl" or "GR-I" means special-purpose synthetic rubber produced in the United States, suitable for use in the manufacture of transportation items such as pneumatic inner tubes, but excluding reclaimed special-purpose synthetic rubber.

(h) "Reclaimed rubber" means any rubber derived from the processing or treatment of vulcanized rubber or cured scrap rubber.

(i) "New RHC" means total new rubber hydrocarbon. This is the total content of dry natural rubber, natural rubber latex, synthetic rubber (including the oil in oil-extended GR-S), uncured scrap rubber, and uncured in-process materials.

(j) "Pale crepe" means dry natural rubber produced from the fresh coagula of natural liquid latex meeting the specifications of the Rubber Manufacturers Association for pale latex crepes, thick or thin, number IX, 1, or 2.

(k) "Sole crepe" means dry natural rubber produced from pale crepe which has not been compounded, vulcanized, or physically attached to any manufactured product.

(l) "Consume" means (in the case of dry natural rubber, natural rubber latex, or synthetic rubber) to compound, expend, formulate, or in any manner make any substantial change in the form, shape, or chemical composition thereof.

(m) "Person" means any individual, corporation, partnership, association, or any other organized group of persons, and includes any agency of the United States or any other government.

(n) "NPA" means the National Production Authority.

SEC. 4. *Limitation on inventory of dry natural rubber.* Inventories of dry natural rubber are subject to the provisions of NPA Reg. 1.

SEC. 5. [Deleted August 29, 1952.]

SEC. 6. *Limitation on use of pale crepe or sole crepe.* No person shall use or consume any pale crepe or sole crepe in the manufacture of pneumatic tires, shoes, shoe soles, heels, welting, or wrappers.

SEC. 7. *Reports of rubber consumption and stocks.* Every person who consumes or owns, at any time during any month, any type of rubber listed in this section shall file a monthly report on Form NPAF-3 with NPA in accordance with the instructions accompanying the form. This report form covers consumption, stocks, receipts, production, and shipments. Those persons who consume rubber for the production of both transportation and nontransportation products shall also file a monthly report on Form NPAF-3A, showing, separately, consumption by type of rubber for each of the two product groups. Also, any person who does not file a Form NPAF-3 for any type of rubber listed in this section for each month of any calendar year shall file an annual report for such year on Form NPAF-4. Any person who consumes rubber as part of a scientific laboratory experimental program only, shall file his report annually on Form NPAF-4. Each person who is hereby required to file Form NPAF-4 shall do so by the twentieth of January of each year.

TYPES TO BE REPORTED

Dry natural rubber.
Natural rubber latex.
Reclaimed rubber.
GR-S types, excluding latex.[1]
GR-S type latex.[1]
Butyl types.[1]
Neoprene, excluding latex.
Neoprene latex.
Butadiene-acrylonitrile types (N-type) excluding latex.
Butadiene-acrylonitrile types (N-type) latex.

SEC. 8. *Reports by tire, tube, and camelback manufacturers.*—(a) *Monthly reports.* Each manufacturer of tires, tubes, and camelback shall file with NPA a report of his production, shipments, and inventory for each calendar month on Form NPAF-5 in accordance with the instructions accompanying the form.

(b) *Weekly reports of cured tires.* Each manufacturer of tires shall file with NPA a report of his production of cured tires for each week on Form NPAF-6 in accordance with the instructions accompanying the form.

SEC. 9. *Records and reports.* (a) Each person participating in any transaction covered by this order shall make and preserve, for at least 3 years thereafter, accurate and complete records of receipts, deliveries, inventories, production, and use, in sufficient detail to permit the determination, after audit, whether each transaction complies with the provisions of this order. This order does not specify any particular accounting method and does not require alteration of the system of records customarily used, provided such records supply an adequate basis for audit. Records may be retained in the form of microfilm or other photographic copies instead of the originals by those persons who, at the time such microfilm or other photographic records are made, maintain such copies of records in the regular and usual course of business.

(b) All records required by this order shall be made available for inspection and audit by duly authorized representatives of the National Production Authority, at the usual place of business where maintained.

(c) Persons subject to this order shall make such records and submit such reports to the National Production Authority as it shall require, subject to the terms of the Federal Reports Act of 1942 (5 U. S. C. 139–139F).

[1] Includes all types; whether obtained from Government or other sources, including imports.

SEC. 10. *Request for adjustment or exception.* Any person affected by any provision of this order may file a request for adjustment or exception upon the ground that such provision works an undue or exceptional hardship upon him not suffered generally by others in the same trade or industry, or that its enforcement against him would not be in the interest of the national defense or in the public interest. In examining requests for adjustment or exception claiming that the public interest is prejudiced by the application of any provision of this order, consideration will be given to the requirements of the public health and safety, civilian defense, and dislocation of labor and resulting unemployment that would impair the defense program. Each request shall be in writing, by letter in triplicate, and shall set forth all pertinent facts, the nature of the relief sought, and the justification therefor.

SEC. 11. *Communications.* All communications concerning this order shall be addressed to the National Production Authority, Washington 25, D. C., Ref: NPA Order M-2.

SEC. 12. *Violations.* Any person who wilfully violates any provision of this order, or any other order or regulation of NPA, or who wilfully furnishes false information or conceals any material fact in the course of operation under this order, is guilty of a crime and upon conviction may be punished by fine or imprisonment or both. In addition, administrative action may be taken against any such person to suspend his privilege of making or receiving further deliveries of materials or using facilities under priority or allocation control and to deprive him of further priorities assistance.

NOTE: All reporting and record-keeping requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

This order as amended shall take effect August 29, 1952.

[NPA Order M-50, Direction 1—Revocation]

M-50—ELECTRIC UTILITIES

DIR. 1—TEMPORARY SUSPENSION OF INVENTORY LIMITATIONS ON COPPER AND ALUMINUM

Direction 1 (17 F. R. 6741) to M-50 is hereby revoked. This revocation does not relieve any person of any obligation or liability incurred under Direction 1 to M-50, nor deprive any person of any rights received or accrued under said direction prior to the effective date of this revocation.

(64 Stat. 816, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2154)

This revocation is effective October 1, 1952.

Issued August 29, 1952.

NATIONAL PRODUCTION AUTHORITY,
By JOHN B. OLVERSON,
Recording Secretary.

[F. R. Doc. 52-9633; Filed, Aug. 29, 1952; 11:25 a. m.]

[NPA Order M-66, Direction 1 of Aug. 29, 1952]

M-66—ARTIFICIAL GRAPHITE AND CARBON ELECTRODES

DIR. 1—ALLOCATION AUTHORIZATIONS OF ARTIFICIAL GRAPHITE AND CARBON ELECTRODES FOR THE FOURTH QUARTER 1952

This direction to NPA Order M-66 as last amended on September 11, 1951, is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950, as amended. In the formulation of this direction, consultation with industry representatives has been rendered impracticable by reason of the need for immediate action and because of the number of different industries affected.

REGULATORY PROVISIONS

Sec.
1. What this direction does.
2. Allocations for fourth quarter 1952.
3. Quarterly report by users (revised Form NPAF-97).

AUTHORITY: Sections 1 to 3 issued under sec. 704, 64 Stat. 816, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2154. Interpret or apply sec. 101, 64 Stat. 799, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2071; sec. 101, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.; sec. 2, E. O. 10200, Jan. 3, 1951, 16 F. R. 61; 3 CFR, 1951 Supp.; secs. 402, 405, E. O. 10281, Aug. 28, 1951, 16 F. R. 8789; 3 CFR, 1951 Supp.

SECTION 1. *What this direction does.* This direction grants allocation authorizations for delivery of artificial graphite and carbon electrodes, during the fourth calendar quarter of 1952, to the same persons and in the same quantities, sizes, and shapes as were authorized for the third calendar quarter of 1952 without requiring specific individual applications for such allocation authorizations. This direction also makes provision for supplemental allocations, as well as for applications for fourth quarter 1952 allocation authorizations, by persons to whom allocation authorizations were not issued for the third quarter 1952. In addition, this direction provides for quarterly reporting by users of artificial graphite and carbon electrodes on revised Form NPAF-97.

SEC. 2. *Allocations for fourth quarter 1952.* All those allocation authorizations which were issued by NPA for the delivery of artificial graphite or carbon electrodes during the third calendar quarter of 1952, pursuant to section 5 of NPA Order M-66 as amended, are hereby made effective to authorize delivery of artificial graphite or carbon electrodes in the same quantities, sizes, and shapes during the fourth calendar quarter of 1952 without individual application for such allocation authorization on Form NPAF-97, as provided in paragraph (b) of section 5 of such order. Persons desiring supplemental allocations may make application therefor by letter in duplicate, Ref: M-66. Except as provided in section 6 of NPA Order M-66, any person, to whom no allocation authorization for the third quarter of 1952 was issued, may apply for an allocation authorization for delivery of artificial graphite or carbon electrodes during the fourth calendar quarter of 1952 by letter application in duplicate, Ref: M-66, filed no later than September 15, 1952.

SEC. 3. *Quarterly report by users (revised Form NPAF-97).* Any person, who during any calendar quarter uses 500 pounds or more of artificial graphite or carbon electrodes or both (excluding graphite electrodes of less than ¾-inch cross section), shall file revised Form NPAF-97 on or before the 15th day of the month following the close of the calendar quarter for which the report is required to be made. The first such quarterly report shall be filed on or before October 15, 1952 with respect to such person's use of artificial graphite and carbon electrodes during the third calendar quarter of 1952.

NOTE: All record-keeping and reporting requirements of this direction have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

This direction shall take effect August 29, 1952.

TITLE 35—PANAMA CANAL

Chapter I—Canal Zone Regulations

PART 21—PUBLIC LANDS; MILITARY AND NAVAL RESERVATIONS

FORT KOBBE ARMY RESERVATION AND HOWARD AIR FORCE BASE

CROSS REFERENCE: For regulations affecting Fort Kobbe Military Reservation in the tabulation of § 21.3, see Canal Zone Order 28, which supersedes Executive Order 8354 of February 25, 1940 (5 F. R. 820), in the Appendix to this chapter, *infra*.

Appendix—Canal Zone Orders

[Canal Zone Order 28]

FORT KOBBE ARMY RESERVATION, AND HOWARD AIR FORCE BASE, CANAL ZONE

SETTING APART OF RESERVATIONS; BOUNDARIES; CONDITIONS AND LIMITATIONS

By virtue of the authority vested in the President of the United States by section 5 of title 2 of the Canal Zone Code, as amended by section 1 of Act September 26, 1950, 64 Stat. 1038, and delegated to me by Executive Order No. 9746 of July 1, 1946, as amended by Executive Order No. 10101 of January 31, 1950, and after consultation with the Secretary of the Air Force in the case of Howard Air Force Base, it is ordered as follows:

SECTION 1. *Setting apart of reservations; boundaries.* The following-described area of land in the Canal Zone is hereby set apart as, and assigned to the uses and purposes of (a) an Army reservation which shall be known as "Fort Kobbe Army Reservation" and shall be under the control and jurisdiction of the Secretary of the Army, subject to the provisions of section 2 of this order, and (b) an Air Force reservation which shall be known as "Howard Air Force Base" and shall be under the control and jurisdiction of the Secretary of the Air Force, subject to the provisions of section 2 of this order, the allocation of such area as between the two reservations to be accomplished by agreement between the Department of the Army and the Department of the Air Force:

Beginning at monument A. T. F. 2, which is a 2½-inch iron pipe set in concrete, located on the eastern boundary of the Arraijan Tank Farm Naval Reservation and on the right bank of the Rio Velasquez, the geodetic position of which, referred to the Canal Zone triangulation system, is in latitude 8°57′ N. plus 2,611.6 feet and longitude 79°36′ W. plus 2,100.1 feet from Greenwich.

Thence by said initial point by metes and bounds:

N. 65° 27′ 30″ E., 123.1 feet, to monument No. 33, which is a 2½-inch iron pipe;

N. 15° 10′ 10″ E., 150.2 feet, to monument No. 34, which is a 2-inch iron pipe, located 50 feet southwesterly from the centerline of the pavement of Thatcher Highway;

Easterly along a line parallel to, and 50 feet southerly from the centerline of Thatcher Highway pavement, to monument No. 35, which is a 3-inch iron pipe, the geodetic position of which is in latitude 8°57′ N. plus 2,651.5 feet and longitude 79°36′ W. plus 1,504.0 feet;

S. 00° 04′ 50″ E., 152.3 feet, to monument No. 36, which is a 10-inch square concrete monument;

S. 82° 23′ 20″ E., 493.2 feet, to monument No. 36–1, which is a 2-inch iron pipe;

S. 82° 20′ 10″ E., 238.9 feet, to monument No. 36–2, which is a 2-inch iron pipe set in concrete;

S. 82° 20′ 00″ E., 119.4 feet, to monument No. 36–3, which is a 2-inch iron pipe set in concrete;

S. 82° 22′ 30″ E., 662.0 feet, to monument No. 37, which is a 10-inch square concrete monument;

S. 00° 02′ 20″ E., 198.7 feet, to monument No. 37–1, which is a 10-inch square concrete monument;

S. 00° 55′ 40″ E., 22.5 feet, to monument No. 37–2, which is an iron rod in concrete;

S. 00° 02′ 00″ E., 213.2 feet, to monument No. 37–3, which is an iron rod in concrete;

S. 00° 01′ 10″ E., 335.7 feet, to monument No. 37–4, which is an iron rod in concrete;

S. 00° 01′ 00″ E., 511.2 feet, to monument No. 37–5, which is an iron rod in concrete;

S. 00° 01′ 00″ W., 530.9 feet, to monument No. 37–6, which is an iron rod in concrete;

S. 00° 00′ 30″ E., 200.0 feet, to monument No. 37–7, which is an iron rod in concrete;

S. 00° 05′ 20″ E., 289.1 feet, to monument No. 38, which is a 10-inch square concrete monument;

N. 89° 57′ 50″ E., 1,842.2 feet, through monuments Nos. 38–1 and 38–2, which are 10-inch square concrete monuments, to monument No. 38–3, which is a 10-inch square concrete monument, the distances being 536.2 feet, 768.1 feet and 537.9 feet, successively, from beginning of the course;

N. 89° 58′ 00″ E., 574.1 feet, to monument No. 38–4, which is a 10-inch square concrete monument;

N. 89° 58′ 10″ E., 53.1 feet, to monument No. 39, which is a 10-inch square concrete monument, located 50 feet northwesterly from the centerline of Bruja Road pavement;

Northeasterly, along a line parallel to, and 50 feet from the centerline of Bruja Road pavement, to monument No. 40, which is a 2½-inch iron pipe, located 50 feet southwesterly from the centerline of Thatcher Highway pavement, the geodetic position of which is in latitude 8°57′ N. plus 1,269.6 feet and longitude 79°35′ W. plus 2,871.9 feet;

S. 49° 42′ 40″ E., 103.3 feet, crossing Bruja Road, to monument No. 41, which is a 2-inch iron pipe, located 50 feet southeasterly from the centerline of Bruja Road pavement and 50 feet southwesterly from the centerline of Thatcher Highway pavement;

Southwesterly, along a line parallel to, and 50 feet from the centerline of Bruja Road pavement, to monument No. 42, which is a 2-inch iron pipe, located 50 feet southwesterly from the centerline of the road to Panama Canal West Bank Tank Farm Area No. 1, the geodetic position of which is in latitude 8°56′ N. plus 5,594.6 feet and longitude 79°35′ W. plus 3,646.9 feet;

Southeasterly and northeasterly, along a line parallel to and 50 feet from the centerline of the road to Panama Canal West Bank Tank Farm Area No. 1, to monument No. 43, which is a 2-inch iron pipe, the geodetic position of which is in latitude 8°56′ N. plus 4,729.0 feet and longitude 79°35′ W. plus 2,179.5 feet;

S. 87° 22′ 40″ E., 641.4 feet, to monument No. 44, which is a 10-inch square concrete monument;

N. 89° 59′ 00″ E., 1,318.6 feet, to monument No. 45, which is a 10-inch square concrete monument;

N. 78° 23′ 00″ E., 224.0 feet, to monument No. 46, which is a 10-inch square concrete monument, located 56.8 feet southwesterly from the centerline of Thatcher Highway pavement, and 20.7 feet northwesterly from the centerline of K–2D road pavement;

Due South, 822.9 feet, to monument No. 47, which is a 10-inch square concrete monument;

S. 00° 03′ 00″ W., 721.3 feet, to monument N. B. which is an 8-inch square concrete post, located on the northerly boundary of the Farfan Naval Radio Station;

Due West, 2,190.6 feet, along the above-mentioned Naval boundary, through monuments N–10A, N–10, N–9, N–8 and N–7, which are 2½-inch iron pipes, to monument N–6, which is a 2½-inch iron pipe, the distances being 634.3 feet, 213.0 feet, 324.9 feet, 231.7 feet, 507.7 feet and 279.0 feet, successively, from beginning of the course;

S. 87° 46′ 20″ W., 30.9 feet, along the above-mentioned Naval boundary, to monument H–1, which is a 10-inch square concrete monument;

S. 77° 59′ 30″ W., 965.5 feet, along the above-mentioned Naval boundary, through monuments H–2B and H–2A, which are 2½-inch iron pipes, to monument H–2, which is a 10-inch square concrete monument, the distances being 295.0 feet, 474.5 feet and 196.0 feet, successively, from beginning of the course;

S. 89° 58′ 00″ W., 470.6 feet, along the above-mentioned Naval boundary, to monument H–3, which is a corner post of a cyclone fence, located at the northwest corner of the Farfan Naval Radio Station;

Due South, 5,389.3 feet, along the westerly boundary of the above-mentioned Naval Station, through monument N–3, which is a brass plug in the side of a concrete ditch, monuments N–2 and N–1, which are 2½-inch iron pipes, monument "J", which is an 8-inch square concrete post, monuments Nos. 51, 52, 53, 54 and 55, which are 2½-inch iron pipes, to monument N–26N, which is an 8-inch square concrete post, the distances being 272.7 feet, 1,069.7 feet, 767.7 feet, 687.7 feet, 500.0 feet, 580.0 feet, 530.0 feet, 303.0 feet, 600.0 feet and 78.5 feet, successively, from beginning of the course;

S. 52° 07′ 00″ E., 2,452.1 feet, along the southwesterly boundary of the above mentioned Naval Station, through monuments N–25A and N–25N, which are 2½-inch iron pipes, to monument N–24N, which is an 8-inch square concrete post, the distances being 500.0 feet, 463.0 feet and 1,489.1 feet, successively, from beginning of the course;

Due East, 3,464.0 feet, along the southerly boundary of the above mentioned Naval Station, to an unmarked point called N. D., located in the swamp on the southerly side of the Rio Farfan;

S. 71° 29′ 20″ E., 1,413.2 feet, to monument "A", which is a 12-inch by 10-inch concrete post, located at the northwest corner of the Palo Seco Leper Colony;

S. 13° 27′ 50″ W., 408.3 feet, along the westerly boundary of the Palo Seco Leper Colony, to monument B–2, which is a 2-inch iron pipe;

S. 13° 28′ 50″ W., 1,342.3 feet, along the above mentioned boundary, through monument B–1, which is a 2-inch iron pipe, to monument "B", which is a 12-inch square concrete post, the distances being 510.2 feet and 832.1 feet, successively, from beginning of the course;

S. 44° 59′ 50″ E., 1,398.2 feet, along the above mentioned boundary, through monument E–12, which is a 2-inch iron pipe, to monument E–11, which is a 2-inch iron pipe, the distances being 759.7 feet and 638.5 feet, successively, from beginning of the course;

S. 44° 59′ 40″ E., 164.0 feet, along the above mentioned boundary, to monument E–10, which is a 2-inch iron pipe;

S. 44° 59′ 30″ E., 300.0 feet, along the above mentioned boundary, to monument E–9, which is a 12-inch square concrete monument;

Due East, 373.3 feet, along the above mentioned boundary to monument E–8, which is a 12-inch square concrete monument;

S. 40° 58′ 30″ E., 249.9 feet, along the above mentioned boundary, to monument E–7, which is a 12-inch square concrete monument;

S. 28° 23′ 40″ E., 628.7 feet, along the above mentioned boundary, to monument E–6, which is a 2-inch iron pipe;

S. 28° 20′ 40″ E., 156.7 feet, along the above mentioned boundary, to monument E–5, which is a 12-inch square concrete monument;

S. 29° 33′ 50″ E., 337.4 feet, along the above mentioned boundary, through monument E–4, which is a 2-inch iron pipe, to monument E–3, which is a 2-inch iron pipe, the distances being 92.9 feet and 244.5 feet, successively, from beginning of the course;

S. 29° 33′ 10″ E., 724.0 feet, along the above mentioned boundary, to monument E–2, which is a 2-inch iron pipe;

S. 29° 34′ 00″ E., 525.6 feet, along the above mentioned boundary, to monument E–1, which is a 2-inch iron pipe, located above high water mark on the shore of Panama Bay, the geodetic position of which is in latitude 8°54′ N. plus 2,468.2 feet and longitude 79°34′ W. plus 308.9 feet;

S. 29° 34′ 00″ E., 540 feet, more or less, to an unmarked point called "E", located on the mean low water line, on the shore of Panama Bay;

In a general southwesterly direction, along the mean low water line on the shore of Panama Bay, to an unmarked point called "F", located due South, 3,600 feet, more or less, from monument F–1;

Due North, 3,600 feet, more or less, to monument F–1, which is a 10-inch square concrete monument located above the high water mark on the shore of Panama Bay, the geodetic position of which is in latitude 8°53′ N. plus 4,038.1 feet and longitude 79°35′ W. plus 6,014.3 feet;

Due North, 2,009.3 feet, through monuments F–2, F–3, F–4, which are 3-inch iron pipes, to monument "G", which is a 2½-inch iron pipe, beneath the surface of the ground in a rock crushing plant, the distances being 162.5 feet, 851.8 feet, 905.0 feet and 90.0 feet, successively, from beginning of the course;

N. 89° 59′ 30″ W., 1,514.0 feet, through monument No. 1–A, which is a 2-inch iron pipe, to monument No. 1, which is a 2-inch iron pipe, the distances being 159.1 feet and 1,354.9 feet, successively, from beginning of the course;

S. 89° 59′ 20″ W., 700.0 feet, through monument No. 2, which is a 1½-inch iron pipe, to monument No. 3, which is a 1½-inch iron pipe, the distances being 570.0 feet and 130.0 feet, successively, from beginning of the course;

S. 89° 59′ 50″ W., 95.0 feet, to monument No. 4, which is a 1½-inch iron pipe;

N. 89° 59′ 10″ W., 435.0 feet, to monument No. 5, which is a 2-inch iron pipe;

N. 89° 59′ 40″ W., 3,270.2 feet, through monuments Nos. 6, which is a 2-inch iron pipe, 7, which is a 1½-inch iron pipe, and 8, which is a 2½-inch iron pipe, to monument "H", which is an 8-inch square concrete monument, the geodetic position of which is in latitude 8°54′ N. plus 0.0 feet and 79° 36′ W. plus 6,014.3 feet, the distances being 1,020.0 feet, 1,000.0 feet, 750.0 feet and 500.2 feet, successively, from beginning of the course;

N. 00° 00′ 10″ W., 650.0 feet, to monument No. 9, which is a 2½-inch iron pipe;

N. 00° 00′ 20″ E., 647.0 feet, to monument No. 10, which is a 2½-inch iron pipe;

N. 00° 00′ 10″ W., 1,205.0 feet, through monument No. 11, which is a 2½-inch iron pipe, to monument No. 12, which is a 2½-inch iron pipe, the distances being 750.0 feet and 455.0 feet, successively, from beginning of the course;

N. 00° 00′ 40″ W., 189.1 feet, to monument No. 13, which is a 2½-inch iron pipe;

N. 00° 00′ 10″ W., 540.0 feet, through monument No. 14, which is a 2½-inch iron pipe, to monument No. 15, which is a 2½-inch iron pipe, the distances being 360.0 feet and 180.0 feet, successively, from beginning of the course;

N. 00° 02′ 40″ W., 406.0 feet, to monument No. 16, which is a 2½-inch iron pipe;

N. 00° 00′ 40″ E., 683.0 feet, through monument No. 17, which is a 2½-inch iron pipe, to monument No. 18, which is a 2½-inch iron pipe, the distances being 400.0 feet and 283.0 feet, successively, from beginning of the course;

N. 00° 00′ 50″ E., 185.0 feet, to monument No. 19, which is a 2½-inch iron pipe;

N. 00° 01′ 20″ W., 705.0 feet, to monument No. 20, which is a 2½-inch iron pipe;

N. 00° 00′ 40″ W., 1,052.0 feet, through monument No. 21, which is a 2½-inch iron pipe, to monument No. 22, which is a 2½-inch iron pipe, the distances being 520.0 feet and 532.0 feet, successively, from beginning of the course;

N. 00° 01′ 00″ W., 100.0 feet, to monument No. 23, which is a 2½-inch iron pipe;

N. 00° 01′ 10″ W., 157.0 feet, to monument No. 24, which is a 2½-inch iron pipe;

N. 00° 00′ 20″ W., 966.1 feet, through monument No. 25, which is a 2½-inch iron pipe, to monument No. 26, which is a 2½-inch iron pipe, the distances being 480.1 feet and 486.0 feet, successively, from beginning of the course;

N. 00° 00′ 40″ W., 600.0 feet, to monument No. 27, which is a 2½-inch iron pipe;

N. 00° 00′ 30″ W., 978.0 feet, to monument No. 28, which is a 2½-inch iron pipe;

N. 00° 00′ 20″ W., 2,126.1 feet, through monuments Nos. 29, 30 and 31, which are 2½-inch iron pipes, to monument No. 32, which is a 2½-inch iron pipe, the distances being 484.0 feet, 640.0 feet, 580.0 feet and

422.1 feet, successively, from beginning of the course;

N. 00° 00' 50" W., 755.1 feet, to monument No. 33, which is a 2½-inch iron pipe;

N. 00° 00' 40" E., 270.0 feet, to monument No. 34, which is a 2½-inch iron pipe;

N. 00° 04' 10" E., 1,073.9 feet, through monument "I", which is an 8-inch square concrete post, monument No. 60, which is a 2-inch iron pipe, and monument No. 61, which is a 1½-inch iron pipe, to monument No. 62, which is a 1½-inch iron pipe, the distances being 60.4 feet, 590.9 feet, 160.7 feet and 261.9 feet, successively, from beginning of the course;

N. 00° 04' 20" E., 947.5 feet, through monuments Nos. 63, 64 and 65, which are 1½-inch iron pipes, to monument No. 66, which is a 1½-inch iron pipe, the distances being 119.8 feet, 207.5 feet, 273.7 feet and 346.5 feet, successively, from beginning of the course;

N. 00° 04' 30" E., 1,111.1 feet, through monument No. 67, which is a 1½-inch iron pipe, monuments Nos. 68 and 69, which are 2-inch iron pipes, to monument No. 70, which is a 2-inch iron pipe, the distances being 456.1 feet, 305.4 feet, 272.3 feet and 77.3 feet, successively, from beginning of the course;

N. 00° 04' 40" E., 1,125.9 feet, through monuments Nos. 71 and 72, which are 2-inch iron pipes, to monument No. A. T. F. 27–1, which is a 2-inch iron pipe, located on the southern boundary of the Arraijan Tank Farm Naval Reservation, the distances being 189.7 feet, 527.8 feet and 408.4 feet, successively, from beginning of the course;

S. 89° 59' 30" E., 3,908.5 feet, along the southern boundary of the Arraijan Tank Farm Naval Reservation, through monuments Nos. A. T. F. 27 to A. T. F. 15 inclusive, which are 2½-inch iron pipes set in concrete, to monument No. A. T. F. 14, which is an 8-inch square concrete post, the distances being 322.5 feet, 297.5 feet, 194.9 feet, 160.2 feet, 123.4 feet, 310.2 feet, 498.7 feet, 248.1 feet, 160.0 feet, 534.9 feet, 261.0 feet, 233.2 feet, 346.0 feet and 217.9 feet, successively, from beginning of the course;

Due North, 4,259.0 feet, along the easterly boundary of the Arraijan Tank Farm Naval Reservation, through monuments Nos. A. T. F. 13 to A. T. F. 3 inclusive, which are 2½-inch iron pipes set in concrete, to monument No. A. T. F. 2, the point of beginning, the distances being 390.1 feet, 574.0 feet, 530.5 feet, 537.7 feet, 120.7 feet, 268.3 feet, 280.4 feet, 433.1 feet, 312.4 feet, 274.0 feet, 202.4 feet and 335.4 feet, successively, from beginning of the course;

The directions of the lines refer to the true meridian.

The area of the above described tract is 5,709 acres, more or less (the area above high water line is 5,502 acres, more or less), and is as shown on Canal Zone Government Drawing No. 6116–46, entitled "Map Showing United States Army and Air Force Reservations, Fort Kobbe and Howard Air Force Base, Canal Zone,"[1] scale 1:10,000, dated April 25, 1952, on file in the Office of the Governor of the Canal Zone, Balboa Heights, C. Z.

The surveys over the above described boundary were made by the Surveys Branch, Engineering and Construction Bureau, The Panama Canal Company, in May and June 1939, December 1940, January 1941, November and December 1946, October, November and December 1951, and January and April 1952, and are recorded in Field Books numbered M–202, M–225, M–240, M–417 and M–486. The geodetic positions of all points, referred to the Panama-Colon datum of the Canal Zone triangulation system, are on file in the office of the above mentioned Surveys Branch.

SEC. 2. *Conditions and limitations.* The reservations established by section 1 of this order shall be subject to the following conditions and limitations:

[1] Filed as part of the original document.

(a) The area comprising these reservations shall continue to be subject to the civil jurisdiction of the Government of the Canal Zone in conformity with the provisions of the Canal Zone Code as amended and supplemented.

(b) Personnel and equipment of the Canal Zone Government and of the Panama Canal Company shall be permitted free access to these reservations to carry out necessary operations of such agencies in, or in the vicinity of, these reservations, in connection with public health and sanitation, operation of a public school, drainage, surveys, etc.; to inspect, maintain, repair, modify, or replace facilities or installations of such agencies within or adjacent to these reservations; and to install any additional services or utilities that are necessary to be installed through or upon, or in the vicinity of, these reservations.

(c) The Panama Canal Company shall have the right to continue to use that portion of the area set aside hereby which comprises the lowlands adjacent to the Rio Farfan and lies generally below the 20-foot contour, as a hydraulic dump, and personnel and equipment of the Panama Canal Company shall be permitted free access to such fill area for all purposes related to the use and maintenance of the area as a hydraulic dump.

(d) In the event of the activation of the Venado Beach area by the Canal agencies as a recreational area and bathing beach, persons eligible to utilize such area shall be permitted access thereto through these reservations, and suitable provision shall be made to enable the Canal agencies to construct an access road connecting Venado Beach with roads heretofore or hereafter constructed within these reservations.

(e) Access to Camp Harriett Morrow over that portion of Bruja Road which lies between monument 42 and monuments 40 and 41 shall be permitted to all persons authorized to enter such camp.

SEC. 3. *Executive order superseded.* This order supersedes Executive Order 8354 of February 25, 1940, which reserved and set apart Fort Kobbe Military Reservation.

KARL R. BENDETSEN,
Acting Secretary of the Army.

AUGUST 11, 1952.

TITLE 41—PUBLIC CONTRACTS

Chapter II—Division of Public Contracts, Department of Labor

PART 203—RULES OF PRACTICE

SUBPART C—MINIMUM WAGE DETERMINATIONS UNDER THE WALSH-HEALEY PUBLIC CONTRACTS ACT

Pursuant to authority vested in me by sections 1, 4 and 10 of the Walsh-Healey Public Contracts Act, as amended (49 Stat. 2036, as amended; 41 U. S. C. 35) this part is amended by adding a new Subpart C as set forth below. The purpose of this new subpart is to prescribe rules of practice applicable to the procedure for making prevailing minimum wage determinations under the act. These rules of practice shall be effective upon publication in the FEDERAL REGISTER.

SUBPART C—MINIMUM WAGE DETERMINATIONS UNDER THE WALSH-HEALEY PUBLIC CONTRACTS ACT

Sec.
203.15 Initiation of proceeding.
203.16 Industry panel meetings.
203.17 Hearings.
203.18 Evidence.
203.19 Subpoenas and witness fees.
203.20 Examination of witnesses.
203.21 Decisions.
203.22 Effective date of determinations.

AUTHORITY: §§ 203.15 to 203.22 issued under 49 Stat. 2036, as amended; 41 U. S. C. 35.

§ 203.15 *Initiation of proceeding.* Wage determination proceedings may be initiated by the Secretary of Labor with respect to any industry. The proceedings may be initiated by the Secretary of Labor upon his own motion or upon the request of any party showing a proper interest in the industry.

§ 203.16 *Industry panel meetings.* The Secretary of Labor may, within his discretion, invite representatives of employers and employees in an industry to meet as an informal panel group to discuss with representatives of the Department of Labor the various questions relating to the issuance of a wage determination for the industry.

§ 203.17 *Hearings.* (a) Hearings held for the purpose of receiving evidence with regard to prevailing minimum wages in the various industries shall be conducted by the Secretary of Labor or by a duly assigned Hearing Examiner.

(b) Due notice of hearing shall be published in the FEDERAL REGISTER.

(c) The hearing shall be stenographically reported and a transcript made which will be available to any person at prescribed rates upon request addressed to the Secretary, United States Department of Labor, Fourteenth Street and Constitution Avenue, Northwest, Washington 25, D. C.

(d) At the discretion of the Presiding Officer, the hearing may be continued from day to day or adjourned to a later date, or to a different place by announcement thereof at the hearing or by other appropriate notice.

§ 203.18 *Evidence.* (a) Witnesses appearing at the hearing need not be sworn. The Presiding Officer may, however, within his discretion, require that witnesses take an oath or affirmation as to testimony submitted.

(b) Written statements may be filed any time prior to the date of the hearing by persons who cannot appear personally.

(c) Written documents and exhibits shall be tendered in quadruplicate. When evidence is embraced in a document containing matter not intended to be put in evidence, within the discretion of the Presiding Officer, such a document will not be received but the person offering the same may present to the Presiding Officer the original document together with two copies of those portions

of the document intended to be put in evidence.

(d) At any stage of the hearing, the Presiding Officer may call for further evidence upon any matter. After the hearing has been closed, no further evidence shall be taken, except at the request of the Secretary, unless provision has been made at the hearing for the later receipt of such evidence. In the event that the Secretary shall cause the hearing to be reopened for the purpose of receiving further evidence, due and reasonable notice of the time and place fixed for such taking of testimony shall be given to all persons who have appeared at the hearing or filed a notice of intention to appear at the hearing.

(e) The rules of evidence prevailing in courts of law or equity shall not be controlling. However, it shall be the policy to exclude irrelevant, immaterial, or unduly repetitious evidence.

§ 203.19 *Subpoenas and witness fees.* (a) Subpoenas requiring the attendance of witnesses or the presentation of a document from any place in the United States at any designated place of hearing shall be issued by the Secretary or the Hearing Examiner upon request and upon a timely showing, in writing, of the general relevance and reasonable scope of the evidence sought. Any person appearing in the proceeding may apply for the issuance of a subpoena. Such application shall identify exactly the witness or document and state fully the nature of the evidence proposed to be secured.

(b) Witnesses summoned by the Secretary shall be paid the same fees and mileage as are paid witnesses in the courts of the United States. Witness fees and mileage shall be paid by the party at whose instance witnesses appear, and the Secretary before issuing a subpoena may require a deposit of an amount adequate to cover the fees and mileage involved.

§ 203.20 *Examination of witnesses.* The Presiding Officer shall, consistent with orderly procedure, permit any person appearing at the hearing to conduct such examination or cross-examination of any witness as may be required for a full and true disclosure of the facts, and to object to the admission or exclusion of evidence. Objections to the admission or exclusion of evidence shall be stated briefly with the reasons relied on. Such objections shall become a part of the record, but the record shall not include argument thereon except as ordered by the Presiding Officer.

§ 203.21 *Decisions.* (a) Where the hearing is held before the Secretary, within fifteen (15) days after the close of the hearing, any interested person appearing at the hearing may submit for the consideration of the Secretary an original and four copies of a statement in writing containing proposed findings and conclusions, together with supporting reasons therefor.

(b) Where the hearing is held before a Hearing Examiner, a complete record of the proceedings shall be certified to the Secretary upon the close of the hearing. The Secretary shall thereupon issue a proposed decision in the matter, which shall become a part of the record and include a statement of his findings and conclusions, as well as the reasons and basis therefor and the appropriate wage determination. Notice of the Secretary's proposed decision shall be published in the FEDERAL REGISTER.

(c) Within fifteen (15) days after such notice of the Secretary's proposed decision is published in the FEDERAL REGISTER, any interested person may file with the Secretary a statement in writing (original and four copies) setting forth any exceptions he may have to such decision, together with supporting reasons for such exceptions.

(d) After the expiration of the fifteen day periods referred to in paragraphs (a) and (c) of this section, and after consideration of all relevant matter presented as provided in such paragraphs, the Secretary shall make his final decision in the matter, and shall issue a minimum wage determination in accordance with such decision. Such minimum wage determination shall be published in the FEDERAL REGISTER.

§ 203.22 *Effective date of determinations.* Any minimum wage determination issued as a result of hearings held under this subpart shall take effect not less than 30 days after due notice is given of the issuance thereof by publication in the FEDERAL REGISTER, or at such time prior thereto as may be provided therein upon good cause found and published therewith.

Signed at Washington, D. C., this 28th day of August 1952.

MICHAEL J. GALVIN,
Acting Secretary of Labor.

TITLE 49—TRANSPORTATION

Chapter I—Interstate Commerce Commission

[Rev. S. O. 867, Amdt. 7]

PART 95—CAR SERVICE

RESTRICTIONS ON TRAP AND FERRY CARS

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 26th day of August A. D. 1952.

Upon further consideration of Revised Service Order No. 867 (15 F. R. 6199, 6313, 6573; 16 F. R. 2895, 6184, 12096; 17 F. R. 1857, 4949), and good cause appearing therefor: It is ordered, that:

Section 95.867 *Restrictions on trap and ferry cars*, of Revised Service Order No. 867 be, and it is hereby further amended by substituting the following paragraph (e) for paragraph (e) thereof:

(e) *Expiration date.* This section shall expire at 11:59 p. m., November 30, 1952, unless otherwise modified, changed, suspended, or annulled by order of this Commission.

Effective date. This amendment shall become effective at 11:59 p. m., August 31, 1952.

It is further ordered, that a copy of this amendment and direction be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

(Sec. 12, 24 Stat. 383, as amended; 49 U. S. C. 12. Interprets or applies secs. 1, 15, 24 Stat. 379, as amended, 384, as amended; 49 U. S. C. 1, 15)

By the Commission, Division 3.

[SEAL] W. P. BARTEL,
Secretary.

[F. R. Doc. 52-9535; Filed, Aug. 29, 1952; 8:47 a. m.]

[Corr. S. O. 870, Amdt. 6]

PART 95—CAR SERVICE

FREE TIME ON FREIGHT CARS LOADED AT PORTS

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 26th day of August A. D. 1952.

Upon further consideration of Service Order No. 870 (15 F. R. 8994, 9065; 16 F. R. 2895, 6843, 10995; 17 F. R. 1857, 4949), and good cause appearing therefor: It is ordered, that:

Section 95.870 *Free time on freight cars loaded at ports*, of Service Order No. 870, be, and it is hereby further amended by substituting the following paragraph (f) for paragraph (f) thereof:

(f) *Expiration date.* This section shall expire at 11:59 p. m., November 30, 1952, unless otherwise modified, changed, suspended or annulled by order of this Commission.

Effective date. This amendment shall become effective at 11:59 p. m., August 31, 1952.

It is further ordered, that a copy of this amendment and direction be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

(Sec. 12, 24 Stat. 383, as amended; 49 U. S. C. 12. Interprets or applies secs. 1, 15, 24 Stat. 379, as amended, 384, as amended; 49 U. S. C. 1, 15)

By the Commission, Division 3.

[SEAL] W. P. BARTEL,
Secretary.

[F. R. Doc. 52-9535; Filed, Aug. 29, 1952; 8:47 a. m.]

[Corr. S. O. 871, Amdt. 7]

PART 95—CAR SERVICE

FREE TIME ON UNLOADING BOX CARS AT PORTS

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 26th day of August A. D. 1952.

Upon further consideration of Service Order No. 871 (15 F. R. 8995, 9066; 16 F. R. 2895; 6843, 10750, 10995; 17 F. R. 1858, 4949), and good cause appearing therefor: It is ordered, that:

Section 95.871 *Free time on unloading box cars at ports*, of Service Order No. 871 be, and it is hereby further amended by substituting the following paragraph (g) for paragraph (g) thereof:

(g) *Expiration date.* This section shall expire at 11:59 p. m., November 30, 1952, unless otherwise modified, changed, suspended, or annulled by order of this Commission.

Effective date. This amendment shall become effective at 11:59 p. m., August 31, 1952.

It is further ordered, that a copy of this amendment and direction be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

(Sec. 12, 24 Stat. 383, as amended; 49 U. S. C. 12. Interprets or applies secs. 1, 15, 24 Stat. 379, as amended, 384, as amended; 49 U. S. C. 1, 15)

By the Commission, Division 3.

[SEAL] W. P. BARTEL, *Secretary.*

[F. R. Doc. 52-9533; Filed, Aug. 29, 1952; 8:47 a. m.]

[S. O. 877, Amdt. 5]

PART 97—ROUTING OF TRAFFIC

REROUTING OF TRAFFIC

At a session of the Interstate Commerce Commission, Division 3 held at its office in Washington, D. C., on the 26th day of August A. D. 1952.

Upon further consideration of the provisions of Service Order No. 877 (16 F. R. 4940, 8583, 8681, 12097; 17 F. R. 1726, 4576), and good cause appearing therefor: It is ordered, that:

Section 97.877 *Rerouting of traffic*, of Service Order No. 877, be and it is hereby, amended by substituting the following paragraph (g) hereof for paragraph (g) thereof:

(g) *Expiration date.* This section shall expire at 11:59 p. m., November 30, 1952, unless otherwise modified, changed, suspended or annulled by order of this Commission.

It is further ordered, that this amendment shall become effective at 11:59 p. m., August 31, 1952, that a copy of this order and direction be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

(Sec. 12, 24 Stat. 383, as amended; 49 U. S. C. 12. Interprets or applies secs. 1, 15, 24 Stat. 379, as amended, 384, as amended; 49 U. S. C. 1, 15)

By the Commission, Division 3.

[SEAL] W. P. BARTEL, *Secretary.*

PROPOSED RULE MAKING

DEPARTMENT OF LABOR

Wage and Hour Division

[29 CFR Parts 678, 689, 692, 697, 706]

PUERTO RICO; SPECIAL INDUSTRY COMMITTEE NO. 12

NOTICE OF HEARING ON MINIMUM WAGE RECOMMENDATIONS FOR CERTAIN INDUSTRIES

The Administrator of the Wage and Hour Division of the United States Department of Labor, acting pursuant to the Fair Labor Standards Act of 1938, as amended (52 Stat. 1060, as amended; 29 U. S. C. 201) on May 8, 1952, by Administrative Order No. 421, appointed Special Industry Committee No. 12 for Puerto Rico, composed of residents of Puerto Rico and of the United States outside of Puerto Rico, to investigate conditions respecting, and to recommend minimum wage rates for, employees engaged in commerce or in the production of goods for commerce in a number of industries in Puerto Rico specified in the order, including the Button, Buckle, and Jewelry Industry; Beer Division of the Alcoholic Beverage and Industrial Alcohol Industry; Railroad, Railway Express, and Property Motor Transport Industry; Stone, Glass, and Related Products Industry; and Sugar Manufacturing Industry.

The Committee included disinterested persons representing the public, a like number of persons representing employees in these industries, and a like number representing employers in these industries.

Special Industry Committee No. 12 for Puerto Rico has made separate minimum wage recommendations and has duly filed with the Administrator reports containing such recommendations, pursuant to section 8 (d) of the act and § 511.19 of the regulations issued under the act, for each of the aforementioned industries.

The Administrator is required by section 8 (d) of the act, after due notice to interested persons and giving opportunity to be heard, to approve and carry into effect by order each of the recommendations of Special Industry Committee No. 12 for Puerto Rico, if he finds that the recommendations are made in accordance with law, are supported by the evidence adduced at the hearing, and taking into consideration the same factors as are required to be considered by the industry committee, will carry out the purposes of section 8 of the act; and if he finds otherwise, to disapprove such recommendations.

Now, therefore, notice is hereby given that:

A. The separate minimum wage recommendations of Special Industry Committee No. 12 for employees engaged in commerce or in the production of goods for commerce in the above named industries in Puerto Rico are as follows:

Industry	Recommended minimum cents an hour
1. Button, buckle, and jewelry industry:	
(a) Pearl button and buckle division	54
(b) Leather and fabric button and buckle division	53
(c) Button and buckle (other than pearl, leather, or fabric) and bead division	48
(d) Rosary and native jewelry division	33
(e) Necklace, bracelet, and similar jewelry division	36
(f) Precious jewelry division	55
(g) Metal expansion watch band division	60
(h) Metal and plastic jewelry and miscellaneous products division	50
2. Beer division of the alcoholic beverage and industrial alcohol industry	
3. Railroad, railway express, and property motor transport industry:	
(a) Railroad division	33
(b) Railway express and property motor transport division	60
4. Stone, glass, and related products industry:	
(a) Glass and glass products division	60
(b) Glass decorating division	42
(c) Mica division	42
(d) Concrete pipe division	60
(e) Hot asphaltic plant mix division	75
(f) General division	50
5. Sugar manufacturing industry	75

B. The definitions of the above named industries in Puerto Rico (as set forth in Administrative Order No. 421) and of the separate divisions thereof, for which Special Industry Committee No. 12 for Puerto Rico has made the foregoing separate minimum wage recommendations are as follows:

1. *Button, buckle, and jewelry industry.* The manufacture from any material of buttons, buckles, jewelry (including rosaries), and jewelry findings, including beads): *Provided, however,* That the definition shall not include any activities covered by the definition of the Jewel Cutting and Polishing Industry in Puerto Rico.

The Committee recommended that the Button, Buckle, and Jewelry Industry in Puerto Rico, as defined in Administrative Order No. 421, be divided into separable divisions for the purpose of fixing minimum wage rates and that these separable divisions be defined as follows:

(a) *Pearl button and buckle division.* The manufacture of buttons and buckles from ocean pearl or other natural shell.

(b) *Leather and fabric button and buckle division.* The manufacture of buttons and buckles from leather, cotton tape, or other fabric.

(c) *Button and buckle (other than pearl, leather, or fabric) and bead division.* The manufacture of buttons and buckles from any material except ocean pearl or other natural shell, leather, cotton tape or other fabric; and the manufacture of metal, glass, plastic and wooden beads, but not including the pearlizing or further processing and assembling of beads into necklaces, bracelets, and similar jewelry items.

(d) *Rosary and native jewelry division.* The assembling of rosaries and the manufacture of novelty jewelry from materials of local origin such as seeds, shells, natural fibers and similar materials.

(e) *Necklace, bracelet, and similar jewelry division.* The stringing of artificial pearl and other necklaces, bracelets, and similar jewelry items made of beads, including pearlizing and other processing operations.

(f) *Precious jewelry division.* The manufacture of jewelry or jewelry findings made of precious metals whether or not embellished with natural or synthetic stones.

(g) *Metal expansion watch band division.* The manufacture or partial manufacture from metal of expansion bands or expansion bracelets for watches.

(h) *Metal and plastic jewelry and miscellaneous products division.* The manufacture from plastics, non-precious metals, or other materials of jewelry, jewelry findings and all other products included in the button, buckle, and jewelry industry, as defined herein, except those included in the pearl button and buckle division, the leather and fabric button and buckle division, the button and buckle (other than pearl, leather, or fabric) and bead division, the rosary and native jewelry division, the necklace, bracelet, and similar jewelry division, the precious jewelry division, and the metal watch band division.

2. *Beer division of the alcoholic beverage and industrial alcohol industry.* This division consists of the manufacture of beer, ale, and similar malt beverages containing alcohol.

3. *Railroad, railway express, and property motor transport industry.* (a) The industry carried on in Puerto Rico by any railroad carrier under public franchise which holds itself out to the general public to engage in the transportation of passengers or property for compensation.

(b) The industry carried on in Puerto Rico by any railway express or other express company which holds itself out to the general public to engage in the transportation of property for compensation.

(c) The industry carried on in Puerto Rico consisting of the transportation of property by motor vehicle for compensation: *Provided, however,* That this definition shall not include railroad transportation activities carried on by a producer of raw sugar, cane juice, molasses or refined sugar, and incidental by-products (or by any firm owned or controlled by, or owning and controlling such producer, or by any firm owned or controlled by the parent company of such producer), where the railroad transportation activities are in whole or in part used for the production or shipment of these products.

The Committee recommended that the railroad, railway express, and property motor transport industry in Puerto Rico, as defined in Administrative Order No. 421, be divided into separable divisions for the purpose of fixing minimum wage rates, and that these separable divisions be entitled and defined as follows:

(a) *Railroad division.* This division consists of the industry carried on in Puerto Rico by any railroad carrier under public franchise which holds itself out to the general public to engage in the transportation of passengers or property for compensation.

(b) *Railway express and property motor transport division.* This division consists of (1) the industry carried on in Puerto Rico by any railway express or other express company which holds itself out to the general public to engage in the transportation of property for compensation, and (2) the industry carried on in Puerto Rico consisting of the transportation of property by motor vehicle for compensation.

4. *Stone, glass, and related products industry.* The mining, quarrying, or other extraction and the further processing of all minerals (other than clay, metal ores, coal, petroleum, or natural gases) and the manufacture of products from such minerals, including, but without limitation, glass and glass products; dimension and cut stone; crushed stone, sand and gravel; abrasives; lime, concrete, gypsum, mica, plaster, and asbestos products; and the manufacture of products from bone, horn, ivory, shell, and other similar natural materials: *Provided, however,* That the definition shall not include the manufacture of chemicals, or the extraction of minerals used for such manufacture, or any product or activity included in the button, buckle, and jewelry industry; the cement industry; the clay and clay products industry; the construction, business service, motion picture, and miscellaneous industries; the jewel cutting and polishing industry; or the metal, plastics, machinery, instrument, transportation equipment and allied industries (as defined in the wage orders for these industries in Puerto Rico).

The Committee recommended that the stone, glass, and related products industry in Puerto Rico, as defined in Administrative Order No. 421, be divided into separable divisions for the purpose of fixing minimum wage rates, and that these separable divisions be entitled and defined as follows:

(a) *Glass and glass products division.* The manufacture of glass and glass products except the decorating of glass or glass products when performed in a non-glass making establishment.

(b) *Glass decorating division.* The decorating of glass or glass products when performed in a non-glass making establishment.

(c) *Mica division.* The processing of mica and the manufacture of mica parts for radio, television, or other electronic tubes or for other electrical products.

(d) *Concrete pipe division.* The manufacture of concrete pipe or conduit.

(e) *Hot asphaltic plant mix division.* The manufacture of hot asphaltic plant mix for paving.

(f) *General division.* All products and activities included in the stone, glass, and related products industry, as defined herein, except those included in the glass and glass products division, the glass decorating division, the mica division, the concrete pipe division, and the hot asphaltic plant mix division.

5. *Sugar manufacturing industry.* The production of raw sugar, cane juice, molasses and refined sugar, and incidental by-products and all railroad transportation activities carried on by a producer of any of these products (or by any firm owned or controlled by, or owning and controlling such producer, or by any firm owned or controlled by the parent company of such producer), where the railroad transportation activities are in whole or in part used for the production or shipment of the products of the industry, and any transportation activities by truck or other vehicle performed by a producer of the products of the industry in connection with the production or shipment of such products by such producer: *Provided, however,* That the industry shall not include any activity covered by the wage orders for the shipping industry or the railroad, railway express and property motor transport industry.

C. The full texts of the reports and recommendations of Special Industry Committee No. 12 for Puerto Rico for each of the above industries will be available for inspection by any person between the hours of 9:00 a. m. and 4:30 p. m. at the following offices of the United States Department of Labor, Wage and Hour Division:

18 Oliver Street, Boston 10, Mass.
808 Lafayette Building, Fifth and Chestnut Streets, Philadelphia 6, Pa.
248 Engineers Building, 1365 Ontario Avenue, Cleveland 14, Ohio.
3000 Federal Office Building, 911 Walnut Street, Kansas City 6, Mo.

144 Federal Office Building, Fulton and Leavenworth Streets, San Francisco 2, Calif.
Fourteenth Street and Constitution Avenue NW., Washington 25, D. C.
900 U. S. Parcel Post Building, 341 Ninth Avenue, New York 1, N. Y.
1908 Comer Building, 2026 Second Avenue North, Birmingham 3, Ala.
1200 Merchandise Mart Building, 222 West North Bank Drive, Chicago 54, Ill.
222 Fidelity Building, 1000 Main Street, Dallas 2, Tex.
United States Courthouse, 801 Broad Street, Nashville 3, Tenn.
412 New York Department Store Building, Post Office Box 9061, Santurce 29, P. R.

Copies of the Committee's reports and recommendations may be obtained by any person upon request addressed to the Administrator of the Wage and Hour Division, United States Department of Labor, Washington 25, D. C., or the Wage and Hour Division, United States Department of Labor, Room 412, New York Department Store Building, Stop 16½ Ponce de Leon Avenue, Santurce, San Juan, Puerto Rico.

D. Public hearings will be held at 10:00 a. m., on the dates and at the places set forth below before the Administrator of the Wage and Hour Division or a representative designated to preside in his place, for the purpose of taking evidence on the question of whether the separate recommendations of Special Industry Committee No. 12 for Puerto Rico set forth above shall be approved or disapproved.

Sugar manufacturing industry: October 21, 1952, in Room 5406, Department of Labor Building, Washington 25, D. C.
Button, buckle, and jewelry industry: October 7, 1952, in Room 5406, Department of Labor Building, Washington 25, D. C.
Beer division of the alcoholic beverage and industrial alcohol industry: October 7, 1952, in Room 5406, Department of Labor Building, Washington 25, D. C.
Railroad, railway express, and property motor transport industry: October 14, 1952, in Room 5406, Department of Labor Building, Washington 25, D. C.
Stone, glass, and related products industry: October 14, 1952, in Room 5406, Department of Labor Building, Washington 25, D. C.

E. Any interested person supporting or opposing any of the recommendations of Special Industry Committee No. 12 for Puerto Rico which are set forth above may appear at any of the aforesaid hearings to offer evidence, either on his own behalf or on behalf of any other person; provided that not later than seven days preceding any hearing at which he intends to appear, such person shall file with the Administrator of the Wage and Hour Division, United States Department of Labor, Washington 25, D. C. or at the office of the Wage and Hour Division, United States Department of Labor, Room 412, New York Department Store Building, Stop 16½, Ponce de Leon Avenue, Santurce, San Juan, Puerto Rico, notice of his intention to appear which shall contain the following information:

1. The name and address of the person appearing;

2. If such person is appearing in a representative capacity, the name and address of the person or persons whom he is representing;

3. The recommendation or recommendations of Special Industry Committee No. 12 for Puerto Rico in which he is interested and whether he proposes to appear for or against such recommendation or recommendations;

4. The approximate length of time requested for his presentation.

Such notice may be mailed to the Administrator, Wage and Hour Division, United States Department of Labor, or to the Wage and Hour Division, United States Department of Labor, Room 412, New York Department Store Building, Stop 16½, Ponce de Leon Avenue, Santurce, San Juan, Puerto Rico, and shall be deemed filed upon receipt.

F. Any person interested in supporting or opposing any of the above recommendations of Special Industry Committee No. 12 for Puerto Rico may secure further information concerning the aforesaid hearings by inquiry directed to the Administrator, Wage and Hour Division, United States Department of Labor, or to the Territorial Representative, Wage and Hour Division, United States Department of Labor, Room 412, New York Department Store Building, Stop 16½, Ponce de Leon Avenue, Santurce, San Juan, Puerto Rico, or by consulting with attorneys representing the Administrator who will be available at the Office of the Solicitor, United States Department of Labor in Washington, D. C.

G. The records made at the public hearing on conditions in the above-named industries in Puerto Rico held before Special Industry Committee No. 12 in San Juan, Puerto Rico in June and July, 1952, may be examined by any interested person at the offices of the Wage and Hour Division, United States Department of Labor, at 14th and Constitution Avenue, Washington 25, D. C., and Room 412, New York Department Store Building, Stop 16½, Ponce de Leon Avenue, Santurce, Puerto Rico. The records of the public hearing before the industry committee with respect to each of the above-named industries in Puerto Rico will be available for examination on and after 30 days prior to the date fixed herein for the hearing on the Committee's recommendation for such industry. Such records will be offered in evidence at the appropriate public hearing before the Administrator or his representative on such industry.

H. The hearings will be conducted in accordance with the following rules, subject, however, to such subsequent modifications by the Presiding Officer (the Administrator or his authorized representative, as the case may be) as are deemed appropriate.

1. The hearing shall be stenographically reported and a transcript made which will be available to any person at prescribed rates upon request addressed to the Administrator, Wage and Hour Division, United States Department of Labor, Fourteenth and Constitution Avenue, NW., Washington 25, D. C.

2. At the discretion of the Presiding Officer, the hearing may be continued from day to day or adjourned to a later date, or to a different place by announcement thereof at the hearing or by other appropriate notice.

3. At any stage of the hearing, the Presiding Officer may call for further evidence upon any matter. After the hearing has been closed, no further evidence shall be taken, except at the request of the Administrator, unless provision has been made at the hearing for the later receipt of such evidence. In the event that the Administrator shall cause the hearing to be reopened for the purpose of receiving further evidence, due and reasonable notice of the time and place fixed for such taking of testimony shall be given to all persons who have filed a notice of intention to appear at the hearing.

4. All evidence must be presented under oath or affirmation.

5. Except as otherwise permitted by the Presiding Officer, written documents or exhibits submitted personally at the hearing must be offered in evidence by a person who is prepared to testify as to the authenticity and trustworthiness thereof, and who shall, at the time of offering the documentary exhibit, make a brief statement as to the contents and manner of preparation thereof. Written, sworn statements may be filed any time prior to the date of the hearing by persons who cannot appear personally.

6. Written documents and exhibits shall be tendered in quadruplicate. When evidence is embraced in a document containing matter not intended to be put in evidence, such a document will not be received, but the person offering the same may present to the Presiding Officer the original document together with two copies of those portions of the document intended to be put in evidence.

7. Subpoenas requiring the attendance of witnesses or the presentation of a document from any place in the United States at any designated place of hearing shall be issued by the Administrator upon request and upon a timely showing, in writing, of the general relevance and reasonable scope of the evidence sought. Any person appearing in the proceeding may apply for the issuance by the Administrator of the subpoena. Such application shall identify exactly the witness or document and state fully the nature of the evidence proposed to be secured.

8. Witnesses summoned by the Administrator shall be paid the same fees and mileage as are paid witnesses in the courts of the United States. Witness fees and mileage shall be paid by the party at whose instance witnesses appear, and the Administrator before issuing a subpoena may require a deposit of an amount adequate to cover the fees and mileage involved.

9. The rules of evidence prevailing in courts of law or equity shall not be controlling. However, it shall be the policy to exclude irrelevant, immaterial, or unduly repetitious evidence.

10. The Presiding Officer shall, upon request, permit any person appearing in the proceeding to conduct such cross-examination of any witness offered by another person as may be required for a full and true disclosure of the facts, and to object to the admission or exclusion of evidence. Objections to the admission or inclusion of evidence shall be stated briefly with the reasons relied on. Such objections shall become a part of the record, but this record shall not include argument thereon except as ordered by the Presiding Officer.

11. Before the close of the hearing, written requests shall be received from persons appearing in the proceeding for permission to make oral arguments before the Administrator upon the matters in issue. If the Administrator, in his discretion, allows the request, he shall give such notice thereof as he deems suitable to all persons appearing in the proceeding and shall designate the time and place at which the oral arguments shall be heard. If such requests are allowed, all persons appearing at the hearing will be given opportunity to present oral argument.

12. Briefs (4 copies) or particular questions may be submitted to the Administrator following the close of the hearing, by any persons appearing therein. Notice of the final dates for filing such briefs shall be given by the Administrator in such manner as shall be deemed suitable by him.

13. (a) Where the hearing is held before the Administrator, within fifteen (15) days after the close of the hearing, any interested person appearing at the hearing may submit for the consideration of the Administrator an original and four copies of a statement in writing containing proposed findings and conclusions, together with supporting reasons therefor.

(b) Where the hearing is held before a representative of the Administrator designated to preside in his place, a complete record of the proceedings shall be certified to the Administrator upon the close of the hearing. The Administrator shall thereupon issue a tentative decision in the matter, which shall become a part of the record and include a statement of his findings and conclusions, as well as the reasons or basis therefor, upon all the material issues of fact, law, or discretion presented on the record, and the appropriate order. Notice of the Administrator's tentative decision shall be published in the FEDERAL REGISTER.

(c) Within fifteen (15) days after such notice of the Administrator's tentative decision is published in the FEDERAL REGISTER, any interested person appearing at the hearing may file with the Administrator a statement in writing (original and four copies) setting forth any exceptions he may have to such decision, together with supporting reasons for such exceptions.

(d) After the expiration of the fifteen day periods referred to in paragraphs 13 (a) and (c) above, and after consideration of all relevant matter presented as provided in such paragraphs, the Administrator shall make his final decision in the matter, and shall issue an order approving or disapproving the recommendations of the industry committee. Such order shall be published in the FEDERAL REGISTER.

14. Any wage order issued as a result of hearings held hereunder shall take effect 30 days after due notice is given of the issuance thereof by publication in the FEDERAL REGISTER, or at such time prior thereto as may be provided therein upon good cause found and published therewith.

Signed at Washington, D. C., this 27th day of August 1952.

F. GRANVILLE GRIMES, JR.,
Acting Administrator,
Wage and Hour Division.

CIVIL AERONAUTICS BOARD

[14 CFR Parts 40, 61]

FLIGHT TIME LIMITATIONS FOR LONG-DISTANCE SCHEDULED INTERSTATE OPERATIONS

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that the Civil Aeronautics Board has under consideration the adoption of an amendment to the proposed revised Part 40 of the Civil Air Regulations in substance as hereinafter set forth.

Interested persons may participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should be submitted in duplicate to the Civil Aeronautics Board, attention Bureau of Safety Regulation, Washington 25, D. C. In order to insure their consideration by the Board before taking further action on the proposed rule, communications must be received by September 25, 1952.

Copies of such communications will be available after September 29, 1952 for examination by interested persons in the Docket Section of the Board, Room 5412, Commerce Building, Washington, D. C.

The Bureau of Safety Regulation formerly proposed in 15 F. R. 6700 (proposed revision of Part 40) that maximum daily flight time limitations applicable to flight crews in scheduled domestic air carrier operations be extended from 8 hours to 12 hours for nonstop flights. After consideration of this proposal the Board decided that such a major departure from flight time limitations so long in use for domestic operations did not appear to be warranted at that time. Subsequent republication of the proposed revised Part 40 (16 F. R. 8923 and 17 F. R. 6971) did not, therefore, contain a similar proposal.

The Board has recently been advised that certain air carriers contemplate placing in operation aircraft which may be employed in nonstop transcontinental operations. It appears that all of the major problems which have prevented the establishment of such service in the past are approaching solution except that of flight time limitations. Since westbound flights in such nonstop transcontinental operations may still be expected to exceed 8 hours, the presently effective daily flight time limitations will of themselves prevent such operations irrespective of how desirable such transcontinental operations may be. Accordingly, it appears advisable for the Board to examine further the question of flight time limitations with respect to long-distance nonstop operations.

The Board, therefore, has under consideration an amendment to the regulations which will permit such long-distance flights, provided adequate safeguards to prevent excessive flight time are assured. Although the Board proposes that the daily flight time limitation for an airman engaged in long-distance scheduled nonstop operations be 12 hours, it also desires comment on the advisability of a limitation somewhere between 8 and 12 hours. Comment is further desired with respect to any related matters which would require concurrent amendment, such as whether the proposal would require the establishment of flight deck duty time limitations, and if so whether such flight deck duty time limitations should be equally applicable to pilots and other flight crew members, and similarly what the magnitude of such flight deck duty time limitations should be.

This amendment is proposed under the authority of Title VI of the Civil Aeronautics Act of 1938, as amended. The proposal may be changed in the light of comments received in response to this notice of proposed rule making.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply secs. 601–610, 52 Stat. 1007–1012; 49 U. S. C. 551–560)

Dated August 26, 1952, at Washington, D. C.

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN,
Secretary.

NOTICES

ECONOMIC STABILIZATION AGENCY

Office of Price Stabilization

[Region I, Redelegation of Authority No. 47]

DIRECTORS OF THE DISTRICT OFFICES REGION I, BOSTON, MASS.

REDELEGATION OF AUTHORITY TO ACT UNDER GOR 24

By virtue of the authority vested in me as Director of the Regional Office of Price Stabilization, No. I, and pursuant to Delegation of Authority No. 50 (17 F. R. 675), this redelegation of authority is hereby issued.

1. Authority is hereby redelegated to the Directors of the District Offices of the Office of Price Stabilization in Region I, to issue adopting orders as authorized by GOR 24 and to grant, deny, or revoke the reclassification provided for under section 7 of GOR 24.

2. If the area for which it is deemed appropriate to fix community dollars-and-cents ceiling prices lies within the jurisdiction of more than one regional or district office of the Office of Price Stabilization, the office for the area in which the majority of the sellers to be covered by the order is located shall be the office to issue an order fixing com-

munity dollars-and-cents ceiling prices for all sellers in that area.

This redelegation of authority shall take effect as of August 19, 1952.

JOSEPH M. McDONOUGH,
Regional Director, Region I.

REDELEGATION OF AUTHORITY TO MAKE ADJUSTMENTS UNDER SR 39, REVISION 1, TO THE GCPR

By virtue of the authority vested in me as Director of the Regional Office of Price Stabilization, No. III, pursuant to Delegation of Authority No. 25, Amendment 1 (17 F. R. 7098), this amendment to Redelegation of Authority No. 27 is hereby issued.

Paragraph 1 of Authority No. 27 is amended to read as follows:

1. Authority is hereby redelegated to each of the District Directors of the Office of Price Stabilization in Region III:

(a) To deny applications for adjustments of ceiling rates or charges made in accordance with the provisions of Supplementary Regulation 39, Revision 1 to the General Ceiling Price Regulation relating to interstate and intrastate operations;

(b) To make adjustments of ceiling rates or charges in accordance with the provisions of Supplementary Regulation 39, Revision 1 to the General Ceiling Price Regulation relating to interstate and intrastate operations.

This amendment shall take effect as of August 22, 1952.

[Region VI, Redelegation of Authority No. 18, Amdt. 1]

DIRECTORS OF THE DISTRICT OFFICES REGION VI, CLEVELAND, OHIO

DELEGATION OF AUTHORITY TO MAKE ADJUSTMENTS UNDER SR 39, REVISION 1 TO THE GCPR

By virtue of the authority vested in me as Director of the Regional Office of Price Stabilization, No. VI, pursuant to Delegation of Authority No. 25 (16 F. R. 11406) and pursuant to Delegation of Authority 25, Amendment 1 (17 F. R. 7098), this Amendment 1 to Redelegation of Authority 18 is hereby issued.

Section 1 of Redelegation of Authority 18 (17 F. R. 261) is amended to read as follows:

1. Authority is hereby redelegated to the Directors of the District Offices of Price Stabilization located at Detroit, Michigan, and Louisville, Kentucky, to:

(a) Deny applications for adjustments of ceiling rates of charges made in accordance with the provisions of Supplementary Regulation 39, Revision 1 to the General Ceiling Price Regulation relating to interstate and intrastate operations;

(b) Make adjustments of ceiling rates or charges in accordance with the provisions of Supplementary Regulation 39, Revision 1 to the General Ceiling Price Regulation relating to interstate and intrastate operations.

This amendment shall take effect as of August 25, 1952.

SYDNEY A. HESSE,
Regional Director, Region VI.

[Region VI, Redelegation of Authority No. 27, Amdt. 2]

DIRECTORS OF THE DISTRICT OFFICES, REGION VI, CLEVELAND, OHIO

REDELEGATION OF AUTHORITY TO AUTHORITY TO ACT DURING EPIDEMIC CONDITIONS UNDER DR 1, REVISION 1

By virtue of the authority vested in me as Director of the Regional Office of Price Stabilization No. VI, pursuant to Delegation of Authority No. 11, Revision 1 (17 F. R. 2145) and pursuant to Delegation of Authority No. 11, Revision 1, Amendment 1 (17 F. R. 7195), this Amendment 2 to Redelegation of Authority No. 27 (17 F. R. 3067) is hereby issued.

Redelegation of Authority No. 27, is amended by adding a new section 1 (f) to read as follows:

(f) To grant relief, pursuant to section 19 (c) of Distribution Regulation 1, Revision 1, in the form of permission to a registered Class 2 or Class 2A slaughterer to have swine slaughtered for him temporarily by a Class 1 slaughterer, where and for so long as epidemic conditions make such relief necessary. This paragraph is effective for the duration of the epidemic of vesicular exanthema in existence on August 1, 1952.

This Amendment 2 to Redelegation of Authority 27, shall be effective as of August 25, 1952.

SYDNEY A. HESSE,
Regional Director, Region VI.

[Ceiling Price Regulation 83, Section 2, Special Order 16, Amdt. 8]

KAISER-FRAZER CORP.

BASIC PRICES AND CHARGES FOR NEW PASSENGER AUTOMOBILES

Statement of considerations. Special Order 16 established a schedule of prices and charges pursuant to section 2 of Ceiling Price Regulation 83 for sellers of new passenger automobiles and factory installed extra equipment manufactured by the Kaiser-Frazer Corporation. The Director by letter order has recently established new wholesale ceiling prices pursuant to existing regulations on Kaiser Deluxe and Kaiser Manhattan automobiles, and the Kaiser-Frazer Corporation has increased its prices on such automobiles to its dealers pursuant thereto. This order is accordingly issued to establish sellers' prices and charges which will reflect increased costs to dealers and mark-ups thereon, and is applicable to all automobiles which have been sold by Kaiser-Frazer Corporation at the increased prices.

Amendatory provisions. For the reasons set forth in the Statement of Considerations and pursuant to section 2 of Ceiling Price Regulation 83, this amendment to Special Order 16 is hereby issued.

1. The list of basic prices for Kaiser Deluxe and Kaiser Manhattan automobiles manufactured by Kaiser-Frazer Corporation in paragraph one is amended to read as follows:

KAISER AUTOMOBILES

Kaiser "Deluxe" series (sold by Kaiser-Frazer at prices in effect prior to July 18, 1952)

2-door Traveler	$2,308.65
4-door Sedan	2,259.91
Business Coupe	2,036.88
2-door Sedan	2,210.31
4-door Traveler	2,357.40
Club Coupe	2,188.63

Kaiser "Deluxe" series (sold by Kaiser-Frazer at prices in effect subsequent to July 18, 1952)

2-door Traveler	$2,371.61
4-door Sedan	2,322.87
Business Coupe	2,099.84
2-door Sedan	2,273.27
4-door Traveler	2,420.36
Club Coupe	2,251.59

Kaiser "Manhattan" series (sold by Kaiser-Frazer at prices in effect prior to July 18, 1952)

2-door Traveler	$2,415.87
4-door Sedan	2,367.14
Business Coupe	2,210.31
2-door Sedan	2,318.41
4-door Traveler	2,464.61
Club Coupe	2,337.89

Kaiser "Manhattan" series (sold by Kaiser-Frazer at prices in effect subsequent to July 18, 1952)

2-door Traveler	$2,478.83
4-door Sedan	2,430.10
Business Coupe	2,273.27
2-door Sedan	2,381.37
4-door Traveler	2,527.57
Club Coupe	2,400.85

Effective date. This amendment to Special Order 16 shall become effective August 21, 1952.

ELLIS ARNALL,
Director of Price Stabilization.

AUGUST 21, 1952.

[F. R. Doc. 52-9343; Filed, Aug. 21, 1952; 11:04 a. m.]

FEDERAL POWER COMMISSION

[Docket No. G-2028]

MANUFACTURERS LIGHT AND HEAT CO. AND CUMBERLAND AND ALLEGHENY GAS CO.

NOTICE OF APPLICATION

AUGUST 26, 1952.

Take notice that Manufacturers Light and Heat Company (Manufacturers), a Pennsylvania corporation, and Cumberland and Allegheny Gas Company (Cumberland), a West Virginia corporation, both having their principal place of business at 800 Union Trust Building, Pittsburgh, Pennsylvania, filed on August 14, 1952, an application for certificates of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of certain natural-gas pipelines for the transportation and sale of natural gas, and an application for permission and approval pursuant to section 7 of the Natural Gas Act for abandonment, retirement and removal of certain natural-gas pipelines, all as hereinafter described.

Manufacturers proposes the following: (a) To construct and operate 9,240 feet of 12-inch and 1,200 feet of 4-inch pipeline in and near the City of Weirton, West Virginia, and to abandon in place 6,820 feet of 6-inch, 3,160 feet of 8-inch and 3,600 feet of 4-inch pipeline in the same locality; (b) to construct and operate 4.4 miles of 16-inch pipeline between Peters Run Reducing Station and the Town of Warwood, near Wheeling, West Virginia, and to abandon and remove 4.4 miles of 10-inch pipeline in the same locality; (c) to abandon, retire and remove one 80-horsepower compressor unit from its Sedalia Compressor Station, West Virginia; and (d) to construct and operate 2.04 miles of 8-inch loop line between a point in East Pike Run Township and the Borough of Allenport, Pennsylvania. Cumberland proposes to construct and operate 3 miles of 4-inch pipeline between Albright and Kingwood, West Virginia, and to abandon and remove the existing 2- and 3-inch line between these communities.

Applicants state that no new services are hereby proposed and that, through the means of the additional facilities described above, they proposed to improve and increase service and capacity for the benefit of the customers involved. Applicants estimate the net cost of the proposed facilities at $473,992 and state that the financing will be with money obtained from their parent company, The Columbia Gas System, Inc., under arrangements not yet formulated.

Manufacturers' project (a), above, is in substitution for and to serve the same purpose as Job No. 16 for which a certificate was granted in Docket No. G-1732. Manufacturers desires to abandon the authorization for this job under Docket No. G-1732, Manufacturers' project (d), above, is in substitution for the construction proposed in Job No. 8 in Docket No. G-1898. Manufacturers states that it has now abandoned such request.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 16th day of September 1952. The application is on file with the Commission for public inspection.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

OFFICE OF DEFENSE MOBILIZATION

[Defense Manpower Policy No. 4, Notification 34, Revocation]

PLACEMENT OF PROCUREMENT IN THE PORTSMOUTH, OHIO, AREA

NOTIFICATION OF REVOCATION TO DEPARTMENT OF DEFENSE AND GENERAL SERVICES ADMINISTRATION

The Department of Labor has notified the Surplus Manpower Committee that Portsmouth is no longer classified as a Group IV, surplus labor area, and is now classified as a Group II area. Therefore, in accordance with the standards established by the Secretary of Labor under Section III, paragraph 2 of Defense Manpower Policy No. 4, the certification of this area has been withdrawn.

The Department of Defense and the General Services Administration are hereby notified that preference in the placement of Government contracts, in accordance with Defense Manpower Policy No. 4, should no longer be given to the above named area. Effective immediately Notification 34 is revoked.

OFFICE OF DEFENSE MOBILIZATION,
JOHN R. STEELMAN,
Acting Director.

SECURITIES AND EXCHANGE COMMISSION

[File No. 1-3347]

NORMANDIE GOLD CONSOLIDATED, INC.

NOTICE OF APPLICATION TO STRIKE FROM LISTING AND REGISTRATION, AND OF OPPORTUNITY FOR HEARING

AUGUST 26, 1952.

The San Francisco Mining Exchange, pursuant to section 12 (d) of the Securities Exchange Act of 1934 and Rule X-12D2-1 (b) promulgated thereunder, has made application to strike from listing and registration the Capital Assessable Stock, $1 Par Value, of Normandie Gold Consolidated, Inc.

The application alleges that the reasons for striking this security from listing and registration on this exchange are as follows:

(1) Two individuals own virtually all of the outstanding shares of the above security.

(2) The above security has been suspended from trading on the applicant exchange for more than three years without any successful effort having been made to obtain sufficient public distribution to warrant the continued listing and registration of this security on applicant exchange.

Upon receipt of a request, prior to September 25, 1952, from any interested person for a hearing in regard to terms to be imposed upon the delisting of this security, the Commission will determine whether to set the matter down for hearing. Such request should state briefly the nature of the interest of the person requesting the hearing and the position he proposes to take at the hearing with respect to imposition of terms or conditions. In addition, any interested person may submit his views or any additional facts bearing on this application by means of a letter addressed to the Secretary of the Securities and Exchange Commission, Washington, D. C. If no one requests a hearing on this matter, this application will be determined by order of the Commission on the basis of the facts stated in the application, and other information contained in the official file of the Commission pertaining to this matter.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[F. R. Doc. 52-9526; Filed, Aug. 29, 1952; 8:46 a. m.]

[File No. 54-173]

PHILADELPHIA CO., AND STANDARD GAS AND ELECTRIC CO.

ORDER APPROVING PLAN

AUGUST 22, 1952.

Standard Gas and Electric Company ("Standard"), a subsidiary of Standard Power and Light Corporation ("Standard Power"), having filed an application pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935 ("the act") for approval of a plan and amendments thereto providing for the simplification of the corporate structure of the system of Philadelphia Company ("Philadelphia"), its subsidiary, the three aforenamed companies being registered holding companies;

Steps 1 through 3 of the aforementioned plan having been consummated and Step 4 thereof providing for the retirement of the 5 and 6 percent Preferred Stocks of Philadelphia and the Preferred Stock of The Consolidated Gas Company of the City of Pittsburgh ("Consolidated Preferred Stock");

Public hearings having been duly held after appropriate notice, at which hearings all interested persons were afforded an opportunity to be heard;

Standard having requested that the Commission's order approving Step 4 contain recitals in accordance with the requirements of the Internal Revenue Code, as amended, including Supplement R and section 1808 (f) thereof;

Standard having further requested the Commission, pursuant to section 11 (e) of the act, to apply to a United States District Court to enforce and carry out the terms and provisions of the plan;

The Commission having considered the record in the matter and having filed its Findings and Opinion herein on April 7, 1952, finding therein that Step 4 is necessary to effectuate the provisions of section 11 (b) of the act and, if amended in certain respects as set forth in said Findings and Opinion, fair and equitable to all persons affected thereby;

Standard having, on July 11, 1952, filed an amendment to Step 4 modifying it in accordance with the aforesaid Findings and Opinion of the Commission;

The Commission having considered the aforesaid amendment filed on July 11, 1952, in the light of its Findings and Opinion of April 7, 1952, and finding that the plan, as thus amended, is necessary to effectuate the provisions of section 11 (b) of the act and is fair and equitable to persons affected by it;

It is ordered, On the basis of the record herein and the said Findings and Opinion, pursuant to section 11 (e) and other applicable provisions of the act, that said Step 4, as amended, be and it hereby is approved subject to the terms and conditions contained in Rule U-24 of the general rules and regulations promulgated under the act and to the following additional terms and conditions:

1. That the order entered herein shall not be operative to authorize the consummation of the transactions proposed in Step 4, as amended, until an appropriate United States District Court shall, upon application thereto, enter an order enforcing said Step 4, as amended;

2. That Standard, Philadelphia and Standard Power shall pay only such fees and expenses in connection with Step 4, as amended, and the proceedings relating thereto as the Commission may approve on appropriate application made to it, and jurisdiction be and hereby is specifically reserved to determine the reasonableness and appropriate allocation of all such fees and expenses and other renumeration incurred or to be incurred in connection with the said Step 4, as amended, and the transactions incident thereto;

3. That jurisdiction be and it hereby is further specifically reserved with respect to the following matters:

a. The supervision of efforts to locate holders of securities to be exchanged under the provisions of Step 4, as amended.

b. The appropriateness of the accounting entries to be made by Philadelphia in recording the transactions incident to the consummation of Step 4, as amended.

c. The selection of the Exchange Agent provided for in Step 4, Standard not to appoint an Exchange Agent until it has notified the Commission of the Agent proposed to be employed and the manner by which such proposed Agent was selected and the Commission has entered a further order herein releasing jurisdiction with respect to the Agent proposed to be employed.

d. The entertaining of such further proceedings, entering of such further orders and the taking of such further action as may be necessary or appropriate in connection with Step 4, as amended, the transactions incident thereto and the consummation thereof.

It is further ordered and recited, That all steps and transactions involved in the consummation of Step 4, as amended, including particularly, the transfers, conveyances, exchanges, expenditures and investments, receipts and distributions hereinafter described and recited in subparagraphs 1 through 7 below, are hereby authorized and approved and are necessary and appropriate to effectuate the provisions of section 11 (b) of the act and the orders of the Commission previously entered thereunder, all in accordance with the meaning and requirements of Supplement R of the Internal Revenue Code, as amended, and section 1808 (f) thereof, the stock and securities and other property to be transferred, conveyed, exchanged, received or distributed upon such transactions and expenditures and investments to be made, being specified and itemized as follows:

1. The retirement by Philadelphia of the 230 outstanding shares of its 5 percent Preferred Stock by payment in exchange therefor of $12 per share in cash, plus cash in an amount equal to divi-

mission, 425 Second Street NW., Washington, D. C., a declaration pursuant to the Public Utility Holding Company Act of 1935 ("act") and Rule U-70 thereunder with respect to the issuance and sale by Kentucky Utilities Company ("Kentucky"), a subsidiary of The Commonwealth Edison Company, a registered holding company, of 100,000 shares of its Common Stock, $10 par value, at competitive bidding;

Notice of said filing having been duly given in the form and manner required by Rule U-23 and the Commission not having received a request for a hearing with respect to said declaration within the time set forth in said notice or otherwise, and the Commission not having ordered a hearing thereon;

The Commission finding that the applicable standards of the act and the rules thereunder are satisfied and that no adverse findings are necessary;

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act and subject to the terms and conditions prescribed in Rule U-24, that said declaration be and it hereby is granted, effective forthwith, and that the proposed transaction may be consummated forthwith upon the following terms and conditions:

1. That the issuance and sale of said shares of Common Stock shall be made at competitive bidding in accordance with Rule U-50 and that Kentucky shall file with the Commission a report of the results of such competitive bidding;

2. That the fees and expenses to be paid or incurred in connection with the proposed transaction shall not exceed $15,000 plus $1,000 for each 10,000 shares of Common Stock sold in excess of 100,000 shares, and that Kentucky shall file with the Commission a certificate of notification setting forth the fees and expenses paid or incurred in connection with the proposed transaction;

3. That Kentucky shall file with the Commission a certificate of notification setting forth the number of shares of Common Stock sold, the price per share and the net proceeds received therefrom.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[4th Sec. Application 27350]

SOUTHERN RAILWAY CO. ET AL.

APPLICATION FOR RELIEF

AUGUST 27, 1952.

The Commission is in receipt of the above-entitled and numbered application for authority to establish rates for the transportation of iron and steel articles, as described in the application, from Ensley, Alabama, to Memphis, Tennessee, and Birmingham, Alabama, to Memphis, Tennessee.

Any interested person desiring the Commission to hold a hearing upon such application shall request it in writing within 30 days from the date of this notice, and shall specify with particularity the facts which support his interest and the reasons why such relief should not be granted without hearing.

By the Commission.

[SEAL] W. P. BARTEL,
Secretary.

[F. R. Doc. 52-9528; Filed, Aug. 29, 1952; 8:46 a. m.]

dends accrued and unpaid upon such stock to the effective date of Step 4, as amended; such cash to be paid out of the proceeds of sale of the Equitable Gas Company Debentures, to the extent available and required, in accordance with subparagraph 7 below.

2. The transfer and payment by Philadelphia to the holders of its 491,140 shares of outstanding 6 percent Preferred Stock, in exchange for and retirement of each share presently outstanding, of one share of the 4 percent Preferred Stock of Duquesne Light Company ("Duquesne") plus $13 in cash, such cash to be decreased or increased by the amount that dividends accrued to the effective date of Step 4, as amended, on the Duquesne 4 percent Preferred Stock to be received exceed or are less than the dividends accrued to said effective date on the Philadelphia 6 percent Preferred Stock to be exchanged therefor, as the case may be, and the transfer and delivery by the holders of said 6 percent Preferred Stock of Philadelphia to Philadelphia of said shares in exchange for said shares of 4 percent Preferred Stock of Duquesne and said cash; any cash so payable in retirement of said Philadelphia 6 percent Preferred Stock to be paid out of the proceeds of sale of the Equitable Gas Company Debentures, to the extent available and required, in accordance with subparagraph 7 below.

3. The transfer by Philadelphia to the holders of the 34,596 shares of outstanding Consolidated Preferred Stock in exchange for and retirement of each share presently outstanding, of one share of the 4 percent Preferred Stock of Duquesne, with cash adjustment of dividends as provided in Step 4, as amended, and the transfer and delivery by the holders of said Consolidated Preferred Stock of said shares in exchange for said shares of 4 percent Preferred Stock of Duquesne, with said cash adjustment of dividends as provided in Step 4, as amended.

4. The transfer and delivery by Philadelphia to the Exchange Agent provided for by Step 4, as amended, of the cash and 525,736 shares of 4 percent Preferred Stock of Duquesne (represented by Certificate No. 3 registered in the name of Philadelphia) specified in subparagraphs 1, 2 and 3 above, the transfer of said certificate for said 4 percent Preferred Stock of Duquesne to, and the registration of said stock in the name of, said Exchange Agent or its nominees, the transfer and delivery to Philadelphia or to said Exchange Agent (or to any subagent appointed by said Exchange Agent with the approval of Philadelphia) by the holders thereof of the aforesaid 5 percent and 6 percent Preferred Stocks of Philadelphia and Consolidated Preferred Stock in exchange for said 4 percent Preferred Stock of Duquesne and/or cash, the transfer and delivery by said Exchange Agent or any such subagent to said holders of Preferred Stocks of Philadelphia and Consolidated Preferred Stock of said 4 percent Preferred Stock of Duquesne (by certificates issued against, and upon transfer by said Agent of part of the shares represented by, such certificate or certificates so to be registered in the name of said Exchange Agent or its nominees) and/or cash upon such exchanges, the transfer and delivery by said Exchange Agent to Philadelphia of the Philadelphia 5 percent and 6 percent Preferred Stocks and the Consolidated Preferred Stock received by the Exchange Agent or any such subagent upon such exchanges and the transfer and delivery by Philadelphia to The Consolidated Gas Company of the City of Pittsburgh for cancellation of said Consolidated Preferred Stock, all as provided in Step 4, as amended.

5. The transfer and delivery by said Exchange Agent to Duquesne, upon the expiration of five years from the date of deposit with said Exchange Agent by Philadelphia, as stated in subparagraph 4 above, of the 4 Percent Preferred Stock of Duquesne and cash, of all certificates for shares of said 4 Percent Preferred Stock of Duquesne, together with all cash received by said Exchange Agent as dividends or otherwise thereon, which are then held by said Exchange Agent in respect of 6 Percent Preferred Stock of Philadelphia or Consolidated Preferred Stock not theretofore surrendered for exchange, and the payment by said Exchange Agent to Philadelphia or its successor or assignee, upon the expiration of said five year period, of all cash deposited with it by Philadelphia and then held by it in respect of said stocks not theretofore surrendered for exchange.

6. The sale by Philadelphia to Equitable Gas Company for cash, upon the redemptions thereof which have heretofore taken place, of $146,000 principal amount of Twenty-Year 3⅜ Percent Sinking Fund Debentures, due March 1, 1970, of Equitable Gas Company, the transfer and delivery by Philadelphia of said Debentures and the receipt by Philadelphia of the redemption price therefor.

7. The application and expenditure by Philadelphia, to the extent required therefor, of the balance of the proceeds from the sale by Philadelphia of $11,000,000 principal amount of Twenty-Year 3⅜ percent Sinking Fund Debentures, due March 1, 1970, of Equitable Gas Company (pursuant to the Commission's order dated June 21, 1950) in excess of the amount previously expended for retirement of Philadelphia's $6 Cumulative Preference Stock, as well as the sum of $151,694 heretofore received by Philadelphia upon redemption by Equitable Gas Company of $146,000 principal amount of said Debentures, together with, subject to the further order of this Commission approving such sale, the entire proceeds which may be derived by Philadelphia from any sale which Philadelphia may make, pursuant to such further order, of $6,354,000 principal amount of said Debentures now held by Philadelphia, in and for the retirement and cancellation of Philadelphia's 5 and 6 percent Preferred Stocks presently outstanding, to the extent that cash is payable in exchange for said Preferred Stocks pursuant to Step 4, as amended, as approved by this Order.

By the Commission.

INVESTMENT BOND AND SHARE CORP. ET AL.

NOTICE OF FILING OF APPLICATION FOR APPROVAL OF FEES AND EXPENSES, FOR DISMISSAL OF PROCEEDING AND FOR ORDER DECLARING THAT COMPANY HAS CEASED TO BE A HOLDING COMPANY

AUGUST 26, 1952.

In the matter of Investment Bond and Share Corporation and Its Subsidiaries and William J. Walsh, Edwin Joseph Smail, John F. Baker, George M. Baker, Catherine E. Baker, Katherine M. Baker, John T. Walsh, William F. Walsh, Janice G. Walsh, Anne W. Smail, Edwin W. Smail, Barbara S. Johnson, Wallace D. Johnson, and Baker, Walsh & Co., Respondents, File No. 59-98; and Investment Bond and Share Corporation and Its Subsidiaries, File No. 54-198.

The Commission by Order dated July 11, 1952, having, among other things, approved a plan of liquidation of Investment Bond and Share Corporation ("IBS") pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935 ("act") and having reserved jurisdiction with respect to the payment of all fees and expenses incurred and having continued jurisdiction with respect to the proceedings instituted by the Commission pursuant to section 11 (b) and other sections of the act:

IBS and the other respondents having filed (1) a notification pursuant to Rule U-24 certifying that said plan of liquidation and other proposals have been consummated in accordance with the provisions of said plan and related proposals, (2) an application requesting approval of fees and expenses aggregating $38,006, including counsel fees of $30,000 payable to Dallstream, Schiff, Stern & Hardin, counsel to IBS, and $1,180 payable to Arthur Young & Company for accounting services, (3) requesting a dismissal of the proceeding instituted by the Commission pursuant to section 11 (b) of the act, among others, as to all respondents named therein and listed above, and (4) requesting an order declaring that IBS has ceased to be a holding company under the act:

Notice is hereby given that any interested person may, not later than September 10, 1952, at 5:30 p. m., e. d. s. t., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reason or reasons for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after said date, the application, as filed or as amended, may be granted.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 70-2910]

ARKANSAS POWER & LIGHT CO.

ORDER REGARDING ISSUANCE AND SALE OF FIRST MORTGAGE BONDS SUBJECT TO RESERVATION

AUGUST 26, 1952.

Arkansas Power & Light Company ("Arkansas"), an electric utility subsidiary of Middle South Utilities, Inc., a registered holding company, having filed an application and an amendment thereto pursuant to the Public Utility Holding Company Act of 1935, particularly section 6 (b) thereof and Rule U-50 thereunder regarding the following proposed transactions, which are more fully set forth in the application, as amended:

Arkansas proposes to issue and sell pursuant to the competitive bidding requirements of Rule U-50, $15,000,000 principal amount of First Mortgage Bonds, -- percent series, due 1982, to be issued under and secured by the company's Mortgage and Deed of Trust dated as of October 1, 1944, as heretofore supplemented, and as to be further supplemented by a Sixth Supplemental Indenture to be dated as of September 1, 1952. The proceeds of the proposed sale of bonds will be used to finance, in part, Arkansas' construction program for the years 1952 and 1953 which is estimated to require the expenditure of approximately $60,000,000 of which approximately $8,800,000 had been expended by June 30, 1952;

Said application having been filed on August 5, 1952, an amendment thereto having been filed on August 22, 1952, notice of said filing having been given in the form and manner required by Rule U-23, promulgated pursuant to said act, the Commission not having received a request for hearing within the time specified in said notice, or otherwise, and the Commission not having ordered a hearing thereon; and

The Commission finding that the proposed issuance and sale of securities are for the purpose of financing the business of Arkansas as a public utility company, and that the proposed transactions have been specifically approved by Arkansas Public Service Commission, the State Commission of the State in which Arkansas was organized and is doing business; and the Commission deeming it appropriate to grant said application, as amended, without the imposition of terms or conditions other than those set forth below:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act and subject to the terms and conditions contained in Rule U-24 that said application, as amended, be, and the same hereby is, granted, effective forthwith, subject to the following conditions and reservations:

1. That the proposed issuance and sale of bonds shall not be consummated until the results of competitive bidding pursuant to Rule U-50 shall have been made a matter of record herein and a further order shall have been entered by the Commission in the light of the record as so completed, and

2. That jurisdiction be, and the same hereby is, reserved with respect to the payment of fees and expenses incurred or to be incurred in connection with the proposed transactions.

By the Commission.

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 27349]

FOREIGN WOODS FROM HALLSBORO, N. C. TO POINTS IN SOUTHERN TERRITORY

APPLICATION FOR RELIEF

AUGUST 27, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for carriers parties to Agent C. A. Spaninger's tariff I. C. C. No. 1226.

Commodities involved: Lumber, logs, flitches or piling of foreign woods, also built-up woods, dimension stock, and carpenters moulding, carloads.

From: Hallsboro, N. C.

To: Points in southern territory.

Grounds for relief: Competition with rail carriers, circuitous routes, and grouping.

Schedules filed containing proposed rates: C. A. Spaninger's tariff I. C. C. No. 1226, Supp. 30.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

[4th Sec. Application 27350]

CRUDE PETROLATUM FROM NEW ORLEANS, LA., GROUP TO POINTS IN NEW YORK, OHIO, PENNSYLVANIA AND WEST VIRGINIA

APPLICATION FOR RELIEF

AUGUST 27, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for carriers parties to Agent C. A. Spaninger's tariff I. C. C. No. 1253.

Commodities involved: Crude petrolatum, in tank-car loads.

From: New Orleans, La., and points grouped therewith.

To: Points in New York, Ohio, Pennsylvania, and West Virginia.

Grounds for relief: Rail competition, circuitous routes, and to apply rates constructed on the basis of the short line distance formula.

Schedules filed containing proposed rates: C. A. Spaninger, Agent, I. C. C. No. 1253, Supp. 55.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

[Rev. S. O. 562, Taylor's I. C. C. Order 3, Amdt. 2]

ANN ARBOR RAILROAD CO., ET AL.

REROUTING OR DIVERSION OF TRAFFIC

Upon further consideration of Taylor's I. C. C. Order No. 3 and good cause appearing therefor: It is ordered, That:

Taylor's I. C. C. Order No. 3 be, and it is hereby, amended by substituting the following paragraph (g) for paragraph (g) thereof:

(g) *Expiration date.* This order shall expire at 11:59 p. m., September 30, 1952, unless otherwise modified, changed, suspended or annulled.

It is further ordered, That this amendment shall become effective at 11:59 p. m., August 31, 1952; and that this order shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads sub-

scribing to the car service and per diem agreement under the terms of that agreement, and by filing it with the Director, Division of the Federal Register.

Issued at Washington, D. C., August 26, 1952.

INTERSTATE COMMERCE COMMISSION,
CHARLES W. TAYLOR,
Agent.

[4th Sec. Application 27351]

CEMENT FROM POINTS IN KANSAS AND DEWEY, OKLA., TO PORT ORANGE, FLA.

APPLICATION FOR RELIEF

AUGUST 27, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: F. C. Kratzmeir, Agent, for carriers parties to his tariff I. C. C. No. 3844.

Commodities involved: Cement and related articles, carloads.

From: Chanute and other producing points in Kansas and Dewey, Okla.

To: Port Orange, Fla.

Grounds for relief: Rail competition, circuity, and to apply rates constructed on the basis of the short line distance formula.

Schedules filed containing proposed rates: F. C. Kratzmeir, Agent, I. C. C. No. 3844, Supp. 27.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission. Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing.
